Note 1 - Description of Plan

The following brief description of the Nunhems USA, Inc. 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions. Effective September 30, 2015, the Plan was terminated (see Note 3).

General

The Plan was a defined contribution plan covering qualified employees of Nunhems USA, Inc. (the Company). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility

Employees were eligible to participate in the Plan if they were full-time employees or seasonal employees expected to work six months or more for the Company and were 18 years of age or older.

To be eligible to receive nonelective and discretionary nonelective contributions, employees had to be active participants in the Plan during the plan year, employed on the last day of the contribution period and complete at least 1,000 hours of service during the plan year, unless terminated due to death, disability, or retirement on or after age 65.

Entry Date

Employees could enter the Plan on any date coinciding with or following the date they satisfied the Plan's eligibility requirements.

Contributions

Each year, participants could contribute up to 75% of their pretax annual compensation, as defined in the Plan. Contributions were subject to certain Internal Revenue Code (IRC) limitations. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. The Plan allowed participants to designate contributions as Roth 401(k) contributions. The Company elected to make matching contributions to all participants in an amount equal to 100% of the first 3% of their eligible compensation, and 50% of the next 2% of their eligible compensation, contributed to the Plan as deferral contributions. Participants could also contribute amounts representing distributions from other qualified plans.

The following table summarizes the formula used to calculate nonelective contributions based on years of service and eligible earnings:

<u>Years of Service</u>	<u>% of Eligible Earnings</u>
1	1.33%
2	2.67%
3 or more	4%

During the period ended January 6, 2016, no contributions were made. Additional amounts could be contributed at the discretion of the Company's Board of Directors. No such additional discretionary contributions were made for the period ended January 6, 2016.

Participant Accounts

Each participant's account was credited with the participant's contribution and the Company's matching and nonelective contribution, as well as an allocation of the Company's discretionary contribution and Plan earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant's earnings, account balances or specific participant transactions, as defined by the plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options

Upon enrollment to the Plan, a participant could direct deferrals and Company contributions in any of the funds offered by the Plan. Participants could change their investment options daily.

Vesting

Participants were fully vested in participant contributions to the Plan and in Company contributions to the Plan upon entry to the Plan and at all times thereafter.

Notes Receivable from Participants

Participants could borrow from their fund accounts, a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans were secured by the balance in the participant's account and bore interest at rates commensurate with local prevailing rates at the time funds were borrowed, as determined by the Plan Administrator. Interest rates range from 3.25% to 8.25%. Principal and interest was paid ratably through payroll deductions over a period not to exceed five years, unless the proceeds of the loan were used to acquire the participant's residence, in which case the loan would have been 15 years. A participant could have no more than one outstanding loan at any one time and could not take out more than one loan in any 12 month period.

Payment of Benefits

Participants could elect to receive either a lump-sum amount equal to the value of their vested interest or annual installments as defined in the plan document upon retirement, termination, death or disability. A terminated employee with a balance of less than \$1,000 could be automatically paid out by the Plan upon termination. Any terminated participants with a balance between \$1,000 and \$5,000 could be automatically paid out if their balance was rolled into a qualified Individual Retirement Account. Distributions could be made at the participant's election prior to termination upon attainment of age 59 ½ or financial hardship as defined in the plan document.

Death Benefits

The designated beneficiary was entitled to a death benefit distribution equal to the participant's vested account balance.

Note 2 - Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the liquidation basis of accounting.

Investments held by a defined contribution plan that has elected to terminate are required to be reported under the liquidation basis of accounting. Liquidation basis is the appropriate basis as it adjusts the values and assumptions used and represents the amounts participants will receive upon termination of the Plan.

Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as those held during the year.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivables were reclassified as distributions based upon the terms of the plan document. No allowance for credit losses was recorded as of January 6, 2016 and December 31, 2015.

Payments of Benefits

Benefits were recorded when paid to participants.

Administrative Fees

The Plan's expenses were paid by either the Plan or the Company, as provided by the plan document. Expenses that were paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying statement of changes in net assets in liquidation available for benefits. In addition, certain investment related expenses were included in the net appreciation of fair value of investment presented in the accompanying statement of changes in net assets in liquidation available for benefit.

Note 3 - Plan Termination

Effective September 30, 2015, the Company made the election to terminate the Plan. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting used to value plan assets from the ongoing basis to the liquidation basis for periods after September 30, 2015. As of January 6, 2016, accounts were transferred to another qualified plan sponsored by the Company.

Note 4 - Fair Value Measurements

The framework for measuring fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other mean.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at January 6, 2016 and December 31, 2015.

Mutual funds: Valued at fair value based on the quoted net asset value of shares held by the Plan at year end.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no assets held as of January 6, 2016 (see Note 3).

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	2015			
	Level 1	Level 2	Level 3	Total
Mutual Funds				
Specialty	\$ 2,888	\$ -	\$ -	\$ 2,888
Total investments at fair value	<u>\$ 2,888</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 2,888</u>

Note 5 - Information Certified by the Plan Trustee

The Plan Administrator elected the method of compliance permitted by Section 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Accordingly, as permitted under such election, no independent auditing procedures were performed with respect to the information certified by Fidelity Management Trust Company.

The Plan Trustee certified its statement of accounts as of January 6, 2016 and December 31, 2015, and for the period from January 1, 2016 to January 6, 2016. The statement of accounts includes beginning and ending balances of investments held, notes receivable from participants, and detail of all transactions during the period, including investment earnings and interest income on notes receivable from participants.

Note 6 - Tax Status

The Plan used a volume submitter plan document sponsored by Fidelity Management and Research Co, which received an advisory letter from the Internal Revenue Service (IRS), dated March 31, 2014, stating that the volume submitter plan document satisfies the applicable provisions of the IRC. The Plan itself had not received a determination letter from the IRS and the volume submitter plan had been amended since receiving the advisory letter. However, the Plan's management believed that the Plan was currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan had taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator had analyzed the tax positions taken by the Plan, and had concluded that as of January 6, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax periods in progress.

Note 7 - Related Party and Party-in-Interest Transactions

Certain plan investments, held throughout 2015, were shares of mutual funds managed by Fidelity Management Trust Company, the Trustee as defined by the Plan.
