NARUS, INC. 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Narus, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General – The Plan was a defined contribution 401(k) plan covering certain employees of Narus, Inc. (the Company). The Company is a subsidiary of The Boeing Company. Prior to January 15, 2015, an employee became eligible to participate immediately following or coincident with the date they attained age 21. The Plan was subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Certain assets of the Company were sold effective December 31, 2014, and no employer or employee contributions were made to the Plan after that date. The Plan was merged into The Boeing Company Voluntary Investment Plan (VIP) effective April 1, 2016.

Administration – Effective January 1, 2015, the Board of Directors of the Company managed the operation and administration of the Plan. Prior to January 1, 2015, the 401(k) Investment Committee of the Company managed the operation and administration of the Plan. Fidelity Management Trust Company (Fidelity) acted as the trustee and custodian, and an affiliate of Fidelity acted as a third-party administrator to process and maintain the records of participant data.

Contributions – Prior to January 15, 2015, contributions to the Plan were in the form of salary reductions which participants elected to defer in lieu of current compensation. Participants could elect to contribute, subject to statutory limitations, up to 90% of their base pay and up to 100% of any bonus pay. The total amount of a participant's bonus and deferral contributions for any Plan year could not exceed 90% of eligible compensation or applicable Internal Revenue Code (IRC) limits. Participants age 50 or older were allowed to make catch-up contributions. Participants could elect to change contribution percentages to be effective the first day of each month after the request was received or as soon as administratively feasible. The Plan allowed active employees to contribute to the Plan from pre-tax compensation. The Plan also accepted certain rollover contributions from other tax-qualified employer-sponsored retirement plans.

Prior to January 15, 2015, under the terms of the Plan, the Company could make nondiscretionary matching or discretionary profit sharing and qualified nonelective contributions for eligible participants.

Participant accounts – Individual accounts were maintained for each Plan participant. Each participant's account was credited with the participant's contributions and any Company contributions, and was credited with allocations of Plan earnings (losses) from the funds in which the account was invested, and charged with an allocation of investment-related expenses and participant-specific charges, if applicable. Allocations were based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting – Participants were fully vested in their rollover and elective contributions and all employer contributions, including accumulated earnings.

Withdrawals – Participants could elect to withdraw all or a portion of their pre-tax contribution and rollover and employer matching accounts at any time on or after the day the participants attained age 59-1/2. If a participant was under age 59-1/2, withdrawals from pre-tax contribution accounts were subject to certain hardship rules as provided by the Plan. Prior to January 1, 2015, if a participant took a hardship withdrawal, the participant's salary deferrals were suspended for six months from the date of the hardship withdrawal. Withdrawals of rollover contributions could be made at any time.

Notes receivable from participants – Prior to January 1, 2015, active participants could borrow a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their total vested account balance at the time of the loan issuance, reduced by the excess (if any) of the highest outstanding balance of Plan loans during the one-year period ending on the day before the loan was made over the outstanding balance of Plan loans on the date the loan was made. Loans could be further limited in accordance with Plan provisions.

Prior to January 1, 2015, loan repayments were made through regular payroll deductions for a period of up to 60 months for general loans and over a longer period for loans used to finance the purchase of a principal residence. If a participant's employment was terminated for any reason, and the loan balances were not paid in full by the termination date, the participant could continue to make monthly loan repayments until the loan was scheduled to be paid off. Subsequent to December 31, 2014, participant loan repayments were made by checks sent directly to Fidelity. A loan would continue to be subject to default if a payment was not made for 90 days, an outstanding loan balance remained 30 days after the scheduled payoff date, or the participant took a full distribution of their account before the loan was paid off. If the loan defaulted, the loan balance became taxable income to the participant.

NOTE 1 – DESCRIPTION OF THE PLAN (CONTINUED)

Benefit payments – On termination of service, death, or disability, a participant could elect to receive a lump sum amount equal to the value of the participant's vested interest in his/her account, roll the account balance to another company's qualified plan or an individual retirement account, or defer distribution until a later date of his/her choosing. If a participant made no distribution election, annual distributions of the required minimum amount would begin after age 70-1/2. Participants with vested benefits of \$1,000 or less at termination could automatically receive a lump-sum payment of their entire vested balance.

