PARENT PETROLEUM, INC. 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN

The following description of the Parent Petroleum, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more comprehensive description of its provisions.

General. The Plan is a defined contribution plan with a 401(k) provision sponsored by Parent Petroleum, Inc. for its employees. The Plan permits substantially all the employees of Parent Petroleum, Inc.; Angel Associates, Limited Partnership; Parent Petroleum Retail; and CIMA Developers, Inc. (collectively the "Company" or "Employer") to participate. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Minnesota Life Insurance Company was the trustee of the Plan as of December 31, 2014 and through June 30, 2015, and as of July 1, 2015, Principal Life Insurance Company and Delaware Charter Guarantee and Trust Company d/b/a/ Principal Trust Company became the trustee of the Plan (collectively the "Trustees").

Eligibility. Employees become eligible to participate on the first day of the month subsequent to completing ninety days of service and reaching 18 years of age.

Participant Contributions. An eligible employee may elect to contribute a percentage of their pretax earnings to the Plan, which are limited and subject to amounts established by the Internal Revenue Code. A participant's earnings consist of total cash compensation of an employee including bonuses and overtime pay in a plan year. A participant's net earnings are comprised of earnings less all taxes and other deductions from gross earnings.

Employer Contributions. The Company may elect to make a discretionary matching contribution. Participants must be employed at the end of a Plan year to receive employer discretionary matching contributions. For the year ended December 31, 2015, the Company matched employee deferrals up to a maximum of 2% of gross wages of eligible employees.

Participants' Accounts. Each participant's account is credited with (a) the participant's contributions, (b) the Employer matching contributions and (c) self-directed plan earnings. Participant accounts are charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants. The Plan does not allow for participant loans.

Investment Options. Participants direct the investment of their contribution into various investment options offered by the Plan. All investments are maintained with the Trustees. Changes in allocation of future contributions and transfers among funds of presently invested contributions are permitted pursuant to the Plan provisions.

Vesting. Participants are always 100% vested in their employee 401(k) deferral contributions and earnings. Participants vest in their Employer matching accounts in accordance with the following table:

Completed Years of Service	Percentage of Account Balance Vested
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 – DESCRIPTION OF PLAN (Concluded)

Payment of Benefits. Benefit payments are generally paid in a lump sum as soon as practicable after employment with the Company has ended. Participants may also take in-service distributions after the participant has attained the age of 59-1/2 or has a financial hardship. Until such time as the funds are distributed, the participant is entitled to receive a pro rata share of fund earnings. A participant's account balance becomes fully vested upon death or disability. Upon resignation, participants are entitled to receive the vested portion of their account balance.

Forfeitures. Forfeiture accounts are used to reduce the Employer's contribution for the Plan year. There were no forfeitures during the year ended December 31, 2015. As of December 31, 2015 and 2014, there were no forfeited nonvested accounts.

Reclassification. Certain amounts in the 2014 financial statements have been reclassified in order to conform with the 2015 presentation

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting. The accompanying financial statements have been prepared on the accrual basis of accounting.

Fully-Benefit Responsive investment contracts held by a defined contribution plan are required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Estimates and Assumptions. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from these estimates. Future events and their effects cannot be predicted with certainty; accordingly, accounting estimates require the exercise of judgment. Accounting estimates used in the preparation of these financial statements change as new events occur, as more experience is acquired, as additional information is obtained and as the operating environment changes.

Investment Valuation and Income Recognition. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit Payments. Benefits are recorded when paid.

Administrative Expenses. Certain administrative expenses, including functions performed by officers or employees of the Company, are provided by the Company at no charge to the Plan, and the Company's management has no plans to obtain reimbursement of these expenses from the Plan.

Concentration of Credit Risk. Substantially all the Plan's investments are held by the Trustees.

Recent Pronouncement. The Plan early adopted the provisions of ASU 2015-12, *Plan Accounting*. Part I of ASU 2015-12 requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value. Under Part II of ASU 2015-12, certain disclosures regarding plan investments no longer required, such as the disclosure of individual investments that exceed 5% of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type. Other disclosures regarding plan investments have been simplified and require investments to be grouped only by general type rather than on the basis of nature, characteristics, and risks.

