Independent Auditor's Report

To the Administrator of the Interpublic Retirement Account Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Interpublic Retirement Account Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and December 31, 2013, and the related statements of changes in net assets available for benefits for the years then ended and the statement of accumulated plan benefits as of December 31, 2013 and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 10, which was certified by Wells Fargo Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the trustee as of December 31, 2014 and December 31, 2013 and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the financial statements.

Other Matter

The supplemental schedules of Schedule of Assets (Held at End of Year) as of December 31, 2014, Schedule of Assets (Acquired and Disposed of Within the Year) for the year ended December 31, 2014, Schedule of Reportable Transactions - Single Transactions for the year ended December 31, 2014, and Schedule of Reportable Transactions - Series of Transactions for the year ended December 31, 2014 are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Interpublic Retirement Account Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2014 and 2013

1. Description of Plan

General

The following description of the Interpublic Retirement Account Plan (the "Plan") provides general plan information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan is sponsored by The Interpublic Group of Companies, Inc. (the "Company") and is a defined benefit plan under which the Company's contribution to the Plan and payments to participants are determined by actuarial computation. The Plan's administrator is the Pension Committee of the Company's Board of Directors and the trustee of the Plan is Wells Fargo Bank, N.A. (the "Trustee").

Pension Benefits

Legacy Plan Pension Benefits - Through March 31, 1998, the Plan covered substantially all regular domestic employees. The Company froze benefit accruals and participation under the Plan effective April 1, 1998. Participant account balances became frozen and will be credited with interest each year based on the one-year Treasury Constant Maturity for the month of November of the immediately preceding calendar year plus 100 basis points. The minimum rate is 5%, except if that rate is greater than a market rate of return, the Plan shall instead reduce such minimum interest crediting rate to the highest minimum interest crediting rate permitted under section 411(b)(5) of the Internal Revenue Code, but only for the period and to the extent required by section 411(b)(5) of the Internal Revenue Code. The interest crediting rate participants received in 2014 and 2013 was 5%. Except for certain benefits attributable to death and disability expected to occur during active service, participant account balances are fully vested in the Plan. In 1992, the Plan was amended to provide new plan participants a cash balance benefit as opposed to a career pay formula benefit which was the previous plan formula prior to the amendment. Under the cash balance benefit, participants were credited with an annual allocation equal to a percentage of their compensation, ranging from 1.5% to 5.0%, based on the participant's age and years of service. For pre-1992 participants, the benefit is the greater of the cash balance account or the career pay formula benefit. Under the career pay formula benefit, annual accruals were earned based on 1.0% of compensation up to \$15,000 plus 1.3% of compensation above \$15,000.

Normal retirement age under the Plan is defined as the later of age 65 or the 5th anniversary of the date on which a participant first becomes a participant in the Plan. The Plan permits early retirement between ages 50 and 65 for participants that completed at least 10 years of credited service as defined by the Plan. At retirement, participants who terminated from employment after 1992 may elect to receive their pension benefits as a lump-sum distribution or in the form of an annuity (pre-1992 terminations are eligible only for an annuity). If a participant dies before retirement, a death benefit equal to the value of the participant's accumulated pension benefit will be paid to the participant's surviving spouse or designated beneficiary.

Legacy NAS Pension Benefits - The NAS plan was frozen to new participants, effective for individuals who were first hired on or after January 1, 2004. On November 1, 2006, NAS, by resolution, suspended indefinitely new benefit accruals under the Plan, effective October 28, 2006. NAS participants are entitled to a monthly pension benefit beginning at the normal retirement age of 65. The monthly pension benefit is calculated as the sum of 1.3% of average monthly compensation, plus 0.6% of the amount by which the average monthly compensation exceeds the quotient of Social Security taxable earnings divided by twelve, multiplied by years of service (to a maximum of twenty-five); the product will be reduced by the monthly benefit provided by the terminated prior plan. Early retirement is permitted at ages 55 through 64. The standard form of retirement benefit payout is a life annuity guaranteed for a minimum of five years. If the participant is married, the benefit will automatically be paid in the form of an actuarially reduced joint and survivor annuity unless the participant elects otherwise with spousal consent. Participants may elect to receive the value of their benefits as a lump

sum distribution, other monthly payments or other types of joint and survivor annuities. Participants with five years or more of eligible service have a nonforfeitable right to receive 100% of their accrued benefit. A terminated participant's nonforfeitable accrued benefit is payable at age 65, however, actuarially reduced benefits may be received prior to age 65.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Investment Transactions and Investment Income

Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade-date basis. Gains and losses on investments sold are determined on the average cost basis. Net appreciation in the fair value of investments consists of realized gains and losses and the change in unrealized appreciation and depreciation on investments for the period.

