Independent Auditor's Report

To the Participants and
Plan Administrator of the
Computer Task Group, Inc.
401(k) Retirement Plan:

Report on the Financial Statements
We have audited the accompanying financial statements of the Computer Task Group, Inc. 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(Continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Computer Task Group, Inc. 401(k) Retirement Plan as of December 31, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held as of December 31, 2015 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1. - DESCRIPTION OF THE PLAN

The following description of the Computer Task Group, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code (IRC). The Plan is funded by employee and employer contributions and covers substantially all U.S. based employees of Computer Task Group, Incorporated (CTG or the Company) who complete one hour of service. The assets of the Plan are maintained in mutual funds, a common collective trust fund, and an employer stock fund held by Reliance Trust Company, the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974.

Contributions - During 2015, the Plan provided for employee pre-tax contributions ranging from 1% to 100% of salary, up to the maximum annual limitations allowed by the IRC. Also during 2015, a Roth 401k feature was added to the plan. Previously, the maximum contribution limit was 30% of salary. Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions, also as allowed by the IRC. The Company may contribute one-half of each participant's elective contribution, not to exceed 2% of compensation, for employees who work at least one hour during the Plan year. In addition, the Plan may contribute a discretionary supplemental matching contribution. The supplemental matching contribution is equal to one-half of each participant's elective contribution greater than 4%, but less than or equal to 6% of compensation for employees who work at least 1,000 hours during a 12 month period, and complete one year of service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan and may initiate one electronic or telephonic fund exchange each business day up to an annual limit of 20 fund exchanges each calendar year. Additional exchanges must be executed via U.S. mail.

Vesting - Participants are vested immediately in their own contributions, including actual earnings or losses thereon. Participants become 20% vested in employer contributions after two years, 50% vested after three years of service, and fully vested after four years of service. Should the Plan be deemed top-heavy as defined under ERISA guidelines, an alternate vesting schedule will apply for those top-heavy years. The Plan was not deemed to be top-heavy in either 2015 or 2014.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to limit or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in employer contributions.

Forfeitures - Amounts forfeited by participants are used to reduce future employer contributions. Forfeitures used to reduce employer contributions during the year ended December 31, 2015 totaled $515,991 ($847,095 - 2014). At December 31, 2015, there were $314,109 of unapplied forfeitures ($28,069 - 2014).

Notes Receivable from Participants – Participants may borrow from their fund accounts, starting at a minimum of $1,000 and increasing up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Loan terms range from 1-5 years and may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's

account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Withdrawals and Distributions - Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or the actual retirement date occurs. The normal retirement date is the date upon which a participant reaches age 65.

Participants may receive their accumulated vested benefits held by the Plan's trustee upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death, or disability, if their account balance is in excess of $5,000. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses. Terminated participants with an account balance in excess of $1,000, but less than $5,000, who have not elected to receive their vested account balances will receive distribution of their accounts and the funds will automatically be transferred to an IRA at Millennium Trust Company.

Participants who reach age 59-1/2, but who are not separated from service, may withdraw from the Plan up to 100% of the value of their non-forfeitable interest in the Plan.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accounts of the Plan are maintained on an accrual basis of accounting.

Accounting Estimates - The process of preparing financial statements requires management to use estimates and assumptions that affect certain types of assets, liabilities and changes therein. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, actual results may differ from estimated amounts.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition – All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date. See Note 3 for discussion of fair value measurements.

In accordance with U.S. GAAP, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts as contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the Plan. The Plan invests in investment contracts through a collective trust. As required, the Statements of Net Assets Available for Benefits present the fair values of the investments in the collective trust as well as the adjustments of the investments in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Benefits are recorded when paid.

Payment of Benefits - Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan, such as the audit fee, are paid directly by the Company and are excluded from these financial statements. Certain expenses incurred by the plan administrator, investment manager, and trustee for their services and costs in administering the Plan are paid directly either by the Company or the Plan.

Income Taxes – The Internal Revenue Service has determined and informed the Company by letter dated March 28, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related trust is tax-exempt.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements - In July 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-12, "Plan Accounting: Defined Benefit Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965)." The standard (1) requires an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts, (2) simplifies and increases the effectiveness of plan investment disclosure requirements for employee benefit plans, and (3) provides employee benefit plans with a measurement-date practical expedient. The standard will be effective for the Plan beginning in fiscal 2017, with early adoption permitted. The Plan Administrator is currently evaluating the standard and does not believe it will have a material impact on the Plan's financial statements.

