INDEPENDENT AUDITORS' REPORT

To the Plan Administrator of the

ESCO TECHNOLOGIES INC. RETIREMENT PLAN:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the ESCO Technologies Inc. Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of September 30, 2014, the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Commerce Bank, N.A., the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of September 30, 2015 and 2014 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets (held at end of year) as of September 30, 2015 and reportable transactions for the year ended September 30, 2015, are required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

ESCO TECHNOLOGIES INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the ESCO Technologies Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document or Summary Plan Description for a more complete description of the Plan's provisions, which are available from the plan administrator.

General – The Plan was adopted effective October 1, 1990 and is a defined benefit noncontributory pension plan. The Plan is sponsored by ESCO Technologies Inc. (the Company) covering certain employees at Aclara Technologies LLC; Comtrak Technologies, L.L.C.; Doble Engineering Company; ETS-Lindgren Inc.; PTI Advanced Filtration Inc.; PTI Technologies Inc.; Rantec Power Systems Inc.; VACCO Industries; and employees at the corporate headquarters of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Commerce Bank, N.A. (Commerce) serves as the trustee of the Plan.

The Plan is administered by the Company's Human Resources and Compensation Committee (Committee). The Committee has overall responsibility for the operation and administration of the Plan. In addition, the Company's Audit and Finance Committee determines the appropriateness of the Plan's investment policy, monitors investment performance and reports to the Company's Board of Directors.

Funding policy – The Company's funding policy is to contribute an amount equal to the minimum required contribution under ERISA. The Company may increase its contribution above the minimum if appropriate based on its tax and cash position and the Plan's funded position. The required minimum contributions for the years ended September 30, 2015 and 2014 were \$0 and \$2,505,182, respectively. The Company made contributions of \$0 and \$2,510,000 for the years ended September 30, 2015 and 2014, respectively.

Vesting – The Plan provides for participants to become fully vested in their benefits after five years of vesting service.

Retirement benefits – The Plan was amended to freeze benefit accruals (for both pay and pension credited service) at December 31, 2008 for Doble Engineering Company participants and December 31, 2003 for all other subsidiaries.

Under terms of the Plan, participants are eligible for monthly benefit payments upon reaching the normal retirement age. Monthly benefit payments are determined by application of a benefit formula times the participant's years of pension credited service. The Plan contains provisions for early retirement, postponed retirement, death and automatic survivor benefits.

ESCO TECHNOLOGIES INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan (continued)

Terminated participants may elect, after attaining the age required by the Plan, with ten years of vesting service, to begin receiving the benefits provided under the terms of the Plan based on the participants' pension credited service.

The Plan was amended, effective April 6, 2015, to offer a lump sum distribution window to certain eligible terminated participants.

Death and disability benefits – If a participant dies after becoming vested, the participant's surviving spouse shall be paid an annuity for the life of the surviving spouse equal to 50% of the participant's retirement commencing at the date the participant would have become eligible for retirement benefit had the participant lived.

Active employees who become totally disabled receive monthly disability benefits as described in the Plan document. Disability benefits are paid until normal retirement age at which time disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age.

(2) Summary of significant accounting policies

Basis of accounting – The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussions of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits – Benefits are recorded when paid.

Administrative expenses – Administrative expenses are generally paid directly from Plan assets.

Actuarial present value of accumulated plan benefits – Accumulated plan benefits are those future payments, including lump-sum distributions, which are attributable under the Plan's provisions to the service, which employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants with vested rights or their beneficiaries, (b)

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

beneficiaries of vested participants who have died, and (c) present employees or their beneficiaries based upon service rendered to the valuation date.

The actuarial present value of accumulated plan benefits was determined by the Plan's consulting actuaries and is that amount which results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, and withdrawal, or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits is presented based on a beginning-of-year benefit information date.

The significant actuarial assumptions used in the valuation as of September 30, 2014 are as follows:

Mortality:	RP-2000 "Employees" Table
Average retirement age:	63
Discount rate:	4.25%
Rate of return on assets:	6.75%
Salary increase rate:	Due to benefit freeze, the salary increase is no longer applicable

There were three key actuarial assumption changes from prior year in preparation of the September 30, 2014 valuation: the discount rate used to value pension obligations decreased from 4.75% to 4.25%; the expected long-term return on plan assets was decreased from 7% to 6.75%; and the mortality table was updated to reflect one additional year of projected mortality improvement. These changes have been reflected in the statement of changes in accumulated plan benefits as "changes in plan assumptions" for the year ended September 30, 2014.