Administrative Expenses

Some administrative expenses are paid from Plan assets and primarily consist of investment consulting fees, trustee fees, and Pension Benefit Guaranty Corporation ("PBGC") fees. Additional expenses are paid and recorded by the Company and include salaries and overhead related to Plan administration, legal, audit and actuarial fees. Brokerage fees and transfer taxes are included in the cost of investments when purchased and deducted from the proceeds when investments are sold.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable under the Plan's provisions to the service that employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on the greater of the career average pay formula or the cash balance formula. The accumulated benefits for active employees under the career average pay formula are based on a set percentage of compensation accrued in each year up through the plan freeze date of March 31, 1998. The accumulated benefits for active employees under the cash balance formula are based on a varying percentage of compensation in each year (based on age and service) up to the Plan freeze date, and also includes annual interest credits each year up until the valuation date. Legacy NAS pension benefits are based on participants' actual compensation during their years preceding the NAS plan freeze date of October 28, 2006. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Interpublic Retirement Account Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2014 and 2013

The actuarial present value of accumulated Plan benefits is determined by the Plan's independent actuary from Towers Watson and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and the probability of benefit payments between the valuation date and the expected date of payment. In the December 31, 2012 valuation, the significant actuarial assumptions were an interest rate of 7.00%, a rate of mortality using the RP-2000 Employees table without collar or amount adjustments, projected to 2028 using scale AA for non-annuitants, the RP-2000 Healthy Annuitants table without collar or amount adjustments, projected to 2020 using Scale AA for annuitants, an account balance accumulation assumption of 5.25%, and an average retirement age of 56 for legacy Plan participants and age 65 for legacy NAS participants. In the December 31, 2013 valuation, the significant actuarial assumptions were an interest rate of 7.00%, a mortality assumption based on the RP-2014 "Employees" table without collar or amount adjustments, moved back with MP-2014 projection to 2006, then projected from 2006 using Scale BB-2D with generational projection (for non-annuitants) and the RP-2014 "Healthy Annuitants" table without collar or amount adjustments, moved back with MP-2014 projection to 2006, then projected from 2006 using Scale BB-2D with generational projection (for annuitants), an account balance accumulation assumption of 5.25%, and an average retirement age of 56 for legacy Plan participants and age 65 for legacy NAS participants. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of the accumulated Plan benefits.

Contributions Receivable

Employer contributions receivable represent amounts due to the Plan resulting from a formal commitment, legal or contractual obligation for the Company to make a contribution.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. Outstanding benefit payment disbursements of \$30,055 and \$9,378 are reported as Due from Trustee on the Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, respectively and included as an offset to benefit payments on the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013, respectively.

Participant pension checks that are uncashed after 90 days of issuance or are returned because the participant, beneficiary, or alternate payee cannot be located are deposited back into the Plan. The benefit payments may be reissued if the participant, beneficiary, or alternate payee makes a valid claim under the Plan.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU No. 2015-07, Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)) which amends disclosure requirements of Accounting Standards Codification Topic 820, Fair Value Measurement, for reporting entities that measure the fair value of an investment using the net asset value per share (or its equivalent) as a practical expedient. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient, and also remove the requirements to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The ASU is effective for the Plan's fiscal year beginning after December 15, 2016, with early application permitted. The Plan Administrator is currently evaluating the impact of adopting ASU 2015-07.

3. Fair Value Measurements

Authoritative guidance for fair value measurements establishes a fair value hierarchy which requires us to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The Plan primarily applies the market approach for recurring fair value measurements. There are three levels of inputs that may be used to measure fair value.

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.
- Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the Plan's valuation methodologies for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013. The methods described below may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Cash and cash equivalents primarily include investments in units of Wells Fargo Advantage Money Market Service Fund. The Plan defines cash and cash equivalents as highly liquid investments with original maturities of 90 days or less at the date of purchase. Cash and cash equivalents are classified within Level 1 of the fair value hierarchy.

