NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description and Significant Accounting Policies

The following description of the User Technology Associates, Inc. 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was adopted effective as of August 1, 1988, was a defined contribution pension plan under Section 401(k) of the Internal Revenue Code which covered substantially all employees of User Technology Associates, Inc. (the Employer). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). BAE Systems Information Technology, Inc. was the Plan Sponsor. The BAE Systems Administrative Committee was responsible for oversight of the Plan. The BAE Systems Administrative Committee determined the appropriateness of the Plan's investment offerings and monitored investment performance.

On May 19, 2014, the BAE Systems Administrative Committee, the Plan's governing body, approved the merger of the Plan into the BAE Systems Employees' Savings and Investment Plan (BAE Plan).

On July 23, 2015, the investments of the Plan were liquidated in preparation of the merger into the BAE Plan. Total Plan assets of \$9,396,700 were transferred to the BAE Plan on July 23, 2015.

Contributions

Participants directed the investment of their contributions into various investment options offered by the Plan. Participants could change their allocations on a daily basis. The Plan had no contributions during the period ended July 23, 2015.

Participant accounts

Each participant's account was credited with the participant's contribution and an allocation of the Employer's contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description and Significant Accounting Policies (continued)

Notes receivable from participants

Participants could borrow up to 50% of their vested account balance. The total of all loans for each participant could not exceed \$50,000. The loans were secured by the balance in the participant's account and bear interest at reasonable rates established at the time of the loan, as defined by the Plan. There were no notes receivable from participants as of July 23, 2015 or December 31, 2014.

Vesting

All participants were 100% vested.

Forfeited accounts

At July 23, 2015 and December 31, 2014, forfeited non-vested accounts totaled \$0 and \$244, respectively. Forfeited non-vested accounts were used to pay plan administrative expenses. During the year ended July 23, 2015, \$255 of forfeited non-vested accounts were used for administrative expenses.

Payment of benefits

Effective March 31, 2004, all participants or beneficiaries became eligible to receive a lump-sum cash payment equal to the value of the participant's vested interest in his or her account.

A summary of the Plan's significant accounting policies are as follows:

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through a common collective trust. Contract value for this common collective trust is based on the net asset value of the fund as reported by the investment advisor.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description and Significant Accounting Policies (continued)

Basis of accounting (continued)

The Statements of Net Assets Available for Benefits present the fair value of the investment in the common collective trust as well as the adjustment of the investment in the common collective trust from fair value to contract value relating to the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for the common collective trust investing in investment contracts.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Sponsor's Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and trust company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans were reclassified as distributions based upon the terms of the Plan document.

Payment of benefits

Benefit payments to participants were recorded when paid.

Expenses

Certain expenses of maintaining the Plan were paid directly by the Plan Sponsor (BAE Systems Information Technology, Inc.) and were excluded from these financial statements. Certain fees related to services provided by the third party administrator for the Plan were included in administrative expenses. Certain investment related expenses were offset against net appreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description and Significant Accounting Policies (continued)

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent accounting pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (a consensus of the FASB Emerging Issues Task Force). The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management has determined that this update has no impact on the Plan's financial statements.

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient* (a consensus of the FASB Emerging Issues Task Force). The purpose of this update is to simplify plan accounting.

The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 1. Plan Description and Significant Accounting Policies (continued)

Recent accounting pronouncements (continued)

The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management has determined that this update has no impact on the Plan's financial statements.

Subsequent events

The Plan has evaluated subsequent events through May 12, 2016, the date the financial statements were available to be issued.

Note 2. Plan Termination

The Plan Sponsor intended to terminate the Plan effective March 31, 2004 and filed the applicable Form 5310 (Application for Determination for Terminating Plan) in 2006. The Plan received a final and favorable IRS determination letter dated August 25, 2006. As of the date of intended termination, all participants were 100% vested in their accrued benefits under the Plan.

However, during 2014, upon consultation with the Plan's ERISA counsel, the Plan Sponsor determined that the Plan had not been fully terminated due to the passage of time without complete distribution of Plan assets. Additionally, since the date of intended

NOTES TO FINANCIAL STATEMENTS

termination, the Plan has been operating in compliance with applicable sections of the Internal Revenue Code (IRC). Therefore, it was determined that a plan termination did not occur.

On May 19, 2014, the BAE Systems Administrative Committee, the Plan's governing body, approved the merger of the Plan into the BAE Systems Employees' Savings and Investment Plan (BAE Plan). The Plan gave twelve (12) months' notice to T. Rowe Price Trust Company on July 17, 2014 as required by the Declaration of Trust for the Stable Value Common Trust Fund.

On July 23, 2015, the investments of the Plan were liquidated in preparation of the merger into the BAE Plan. Total Plan assets of \$9,396,700 were transferred to the BAE Plan on July 23, 2015.

Note 3. Information Certified by the Plan's Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by T. Rowe Price Trust Company, the trustee of the Plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

The following table presents the assets in this Plan that were certified by T. Rowe Price Trust Company. Investments representing five percent (5%) or more of the Plan's net assets available for benefits as of July 23, 2015 and December 31, 2014 are shown separately:

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTES TO FINANCIAL STATEMENTS

Note 4. Fair Value Measurements (continued)

Level 2

Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at July 23, 2015 and December 31, 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan were open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan were deemed to be actively traded.

Common Collective Trust: Valued at the NAV of units of the common collective trust. The NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient was not used when it was determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the common collective trust, the Plan was required to provide more than 12 months prior written notice to the investment adviser of the trust in order to ensure that securities liquidations would be carried out in an orderly business manner.

Note 5. Tax Status

During 2010, with an effective date of January 1, 2002, the Plan was amended and restated by adopting a Prototype Defined Contribution Retirement Plan sponsored by AccuDraft.com, Inc. which had previously received a favorable opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008, stating that the Prototype Plan is designed in accordance with applicable sections of the Internal Revenue Code. The Plan Administrator believes that the Plan was designed and operated in compliance with the applicable requirements of the Internal Revenue Code through the merger date.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 7. Related Party Transactions

Certain Plan investments were managed by T. Rowe Price Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions for which a statutory exemption applies.

T. Rowe Price Retirement Plan Services, Inc. was the third party administrator of the Plan. During the period ended July 23, 2015, the Plan paid indirect expenses for administrative fees to the third party administrator and, therefore, these transactions qualify as party-in-interest transactions.

Note 8. Risks and Uncertainties

Due to the transfer of the Plan's net assets, including its investment securities, to the BAE Systems Employees' Savings and Investment Plan (BAE Plan) in connection with the merger of the Plan, risks associated with holding investment securities, including interest rate, market, and credit risks were transferred to the BAE Plan and the related participant accounts at that date.

NOTES TO FINANCIAL STATEMENTS

Note 9. Previously Forfeited Amounts Due to Participants

For the years ended December 31, 1997 through 2003 the Plan improperly calculated vesting for several participants. In November 2004, the Company filed under the Voluntary Fiduciary Correction Program (VFCP) to correct the prior years' vesting errors. In a letter dated, November 16, 2005, the Internal Revenue Service issued a compliance statement approving the Plan's proposed correction procedures.

As a result, the Company paid \$179,382 to the Plan in May 2006 to re-instate the improperly forfeited amounts plus related lost earnings. The Plan Sponsor is in the process of locating the participants to pay out the previously forfeited amounts. The total was recorded as a liability on the Form 5500 in the amount of \$123,386 as of December 31, 2014. With the Plan's merger on July 23, 2015, the Form 5500 liability was effectively transferred to the BAE Plan.