In May 2015, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Assets Value per Share (or its Equivalent)." The standard removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient. The standard will be effective for the Plan beginning in fiscal year 2017, with early adoption permitted, and, will be applied retrospectively. The Plan Administrator is currently evaluating the standard and does not believe it will have material impact on the Plan's financial statement.

Subsequent Events - These financial statements have not been updated for subsequent events occurring after June 27, 2016 which is the date these financial statements were available to be issued.

NOTE 3. - FAIR VALUE OF INVESTMENTS

Fair value is defined as the exchange price that would be received for an asset or paid for a liability in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants. The Company utilizes a fair value hierarchy for its assets and liabilities, as applicable, based upon three levels of input, which are:

Level 1 - quoted prices in active markets for identical assets or liabilities (observable)

Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in inactive markets, or other inputs that are observable or can be supported by observable market data for essentially the full term of the asset or liability (observable)

Level 3- unobservable inputs that are supported by little or no market activity, but are significant to determining the fair value of the asset or liability (unobservable)

NOTE 3. - FAIR VALUE OF INVESTMENTS (CONTINUED)

The following provides a description of the types of Plan investments that fall under each category, and the valuation methodologies used to measure these investments at fair value.

Shares of Registered Investment Companies: These investments are public investment securities valued using the Net Asset Value (NAV). Information regarding the value of these investments is provided to CTG by MassMutual. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market on which the securities are traded. Shares of registered investment companies are classified as Level 1 investments.

Computer Task Group, Inc. Common Stock Fund: This fund represents employer securities valued at the closing price reported on the active market on which the individual securities are traded. A small portion of the fund is invested in short-term money market instruments. The money market portion of the fund provides liquidity, which enables the Plan participants to transfer money daily among all investment choices. This common stock fund is classified as a Level 1 investment.

Common/Collective Trust: Starting on May 1, 2014 fund assets were invested into the Invesco Stable Value Fund, which holds public investment securities valued using the NAV provided by MassMutual and is classified as a Level 2 investment. The NAV was quoted on a private market that was not active; however the unit price was based on underlying investments which were traded on an active market or had observable inputs. The common/collective trust fund's underlying investments sought to preserve capital and provide a competitive level of income over time that was consistent with the preservation of capital. The common/collective trust fund did not have any unfunded commitments relating to its investments, nor any significant restrictions on redemptions. Prior to May 1, 2014, the funds were invested in money market investments classified as Level 1 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 3. - FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth financial assets measured at fair value in the Statements of Net Assets Available for Benefits and the respective levels to which the fair value measurements are classified within the fair value hierarchy as of December 31, 2015 and 2014:

Report of Independent Registered Public Accounting Firm

To the Participants and Retirement Committee
of the Computer Task Group, Inc.
401(k) Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the Computer Task Group, Inc. 401(k) Plan (the Plan) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Computer Task Group, Inc. 401(k) Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying Schedule of Assets Held as of December 31, 2015, has been subjected to audit procedures performed in conjunction with the audit of Computer Task Group, Inc. 401(k) Retirement Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

To the Retirement Committee of
Computer Task Group, Inc.:

We have audited the financial statements of the Computer Task Group 401k (the Plan) for the year ended December 31, 2015, and have issued our report thereon dated June 27, 2016. Professional standards require that we provide you with the following information about our audit.

Significant and Critical Accounting Policies and Practices

Management is responsible for the selection and use of appropriate accounting policies. We will advise management about the appropriateness of accounting policies and their application. The Plan's significant accounting policies are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2015. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus or diversity in practice. All significant transactions have been recognized in the financial statements in the proper period.

Critical accounting policies and practices are those that are both most important to the portrayal of the Plan's financial condition and results and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. The critical accounting policies used by the Plan in its 2015 financial statements are described in Note 3 to the financial statements and relate to the policies the Plan uses to account for the fair value of investments. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of investments. Although the Plan believes its valuation methods are appropriate, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement.

Critical Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Critical accounting estimates are estimates for which (a) the nature of the estimate is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change and (b) the impact of the estimate on the financial statements is material. The Plan's critical accounting estimate affecting the financial statements was management's estimate of the fair value of investments, which is primarily based on quoted market values

for the Computer Task Group, Inc. Common Stock Fund and shares of registered investment companies and the net asset value of the common/collective trust as further described in Note 3 to the financial statements. We evaluated the key factors and assumptions used to develop the fair value in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was the disclosure of the fair value measurements in Note 3 to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Significant Unusual Transactions

For purposes of this letter, professional standards define *significant unusual transactions* as transactions that are outside the normal course of business for the Plan or that otherwise appear to be unusual due to their timing, size or nature. We noted no significant unusual transactions during our audit.