Registered investment companies are valued daily and are based on the Net Asset Value ("NAV") of the fund. The registered investment companies are classified within Level 1 of the fair value hierarchy. Common/collective trust funds ("CCT's") are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The CCT's are classified within Level 2 of the fair value hierarchy, except for those subject to certain withdrawal restrictions, which are classified as Level 3.

The U.S. Government Bond is valued at the closing price reported in the active market that the bond is traded and is classified within Level 1 of the fair value hierarchy. The U.S. Government Bond is not held as of December 31, 2014.

The Venezuela Bond is valued using unobservable inputs and is classified within Level 3 of the fair value hierarchy.

Limited partnerships are valued using annual statements issued by the limited partnership which determine the value based on the fair value of the underlying investments at year-end and are classified within Level 3 of the fair value hierarchy. A review of holdings is performed on a quarterly basis with the assistance of third party advisors. Management relies on annual audited financial statements of the limited partnership to assess the reasonableness of the fair value methodology. There are no limited partnerships held as of December 31, 2014.

Interpublic Retirement Account Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2014 and 2013

Limited liability companies are valued using annual statements issued by the limited liability company which determine the value based on the fair value of the underlying investments at year-end and are classified within Level 2 of the fair value hierarchy. A review of holdings is performed on a quarterly basis with the assistance of third party advisors. Management relies on annual audited financial statements of the limited liability company to assess the reasonableness of the fair value methodology.

Futures contracts are actively traded and are valued based on quoted prices from the exchange and are classified within Level 1 of the fair value hierarchy. There are no futures contracts held as of December 31, 2014.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value at December 31, 2014 and 2013.

- (f) The fund seeks to outperform the Barclays Capital U.S. Long Credit Index over a full market cycle. Target total risk, defined as the standard deviation of quarterly total returns over 5 years, will be similar to that of the benchmark. The fund invests primarily in investment grade corporate bonds, but may also invest in other fixed-income sector securities.
- (g) The fund objective is to achieve long-term capital growth by investing in emerging markets. Its policy is to make such investments primarily through closed-end country funds whose assets are invested principally in emerging markets.
- (h) The fund is an unconstrained, non-benchmark oriented investment approach managed on a total return basis. The Barclays Capital US Aggregate Bond Index is used as the primary reference benchmark. Typically, the majority of portfolio assets will be invested in multiple investment strategies. The portfolio may invest directly in securities and instruments, and may take both long and short positions in all permissible investments.
- (i) The funds objective is to provide a defensive equity exposure that is expected to provide favorable risk adjusted performance relative to the S&P 500 index over the long term, and is expected to produce the strongest relative performance when the S&P 500 index is experiencing negative returns. The manager seeks to achieve the Fund's investment objectives by employing an options based strategy that utilizes a fully covered option strangle (selling out-of-the-money put and call options).

- (g) The fund objective is to achieve long-term total return in excess of the S&P 500 Index by primarily investing in common stock, depository receipts and real estate securities.
- (h) The fund objective is to exceed the performance of a custom benchmark by actively allocating across a variety of markets including, but not limited to asset classes in both developed and emerging countries and commodities. In meeting this objective, assets of the fund may be invested in securities and a combination of other collective funds. The custom benchmark is comprised of various indices: 50% Morgan Stanley Capital International All Country World Index, 20% Citigroup World Government Bond 1 + Index, 10% Barclays Capital Global Inflation-Linked Index, 5% Dow Jones-UBS Commodity Index, 5% J.P. Morgan Emerging Markets Global Diversified Index, 5% Barclays Capital U.S. Corporate High Yield Index, and 5% Barclays Capital US Intermediate Credit Index.
- (i) The fund seeks to outperform the Barclays Capital U.S. Long Credit Index over a full market cycle. Target total risk, defined as the standard deviation of quarterly total returns over 5 years, will be similar to that of the benchmark. The fund invests primarily in investment grade corporate bonds, but may also invest in other fixed-income sector securities.
- (j) The fund objective is to preserve principal, provide liquidity, and generate current income by investing in a portfolio of high-quality, short-term instruments. It is intended for investors who need same-day liquidity and a stable net asset value.
- (k) The fund objective is to achieve long-term capital growth by investing in emerging markets. Its policy is to make such investments primarily through closed-end country funds whose assets are invested principally in emerging markets.
- (l) The fund is an unconstrained, non-benchmark oriented investment approach managed on a total return basis. *Unless otherwise specified in a footnote below, these redemption and settlement terms are reflective of all redemption types.

