Note 1. Plan Description

The following brief description of the Paramont-EO, Inc. (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan that covers all employees of the Company except for leased employees and certain nonresident aliens. Employees must complete 6 months of service and must be age eighteen or older to participate in the Plan. Employees can enter the plan on January 1 or July 1. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute a percent of annual compensation, as defined in the Plan, up to limits set by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). The Company contributes a percentage of the eligible participant compensation, as defined, contributed to the Plan as matching contributions at the discretion of the Company's management. In 2015, the Company contributed 25 percent of the first 6 percent of eligible compensation that participant contributed into the Plan. Additional profit sharing contributions may be contributed at the option of the Company's Board of Directors. No profit sharing contributions were made in 2015. Contributions are subject to IRS limitations.

Investment options: Upon enrollment in the Plan, a participant may direct contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time as permitted by the trading regulations.

Participant accounts: Each participant's account is credited with the participant's contribution, Company matching contributions, if any, and allocations of the Company profit sharing contributions, if any, and Plan earnings/losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contributions portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service. Participants who attain retirement age 65 or who terminate employment due to death or disability are 100 percent vested in their account balances.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance, whichever is less. The loan repayment period is not to exceed five years except for the purchase of a principal residence, in which case the repayment period is not to exceed ten years. The loans are secured by the balance in the participant's account. The loan interest rate is set at 1 percent above the prime rate, as defined (4.25 percent at December 31, 2015). Principal and interest is paid ratably through payroll deductions.

Payment of benefits: On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited accounts: At December 31, 2015 and 2014, forfeited non-vested accounts totaled $327 and $79, respectively. Forfeited non-vested accounts may be used to pay for Plan expenses. Forfeitures of contributions that are not used to pay plan expenses are to be used to reduce Company contributions. In 2015, no funds from forfeited non-vested accounts were used in 2015 to pay Plan administrative expenses, $149 of forfeited non-vested accounts was used to reduce Company contributions.

Note 2. Summary of Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Committee determines the Plan's valuation policies utilizing information provided by the investment custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement* (Topic 820): *Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirements to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Plan management has elected to early adopt the ASU.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

Note 2. Summary of Accounting Policies (Continued)

• The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

• The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management has elected to adopt the ASU as applicable.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 7, 2016, the date the financial statements were available to be issued.

Note 3. Investments Certified or Provided by John Hancock Life Insurance Company (U.S.A.)

The following is a summary of the Plan's asset and income information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by John Hancock Life Insurance Company (U.S.A.) (John Hancock), the custodian, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications by John Hancock that the information provided to the Plan Administrator by John Hancock related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2015	2014
Shares of pooled separate accounts, at fair value	$ 4,230,174	$ 4,454,232
Fully benefit-responsive investment contracts, at contract value	27,912	24,172
Notes receivable from participants	2,286	2,904
Net depreciation in fair value of investments	(48,409)	
Interest and dividends	1,064	
Interest income on notes receivable from participants	109	

Notes to Financial Statements

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to their fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at the total of the net asset value (NAV) of underlying investments held by the accounts at year-end. The Plan's interest in the pooled separate accounts is valued based on the information reported by the investment advisor.

Insurance company general account: Value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees. This product is not a traditional Guaranteed Investment Contract (GIC) and therefore there are not any known cash flows to be discounted. As a result the fair value amount is equal to contract value.

The following table summarizes investments measured at fair value based on the NAV per share as of December 31, 2015 and 2014:

Investment	2015	2014	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts:	$4,230,174	$4,454,232	$ -	Immediate	none

Note 5. Related Party Transactions

Certain Plan investments are shares of pooled separate accounts and guaranteed investment contracts managed by John Hancock. John Hancock is the custodian and record-keeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Fees paid the Plan to John Hancock amounted to $24 for the year ended December 31, 2015.

Certain employees of the Company provide administrative services for the Plan and are not reimbursed for their services from the Plan.

Certain other administrative expenses are paid by the Company on behalf of the Plan. These amounts are not material to the financial statements.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

The Plan has adopted a volume submitter plan sponsored by DATAIR Employee Benefits Systems, Inc., which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the volume submitter plan, as then designed, was in compliance with the applicable sections of the Internal Revenue Code. The Plan has been amended since the adoption date. The Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the U.S. federal, state, or local tax authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
