Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2012 Plan Year

2013 Plan Year

Lesser of 7.50% and the 3rd Segment rate. Actual rate of 7.50%.

Lesser of 7.60% and the 3rd Segment rate. Actual rate of 7.16%.

Trust Expenses Included in Target Normal Cost

The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2014, this amount is \$175,000.

Actuarial Method

Standard unit credit cost method.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Expected Return on Assets

2012 Plan Year

2013 Plan Year

Lesser of 7.50% and the 3rd Segment rate. Actual rate of 7.50%.

Lesser of 7.60% and the 3rd Segment rate. Actual rate of 7.16%.

Trust Expenses Included in Target Normal Cost

The Target Normal Cost includes estimated administrative expenses (based on the prior years' actual amounts) plus the estimated PBGC premiums for the current year. For 2014, this amount is \$175,000.

Actuarial Method

Standard unit credit cost method.

Valuation Date

September 1, 2014.

Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Denver Newspaper Mailers' Union Employees' Pension Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a collectively bargained, single-employer, defined benefit pension plan established on September 1, 1959, under an agreement, as amended, which is presently between the Denver Post, LLC (the "Company") and the Denver Newspaper Mailers' Union, to provide pension, disability, retirement, and death benefits to eligible employees with qualifying years of credited service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Company has elected committees that administer the Plan. Prudential Retirement Insurance and Annuity Company, ("Prudential") serves as trustee, manages the Plan's pooled separate account assets, and maintains the Plan's records.

The mutual fund is managed by a third-party investment management firm.

The hedge funds are managed by an owner of the Company and a third-party investment management firm.

This Plan was soft frozen effective January 1, 2008. As a result of the freeze, new hires are not eligible to participate, but current participants will continue to earn credit for benefit accrual.

Funding Policy

The Plan has met minimum funding requirements of ERISA for the Plan years ended August 31, 2015 and 2014.

The funding target attainment percentage is obtained by dividing the Plan's net plan assets by the plan liabilities on the valuation date. The funding target attainment percentage was 92.49% at September 1, 2014 and 89.33% at September 1, 2013.

Contributions to the Plan are based on actuarial determinations provided by the Plan's actuary. All contributions made by the Company are in cash in amounts adequate to meet the minimum funding requirements of ERISA. Contributions of \$200,000 and \$1,000,000 were made to the Plan for the years ended August 31, 2015 and 2014, respectively.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits

A participant who has completed five years of vesting service or who has attained the age 62 while employed is fully vested and is entitled to receive benefits upon retirement based upon length of employment, as provided by the Plan. Participants earn one year of vesting service for each Plan year in which the participant is credited with 100 or more Shifts plus Shift Equivalents. Partial credit is earned for participants with fewer than 100 Shifts plus Shift Equivalents during a Plan year. A participant who terminates employment after achieving vested status is entitled to a deferred vested benefit. Payments of the deferred vested benefit begin at the participant's normal retirement date and consist of all benefits accrued prior to termination. If a vested participant chooses, the participant may receive his or her deferred vested benefit in a reduced amount commencing on or after age 55.

The normal retirement date is the first day of the month coinciding with or following the participant's 62nd birthday. A vested participant may terminate employment and commence receiving a reduced benefit on the first day of any month on or after age 55. The pension formula for the benefit payable at normal retirement date (in the form of a life annuity) is equal to a dollar amount dependent upon the participant's termination date, as described more fully in the following paragraphs, multiplied by the number of years of Benefit Service.