** Full or partial redemptions from the fund may be restricted, or may require greater notice periods, at the discretion of the fund in the case of market disruptions, available liquidity, or other circumstances that may limit the trustee's ability of providing the full requested redemption. No such restrictions were noted during the year ended December 31, 2014.

- (1) Redemption requests must be made by 9:30am central standard time on the morning of the trade date.
- (2) Redemption requests must be made by 4:00pm eastern standard time of the 22nd business day prior to month end. Redemptions may be settled on the first business day of each month and can be made in cash or securities-in-kind at the discretion of the fund. At the discretion of the fund, redemptions may be restricted in the case of market disruptions or other circumstances that warrant such actions.
- (3) Settlement term is 5 business days from redemption date plus an additional 7 business days if the fund determines that such delay is reasonably necessary to prevent such redemptions from having a material adverse impact on the trust and/or remaining beneficial owners.
- (4) Redemption requests must be made by 4:00pm eastern standard time and must be received no later than thirty calendar days in advance. The common/collective trust will invest in other collective investment vehicles, some of which may impose certain lock-up periods before which assets may be withdrawn. In addition, those collective investment vehicles may delay the distribution of proceeds upon redemption under certain circumstances. Accordingly, there may be limitations on withdrawals from the common/collective trust for some period of time. Redemptions may be settled on the first business day of each month and can be made in cash or securities-in-kind at the discretion of the fund. At the discretion of the fund, redemptions may be restricted in the case of market disruptions or other circumstances that warrant such actions. No such lock-up or other redemption restrictions were noted during the year ended 2014.
- (5) A Member may generally withdraw all or any portion of its Capital Account(s) as of the last Business Day of any calendar month, upon prior written notice to the Manager. Written withdrawal notices must be received by the Manager no less than five (5) Business Days prior to the effective date of the withdrawal unless the Manager, in its sole discretion, determines otherwise. The Fund will generally distribute no less than ninety-five percent (95%) of the estimated withdrawal proceeds generally within five (5) Business

- (3) Redemption notice must be given in written form prior to 5pm, two business days prior to redemption date for cash redemptions and 12pm three business days prior to redemption date for in-kind redemptions.
- (4) There is a 90 day notice period and 90% of investment will be received within 90 days after the end of the year in which notice of redemption was requested, and the remainder upon completion of the annual audit. In addition, if the investments of the limited partnership are committed to portfolio funds, which do not permit withdrawal of funds on 60 days or less notice, the redemption notice period and redemption frequency above do not apply. However, the settlement of the withdrawal would be completed within 30 days after the limited partnership receives the proceeds from the liquidation of the investments in portfolio funds. Redemptions will be in the form of cash, unless the limited partnership in meeting withdrawal requests, receives proceeds from the portfolio funds in the form of securities, in which case securities may be received upon redemption. There were no such redemption restrictions in 2013.

4. Futures Contracts

A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated future exchange. The Plan uses derivative instruments primarily to offset the interest rate sensitivity of its liabilities.

There is exposure to credit loss in the event of nonperformance by counterparties to derivative transactions. The Plan's investment managers continually monitor the Plan's positions with, and credit quality of, the financial institutions which are counterparties to its derivative instruments.

The income or loss is recognized as the net appreciation in fair value of investments on the Statements of Changes in Net Assets Available for Benefits. The notional amount of outstanding futures contracts was \$0 and \$4,600,000 as of December 31, 2014 and December 31, 2013, respectively. The average notional amount of outstanding futures contracts was \$0 and \$3,900,000 for the years ended December 31, 2014 and December 31, 2013, respectively.

The fair value of interest rate futures contracts recorded on the Statement of Net Assets Available for Benefits were as follows:

	Fair Value as of December 31,		Statement of Net Assets Available for
	2014	2013	Benefits Account
Liability position			
Interest rate futures contracts	-	29,469	Futures contracts variation margin

Gains/(losses) recognized on derivative financial instruments were as follows:

During the 2013 plan year, only one futures contract was open and the Plan did not offset any amounts in the Statement of Net Assets Available for Benefits as of December 31, 2014.

5. Risks and Uncertainties

Plan contributions are made and the actuarial present value of accumulated plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, changes in these estimates and assumptions in the near term could have a material impact on the Plan's financial statements.

