CTS Services, LLC 401(k) Profit Sharing Plan

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 1: The Plan and its significant accounting policies:

The following description of CTS Services, LLC 401(k) Profit Sharing Plan (the Plan), formerly Chesapeake Systems and Affiliates 401(k) Profit Sharing Plan, provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all qualified employees of CTS Services, LLC, Telco P&C, LLC, and Facility Support Services, LLC (collectively, the Companies) who have at least three months of service, as defined in the Plan, and are 19 years of age or older. Effective January 1, 2014, a new plan was established for the qualified employees of Telco P&C, LLC (Telco). All Telco employees included in the Plan prior to January 1, 2014 and their balances totaling \$1,165,012 were transferred to Telco's plan in March 2014. The Plan terminated in May 2015 and all Plan assets were distributed out of the Plan on July 2, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to guaranteed investment accounts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the guaranteed interest accounts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for guaranteed interest accounts.

Administration - Under the terms of the Plan, designated officers of the Companies act as trustees. The Companies have contracted with John Hancock Life Insurance Company (USA) (Hancock) to act as recordkeeper and custodian. The Plan's administrative expenses, which consist of flat loan charges and third party administrator transaction fees, are paid by either the Plan or the Companies as provided by the Plan document.

Investment valuation and income recognition - Investments of the Plan are held by John Hancock. Funds held by John Hancock are invested in guaranteed accounts and pooled separate accounts based upon instructions received from participants. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Note 1: The Plan and its significant accounting policies: (continued)

Investment valuation and income recognition (continued) - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invested in a John Hancock guaranteed interest account through an outside investment (Note 4). This investment is included in the financial statements at contract value. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value at maturity.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 13, 2015 or December 31, 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. The Plan administrator believes all notes receivable from participants are collectible.

Payment of benefits - Benefits are recorded when paid.

Income taxes - The Plan has not applied for or received a favorable determination letter because it is using a prototype plan approved by the Internal Revenue Service. However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 13, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 1: The Plan and its significant accounting policies: (continued)

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. There were no such changes subsequent to July 13, 2015 as the Plan was terminated.

Note 2: Participation and benefits:

Participant contributions - Participants may elect to have the Companies contribute a percentage of their eligible pre-tax compensation up to the amount allowable under current income tax regulations. Participants who elect to have the Companies contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Effective January 1, 2013, participants may also elect to make Roth elective deferrals. Roth elective deferrals are made after taxes have been withheld. Participants may contribute a combination of pre-tax deferrals and Roth elective deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - Each year, the Companies make a discretionary matching contribution of 50% of the first 6% of compensation deferred. The Companies made matching contributions of \$115,724 and \$216,208 for the period ended July 13, 2015 and year ended December 31, 2014, respectively. The Companies may also make a discretionary profit sharing contribution to the Plan to participants employed on the last day of the Plan year. No discretionary profit sharing contributions were made for the period ended July 13, 2015 and year ended December 31, 2014.

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 2: Participation and benefits: (continued)

Participant accounts - Each participant's account is credited with the participant's contributions, Plan earnings or losses, administrative expenses and an allocation of the Companies' contribution, if any. Allocation of the Companies' matching contributions is based on participant contributions. Allocation of the Companies' discretionary profit sharing contribution is based on participants' compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their salary deferral, rollover contributions, and related earnings. For employees hired prior to January 1, 2013, the portion of a participant's account attributed to the Companies' discretionary matching and additional discretionary profit sharing contributions is 100% vested upon entrance into the Plan. Effective January 1, 2013, participants hired after January 1, 2013 vest ratably and are fully vested in the Companies' discretionary matching and additional discretionary profit sharing contributions after 3 years of credited service. Upon the date of Plan termination in May 2015, all participants became fully vested in their accounts.

Payment of benefits - Upon termination of employment, retirement, disability, or death, a participant may elect to receive a lump sum amount equal to the value of his or her vested account. Benefits are also available to participants for hardship situations as defined in the Plan.

Notes receivable from participants - The Plan allows participants to borrow a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the participant's vested account balance and bear interest at the available market financing rates. The loans must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a primary residence. The specific terms and conditions of such loans are established by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Note 3: Certified information: (continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. In addition, the information in the Form 5500 Supplemental Attachment to Schedule H has been certified by Hancock as of July 13, 2015.

Note 4: Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at July 13, 2015 and December 31, 2014.

Pooled separate accounts - valued at the net asset value (NAV) of shares held by the Plan at year end.

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 5: Excess contributions payable:

At July 13, 2015 and December 31, 2014, liabilities of \$-0- and \$6,351, respectively, were recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

Note 6: Related party transactions:

Certain Plan investments are pooled separate accounts managed by Hancock. Hancock is the custodian, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Note 7: Reconciliation of financial statements to Schedule H of Form 5500:

The differences between the information reported in the financial statements and the information reported in the Form 5500 are due to a timing difference related to the financial statements including a liability for excess contributions payable and classification differences in investment income.

Note 8: Plan termination and/or modification:

On May 1, 2015, the assets of CTS Services, LLC (CTS) and Facility Support Services, LLC were purchased by a non-related company resulting in the Plan being terminated effective May 15, 2015. Upon the date of termination, all participants became fully vested in their accounts. All participants' balances were either distributed to the respective participants per their instructions or transferred to an individual retirement account set up by CTS on July 2, 2015.

Note 9: Subsequent events:

Subsequent events have been evaluated through May 10, 2016, which is the date the financial statements were available to be issued.

