NOTE A - PLAN DESCRIPTION

The following description of the Fortune Plastics, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, which was established March 1, 1971 and frozen on August 1, 1999, was a noncontributory defined benefit plan covering employees who were employed by Fortune Plastics, Inc. (the Company). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). There were no new entrants after August 1, 1999, and benefit accruals were frozen as of this date. Prior to April 1, 2015 Fortune Plastics, Inc. was a wholly owned subsidiary of the Clondalkin Group, Inc. On April 1, 2015, the Clondalkin Group, Inc. sold the Company in its entirety to an unrelated party. As part of the sales transaction the Clondalkin Group, Inc. assumed all responsibility to fund and administer the Plan. As discussed in Note I, the Plan was terminated, all assets were liquidated and all obligations were fulfilled during the period ended August 31, 2015. As such the accompanying financial statements are prepared on the liquidation basis of accounting.

Plan Benefits

The actuarial calculation of benefits due to participants upon Plan termination was based on the following Plan provisions. These provisions were in effect at the date the determination was made to terminate the Plan.

The amount of monthly retirement benefit to be provided for each participant who retires on a normal retirement date (age 65) shall equal the greater of (a) or (b) below:

- a. 0.65 percent of average monthly compensation up to a participant's 1993 covered compensation plus 1.3 percent of average monthly compensation in excess of 1993 covered compensation multiplied by the participant's years of participation (up to 35 years) less any benefits accrued under the Company's hourly pension plan from June 30, 1989 through June 29, 1990.
- b. The benefits accrued under this Plan as of June 30, 1989 plus .65 percent of average monthly compensation up to a participant's 1994 covered compensation, plus 1.3 percent of average monthly compensation in excess of 1994 covered compensation multiplied by the participant's years of participation commencing June 30, 1989, (up to 35 years) less any benefits accrued under the Company's hourly pension plan from June 30, 1989 through June 29, 1990.

FORTUNE PLASTICS, INC. RETIREMENT PLAN

Notes to Financial Statements

August 31, 2015 and December 31, 2014

After five years of service, each employee is entitled to 100 percent of their accrued benefit. All participants are 100 percent vested. The benefit is payable at the normal retirement date. If employees terminate before rendering 5 years of service, they forfeit the right to receive their accumulated Plan benefits. The Plan permits early retirement at age 55 after completing 10 years of service. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity, life annuity, lump-sum distribution, the purchase of an annuity, or they may elect to receive monthly, quarterly, semiannual or annual installments. If, at the date of a participant's termination of employment, the actuarial equivalent of the participant's entire non-forfeitable benefit is less than \$1,000, a cash settlement in an amount equal to such actuarial equivalent will be paid to the participant.

Funding policy

The Clondalkin Group, Inc. funded the Plan for any amounts needed to liquidate the Plan in order for all participants to receive full payment of their actuarially determined accrued benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

As a result of the termination of the Plan during the period ended August 31, 2015, the accompanying financial statements are prepared on the liquidation basis of accounting.

Liquidation Basis of Accounting

The Plan's financial statements are presented on the liquidation basis of accounting. As such assets have been recorded, measured and presented at the amounts of cash proceeds that the Plan expects, as of the date of the financial statements, to receive from their liquidation. In addition, the Plan has accrued certain liabilities in the financial statements which represent estimated expenses that will likely be incurred as a result of termination of the Plan. These assets and liabilities may not have been recorded under the accrual basis of accounting.

FORTUNE PLASTICS, INC. RETIREMENT PLAN

Notes to Financial Statements

August 31, 2015 and December 31, 2014

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes capital gain distributions and the Plan's gains and losses on investments bought and sold during the year.

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Under the liquidation method of accounting, investment contracts are reported at fair value.

The actuarial present value of the accumulated plan benefits are reported based on certain assumptions which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. Benefits payable under the circumstances of retirement, death, disability, and termination of employment are included to the extent they are deemed attributable to creditable, employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits and changes therein is determined by an independent actuary from Pension and Benefits Associates, Inc. The amounts determined as of August 31, 2015 and December 31, 2014 and for the period ended August 31, 2015 was determined under the assumption that the Plan would be terminated and all assets liquidated during 2015. Utilizing this assumption increased the actuarial present value of accumulated plan benefits due to the required use of lower discount rates as required by the Internal Revenue Service for lump sum payouts of participant interests in the Plan due to Plan termination.