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Market values of investments may decline for a number of reasons including changes in prevailing market and interest rates and increases in default and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect those investments and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

6. Funding Policy

The Company's funding policy is to contribute amounts at least equal to the minimum funding standards of ERISA and sufficient over time to provide the Plan with assets to pay benefits to Plan participants as due, as determined by the actuary using the unit credit actuarial cost method. For the Plan years ended December 31, 2014 and 2013 the Company was in compliance with the minimum funding requirements of ERISA.

7. Plan Termination

As noted earlier, the Company has frozen benefit accruals under the Plan effective March 31, 1998, and November 1, 2006 for the NAS plan. The Company expects to continue the Plan indefinitely, but reserves the right to amend or terminate the Plan at any time in accordance with the terms of the Plan and Section 4044 of ERISA. In the event of termination or partial termination of the Plan, all participants shall be fully vested in their accrued benefits as of the date of termination or partial termination. In such an event, assets will be distributed in accordance with ERISA.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. A statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2014 that ceiling is \$4,943 per month, which applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Interpublic Retirement Account Plan

Notes to the Financial Statements

As of and For the Years Ended December 31, 2014 and 2013

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

8. Tax Status

The Internal Revenue Service ("IRS") has determined by a letter dated November 12, 2015 that the Plan continues to meet the requirements of Section 401(a) of the Internal Revenue Code ("IRC") and is exempt from federal income taxes under Section 501(a) of the IRC. The Plan administrator, management of the Company and legal counsel believe that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC and continues to qualify as tax-exempt. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and December 31, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

In March 2013, the Company was informed by the IRS that the Plan is undergoing examination and that as part of an audit of all of the Company's qualified plans, they will perform an audit of the Plan for the year ended December 31, 2011. The audit was completed on November 12, 2015. The audit findings did not have a material effect on the Plan.

9. Related-Party Transactions

Certain short term investment funds are managed by the Trustee and therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to the Trustee for administrative expenses amounted to \$59,258 and 65,622 for the years ended December 31, 2014 and 2013, respectively.

10. Information Certified by the Trustee

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, all of the investments and investment income information in the accompanying financial statements and related notes was derived from information certified by the Trustee, and was not subject to audit, excluding the fair value leveling and related disclosures in Note 3 as of December 31, 2014 and 2013.

Definitions

Credited service	Years and months of service from date of hire. Benefit accruals were frozen as of March 31, 1998.
------------------	---

Accredited service A participant is credited with one year of accredited service for each year the participant completes at least one thousand hours of service. However, in no event shall a participant receive credit for more than a total of 35 years of accredited service.

Points Sum of age plus credited service rounded to the next whole number. Both age and service are figured as years and completed months as of December 31 prior to the year of allocation.

Compensation Employee's total compensation paid during the calendar year.

Grandfathered Employees All active employees who were participants as of January 1, 1992.

Normal retirement date (NRD) First of month coinciding with or next following the attainment of age 65 and completion of five years of credited service.

Pre-1992 Pension Plan Benefit The sum of (i) and (ii):
 (i) Accrued benefit as of July 31, 1987 based on prior plan provisions.
 (ii) For accredited service after August 1, 1987, additional benefits are earned based on 1% of compensation up to \$15,000 plus 1.3% of compensation above \$15,000 for each full calendar year of accredited service.

Retirement Account The sum of (i) and (ii):
 (i) Initial retirement plan balance for eligible participants as of December 31, 1991 equal to the lump sum value of the pre-1992 pension plan accrued benefit as of that date. The lump sum value was calculated based on 6½% interest and the 1983 Group Annuity Mortality Table.
 (ii) For service after December 31, 1991, the account balance is increased by:
 a) interest each year is based on the one-year Treasury Constant for the month of November of the immediately preceding calendar year. Minimum guaranteed rate is 8% for 1992 and 1993; 5% thereafter.
 b) Annual allocation through March 31, 1998 equal to a percentage of the participant's compensation, based upon points as of the end of the prior year as follows:

Points	Allocation
Less than 40	1.5%
40 – 49	2.0
50 – 59	2.5
60 – 69	3.0
70 – 79	4.0
80 or more	5.0

Accrued Benefit For grandfathered employees, the benefit equal to the greater of (i) and (ii):

(i) Pre-1992 pension plan benefit.