During 2000, the Plan was amended to provide for varying pension benefit formula dollar amounts based on employment termination dates. For participants terminated on or after September 1, 2000, the amount is \$26 times years of Benefit Service before September 1, 1978 plus \$46 times years of Benefit Service after August 31, 1978; for participants terminated on or after September 1, 1997 but prior to September 1, 2000, the amount is \$19.50 times years of Benefit Service before September 1, 1978 plus \$39 times years of Benefit Service after August 31, 1978; for participants terminated on or after September 1, 1995 but prior to September 1, 1997, the amount is \$18.50 times years of Benefit service before September 1, 1978 plus \$37 times years of Benefit Service after August 31, 1978; for participants terminated on or after September 1, 1991 but prior to September 1, 1995, the amount is \$17.50 times years of Benefit Service before September 1, 1978 plus \$35 times years of Benefit Service after August 31, 1978; for employees terminated on or after September 1, 1987 but prior to September 1, 1991, the amount is \$17.50 times years of Benefit Service before September 1, 1978 plus \$25 times years of Benefit Service after August 31, 1978; for participants terminated on or after September 1, 1985 but prior to September 1, 1987, the amount is \$15 times years of Benefit Service before September 1, 1978 plus \$20 times years of Benefit Service after August 31, 1978; and for participants terminated prior to September 1, 1985, the amount is \$13 times years of Benefit Service before September 1, 1978 plus \$20 times years of Benefit Service after August 31, 1978. Participants may elect one of several different methods of benefit payment available under the Plan. Some elections require spousal consent.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting and Payment of Benefits (continued)

A married vested participant is eligible for the Pre-Retirement Surviving Spouse's Annuity Option, under which there is a monthly death benefit payable to the participant's spouse for the life equal to half of the participant's benefit as if the participant had retired under the 50% Joint and Survivor Annuity and terminated on the day preceding the participant's death. This benefit is payable to the surviving spouse beginning on the participant's earliest possible early retirement date following the death of the employee.

The spouse of a participant who dies while employed and after completing five years of vesting service, or after terminating with normal, early, late, deferred, or disability retirement benefits but before the participant's annuity starting date, as defined in the Plan document, is entitled to a death benefit. The death benefit is payable in the form of a qualified joint and 50% survivor annuity. However, if the spouse is more than five years younger than the participant, the amount of the benefit is reduced because of the difference in age. The death benefit becomes payable no earlier than the date the participant would have been eligible to receive benefits.

If the participant is unmarried at the time of death, the designated beneficiary will receive a death benefit in an amount equal to \$100 times the number of years of Credited Future Service, up to a maximum of 40 years.

Benefit payments to participants are recorded when paid.

Plan Termination

Although it has not expressed any intent to do so, the Company has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, assets would be set aside first for the payment of benefits to retirees and then for all other participants. The Pension Benefit Guaranty Corporation guarantees the payment of all non-forfeitable (vested) benefits subject to certain limitations prescribed by ERISA.

Valuation of Investments and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. The most significant of these estimates relates to the determination of the accumulated Plan benefits and the Plan's funded status. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available for issuance. There were no material subsequent events that required recognition or disclosure in the financial statements.

Recent Accounting Pronouncements

In May 2015, the FASB issued ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments apply to reporting entities that elect to measure the fair value of an investment using the net asset value ("NAV") per share (or its equivalent) practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The amendments are effective for all plan years beginning after December 31, 2015. Earlier application of any or all of the three parts is permitted. Entities should apply the amendments in this update retrospectively to all periods presented. As the Plan measures certain assets using the NAV practical expedient, upon adoption of ASU No. 2015-07, the fair value of these plan assets will be removed from the fair value hierarchy in all periods presented in the Plan financial statements. The Plan will continue to disclose information on these investments for which fair value is measured at NAV as a practical expedient. The Plan does not expect the adoption of this ASU to have a material impact on its financial statements once adopted.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Topic 960; Defined Contribution Plans, Topic 962; and Health and Welfare Benefit Plans, Topic 965: Part I - Fully Benefit-Responsive Investment Contracts, Part II - Plan Investment Disclosures, and Part III - Measurement Date Practical Expedient*. The amendments are effective for all plan years beginning after December 15, 2015. Earlier application of any or all of the three parts is permitted. Part I requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. A plan will continue to provide disclosures that help users understand the nature and risks of fully benefit-responsive contracts. Part II eliminates the current generally accepted accounting principles requirements for plans to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation for investments by general type for both participant-directed investments and non-participant-directed investments. The net appreciation or depreciation in investments for the period is still required to be presented in the aggregate but would no longer be required to be disaggregated and disclosed by general type. Part II also requires that investments (both participant-directed and non-participant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways.