Related Party Relationships and Transactions

As part of our audit, we evaluated the Plan's identification of, accounting for, and disclosure of its relationships and transactions with related parties as required by professional standards. We noted no related parties or related party relationships or transactions that were previously undisclosed to us; significant related-party transactions that have not been approved in accordance with the Plan's policies or procedures or for which exceptions to the Plan's policies or procedures were granted; or significant related party transactions that appeared to lack a business purpose.

Quality of the Plan's Financial Reporting

Management is responsible not only for the appropriateness of the accounting policies and practices, but also for the quality of such policies and practices. Our responsibility under professional standards is to evaluate the qualitative aspects of the Plan's accounting practices, including potential bias in management's judgments about the amounts and disclosures in the financial statements, and to communicate the results of our evaluation and our conclusions to you. We did not detect any bias in management's selection and application of accounting principles or accounting estimates or differences between estimates best supported by the audit evidence and estimates included in the financial statements. Management's disclosures related to the Plan's critical accounting policies are appropriate and the presentation of the financial statements and related disclosures are in conformity with GAAP.

Uncorrected and Corrected Misstatements

Professional standards require us to accumulate misstatements identified during the audit, other than those that are clearly trivial and to communicate accumulated misstatements to management. We noted no such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no disagreements with management arose during the course of our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Information in Documents Containing Audited Financial Statements

The Plan's audited financial statements are included in its Form 5500 and Form 11-K. Our responsibility for the other information in documents containing the plan's financial statements and our auditor's reports does not extend beyond the financial information identified in our audit reports. We do not have an obligation to perform any procedures to corroborate the other information contained in the Form 5500 and Form 11-K. However, we read the other information and considered whether such information, or the manner of its presentation, was materially inconsistent with information, or the manner of its presentation, appearing in the financial statements. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, was materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Retirement Committee and management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very Truly Yours,

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the incorporation by reference in the Registration Statement (File No. 333-39936) of Computer Task Group, Incorporated on Form S-8 of our report dated June 27, 2016, appearing in this Annual Report on Form 11-K of the Computer Task Group, Inc. 401(k) Retirement Plan for the year ended December 31, 2015 and 2014.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2015 - 12/31/2015 and indirect compensation is presented on a calendar year basis ending 12/31/2015.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because, among other potential considerations, plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

****

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

---

[1]Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

FORM 5500 SCHEDULE C REPORT
SCHEDULE C, LINE 2(h) AND LINE 3(e) FORMULA DESCRIPTION

CTG, INC. 401(K) RETIREMENT PLAN (990500115)
EIN #: 16-0912632

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2015 - 12/31/2015 and indirect compensation is presented on a calendar year basis ending 12/31/2015.

For use with lines 2(h), 3(c), 3(d), 3(e)

Total Direct Compensation Paid **$113,393.04**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the plan year. Service providers which have received portions of these direct fees are listed below, along with the amount of fees they received. Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: MassMutual Retirement Services, LLC EIN: 26-1589907

Service Codes: 15, 37, 38, 49, 59, 60, 62, 63, 64, 65, 72, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$38,093.11**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2015 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to MassMutual Retirement Services, LLC ("MMRS") are the net result of aggregating direct compensation after the effects of adjustments processed in 2015, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation Payor: Reliance Trust Company EIN: 58-1428634 **$204.47**

This is an estimate based on the average annual rate of float compensation (0.02% for 2015) earned on certain processing bank accounts for the 2015 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted to MassMutual cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

The list includes any investment option held by the plan on at least one month end during the 2015 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each fund, multiply the rate of fees received from each fund by your plan's year-end balance (or if the fund was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the fund at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

Independent Auditor's Report

To the Participants and
Plan Administrator of the
Computer Task Group, Inc.
401(k) Retirement Plan:

Report on the Financial Statements
We have audited the accompanying financial statements of the Computer Task Group, Inc. 401(k) Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Plan Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

(Continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Computer Task Group, Inc. 401(k) Retirement Plan as of December 31, 2015 and 2014, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held as of December 31, 2015 is presented for the purpose of additional analysis and is not a required part of the financial statements, but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTE 1. - DESCRIPTION OF THE PLAN

The following description of the Computer Task Group, Inc. 401(k) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code (IRC). The Plan is funded by employee and employer contributions and covers substantially all U.S. based employees of Computer Task Group, Incorporated (CTG or the Company) who complete one hour of service. The assets of the Plan are maintained in mutual funds, a common collective trust fund, and an employer stock fund held by Reliance Trust Company, the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974.

