SPRINGFIELD, INC. 401(k) PROFIT SHARING PLAN
NOTES TO FINANCIAL STATEMENTS
September 30, 2015

Note 1 – Description of Plan

The following brief description of the Springfield, Inc. 401(k) Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

a. General – The Plan is a defined contribution plan that covers all employees of Springfield, Inc. (Company) who have six months of service and are age twenty-one or older. Entry into the Plan occurs semi-annually on the first day of the Plan year and the first day of the seventh month of the Plan year following the date an employee meets the eligibility requirement. The Plan is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

b. Contributions – Each year participants may contribute up to 75 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans (rollover contributions). There were no rollover contributions for the plan year ended September 30, 2015. The Company may make a discretionary matching or profit sharing contribution. The Company made a matching contribution of the participant's elected deferral for the first one and one half percent of the participant's eligible compensation for the years ended September 30, 2015. Such profit sharing contribution, if any, shall be allocated to each participant based on compensation, as defined in the Plan. No discretionary profit sharing contributions were made for the year ended September 30, 2015. Contributions are subject to certain limitations.

c. Participants' accounts – Each participant's account is credited with the participant's contribution and allocations of (1) the Company's contribution, and (2) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

d. Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contribution portions of their accounts plus actual earnings thereon occurs at the rate of 20% for each year of service after one year of service. A participant is 100 percent vested after six years of credited service. Vesting of 100 percent of a participant's employer contributions and earnings thereon also occurs upon death, disability of the participant or attainment of age 65 (normal retirement).

e. Investment options – Upon enrollment into the plan, participants direct the investment of their account balances into various investment options offered by the Plan. The Plan currently offers sixteen investment options for participants. Participants may change their investment options daily. The Plan is intended to be an ERISA Section 404 (c) plan.

Note 1 – Description of Plan (continued)

f. Payment of benefits – Upon termination of service due to retirement, death, disability, or separation from service, participants may receive benefits in a lump sum or installments, in accordance with the Plan. Also, upon retirement, disability, or separation from service, participants may elect to continue their account as permitted by the Internal Revenue Code. Participants are also allowed to make hardship withdrawals in certain circumstances.

g. Forfeited accounts – At September 30, 2015, there was a balance for forfeited non-vested accounts of approximately $2,000 which was used to reduce the accrued employer's contribution for the year ended September 30, 2015. At September 30, 2014, there was a balance for forfeited non-vested accounts of approximately $2,500 which was used to reduce the accrued employer's contribution for the year ended September 30, 2014.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. Basis of accounting – The accompanying financial statements are prepared on the accrual basis of accounting.

b. Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

c. Investment valuation and income recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair values of units in registered investment companies are valued at the fair value of the underlying assets. Dividends are recorded on the ex-dividend date. Purchases and sales of securities are recorded on a trade date basis.

d. Net change in fair value of investments – The earnings, expenses, realized gains or losses and unrealized appreciation (depreciation) are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of registered investment companies.

e. Administrative expenses – The direct costs of administering the Plan are paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. The Plan's third party administrator receives a portion of the investment management fees, which is used to reduce the direct costs of administering the plan.

Note 2 – Summary of Significant Accounting Policies (continued)

Management fees and operating expenses charged to the Plan for investments in registered investment companies are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

f. Payment of benefits – Benefit payments to participants are recorded when paid.

g. Subsequent events – Subsequent events have been evaluated through the report date, which represents the date of the financial statements were available to be issued. Subsequent events after that date have not been evaluated. See Note 12.

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits.

FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

Level 1 inputs consist of unadjusted quoted prices for identical assets or liabilities in active markets, that the plan has the ability to access, and have the highest priority. Level 2 inputs include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 3 – Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodology used at September 30, 2015 and 2014.

> *Registered investment companies:* Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values.

Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of September 30, 2015 and 2014.

Note 4 – Information Prepared and Certified by the Plan's Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified all investments and investment income information to be complete and accurate.

a. Total registered investment companies investments including the money market fund as shown in the statements of net assets available for benefits of $5,916,321 and $5,660,655 as of September 30, 2015 and 2014, respectively.

b. Net depreciation in fair value of investments and investment income as shown in the statement of changes in net assets available for benefits of $(146,810) for the year ended September 30, 2015.

Note 5 – Investments

Investments that represent 5% or more of the Plan's net assets are separately identified.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7 – Tax Status

The Plan adopted the CPI Qualified Plan Consultants, Inc Defined Contribution Prototype Plan and Trust. CPI received acknowledgement from the Internal Revenue Service in March 2008, indicating the prototype, as designed, was exempt from federal income tax. The IRS permits the Plan to rely on their approval of the CPI prototype plan. The Plan has since adopted the IRS Model Amendment relating to several tax law changes. The plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, management believes that the Plan is qualified, and the related trust is tax-exempt. See Note 12.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Plan management has analyzed tax positions taken by the Plan, and has concluded that as of September 30, 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statement. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risk such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Note 9 – Related Party Transactions

MG Trust Company, L.L.C. (MG) is the custodian as defined by the Plan and transactions with MG qualify as party-in-interest transactions. CPI Qualified Plan Consultants, Inc. (CPI) is the record keeper and transactions with CPI qualify as party-in-interest transactions.

Note 10 – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the assets available for benefits per the financial statements to the Form 5500 as of September 30, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$6,017,361	$5,767,843
Less adjustment for employer contribution receivable	(101,040)	- - -
Net assets available for benefits per the Form 5500	$5,916,321	$5,767,843

Note 11 – Recent Pronouncements

In May 2015, the FASB issued ASU No. 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset per Share (or Its equivalent)". The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. For non-public entities, this update will be effective for fiscal years beginning after December 15, 2016. The adoption of this guidance is not expected to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU No. 2015-12, "Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient". The update eliminates the requirement to present and disclose both contract and fair value of benefit responsive investment contracts, requiring only contract value, and eliminates the requirement to disclose investments representing 5% or more of net assets available for benefits, and also allows for net appreciation or depreciation of assets to be presented in the aggregate. This update will be effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. Management is evaluating the impact that adoption of this Update will have on the financial statements. Management has elected not to early adopt this Update.

Note 12 – Subsequent Events

Effective October 1, 2015, the Plan amended and restated the plan document by adopting the 2014 CMFG Life Insurance Company Volume Submitter 401(k) Profit Sharing Plan. CUNA Mutual Insurance Society received acknowledgement from the Internal Revenue Service (IRS) in March 2014, indicating the prototype, as designed, was exempt from federal income tax. The plan terms were not substantially modified by the amended and restated plan document.

Effective June 15, 2016, the Plan amended and restated the plan document by adopting the 2014 Fifth Third Bank Volume Submitter Profit Sharing Plan. Fifth Third Bank received acknowledgement from the Internal Revenue Service (IRS) in March 2014, indicating the prototype, as designed, was exempt from federal income tax. The plan terms were not substantially modified by the amended and restated plan document. The Plan assets were transferred from MG Trust Company, L.L.C. to Fifth Third Bank on June 15, 2016.