Investment funds – Upon enrollment in the Plan, participants could direct their contributions and any employer matching contributions to any of the investment options in the Plan. These investment options consisted of mutual funds including a money market mutual fund. Participants could elect to change their investment options and/or their deferral percentages for deferrals effective the first day of the month following the month they submitted a change of investment allocation form to the Plan administrator during the election periods established by the Plan administrator.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates – The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and uncertainties – The Plan's investments were exposed to various risks, such as interest rate risk, credit risk, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities would occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Valuation of investments and income recognition – The Plan's investments were stated at fair value. Fair value of the financial instrument is the price that would be received to sell an asset or paid to transfer a liability ("exit price") in an orderly transaction between market participants at the measurement date. The Plan's investments in mutual funds and the money market fund were valued at the net asset value of shares held by the Plan at year end as quoted in an active market.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Interest income was recorded on the accrual basis of accounting. Net depreciation in fair value of investments consisted of gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants – Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of benefits – Benefits were recorded when paid.

Expenses – Necessary and proper expenses of the Plan were paid from the Plan's assets, except for those expenses the Company was required by law or chose to pay.

Recently adopted accounting guidance – In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)* – I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III Measurement Date Practical Expedient.

Part II of ASU No. 2015-12 is applicable for the Plan and it simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) for investments by general type, and (iii) investment information disaggregated based on the nature, characteristics and risks. Effective January 1, 2015, the Plan adopted ASU No. 2015-12 retrospectively. The ASU affects investment disclosures of the Plan only and has no impact on the statements of net assets and changes in net assets available for benefits.

NARUS, INC. 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS

Subsequent events – The Plan evaluated subsequent events through June 24, 2016, the date the financial statements were available to be issued.

NOTE 3 – FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820 established a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Values are based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities. An active market is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 – Values are based on: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in nonactive markets; or (c) valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 – Values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement.

The preceding methods may produce a fair value calculation that may not have been indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments by general types of assets measured at fair value on a recurring basis at December 31, 2015 and 2014. As required by ASC 820, assets were classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's policy was to recognize significant transfers between levels, if any, at the beginning of the reporting period.

NOTE 4 – INFORMATION CERTIFIED BY THE TRUSTEE

Fidelity was the trustee and custodian of the Plan. The following summary of unaudited information included in the Plan's financial statements was certified by Fidelity as of March 31, 2016 and December 31, 2015 and 2014, and for the period January 1, 2016 through March 31, 2016 and the year ended December 31, 2015. The information was furnished to the Plan administrator, and the Plan administrator obtained certifications from Fidelity that the following information was complete and accurate.

1. Investments at fair value as of December 31, 2015 and 2014
2. Investment income (loss) for the period January 1, 2016 through March 31, 2016 and the year ended December 31, 2015
3. Notes receivable from participants as of December 31, 2014
4. Interest income on notes receivable from participants for the year ended December 31, 2015
5. Information contained in the supplemental schedule of assets (held at end of year) as of December 31, 2015

NOTE 5 – TAX STATUS

The Plan was based on a volume submitter standardized defined contribution plan that received an advisory letter dated March 31, 2014, in which the Internal Revenue Service (IRS) stated that the volume submitter plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan was amended since the date of the advisory letter; however, the Plan administrator believed that the Plan was designed and was being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believed the Plan's tax-exempt status was not affected, and no provision for income taxes was included in the Plan's financial statements.

NOTE 6 – RELATED PARTY TRANSACTIONS

The Plan invested in certain mutual funds and a money market fund managed by the trustee. Therefore, those transactions qualified as exempt party-in-interest transactions.

NOTE 7 – PROHIBITED TRANSACTION

On March 17, 2015, a reportable nonexempt party-in-interest transaction occurred. The balance in the Plan's forfeiture account was inadvertently returned to the Company. On April 1, 2016, the Plan was merged into the VIP. The VIP was corrected according to the guiding principles of the Department of Labor's Voluntary Fiduciary Correction Program, which involved remitting the total principal amount of \$1,149 and associated earnings to the VIP in 2016.