Contributions - During 2015, the Plan provided for employee pre-tax contributions ranging from 1% to 100% of salary, up to the maximum annual limitations allowed by the IRC. Also during 2015, a Roth 401k feature was added to the plan. Previously, the maximum contribution limit was 30% of salary. Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions, also as allowed by the IRC. The Company may contribute one-half of each participant's elective contribution, not to exceed 2% of compensation, for employees who work at least one hour during the Plan year. In addition, the Plan may contribute a discretionary supplemental matching contribution. The supplemental matching contribution is equal to one-half of each participant's elective contribution greater than 4%, but less than or equal to 6% of compensation for employees who work at least 1,000 hours during a 12 month period, and complete one year of service. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan and may initiate one electronic or telephonic fund exchange each business day up to an annual limit of 20 fund exchanges each calendar year. Additional exchanges must be executed via U.S. mail.

Vesting - Participants are vested immediately in their own contributions, including actual earnings or losses thereon. Participants become 20% vested in employer contributions after two years, 50% vested after three years of service, and fully vested after four years of service. Should the Plan be deemed top-heavy as defined under ERISA guidelines, an alternate vesting schedule will apply for those top-heavy years. The Plan was not deemed to be top-heavy in either 2015 or 2014.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to limit or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in employer contributions.

Forfeitures - Amounts forfeited by participants are used to reduce future employer contributions. Forfeitures used to reduce employer contributions during the year ended December 31, 2015 totaled $515,991 ($847,095 - 2014). At December 31, 2015, there were $314,109 of unapplied forfeitures ($28,069 - 2014).

Notes Receivable from Participants – Participants may borrow from their fund accounts, starting at a minimum of $1,000 and increasing up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. Loan terms range from 1-5 years and may exceed five years for the purchase of a primary residence. The loans are secured by the balance in the participant's

account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

NOTE 1. - DESCRIPTION OF THE PLAN (CONTINUED)

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Withdrawals and Distributions - Unless a participant elects otherwise, distributions will be made as soon as practical after a participant's normal retirement date or the actual retirement date occurs. The normal retirement date is the date upon which a participant reaches age 65.

Participants may receive their accumulated vested benefits held by the Plan's trustee upon termination of employment or elect to keep their vested balance in the Plan until the earlier of normal retirement age, death, or disability, if their account balance is in excess of $5,000. If the participant elects to keep their vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses. Terminated participants with an account balance in excess of $1,000, but less than $5,000, who have not elected to receive their vested account balances will receive distribution of their accounts and the funds will automatically be transferred to an IRA at Millennium Trust Company.

Participants who reach age 59-1/2, but who are not separated from service, may withdraw from the Plan up to 100% of the value of their non-forfeitable interest in the Plan.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The accounts of the Plan are maintained on an accrual basis of accounting.

Accounting Estimates - The process of preparing financial statements requires management to use estimates and assumptions that affect certain types of assets, liabilities and changes therein. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, actual results may differ from estimated amounts.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition – All investments are carried at fair value or an approximation of fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date. See Note 3 for discussion of fair value measurements.

In accordance with U.S. GAAP, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit responsive investment contracts as contract value is the amount participants would receive if they were to initiate permitted transactions under the term of the Plan. The Plan invests in investment contracts through a collective trust. As required, the Statements of Net Assets Available for Benefits present the fair values of the investments in the collective trust as well as the adjustments of the investments in the collective trust from fair value to contract value relating to the investment contracts. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Benefits are recorded when paid.

Payment of Benefits - Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan, such as the audit fee, are paid directly by the Company and are excluded from these financial statements. Certain expenses incurred by the plan administrator, investment manager, and trustee for their services and costs in administering the Plan are paid directly either by the Company or the Plan.

