SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Server Technology, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan was established on October 1, 1998, to provide retirement benefits for employees of Server Technology, Inc. (“STI”) and employees of its former wholly owned subsidiary, PDUs Direct, LLC (“PDUs”), collectively referred to herein as the “Company”. The Plan is a defined contribution plan covering all eligible employees meeting certain eligibility criteria who have completed three months of service and who have attained twenty-one years of age. Employees are eligible to participate if they are not nonresident aliens, part-time employees or union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and certain provisions of the Internal Revenue Code (“IRC”).

The Plan provides for a plan administrator who is responsible for keeping accurate and complete records with regard to the Plan’s operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Through November 30, 2015, the Plan had appointed Fidelity Management Trust Company and Fidelity Investments Institutional Operations Company, Inc. as the trustee and record-keeper, respectively, of the Plan. Effective November 30, 2015, the Plan appointed Wells Fargo Bank, N.A. and Wells Fargo Institutional Retirement and Trust as the Plan’s new trustee and record-keeper, respectively, as discussed in Note 2 – Subsequent Events.

Participant Contributions – Participants may voluntarily contribute an amount up to 90% of pretax annual compensation as defined by the Plan agreement, up to a maximum permitted contribution in a calendar year. For the 2015 calendar year, the maximum permitted contribution was \$18,000. Participants may also make after-tax contributions subject to certain limitations. Participants 50 years of age or older may make an additional catch-up contribution up to \$6,000 annually. A participant may increase or decrease the amount of contributions at the beginning of each payroll period.

The Plan has an automatic enrollment feature. Participants subject to the automatic enrollment will have 5% of eligible compensation deducted on a pretax basis as a salary deferral contribution to the Plan. The deferral contribution rate will increase 1% per year until it reaches a maximum of 10% unless the participant elects otherwise. Participants may stop or change this automatic contribution at any time. If the participant has not selected an investment option, the participant’s contributions will be invested in a target retirement date fund which corresponds to the expected retirement age of the participant.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Employer Contributions – The Company matches participant contributions by contributing 100% of participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation. The Company may, at its discretion, make a profit sharing contribution or an additional matching contribution.

Participant Accounts – The Plan maintains an account for each participant which is credited with the participant's contributions and the Company's matching contributions, and allocations of (a) the Company's profit sharing contributions and (b) Plan investment earnings or losses, and is charged with an allocation of investment expenses. Allocations are based on participant compensation or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account.

Vesting – Participants are immediately 100% vested in their voluntary contributions as well as 100% of basic matching "safe harbor" employer contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions, if any, and related earnings thereon is in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
0 - 1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various investment funds offered by the trustee of the Plan.

Notes Receivable from Participants – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The minimum loan amount is \$500 and the maximum loan amount is the lesser of one-half of the participant's vested account balance or \$50,000. The duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence. The loans are secured by the balance in the participant's account and interest rates are based on the prevailing interest rates charged under similar circumstances, and remain fixed throughout the life of the loan. Principal and interest are paid ratably through payroll deductions and loans are due immediately upon termination of employment. As of September 30, 2015, the outstanding loans bear interest at the rate of 4.25% with maturity dates ranging from February 2016 to August 2025.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant may receive a lump-sum distribution, a direct rollover distribution, or a combination of cash and direct rollover distribution equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum cash distribution. If a terminated participant's vested interest in his/her account is between \$1,000 and \$5,000 and no instructions have been received from such participant, the amount may be rolled over to an individual retirement account plan as designated by the plan administrator. A balance less than \$1,000 may be distributed directly to the participant as a lump-sum payment and a balance greater than \$5,000 may be left in the Plan.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance is forfeited. Forfeited accounts are applied to reduce future employer contributions under the Plan. As of September 30, 2015 and 2014, there were no forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants – Notes receivable from participants represent loans to participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits – Benefits are recorded when paid.

Administrative Expenses – Generally, administrative costs are paid by the Company. Administrative fees on participant loans and distributions are charged to the individual account of the participant requesting the transaction. Fees paid by the Plan for investment management services are netted against net appreciation in fair value of investments.

Adoption of Recent Accounting Pronouncements – Effective October 1, 2014, the Plan adopted the Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. Under the guidance in ASU 2015-07, investments for which fair value is measured using the net asset value per share practical expedient will no longer be categorized within the fair value hierarchy levels, but will be presented as a reconciling item. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. ASU 2015-07 also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value by limiting those disclosure requirements to investments for which the entity has elected to measure the fair value using that practical expedient.

Effective October 1, 2014, the Plan adopted FASB ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (consensuses of the FASB Emerging Issues Task Force). The overall objective of this ASU is to reduce complexity in employee benefit plan accounting. Some of its key provisions include the designation of contract value as the only required measure for fully benefit-responsive investment contracts and the elimination of certain disclosure requirements for investments.

