Belmont Community Hospital
Notes to Financial Statements
December 31, 2015 and 2014**

1. Description of the Plan

The following description of the Profit Sharing Plan for Employees of Belmont Community Hospital (the Plan) provides general information. Users of these financial statements should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan covering substantially all employees of Belmont Community Hospital (the Hospital), established January 1, 1990 and most recently amended and restated on January 1, 2009. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility

Hospital employees, age twenty-one or older, are eligible to participate in the Plan after completing one year of service. One year of service is attained after the employee reaches their one year anniversary with the Hospital and has accumulated 1000 hours of service. Once eligible, an employee only needs to complete 500 hours of service each year to maintain eligibility.

Contributions

The Hospital has the option to make a discretionary contribution to the Plan each year based on its operating results. This contribution is determined by the Hospital's Board of Trustees. The Hospital did not make a contribution to the Plan in 2015 or 2014. The last year a contribution was made to the plan was 2007. No participant contributions are permitted under the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with an allocation of the Hospital's contribution (when applicable), Plan earnings, and forfeitures of terminated participants' non-vested accounts (when applicable). Allocations of contributions and forfeitures (when applicable) are based on the proportion that each participant's gross payroll earnings bears to the total of all participants' gross payroll earnings. Allocations of investment earnings are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participant accounts are valued daily and earnings or losses are posted to accounts on a daily basis.

Vesting

The Plan has been determined to be discontinued by the Internal Revenue Service. Accordingly, all balances in the Plan are 100% vested.

Forfeited Accounts

Prior to the IRS's determination that the Plan had been discontinued, forfeitures were calculated according to the Plan's vesting schedule. In 2015, the amounts previously forfeited were reallocated to affected participants. The Hospital contributed \$2,555 to correct this improper forfeiture. This correction is permitted as an "other employee contribution."

1. Description of the Plan (Continued)

Payment of Benefits

Upon termination of service due to death, disability or retirement, a vested participant shall be immediately eligible for Plan benefits. Benefits must be taken as a lump sum distribution.

Participants who are eligible to receive distribution benefits are permitted the option of keeping a balance in the Plan. The total value of these deferred vested benefit payments was \$509,264 and \$539,713 in 2015 and 2014, respectively.

Administrative Fees

Legal and accounting fees, and certain administrative expenses relating to the maintenance of participant eligibility records are paid by the Hospital.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are recorded at fair value. Participant accounts are valued daily and earnings or losses are posted to accounts on a daily basis. Purchases and sales of securities are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's realized and unrealized gains and losses on investments bought and sold, as well as held, during the year.

3. Investments

With respect to investment disclosures, in July, 2015, the FASB issued ASU 2015-12, which is intended to simplify employee benefit plan reporting. The Accounting Standards Update has three parts, but only part II applies to this Plan. The Plan has chosen to early implement the provisions of this update.

Upon enrollment in the Plan, a participant may direct contributions in designated increments to any combination of a variety of mutual funds or the Federated Prime Obligations Fund, which is considered to be a cash equivalent.

4. Fair Value

The framework for measuring fair value provides a fair value hierarchy which prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • Quoted prices for similar assets in active markets • Quoted prices for identical or similar assets in inactive markets • Inputs other than quoted prices that are observable for the asset • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.
<i>All of the Plan's investments were Level 1 as of December 31, 2015 and 2014, measured on a recurring basis.</i>	

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

METHODOLOGIES

The following is a description of the methodologies used by this Plan. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are actively traded.

5. Plan Termination

The Hospital intends to continue the Plan indefinitely, but reserves the right to discontinue the Plan at any time, provided it will not be undertaken in such a manner as to constitute a violation of any applicable provision of ERISA. In the event of a termination of the Plan, all amounts credited to the accounts of participants shall vest and distributions shall be made to the exclusive benefit of participants or their beneficiaries.

6. Parties-in-Interest

Parties-in-interest is defined by IRC Section 4975(e)(2) and ERISA Section 3(14)(c) to include, among others, any entity who provides services to the Plan. For the years ended December 31, 2015 and 2014, PNC Institutional Investments, the trustee and third party administrator, owned a portion of BlackRock. Therefore, investments in mutual funds managed by BlackRock are parties-in-interest. For the years ended December 31, 2015 and 2014, the amount invested in BlackRock is \$257,950 and \$274,704 respectively.

7. Tax Status

The Plan uses the PNC Bank National Association Prototype document for Profit Sharing Plans, which received a favorable determination opinion from the Internal Revenue Service, (IRS), dated March 31, 2008. The Plan itself has not received a determination letter from the IRS. The prototype document has been amended and restated since receiving the prototype determination letter. However, the Plan administrator believes that the prototype document is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

8. Information Certified by the Plan's Trustee

The trustee has certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate:

- Cash, cash equivalents, and mutual funds, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014
- Investment income, (net depreciation/appreciation in fair value of investments and dividends) as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2015 and 2014
- The Schedule of Assets Held at End of Year as of December 31, 2015, as shown in the supplemental information.

The Plan's independent certified public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental information.

9. Investment Risk

Investments of the Plan are not insured by the FDIC; are not deposits or other obligations of, or guaranteed by any bank or affiliates; and are subject to investment risks, including possible loss of the principal amount invested.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

10. Classification Differences

Form 5500 includes certain assets and liabilities that differ from amounts shown on the accompanying financial statements. These differences relate to classifications only and have no effect upon net assets available for benefits for either the year ended December 31, 2015 or 2014.

11. Subsequent Events

Management has evaluated subsequent events through the date that the financial statements were issued, July 7, 2016, and determined that no events occurred that require disclosure. No subsequent events occurring after this date have been evaluated for inclusion in the financial statements.