Income Taxes – The Internal Revenue Service has determined and informed the Company by letter dated March 28, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan's administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC, and therefore believe the Plan is qualified and the related trust is tax-exempt.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

New Accounting Pronouncements - In July 2015, the Financial Accounting Standards Board (FASB) issued ASU 2015-12, "Plan Accounting: Defined Benefit Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965)." The standard (1) requires an employee benefit plan to use contract value as the only measurement amount for fully benefit-responsive investment contracts, (2) simplifies and increases the effectiveness of plan investment disclosure requirements for employee benefit plans, and (3) provides employee benefit plans with a measurement-date practical expedient. The standard will be effective for the Plan beginning in fiscal 2017, with early adoption permitted. The Plan Administrator is currently evaluating the standard and does not believe it will have a material impact on the Plan's financial statements.

In May 2015, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Assets Value per Share (or its Equivalent)." The standard removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using the practical expedient. The standard will be effective for the Plan beginning in fiscal year 2017, with early adoption permitted, and, will be applied retrospectively. The Plan Administrator is currently evaluating the standard and does not believe it will have material impact on the Plan's financial statement.

Subsequent Events - These financial statements have not been updated for subsequent events occurring after June 27, 2016 which is the date these financial statements were available to be issued.

NOTE 3. - FAIR VALUE OF INVESTMENTS

Fair value is defined as the exchange price that would be received for an asset or paid for a liability in the principal or most advantageous market for the asset or liability, in an orderly transaction between market participants. The Company utilizes a fair value hierarchy for its assets and liabilities, as applicable, based upon three levels of input, which are:

Level 1 - quoted prices in active markets for identical assets or liabilities (observable)

Level 2 - inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities, quoted prices in inactive markets, or other inputs that are observable or can be supported by observable market data for essentially the full term of the asset or liability (observable)

Level 3- unobservable inputs that are supported by little or no market activity, but are significant to determining the fair value of the asset or liability (unobservable)

NOTE 3. - FAIR VALUE OF INVESTMENTS (CONTINUED)

The following provides a description of the types of Plan investments that fall under each category, and the valuation methodologies used to measure these investments at fair value.

Shares of Registered Investment Companies: These investments are public investment securities valued using the Net Asset Value (NAV). Information regarding the value of these investments is provided to CTG by MassMutual. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market on which the securities are traded. Shares of registered investment companies are classified as Level 1 investments.

Computer Task Group, Inc. Common Stock Fund: This fund represents employer securities valued at the closing price reported on the active market on which the individual securities are traded. A small portion of the fund is invested in short-term money market instruments. The money market portion of the fund provides liquidity, which enables the Plan participants to transfer money daily among all investment choices. This common stock fund is classified as a Level 1 investment.

Common/Collective Trust: Starting on May 1, 2014 fund assets were invested into the Invesco Stable Value Fund, which holds public investment securities valued using the NAV provided by MassMutual and is classified as a Level 2 investment. The NAV was quoted on a private market that was not active; however the unit price was based on underlying investments which were traded on an active market or had observable inputs. The common/collective trust fund's underlying investments sought to preserve capital and provide a competitive level of income over time that was consistent with the preservation of capital. The common/collective trust fund did not have any unfunded commitments relating to its investments, nor any significant restrictions on redemptions. Prior to May 1, 2014, the funds were invested in money market investments classified as Level 1 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 3. - FAIR VALUE OF INVESTMENTS (CONTINUED)

The following tables set forth financial assets measured at fair value in the Statements of Net Assets Available for Benefits and the respective levels to which the fair value measurements are classified within the fair value hierarchy as of December 31, 2015 and 2014:

Report of Independent Registered Public Accounting Firm

To the Participants and Retirement Committee
of the Computer Task Group, Inc.
401(k) Retirement Plan

We have audited the accompanying statements of net assets available for benefits of the Computer Task Group, Inc. 401(k) Plan (the Plan) as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Computer Task Group, Inc. 401(k) Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

The supplemental information in the accompanying Schedule of Assets Held as of December 31, 2015, has been subjected to audit procedures performed in conjunction with the audit of Computer Task Group, Inc. 401(k) Retirement Plan's financial statements. The supplemental information is the responsibility of the Plan's management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information in the accompanying schedule, we evaluated whether the supplemental information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

June 27, 2016

To the Retirement Committee of
Computer Task Group, Inc.:

We have audited the financial statements of the Computer Task Group 401k (the Plan) for the year ended December 31, 2015, and have issued our report thereon dated June 27, 2016. Professional standards require that we provide you with the following information about our audit.

Significant and Critical Accounting Policies and Practices

Management is responsible for the selection and use of appropriate accounting policies. We will advise management about the appropriateness of accounting policies and their application. The Plan's significant accounting policies are described in Note 2 to the financial statements. No new accounting policies were adopted and the application of existing policies was not changed during 2015. We noted no transactions entered into by the Plan during the year for which there is a lack of authoritative guidance or consensus or diversity in practice. All significant transactions have been recognized in the financial statements in the proper period.