PARENT PETROLEUM, INC. 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE OF THE PLAN ASSETS

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule that was prepared by the Trustees and furnished to the plan administrator. The plan had two trustees during 2015. Minnesota Life Insurance Company from January 1 to June 30, 2015 and Principal Life Insurance Company from July 1 to December 31, 2015. The plan administrator has obtained certifications from the Trustees that such information is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Investment income, including net depreciation in value of investments, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Note 4: All investment balances.
- Supplemental Schedule: All investment balances included in the schedule.

NOTE 4 – FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2015 and 2014.

Pooled Separate Accounts. Investments in shares of pooled separate accounts held with an insurance company are stated at estimated fair value and are valued by the insurance company based on the net asset value of shares held by the Plan at year-end. The net asset value determined by the insurance company based on the market value of the underlying investments held in the pooled fund.

NOTES TO THE FINANCIAL STATEMENTS

NOTE 4 – FAIR VALUE MEASUREMENTS (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan administrator believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

Real Estate	-	29,336	-	29,336
Total investment assets at fair value	$ -	$ 3,231,849	$ -	$ 3,231,849

NOTE 5 – GUARANTEED INVESTMENT CONTRACT

The Plan's investment options included the Minnesota Life Guaranteed Return Account through June 30, 2015 and the Principal Financial Group Fixed Income Guaranteed Option subsequent to June 30, 2015 (collectively, the "Contracts"), which are both benefit-responsive investment contracts, held in an insurance company general account. The Contracts allow for earnings stability regardless of the volatility of the financial markets. The Contracts invest in conventional and synthetic guaranteed investment contracts ("GICs") issued by life insurance companies, banks and other financial institutions with excess cash invested in cash equivalents.

The Contracts are fully benefit-responsive. Contract value is the relevant measurement attribute for that portion of the net assets of the trust attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the underlying defined-contribution plans. Contract value represents contributions made plus interest accrued at the contract rate, less withdrawals. Synthetic investment contracts consist of investments together with contracts under which a bank or other institution provides for benefit-responsive withdrawals by Plan participants at contract value. For synthetic investment contracts, the fair value comprises the aggregate market values of the underlying investments in bond trusts, and the value of the wrap contracts, if any. The difference between valuation at contract value and fair value is reflected over time through the crediting rate formula provided for in the Contracts synthetic contracts. The crediting rate of the contract resets every quarter based on the performance of the underlying investment portfolio.

PARENT PETROLEUM, INC. 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 5 – GUARANTEED INVESTMENT CONTRACT (Concluded)

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

NOTE 6 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

The Plan investments are held and managed by the Trustees and, therefore, these transactions qualify as party-in-interest transactions.

NOTE 8 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the plan agreement used by the Plan was designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operating in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes has been recorded in the accompanying financial statements.

PARENT PETROLEUM, INC. 401(k) PLAN

NOTES TO THE FINANCIAL STATEMENTS

NOTE 9 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

NOTE 10 – DIFFERENCES BETWEEN FINANCIAL STATEMENTS AND FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 4,072,948	$ 4,374,371
Less: Employer contributions receivable at year end	(95,143)	(82,812)
Plus: Excess contributions liability	-	2,826
Net assets available for benefits per Form 5500	$ 3,977,805	$ 4,294,385

The following is a reconciliation of increase in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2015:

	Amount
Decrease in net assets available for benefits per the financial statements	$(301,423)
Less: Employer contributions receivable at year end	(95,143)
Plus: Prior year employer contributions receivable	82,812
Less: Prior year excess contributions liability	(2,826)
Decrease in net assets available for benefits per Form 5500	$(316,580)

NOTE 11 – SUBSEQUENT EVENTS

The Plan's management has evaluated all known subsequent events from December 31, 2015 through June 24, 2016, the date the accompanying financial statements were available to be issued, and is not aware of any material subsequent events occurring during this period.