DENVER NEWSPAPER MAILERS' UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Recent Accounting Pronouncements (continued)

Currently under Accounting Standards Codification ("ASC") Topic 820, classes of assets are grouped and disclosed on the basis of nature, characteristics, and risks, and under FASB ASC Topics 960, 962, and 965, classes of assets are grouped and disclosed on the basis of general type. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in FASB ASC Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy would no longer be required. The amendments in Part II should be applied retrospectively for all financial statements presented. Part III provides a practical expedient to permit plans to measure investments and investment-related accounts (for example, a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end when the fiscal period does not coincide with a month-end. The Plan does not expect the adoption of this ASU to have a material impact on its financial statements once adopted.

Note 2 - Assets Certified by Trustee

Prudential has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of August 31, 2015 and 2014 and the income earned and losses incurred on the investments for the years ended August 31, 2015 and 2014, as reflected in the accompanying financial statements, the supplemental schedule of assets (held at end of year), and the supplemental schedule of reportable transactions are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by Prudential, except for comparing the information contained therein to information included in the financial statements, the supplemental schedule of assets (held at end of year), and the supplemental schedule of reportable transactions.

The fair value of investments greater than 5% of net assets was the following:

	August 31,	
	2015	2014
Vanguard Institutional Index	\$ 7,916,290	\$ 9,855,048
Dryden S&P 500 Index	\$ 8,005,407	\$ 9,659,094
Denver Post Defined Benefit Plans Master Trust	\$ 7,265,639	\$ 8,312,282

DENVER NEWSPAPER MAILERS' UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 2 - Assets Certified by Trustee (continued)

The Plan's investments (including investments bought and sold, as well as held, during the year) (depreciated) appreciated in fair value as follows:

	August 31,	
	2015	2014
Pooled separate accounts	\$ (116,295)	\$ 3,261,756
Master Trust	(1,578,593)	660,052
Mutual funds	(177,487)	626,172
	<u>\$ (1,872,375)</u>	<u>\$ 4,547,980</u>

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

- Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.
- Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of August 31, 2015 and 2014.

- (b) Large-capital funds seek long-term growth of capital by investing primarily in equity and equity-related securities of large companies believed to be strategically positioned for consistent long-term growth and to provide long-term growth of capital and, secondarily, to increase dividend income by investing in common stocks of well-established growth companies.
- (c) Master Trust funds seek to preserve capital while delivering high risk-adjusted absolute returns through hedge funds.

DENVER NEWSPAPER MAILERS' UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 3 - Fair Value Accounting (continued)

- (d) Large blend funds seek to invest in a majority of large-capitalization companies, such as those located on the S&P 500 or the Russell 1000 Growth Index, with the intent of mirroring the activity of those markets.

The Plan's investments in pooled separate accounts ("separate accounts") are recorded at net asset value ("NAV") reported by the funds' managers as a practical expedient to estimating the fair value, as these investments do not have readily determinable fair values. Due to the nature of the investments held by the separate accounts and hedge funds, changes in market conditions and the economic environment may significantly impact the NAV of the separate accounts and hedge funds, and, consequently, fair values of the funds' interest in the funds. The fair value of these investments is measured using the NAV per share of the Plan's ownership interest in separate accounts and hedge funds on an equivalent measure where it is not probable that the fund will sell a separate account or hedge fund at a price other than NAV. The separate accounts are redeemable daily and have a one-day notice period. The two hedge funds are redeemable monthly and have a 30-day notice period and quarterly and have a 60-day notice period, respectively.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in different fair value measurements at the reporting date.

There were no changes to the valuation techniques used during the years ended August 31, 2015 and 2014.

The Plan's management reaffirms its understanding of the valuation techniques used by its pricing services at least annually.

Quantitative Information About Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The Plan's Level 3 financial instruments as of August 31, 2015 include hedge funds, whose underlying investments are primarily comprised of Level 1 and Level 2 investments. Due to certain redemption restrictions, these investments have been classified within Level 3 of the fair value hierarchy. The fair value of the hedge funds as of August 31, 2015 was \$7,265,639 and as of August 31, 2014 was \$8,312,282. The valuation technique used to measure fair value of the hedge funds is based on the fair value of the funds' underlying investments determined by the investment advisor using the financial statements of the funds at the measurement date.

Interest in Master Trust

A portion of the Plan's investments is in the Denver Post Defined Benefit Plans Master Trust ("Master Trust"), which was established for the investment of assets of the Plan and two other Company-sponsored defined benefit retirement plans. Each participating retirement plan had an undivided interest in the Master Trust. The Plan's interest in the net assets of the Master Trust were invested in various hedge funds.