Reclassifications – Certain accounts in the 2014 financial statements have been reclassified for comparative purposes to conform to the presentation in the 2015 financial statements. These reclassifications have had no effect on previously reported net assets available for benefits.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events – On November 30, 2015, the Plan changed its trustee and record-keeper from Fidelity Management Trust Company and Fidelity Investments Institutional Operations Company Inc., respectively, to Wells Fargo Bank, N.A. and Wells Fargo Institutional Retirement and Trust, respectively. The Plan's assets were transferred to Wells Fargo Bank N.A., the Plan's new trustee, on December 1, 2015.

The plan administrator has evaluated subsequent events through June 16, 2016, the date the Plan's financial statements were available for issuance.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under this guideline are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used are required to maximize the use of observable inputs and minimize the use of unobservable inputs.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the Plan's valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of September 30, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued at the net asset value of units of the collective trust. This investment is in a stable value fund composed primarily of fully benefit-responsive investment contracts. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity") has certified the completeness and accuracy of all investments and notes receivable from participants presented on the accompanying statements of net assets available for benefits as of September 30, 2015 and 2014 and on the supplemental Schedule H, line 4i: Schedule of Assets (Held at End of Year) as of September 30, 2015, and the related investment income or loss, interest and dividend income, and interest income on notes receivable from participants presented on the statement of changes in net assets available for benefits for the year ended September 30, 2015.

NOTE 5 – TAX STATUS

The Company adopted a prototype plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has not filed for a separate determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes is reflected in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain Plan assets are held and managed by Fidelity, which also serves as the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are netted against net appreciation in fair value of investments.

NOTES TO FINANCIAL STATEMENTS

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination from among the funds offered through the trustee. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

The Company has established the Plan with the expressed intention and expectation that it will continue the Plan. However, if circumstances make it impossible or inadvisable to continue the Plan, the Company reserves the right to terminate it at any time subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Benefits will be held in the trust fund which will remain in existence until the Company requests the discontinuance of the trust agreement.

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Server Technology, Inc. 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan was established on October 1, 1998, to provide retirement benefits for employees of Server Technology, Inc. (“STI”) and employees of its former wholly owned subsidiary, PDUs Direct, LLC (“PDUs”), collectively referred to herein as the “Company”. The Plan is a defined contribution plan covering all eligible employees meeting certain eligibility criteria who have completed three months of service and who have attained twenty-one years of age. Employees are eligible to participate if they are not nonresident aliens, part-time employees or union employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”) and certain provisions of the Internal Revenue Code (“IRC”).

The Plan provides for a plan administrator who is responsible for keeping accurate and complete records with regard to the Plan’s operations, informing participants of changes or amendments to the Plan, ensuring that the Plan conforms to the law and to government regulations, and providing participants with any reports and documents required by law.

Through November 30, 2015, the Plan had appointed Fidelity Management Trust Company and Fidelity Investments Institutional Operations Company, Inc. as the trustee and record-keeper, respectively, of the Plan. Effective November 30, 2015, the Plan appointed Wells Fargo Bank, N.A. and Wells Fargo Institutional Retirement and Trust as the Plan’s new trustee and record-keeper, respectively, as discussed in Note 2 – Subsequent Events.

Participant Contributions – Participants may voluntarily contribute an amount up to 90% of pretax annual compensation as defined by the Plan agreement, up to a maximum permitted contribution in a calendar year. For the 2015 calendar year, the maximum permitted contribution was \$18,000. Participants may also make after-tax contributions subject to certain limitations. Participants 50 years of age or older may make an additional catch-up contribution up to \$6,000 annually. A participant may increase or decrease the amount of contributions at the beginning of each payroll period.

The Plan has an automatic enrollment feature. Participants subject to the automatic enrollment will have 5% of eligible compensation deducted on a pretax basis as a salary deferral contribution to the Plan. The deferral contribution rate will increase 1% per year until it reaches a maximum of 10% unless the participant elects otherwise. Participants may stop or change this automatic contribution at any time. If the participant has not selected an investment option, the participant’s contributions will be invested in a target retirement date fund which corresponds to the expected retirement age of the participant.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Employer Contributions – The Company matches participant contributions by contributing 100% of participant's elective deferrals that do not exceed 3% of the participant's compensation, plus 50% of the amount of the participant's elective deferrals that exceed 3% of the participant's compensation but do not exceed 5% of the participant's compensation. The Company may, at its discretion, make a profit sharing contribution or an additional matching contribution.

Participant Accounts – The Plan maintains an account for each participant which is credited with the participant's contributions and the Company's matching contributions, and allocations of (a) the Company's profit sharing contributions and (b) Plan investment earnings or losses, and is charged with an allocation of investment expenses. Allocations are based on participant compensation or account balances, as defined by the Plan agreement. The benefit to which a participant is entitled is the benefit that may be provided from the participant's vested account.

Vesting – Participants are immediately 100% vested in their voluntary contributions as well as 100% of basic matching "safe harbor" employer contributions, plus actual earnings thereon. Vesting in the Company's discretionary contributions, if any, and related earnings thereon is in accordance with the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
0 - 1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Investment Options – Upon enrollment in the Plan, a participant may direct the investment of his or her account balance into the various investment funds offered by the trustee of the Plan.