FORTUNE PLASTICS, INC. RETIREMENT PLAN

Notes to Financial Statements

August 31, 2015 and December 31, 2014

The actuarial present value of accumulated plan benefits as of August 31, 2015 and December 31, 2014 was calculated on the liquidation basis of accounting. As such, the amount reported equals the required distributions made to participants during 2015 in order to terminate the Plan. As of August 31, 2015, all participants had received their final payouts either by lump sum payments or the purchase of an annuity contract.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets in liquidation available for benefits and the actuarial present value of accumulated plan benefits in liquidation as of the date of the financial statements. Actual results could differ from those estimates.

Administrative Expenses

Administrative expenses include trustee, actuarial and investment manager fees, as well as Pension Benefit Guarantee Corporation (PBGC) premiums. Administrative expenses are paid by the Plan, unless paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events (events occurring after August 31, 2015) through June 14, 2016, the date the financial statements were available to be issued.

FORTUNE PLASTICS, INC. RETIREMENT PLAN

Notes to Financial Statements

August 31, 2015 and December 31, 2014

Income Taxes

GAAP requires Plan management to evaluate tax positions taken by the Plan, and to recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that requires adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. With few exceptions, the Plan is no longer subject to income tax examinations by the US federal, state, or local tax authorities for years before 2012.

NOTE C - INFORMATION CERTIFIED BY MASSMUTUAL (TRUSTEE)

The following is a summary of the Plan's asset information as of August 31, 2015 and December 31, 2014, and for the period ended August 31, 2015, included in the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee relating to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	August 31, 2015	December 31, 2014
Guaranteed Investment Contract	\$ -	\$ 1,047,893
Pooled Separate Accounts	-	1,222,384
	<u>\$ -</u>	<u>\$ 2,270,277</u>

All information included in the accompanying supplemental schedule.

NOTE D - FAIR VALUE MEASUREMENTS

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or by other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value of measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used attempt to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of August 31, 2015 and December 31, 2014.

Guaranteed Investment Contract – Invested in a fixed annuity contract that is fully guaranteed and valued at fair value by MassMutual.

Pooled Separate Accounts – Valued at Net Asset Value (NAV) per unit based on quoted market prices of underlying investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

August 31, 2015 and December 31, 2014

To assess the approximate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. During the period ended August 31, 2015 there were no transfers into or out of Levels 1, 2, or 3.

The tables below set forth a summary of changes in the fair value of the Plan's Level 3 assets for the period ended August 31, 2015.

Notes to Financial Statements
August 31, 2015 and December 31, 2014

NOTE F - GUARANTEED INVESTMENT CONTRACT

The Plan entered into a benefit-responsive guaranteed investment contract with MassMutual. MassMutual maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The average yields of the guaranteed investment contract for the period ended August 31, 2015 is as follows:

<u>Average Yields:</u>	<u>2015</u>
Based on actual earnings	3.4%
Based on interest rate and credited to participants	3.4%

NOTE G - RELATED PARTY TRANSACTIONS

MassMutual is the trustee of the Plan, therefore, transactions with the trustee qualify as party in-interest transactions. In addition, the Plan Sponsor paid certain administrative expenses of the Plan.

NOTE H - INCOME TAX STATUS

The Plan received a determination letter from the Internal Revenue Service dated April 14, 2015, stating that the termination of the Plan, as designed, does not adversely affect the Plan's tax-exempt qualification under the applicable sections of the Internal Revenue Code (IRC).

FORTUNE PLASTICS, INC. RETIREMENT PLAN

Notes to Financial Statements

August 31, 2015 and December 31, 2014

NOTE I - PLAN TERMINATION

On March 19, 2014, the Company's Board of Directors took action to terminate the Plan. The Pension Benefit Guaranty Corporation (PBGC) has been established with the United States Department of Labor by ERISA to insure that participants and beneficiaries covered do not incur a loss of benefits arising from a termination of the Plan. Upon termination, the PBGC will allocate accrued benefits in the following order:

- a) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of the annuity under the Plan. The priority amount is limited to the lowest benefits that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding plan termination.
- b) Other vested benefits insured by the PBGC up to the applicable limitations.
- c) All other vested benefits (that is, vested benefits not insured by the PBGC).
- d) All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC upon Plan termination. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Participants do not have any recourse towards satisfaction of their benefits from other than Plan assets or the PBGC. Whether all participants receive their benefits upon Plan termination at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

In accordance with ASC 205-30, *Presentation of Financial Statements – Liquidation Basis of Accounting*, the Plan's financial statements are presented on the liquidation basis of accounting.

During the period ended August 31, 2015 all assets of the Plan were liquidated and all remaining obligations to participants were fulfilled.