(ii) Retirement Account converted to an annuity payable at normal retirement date, determined by accumulating the Retirement Account at 5% interest to age 65 and converting to an annuity based on PBGC interest rates and GAM 83.

For all other employees, the benefit described in (ii) above.

Early Retirement Subsidized Factors

(a) For annuity form of payment, factors are equal to one minus the greater of (i) and (ii):

(i) $5/12$ of 1% multiplied by the number of full months by which the participant is under age 55 on his annuity commencement date or

(ii) $5/12$ of 1% multiplied by the number of full months by which the number of his years (including completed months) of age, as of his annuity commencement date, plus his years of accredited service as of his early retirement date, total less than 80; provided, however, in no event shall such reduction exceed $5/12$ of 1% multiplied by the number of full months by which the participant is under age 65 on his annuity commencement date.

(b) For payment of the Retirement Account as a lump sum, factors are based on age and points at retirement. Sample factors are shown below:

Age at Retirement	Points at Retirement		
	70	75	80 or more
50	120%	140%	160%
55	100%	120%	140%
60	100%	100%	120%
65	100%	100%	100%

Eligibility for Benefits

Normal retirement	Retirement on NRD
Early retirement	Retirement before NRD and on or after both attaining age 50 and completing ten years of accredited service
Postponed retirement	Retirement after NRD
Deferred vested	Termination for reasons other than death or retirement after completing five years of credited service
Preretirement death benefit	Death while eligible for deferred vested, early, normal, or postponed retirement benefits.

Benefits Paid Upon the Following Events

Normal retirement	Accrued benefit determined as of NRD, payable as an annuity or a lump sum. Lump sum payable is determined as the greater of the Retirement Account balance or the actuarial equivalent of the accrued benefit.
-------------------	--

Early retirement	Pension benefit based on accrued benefit reflecting early retirement subsidized factors, payable as an annuity or a lump sum.
Postponed retirement	Accrued benefit determined as of actual retirement date, payable as an annuity or a lump sum.
Termination With Deferred Vested Benefit	Accrued benefit payable on NRD as an annuity or a lump sum. Alternatively, payment may commence earlier with benefit reduced on an actuarial equivalent basis.
Preretirement death	The accrued benefit is payable as the survivorship portion of a 100% joint and survivor annuity or, alternatively, the Retirement Account is payable. For employees eligible for early retirement, the above amounts reflect the early retirement subsidized factors. For those not eligible for early retirement, the above amounts are actuarial equivalents.

Other Plan Provisions

Forms of payment	<ul style="list-style-type: none">▶ Automatic Form: Actuarially equivalent, 100% joint and survivor annuity if married on date payments commence; life annuity if single.▶ Optional Forms: Actuarially equivalent joint and survivor annuity, 5 or 10 years certain annuity, or lump sum.
Pension Increases	None
Plan Participants' Contributions	None
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Future Plan Changes

No future plan changes were recognized in determining pension cost or in determining minimum and maximum contributions.

Changes in Benefits Valued Since Prior Year

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

The Interpublic Group of Companies, Inc. Retirement Account Plan

Plan#001 EIN: 13-1024020

	<p>The IRC §430 regulations describe the required methodology for attributing benefits among Funding Target, current year Target Normal Cost, and future years' Target Normal Costs for disability benefits, Social Security benefits, death benefits and other ancillary benefits. For most such benefits, the required attribution methodology is clear. If the plan includes any benefits for which the attribution methodology was not clear, and the regulations required interpretation, consider describing the benefit and the attribution methodology used.</p>
Target normal cost	<p>Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year</p>
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the dates that are 12 and 24 months preceding the valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2013 plan year.)</p>
Benefits not valued	<p>All benefits described in the Plan Provisions section of this report were valued. Towers Watson has reviewed the plan provisions with Interpublic and, based on that review, is not aware of any significant benefits required to be valued that were not.</p>
Change in assumptions and methods since prior valuation	<p>The segment interest rates used to calculate the funding target and target normal cost were updated from an applicable month of January 2013 to January 2014.</p> <p>The segment rates used to determine minimum funding requirements and benefit restrictions were revised by applying the corridors of HATFA.</p> <p>The required mortality table used to calculate the funding target and target normal cost was updated to include one additional year of projected mortality improvements.</p> <p>The administrative expense assumption was increased from \$400,000 in 2013 to \$420,000 in 2014.</p>

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
