The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2014, non-union employees are no longer contributing to the Plan. The non-union employees are eligible to participate in the retirement plan of the acquiring entity to which the Company was sold in June 2012. Eligible union employees continue to make contributions to the Plan.

On June 8, 2015, the Board of Directors of the Company approved the merger of the Plan into the Nordson Employees' Savings Trust Plan ("NEST Plan") and the Nordson Hourly-Rated Employees' Savings Trust Plan ("Hourly NEST Plan"). On July 28, 2015, the Board of Directors of the Company adopted a resolution to transfer the assets and liabilities of the Plan. The portion of the Plan related to non-union employees was transferred into the NEST Plan effective August 4, 2015. The portion of the Plan related to union employees was transferred into the Hourly Nest Plan effective August 4, 2015.

Contributions:

Each year, participants may contribute amounts up to a maximum of 100% of their compensation, as defined in the Plan according to each division, not to exceed the dollar limit set by law. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company may make a discretionary matching contribution to non-union employees. The Company matched 50% of employee deferrals up to 6% of compensation for 2015. The Company match for union employees depends on the collective bargaining unit agreement for each division. The Company may also make additional discretionary contributions to the Plan. The Company did not make a discretionary contribution in 2015. Participants direct the investment of their contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant accounts:

Each participant's account is credited with the participant's deferral and rollover contributions, the Company's matching and discretionary contributions, and an allocation of earnings and expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Plan Description (Continued)

Vesting:

Participants are immediately vested in their contributions plus earnings thereon. Vesting in the Company's matching and discretionary contribution portion of their accounts plus earnings thereon is based on years of continuous service. Feed Screws and Tanner divisions are immediately 100% vested in their total account. Other divisions vest on a graded schedule and are 100% vested after three years of credited service.

Notes from participants:

Participants may borrow from their account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, as defined by the Plan. Note terms range from one to five years unless the note is for purchase of a primary residence, in which case the term may exceed five years. Notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Committee, or, if such rates are not readily determinable, Prime plus 2%. The interest rate ranged from 3.25% - 5.25% as of December 31, 2014. Principal and interest are repaid through payroll deductions.

Payments of benefits:

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive a lump-sum distribution or annuity payments equal to the value of the participant's vested interest in his or her account.

Administrative costs:

Administrative expenses incurred by the Plan may be paid by either the Company or the Plan on a discretionary basis. Substantially all such expenses were paid by the Plan in 2015.

Subsequent events:

Subsequent events have been evaluated through June 8, 2016, the date the financial statements were available to be issued.

Note 2. Significant Accounting Policies

Basis of accounting:

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required by authoritative guidance, the statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 2. Significant Accounting Policies (Continued)

Notes from participants:

Notes from participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Benefit payments:

Benefit payments are recorded when paid.

Forfeitures:

Forfeited non-vested accounts can be used to reduce administrative expenses or employer contributions. During 2015, no forfeitures were used to reduce administrative expenses.

Note 3. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets; and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available.

Note 3. Fair Value Measurements (Continued)

	Fair Value Measurements at Reporting Date Using:		
	Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)
December 31, 2014			
Collective trust fund			
Stable value fund	$ 3,713,419	$ -	$ 3,713,419
Mutual funds			
Small/Mid U.S. equity	5,057,874	5,057,874	-
Large U.S. equity	4,492,637	4,492,637	-
Balanced/asset allocation	3,059,717	3,059,717	-
Fixed income	1,998,638	1,998,638	-
International equity	1,480,094	1,480,094	-
Other	531,662	531,662	-
Total	$ 20,334,041	$ 16,620,622	$ 3,713,419

Level 1 Fair Value Measurements

The fair values of mutual funds are based on quoted net asset values of the shares held by the Plan at year end.

Level 2 Fair Value Measurements

The fair value of the collective trust fund is based on quoted prices for similar assets in active and non-active markets, and on inputs that are observable either directly or indirectly (i.e. interest rate and yield curves observable at commonly quoted intervals, default rates, and other such variables for guaranteed investment contracts). Level 2 inputs may also include insignificant adjustments to market observable inputs.

The collective trust fund invests in market securities that have observable Level 1 and investment contracts with Level 2 pricing inputs. While underlying asset values are quoted prices, the net asset value (NAV) of a unit in these funds is not publicly quoted. Units can be issued and redeemed on any business day at the NAV. All earnings and losses are reflected in the computation of the NAV and are realized by the participant upon withdrawal. No distributions of income and gain or loss are made to participants.

Note 4. Investments

The following investments at December 31, 2014 represent 5% or more of the Plan's net assets:

Putnam Stable Value Fund	$	3,713,419
Vanguard Small Cap Index	$	2,191,343
Vanguard LifeStrategy Moderate Growth Fund	$	2,118,281
Vanguard 500 Index Fund Inv.	$	1,886,910
Dreyfus Research Growth Fund I	$	1,843,525
Vanguard LifeStrategy Growth Fund	$	1,693,938

Note 5. Investment Contracts

The Plan has investments in the Putnam Stable Value Fund. Included in this fund are certain guaranteed investment contracts and wrapper contracts. These contracts are considered to be benefit-responsive and are required to be stated at fair value with a corresponding adjustment on the statements of net assets available for benefits to contract value. The average yield for the fund was approximately 1.92% and 1.93% for 2015 and 2014, respectively. The yield earned by the fund with an adjustment to reflect the actual interest rate credited to participants as of August 31, 2015 and December 31, 2014 was 1.92% and 2.03%, respectively.

Note 6. Related-Party Transactions

Certain administrative functions are performed by officers or employees of the Company. These employees are also Plan participants. No such officer or employee receives compensation from the Plan.

Note 7. Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

Note 8. Tax Status

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated May 24, 2010, that the Plan is designed in accordance with applicable sections of the *Internal Revenue Code* (*IRC*). The Plan has been restated since receiving the letter. However, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the *IRC*.

Note 8. Tax Status (Continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of August 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The federal annual returns of the Plan are subject to examination by the Internal Revenue Service, generally for three years after they are filed.
