AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan

Notes to Financial Statements September 30, 2015 and December 31, 2014

Note 1 - Plan Description

The following description of AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

On September 30, 2015, the Plan merged with and into the AK Steel Corporation Thrift Plan - Plan Document C. See Note 6 for additional information.

General - The Plan was a defined contribution plan covering certain employees of AK Steel Corporation (the "Company") covered by the Company's agreement with the International Association of Machinists and Aerospace Workers. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provided for employee salary 401(k) contributions up to a maximum of 100 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants may also have contributions to the Plan in the form of a rollover of funds from another qualified plan.

Participant Accounts - Each participant's account was credited with the participant's contributions and investment earnings and losses, and charged with an allocation of administrative expenses. Allocations were based on the participant's compensation or account balances, as defined. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested account. Participants directed the investments of their account balances into various investment options offered by the Plan.

Participant Notes Receivable - Participants may have borrowed from their accounts subject to certain maximum and minimum amounts as prescribed in the Plan and in the Internal Revenue Code. Notes receivable were collateralized by the participant's account balance and bear interest at a market rate.

Vesting - Participants were immediately 100 percent vested in employee salary and rollover contributions and any income or loss thereon.

Benefit Payments - Distributions were payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Transfers - Along with the Plan, the Company also sponsored other benefit plans for employees. If employees changed their status during the year, the Plan did not allow their account balances to be transferred between corresponding plans.

AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan

Notes to Financial Statements September 30, 2015 and December 31, 2014

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets were in investment funds managed by Fidelity Management Trust Company or its affiliates. Fidelity Management Trust Company was the trustee of the Plan and, therefore, these transactions qualified as party-in-interest transactions as defined under ERISA guidelines. The Company paid certain administrative fees on behalf of the Plan. The Company was the plan sponsor, and therefore these transactions qualified as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan were stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded as earned. Dividends were recorded on the ex-dividend date.

Benefit Payments - Benefits were recorded when paid.

Participant Notes Receivable - Participant notes receivable were recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable were written off when deemed uncollectible.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including July 6, 2016, which is the date the financial statements were available to be issued.

AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan

Notes to Financial Statements September 30, 2015 and December 31, 2014

Note 3 - Unaudited Information

Fidelity Management Trust Company (the "Trustee") held the Plan's investments and participant notes receivable and executed all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements were based solely on information provided by the Trustee.

Significant Investments included in end-of-year net assets at December 31, 2014 are as follows:

	<u>2014</u>
Mutual funds:	
Fidelity Puritan Fund	\$ 4,691,685
Fidelity Growth Company	4,907,317
Fidelity Contrafund	3,840,159
Fidelity Freedom 2025 Fund	2,989,506
Fidelity Freedom 2030 Fund	2,962,219
TRP Growth & Income Fund	3,400,191
Money market fund - Fidelity Cash Reserve Fund	4,033,341

Note 4 - Tax Status

The Plan had received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, was qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Accordingly, no provision for income taxes has been made in the accompanying financial statements.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access at the measurement date.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan

Notes to Financial Statements September 30, 2015 and December 31, 2014

Note 5 - Fair Value Measurements (Continued)

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. Management's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies were used to value the Plan's investments:

Mutual Funds - Mutual funds were valued at closing quoted prices reported in active markets.

Money Market Fund - Money market funds were valued at closing quoted prices reported in active markets.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014. As detailed in Note 6, all plan assets were transferred to the AK Steel Corporation Thrift Plan - Plan Document C, effective September 30, 2015.

AK Steel Corporation Armco Employees Independent Federation Retirement Savings Plan

Notes to Financial Statements September 30, 2015 and December 31, 2014

Note 5 - Fair Value Measurements (Continued)

Assets Measured at Fair Value on a Recurring Basis at December 31, 2014

	Level 1	Level 2	Level 3	Balance at December 31, 2014
Mutual funds:				
Balanced investments	\$ 18,573,285	\$ -	\$ -	\$ 18,573,285

Total	<u>\$ 44,281,405</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 44,281,405</u>

The Plan's policy was to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between the levels of the fair value hierarchy during 2015.

Note 6 - Plan Merger

As of September 30, 2015, effective immediately after the valuation of the accounts as of that date, the Plan merged with and into AK Steel Corporation Thrift Plan - Plan Document C. Accordingly, all assets, participants, and their related account balances were transferred to the AK Steel Corporation Thrift Plan - Plan Document C on September 30, 2015. The Plan ceased to be a separate plan as of September 30, 2015.