The amounts disclosed in the statements of net assets available for benefits represent the Plan's 49.8% and 46.5% undivided interest in the net assets of the Master Trust as of August 31, 2015 and 2014, respectively. Interest, dividends, net appreciation (depreciation) in fair value of investments, and investment expenses are allocated to the Plan based upon its pro-rata share in the net assets of the Master Trust. Administrative expenses incurred that relate to individual plans were specifically allocated to each plan.

The following table presents the net assets in the Master Trust:

The following tables set forth by level, within the fair value hierarchy as described above, the Master Trust's investment assets at fair value as of August 31, 2015 and 2014.

Master Trust assets at fair value as of August 31, 2015 are as follows:

Note 4 - Income Taxes

The Plan obtained its latest determination letter on May 31, 2012 under 501(c)(9) of the Internal Revenue Code ("IRC") in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

Note 4 - Income Taxes (continued)

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of August 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Plan pays the cost of certain administrative, accounting, and legal services.

Note 6 - Party-in-Interest and Related Party Transactions

Certain Plan investments include a mutual fund and pooled separate accounts managed by Prudential. Other Plan investments include a Master Trust hedge fund that is managed by an owner of the Company and a third-party investment management firm. There are no fees charged to the Plan associated with the hedge fund managed by an owner of the Company. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

Note 7 - Accumulated Plan Benefits

The Plan's actuary, Aon Hewitt ("Hewitt"), estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated Plan benefits are those periodic payments that are attributable under the Plan's provisions to the service that members have rendered. Accumulated Plan benefits include benefits expected to be paid to (a) retired or terminated members or their beneficiaries and (b) present members or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent that they are deemed attributable to member service rendered to the valuation date. The actuarial valuations were performed as of September 1, 2014 and September 1, 2013. Had the valuations been performed as of August 31, 2014 and 2013, there would have been no material difference.

The significant assumptions used in the valuations as of September 1, 2014 and 2013 were:

- Assumed rate of return on investments: 7.16% (2015) and 7.50% (2014)

DENVER NEWSPAPER MAILERS' UNION EMPLOYEES' PENSION PLAN

Notes to Financial Statements

Note 7 - Accumulated Plan Benefits (continued)

- Probability of retirement: 5% at ages 55-59, 10% at ages 60-61, 50% at age 62, 25% at ages 63-64, 40% at ages 65-66, 25% at ages 67-69, and 100% at ages 70+ (2015 and 2014)
- Mortality basis: 2013 Static Mortality Table for Annuitants and Non-Annuitants (2015) and 2012 Static Mortality Table for Annuitants and Non-Annuitants (2014)
- Actuarial cost method: Standard Unit Credit Cost Method (2015 and 2014)
- Compensation increase: Salary scale and valuation compensation assumptions no longer apply, as benefits were frozen January 1, 2008 (2015 and 2014)

The effective interest rate assumption changed to 6.52% as of September 1, 2014 from 6.71% as of September 1, 2013.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue in operation. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The following table sets forth the accumulated Plan benefits:

	August 31,	
	2015	2014
Actuarial present value of accumulated Plan benefits		
Vested benefits		
Participants currently receiving benefits	\$ 14,377,622	\$ 13,156,380
Vested benefits for other participants	<u>10,441,831</u>	<u>10,907,041</u>
Total vested benefits	<u>24,819,453</u>	<u>24,063,421</u>
Non-vested benefits	<u>466,325</u>	<u>326,917</u>
Total actuarial present value of accumulated Plan benefits	<u><u>\$ 25,285,778</u></u>	<u><u>\$ 24,390,338</u></u>

The change in present value of accumulated Plan benefits was as follows:

Actuarial present value of accumulated Plan benefits as of August 31, 2013	\$ 24,390,338
Increase (decrease) during the year attributable to	
Interest accumulation	1,795,722
Assumption changes (1)	293,876
Other changes (2)	359,105
Benefit payments	<u>(1,553,263)</u>
Actuarial present value of accumulated Plan benefits as of August 31, 2014	<u><u>\$ 25,285,778</u></u>

- (1) Changes in actuarial assumptions relate to changes in the assumed rate of return on investments and the mortality rate assumption.