CTS Services, LLC 401(k) Profit Sharing Plan

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 1: The Plan and its significant accounting policies:

The following description of CTS Services, LLC 401(k) Profit Sharing Plan (the Plan), formerly Chesapeake Systems and Affiliates 401(k) Profit Sharing Plan, provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan is a defined contribution plan covering all qualified employees of CTS Services, LLC, Telco P&C, LLC, and Facility Support Services, LLC (collectively, the Companies) who have at least three months of service, as defined in the Plan, and are 19 years of age or older. Effective January 1, 2014, a new plan was established for the qualified employees of Telco P&C, LLC (Telco). All Telco employees included in the Plan prior to January 1, 2014 and their balances totaling \$1,165,012 were transferred to Telco's plan in March 2014. The Plan terminated in May 2015 and all Plan assets were distributed out of the Plan on July 2, 2015. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Basis of accounting - The accompanying financial statements are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to guaranteed investment accounts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the guaranteed interest accounts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for guaranteed interest accounts.

Administration - Under the terms of the Plan, designated officers of the Companies act as trustees. The Companies have contracted with John Hancock Life Insurance Company (USA) (Hancock) to act as recordkeeper and custodian. The Plan's administrative expenses, which consist of flat loan charges and third party administrator transaction fees, are paid by either the Plan or the Companies as provided by the Plan document.

Investment valuation and income recognition - Investments of the Plan are held by John Hancock. Funds held by John Hancock are invested in guaranteed accounts and pooled separate accounts based upon instructions received from participants. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

See Independent Auditor's Report

CTS Services, LLC 401(k) Profit Sharing Plan

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 1: The Plan and its significant accounting policies: (continued)

Investment valuation and income recognition (continued) - Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invested in a John Hancock guaranteed interest account through an outside investment (Note 4). This investment is included in the financial statements at contract value. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value at maturity.

Notes receivable from participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of July 13, 2015 or December 31, 2014. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. The Plan administrator believes all notes receivable from participants are collectible.

Payment of benefits - Benefits are recorded when paid.

Income taxes - The Plan has not applied for or received a favorable determination letter because it is using a prototype plan approved by the Internal Revenue Service. However, the Plan administrator believes that the Plan is currently designed and operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of July 13, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 1: The Plan and its significant accounting policies: (continued)

Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. There were no such changes subsequent to July 13, 2015 as the Plan was terminated.

Note 2: Participation and benefits:

Participant contributions - Participants may elect to have the Companies contribute a percentage of their eligible pre-tax compensation up to the amount allowable under current income tax regulations. Participants who elect to have the Companies contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Effective January 1, 2013, participants may also elect to make Roth elective deferrals. Roth elective deferrals are made after taxes have been withheld. Participants may contribute a combination of pre-tax deferrals and Roth elective deferrals. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - Each year, the Companies make a discretionary matching contribution of 50% of the first 6% of compensation deferred. The Companies made matching contributions of \$115,724 and \$216,208 for the period ended July 13, 2015 and year ended December 31, 2014, respectively. The Companies may also make a discretionary profit sharing contribution to the Plan to participants employed on the last day of the Plan year. No discretionary profit sharing contributions were made for the period ended July 13, 2015 and year ended December 31, 2014.

See Independent Auditor's Report

CTS Services, LLC 401(k) Profit Sharing Plan

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 2: Participation and benefits: (continued)

Participant accounts - Each participant's account is credited with the participant's contributions, Plan earnings or losses, administrative expenses and an allocation of the Companies' contribution, if any. Allocation of the Companies' matching contributions is based on participant contributions. Allocation of the Companies' discretionary profit sharing contribution is based on participants' compensation. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their salary deferral, rollover contributions, and related earnings. For employees hired prior to January 1, 2013, the portion of a participant's account attributed to the Companies' discretionary matching and additional discretionary profit sharing contributions is 100% vested upon entrance into the Plan. Effective January 1, 2013, participants hired after January 1, 2013 vest ratably and are fully vested in the Companies' discretionary matching and additional discretionary profit sharing contributions after 3 years of credited service. Upon the date of Plan termination in May 2015, all participants became fully vested in their accounts.

Payment of benefits - Upon termination of employment, retirement, disability, or death, a participant may elect to receive a lump sum amount equal to the value of his or her vested account. Benefits are also available to participants for hardship situations as defined in the Plan.

Notes receivable from participants - The Plan allows participants to borrow a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the participant's vested account balance and bear interest at the available market financing rates. The loans must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a primary residence. The specific terms and conditions of such loans are established by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Notes to Financial Statements

Note 3: Certified information: (continued)

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule. In addition, the information in the Form 5500 Supplemental Attachment to Schedule H has been certified by Hancock as of July 13, 2015.

Note 4: Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at July 13, 2015 and December 31, 2014.

Pooled separate accounts - valued at the net asset value (NAV) of shares held by the Plan at year end.

Notes to Financial Statements

July 13, 2015 and December 31, 2014

Note 5: Excess contributions payable:

At July 13, 2015 and December 31, 2014, liabilities of \$-0- and \$6,351, respectively, were recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

Note 6: Related party transactions:

Certain Plan investments are pooled separate accounts managed by Hancock. Hancock is the custodian, and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment.

Note 7: Reconciliation of financial statements to Schedule H of Form 5500:

The differences between the information reported in the financial statements and the information reported in the Form 5500 are due to a timing difference related to the financial statements including a liability for excess contributions payable and classification differences in investment income.

Note 8: Plan termination and/or modification:

On May 1, 2015, the assets of CTS Services, LLC (CTS) and Facility Support Services, LLC were purchased by a non-related company resulting in the Plan being terminated effective May 15, 2015. Upon the date of termination, all participants became fully vested in their accounts. All participants' balances were either distributed to the respective participants per their instructions or transferred to an individual retirement account set up by CTS on July 2, 2015.

Note 9: Subsequent events:

Subsequent events have been evaluated through May 10, 2016, which is the date the financial statements were available to be issued.