The foregoing assumptions are based on the presumption that the Plan will continue. Actual results may differ from assumptions used. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

New accounting pronouncements – In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. In addition, the update limits disclosures to investments for which the entity elected to measure the fair value using the practical expedient rather

than all eligible investments. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Plan's management is currently evaluating the impact of ASU 2015-07 and does not expect the adoption of this ASU to have a material impact on the plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient." ASU 2015-12 has been issued in an effort to simplify the presentation and disclosure requirements related to the measurement of fully benefit-responsive investment contracts, to simplify the information disclosed regarding plan investments measured at fair value and to define the benefit plan measurements dates when such dates do not coincide with period end dates. The guidance is effective for fiscal years beginning after December 15, 2015 and early adoption is permitted. The guidance on Fully Benefit-Responsive Investment Contracts and Plan Investment Disclosures must be applied retrospectively. The Plan's management is currently evaluating the impact of ASU 2015-12 and does not expect the adoption of this ASU to have a material impact on the plan's financial statements.

NOTES TO FINANCIAL STATEMENTS

(3) **Investments (continued)**

During 2015 and 2014, the Plan's investments in common/collective trusts (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by (\$2,678,522) and \$6,606,429, respectively.

(4) **Information prepared and certified by the trustee**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Commerce, the trustee for the years ended September 30, 2015 and 2014, has certified the following data included in the accompanying financial statements and supplemental schedules is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest
- Schedule of assets (held at end of year)
- Schedule of reportable transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

(5) **Fair value measurements**

FASB Accounting Standards Codification (ASC 820), *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

ESCO TECHNOLOGIES INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

(5) Fair value measurements (continued)

The asset or liability's fair value measurement level within fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2015 and 2014.

Common/collective trusts: The Plan holds units of various Aon Hewitt Group Trust Funds (AHGT) offered through a private placement. The units are valued daily using the net asset value (NAV) as the practical expedient to estimating fair value. The NAVs are based on the fair value of each fund's underlying investments less any liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Fund transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of September 30, 2015 and 2014:

ESCO TECHNOLOGIES INC. RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

(5) **Fair value measurements (continued)**

* Fair value of the investments in the common/collective trust funds has been estimated using the NAV of the investment. The common/collective trusts listed in the above charts are redeemed on a daily basis and do not have any redemption restrictions. Additionally, there are no unfunded commitments.

(6) **Related party and party-in-interest transactions**

As described in Note 2, the Plan made direct payments to the trustee of \$107,049 and \$97,351, respectively, for the years ended September 30, 2015 and 2014, respectively.

Certain fees incurred by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment. In addition AHGT and related entities (Aon), received direct payments from the Plan for investment management services of \$145,721 and \$141,777 for the years ended September 30, 2015 and 2014, respectively. Aon provides investment management services to the Plan and therefore, these transactions qualify as exempt party-in-interest transactions under ERISA. The plan sponsor pays directly any other fees related to the Plan's operations.

(7) **Plan termination**

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC), a U.S. government agency, up to the applicable limitations discussed below.
3. Vested benefits not insured by the PBGC.
4. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early

NOTES TO FINANCIAL STATEMENTS

(7) **Plan termination (continued)**

retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

(8) **Risks and uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in risks in the near term would materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that change in these estimates and assumptions in the near term would be material to the financial statements.

Changes in the discount rate and investment returns can have a significant effect on the funded status of the Plan.

(9) **Tax status**

The Internal Revenue Service (IRS) has determined and informed the Company by letter dated November 21, 2011, that the Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not

NOTES TO FINANCIAL STATEMENTS

(9) **Tax status** (continued)

be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan could be subject to audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

(10) **Subsequent event**

The Plan has evaluated subsequent events through May 11, 2016, which is the date the financial statements were available to be issued.

To reflect all prior amendments, the Plan document was restated, effective October 1, 2015 under the 16th amendment. ESCO has applied for an updated determination letter. The IRS has sent a written acknowledgement for receipt, but no other correspondence.

In addition, the Committee passed a resolution in November 2015 to authorize another lump sum distribution window to certain eligible terminated participants during 2016.

SCHEDULE SB ATTACHMENTS

At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Funding policy	The company's funding policy is to contribute the minimum required contribution under ERISA. ESCO may increase its contribution above the minimum, if appropriate to its tax and cash position and the plan's funded status.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including contributions receivable.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with ESCO Technologies Inc. and, based on that review, is not aware of any significant benefits required to be valued that were not.
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of July 2013 to July 2014 and the segment interest rate corridors of HATFA were applied.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The assumption for plan-related expenses was changed from \$500,000 to \$900,000.</p>

Schedule SB, Line 25 Change in Method

The valuation software used to produce the actuarial information submitted on this schedule has been modified in minor ways (e.g., to change the methodology for counting days) as part of our harmonization of our valuation software systems, and such minor modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.