Critical accounting policies and practices are those that are both most important to the portrayal of the Plan's financial condition and results and require management's most difficult, subjective, or complex judgments, often as a result of the need to make estimates about the effects of matters that are inherently uncertain. The critical accounting policies used by the Plan in its 2015 financial statements are described in Note 3 to the financial statements and relate to the policies the Plan uses to account for the fair value of investments. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of investments. Although the Plan believes its valuation methods are appropriate, the use of different methodologies or assumptions to determine the fair value could result in a different fair value measurement.

Critical Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Critical accounting estimates are estimates for which (a) the nature of the estimate is material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change and (b) the impact of the estimate on the financial statements is material. The Plan's critical accounting estimate affecting the financial statements was management's estimate of the fair value of investments, which is primarily based on quoted market values

for the Computer Task Group, Inc. Common Stock Fund and shares of registered investment companies and the net asset value of the common/collective trust as further described in Note 3 to the financial statements. We evaluated the key factors and assumptions used to develop the fair value in determining that it is reasonable in relation to the financial statements taken as a whole.

Financial Statement Disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was the disclosure of the fair value measurements in Note 3 to the financial statements.

The financial statement disclosures are neutral, consistent, and clear.

Significant Unusual Transactions

For purposes of this letter, professional standards define *significant unusual transactions* as transactions that are outside the normal course of business for the Plan or that otherwise appear to be unusual due to their timing, size or nature. We noted no significant unusual transactions during our audit.

Related Party Relationships and Transactions

As part of our audit, we evaluated the Plan's identification of, accounting for, and disclosure of its relationships and transactions with related parties as required by professional standards. We noted no related parties or related party relationships or transactions that were previously undisclosed to us; significant related-party transactions that have not been approved in accordance with the Plan's policies or procedures or for which exceptions to the Plan's policies or procedures were granted; or significant related party transactions that appeared to lack a business purpose.

Quality of the Plan's Financial Reporting

Management is responsible not only for the appropriateness of the accounting policies and practices, but also for the quality of such policies and practices. Our responsibility under professional standards is to evaluate the qualitative aspects of the Plan's accounting practices, including potential bias in management's judgments about the amounts and disclosures in the financial statements, and to communicate the results of our evaluation and our conclusions to you. We did not detect any bias in management's selection and application of accounting principles or accounting estimates or differences between estimates best supported by the audit evidence and estimates included in the financial statements. Management's disclosures related to the Plan's critical accounting policies are appropriate and the presentation of the financial statements and related disclosures are in conformity with GAAP.

Uncorrected and Corrected Misstatements

Professional standards require us to accumulate misstatements identified during the audit, other than those that are clearly trivial and to communicate accumulated misstatements to management. We noted no such misstatements.

Disagreements with Management

For purposes of this letter, professional standards define a disagreement with management as a matter, whether or not resolved to our satisfaction, concerning a financial accounting, reporting, or auditing matter that could be significant to the financial statements or the auditor's report. We are pleased to report that no disagreements with management arose during the course of our audit.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Plan's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Information in Documents Containing Audited Financial Statements

The Plan's audited financial statements are included in its Form 5500 and Form 11-K. Our responsibility for the other information in documents containing the plan's financial statements and our auditor's reports does not extend beyond the financial information identified in our audit reports. We do not have an obligation to perform any procedures to corroborate the other information contained in the Form 5500 and Form 11-K. However, we read the other information and considered whether such information, or the manner of its presentation, was materially inconsistent with information, or the manner of its presentation, appearing in the financial statements. Nothing came to our attention that caused us to believe that such information, or its manner of presentation, was materially inconsistent with the information, or manner of its presentation, appearing in the financial statements.

Other Matters

With respect to the supplementary information accompanying the financial statements, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

This information is intended solely for the use of the Retirement Committee and management of the Plan and is not intended to be and should not be used by anyone other than these specified parties.

Very Truly Yours,

CONSENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We consent to the incorporation by reference in the Registration Statement (File No. 333-39936) of Computer Task Group, Incorporated on Form S-8 of our report dated June 27, 2016, appearing in this Annual Report on Form 11-K of the Computer Task Group, Inc. 401(k) Retirement Plan for the year ended December 31, 2015 and 2014.