Notes Receivable from Participants – Participants may borrow from their vested account balances provided they meet the Plan's eligibility requirements. The minimum loan amount is \$500 and the maximum loan amount is the lesser of one-half of the participant's vested account balance or \$50,000. The duration of the loan is not to exceed five years, except for loans used to finance the purchase of a primary residence. The loans are secured by the balance in the participant's account and interest rates are based on the prevailing interest rates charged under similar circumstances, and remain fixed throughout the life of the loan. Principal and interest are paid ratably through payroll deductions and loans are due immediately upon termination of employment. As of September 30, 2015, the outstanding loans bear interest at the rate of 4.25% with maturity dates ranging from February 2016 to August 2025.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 1 – DESCRIPTION OF THE PLAN (Continued)

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant may receive a lump-sum distribution, a direct rollover distribution, or a combination of cash and direct rollover distribution equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum cash distribution. If a terminated participant's vested interest in his/her account is between \$1,000 and \$5,000 and no instructions have been received from such participant, the amount may be rolled over to an individual retirement account plan as designated by the plan administrator. A balance less than \$1,000 may be distributed directly to the participant as a lump-sum payment and a balance greater than \$5,000 may be left in the Plan.

Forfeited Accounts – The non-vested portion of a terminated participant's account balance is forfeited. Forfeited accounts are applied to reduce future employer contributions under the Plan. As of September 30, 2015 and 2014, there were no forfeited non-vested accounts.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The Plan's financial statements are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results may differ from those estimates.

Investment Valuation and Income Recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Notes Receivable from Participants – Notes receivable from participants represent loans to participants and are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits – Benefits are recorded when paid.

Administrative Expenses – Generally, administrative costs are paid by the Company. Administrative fees on participant loans and distributions are charged to the individual account of the participant requesting the transaction. Fees paid by the Plan for investment management services are netted against net appreciation in fair value of investments.

Adoption of Recent Accounting Pronouncements – Effective October 1, 2014, the Plan adopted the Financial Accounting Standards Board (“FASB”) Accounting Standards Update (“ASU”) 2015-07, *Fair Value Measurement (Topic 820), Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. Under the guidance in ASU 2015-07, investments for which fair value is measured using the net asset value per share practical expedient will no longer be categorized within the fair value hierarchy levels, but will be presented as a reconciling item. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. ASU 2015-07 also eliminates the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value by limiting those disclosure requirements to investments for which the entity has elected to measure the fair value using that practical expedient.

Effective October 1, 2014, the Plan adopted FASB ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* (consensus of the FASB Emerging Issues Task Force). The overall objective of this ASU is to reduce complexity in employee benefit plan accounting. Some of its key provisions include the designation of contract value as the only required measure for fully benefit-responsive investment contracts and the elimination of certain disclosure requirements for investments.

Reclassifications – Certain accounts in the 2014 financial statements have been reclassified for comparative purposes to conform to the presentation in the 2015 financial statements. These reclassifications have had no effect on previously reported net assets available for benefits.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Subsequent Events – On November 30, 2015, the Plan changed its trustee and record-keeper from Fidelity Management Trust Company and Fidelity Investments Institutional Operations Company Inc., respectively, to Wells Fargo Bank, N.A. and Wells Fargo Institutional Retirement and Trust, respectively. The Plan's assets were transferred to Wells Fargo Bank N.A., the Plan's new trustee, on December 1, 2015.

The plan administrator has evaluated subsequent events through June 16, 2016, the date the Plan's financial statements were available for issuance.

NOTE 3 – FAIR VALUE MEASUREMENTS

The *Fair Value Measurements and Disclosures* topic of the FASB ASC defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under this guideline are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used are required to maximize the use of observable inputs and minimize the use of unobservable inputs.

SERVER TECHNOLOGY, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

September 30, 2015

NOTE 3 – FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the Plan's valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of September 30, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued at the net asset value of units of the collective trust. This investment is in a stable value fund composed primarily of fully benefit-responsive investment contracts. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; however, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company ("Fidelity") has certified the completeness and accuracy of all investments and notes receivable from participants presented on the accompanying statements of net assets available for benefits as of September 30, 2015 and 2014 and on the supplemental Schedule H, line 4i: Schedule of Assets (Held at End of Year) as of September 30, 2015, and the related investment income or loss, interest and dividend income, and interest income on notes receivable from participants presented on the statement of changes in net assets available for benefits for the year ended September 30, 2015.

NOTE 5 – TAX STATUS

The Company adopted a prototype plan which received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, stating that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has not filed for a separate determination letter; however, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Accordingly, no provision for federal or state income taxes is reflected in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the federal and state taxing authorities.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain Plan assets are held and managed by Fidelity, which also serves as the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services are netted against net appreciation in fair value of investments.

NOTE 7 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in any combination from among the funds offered through the trustee. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

The underlying securities of the Plan's investments could include securities with contractual cash flows, such as, but not limited to, asset-backed securities, collateralized mortgage obligations, and commercial mortgage-backed securities and real estate. The value, liquidity and related income of these securities may be particularly sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by real or perceived difficulties of the issuers, changes in interest rates and conditions in financial markets.

In the event of Plan termination, participants will become 100% vested in their accounts.
