Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Kennicott Bros. Company Employee Stock Ownership and 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended September 30, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Reliance Trust Company, the trustee for the 401(k) activity, and GreatBanc Trust Company, the trustee for the ESOP activity, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustees as of September 30, 2015 and 2014, and for the year ended September 30, 2015, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Emphasis of Matter
As discussed in Note 2 to the financial statements, the Plan adopted new accounting guidance related to the disclosure of investments. Prior year disclosures have been revised to reflect the retrospective application of adopting these changes in accounting. Our disclaimer of opinion is not modified with respect to this matter.

As discussed in Note 4 to the financial statements, the financial statements include investments representing 48 percent and 50 percent of net assets available for benefits as of September 30, 2015 and 2014, respectively, whose fair values have been estimated by management in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Other Matter
The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of September 30, 2015, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following brief description of Kennicott Bros. Company (the Company) Employee Stock Ownership and 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is an ESOP with a 401(k) feature. The Plan covers non-union employees of the Company who have met the eligibility requirements, as defined by the Plan. Employees who have attained the age of 21 and completed 60 days of continuous service from their most recent date of hire are eligible to participate in the Plan. An employee shall become a participant in the Plan on the first day of each month following the date the employee satisfies the eligibility requirements.

On July 31, 2014, effective August 1, 2014, the Plan was amended such that each individual who becomes an employee of the Company on August 1, 2014 due to acquisition of substantially all of the assets of Nordlie, Inc., and who was employed by Nordlie, Inc. immediately prior to employment with the Company shall be credited with all hours of service with Nordlie, Inc.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan purchased Kennicott Bros. Company stock using the proceeds from a note payable from the sponsoring Company and notes payable from former shareholders guaranteed by the Company (see Note 8), and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 15 years, as determined in the loan agreements, by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, as required, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code (Code).

The sponsoring Company borrowed from a bank to fund the purchase of its common stock by the Plan. Unallocated shares of stock in the Plan and a first mortgage on the Chicago plant are collateral for the related bank borrowings of the Company. The lenders have no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan for the years 2015 and 2014 present separately the assets and liabilities and the changes therein pertaining to a) the accounts of employees with vested or unvested rights in allocated stock, and b) stock not yet allocated to employees.

Payment of benefits: Distributions from the Plan are made upon retirement, termination, total disability or death. If termination of employment is prior to retirement age, the distribution of benefits, other than Company stock, will be distributed in a single lump-sum upon request or may be retained in the Plan if requested. Participants may also make withdrawals from their vested account balances if a determination that a financial hardship, as defined, has occurred. The Plan also permits in-service withdrawals of all of a participant's accounts other than the ESOP account after attaining age 59½.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company repurchased from participants 19,443.5835 shares and recycled 307.5292 shares at the price determined from the independent appraisal as of September 30, 2014, during the year ended September 30, 2015.

Note 1. Plan Description (Continued)

Voting rights: GreatBanc Trust Company (Trustee) shall vote the shares held in the trust fund with respect to all matters. The ESOP Voting Committee shall be entitled to direct the Trustee as to how to vote such shares, including the shares allocated to the suspense account and, if the participants are allowed to direct the Trustee, pursuant to the Code, all other shares with respect to which the participants may fail to direct the Trustee.

Contributions: Eligible participants are automatically enrolled in the Plan upon meeting the eligibility requirements. A participant will have 3 percent of compensation deducted and contributed to the Plan until the participant elects a higher or lower deferral rate. Additionally, participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary ESOP contributions, profit-sharing contributions, matching contributions, and various other contributions to the Plan. Contributions are determined annually by the Company's Board of Directors. The Company contributions during the year ended September 30, 2015, were ESOP matching contributions, which were allocated based on the proportion that each participant's elective deferral bears to the total elective deferrals of all eligible participants for that year, with deferrals limited to 3 percent of compensation, and additional ESOP contributions, which were allocated based on the proportion that each participant's compensation bears to all participants' compensation. Generally, participants must complete 1,000 hours of service and be employed on the last day of the Plan year to receive Company contributions. For the year ended September 30, 2015, ESOP matching contributions were in the form of company stock for a total of 22,652.9361 shares with a fair value of $514,222. These shares were delivered to the Plan subsequent to September 30, 2015 and are recorded as a Company contribution receivable in the statement of net assets available for benefits, and non-cash Company contributions in the statement of changes in net assets available for benefits.

Contributions are subject to limitations as provided in the Code and as described in the Plan.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts plus actual earnings is based on years of credited service. Participants are 20 percent vested after two years of service, and vesting increases 20 percent each additional year of service to a maximum of 100 percent after six years. Participants are also 100 percent vested in all accounts in the event of death, permanent disability, or upon reaching retirement age.

Put option: Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchases with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the numbers of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify shall be entitled to direct the investment to or among one or more investment funds offered by the Plan.

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's contribution and the Company's contributions, if any; forfeitures, if any; and Plan earnings. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures: At September 30, 2015 and 2014, there were no forfeited non-vested accounts. Forfeitures are kept in a suspense account and allocated to eligible participants as matching contributions. Any remaining forfeitures shall be applied first to reduce any administrative expenses in the operations and administration of the Plan. If any forfeitures remain, these shall be applied to reduce the next employer contribution and allocated as part of that employer contribution. For the year ended September 30, 2015, there were no forfeitures used to pay administrative expenses, and the Company allocated 2,280.8537 of forfeited non-vested shares.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants can change their investment options on a daily basis.

The Company stock portion of the Plan representing Company contributions is invested in Company stock in accordance with the plan document.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 or (b) one-half of the participants' vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable fund. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate, as published in the Wall Street Journal, plus 1 percent. The interest rates on loans outstanding ranged from 4.25 to 10.00 percent at September 30, 2015 and 2014. Principal and interest are paid through payroll deductions.

Other income: Daily Access Corporation (Daily Access), the plan recordkeeper, may receive revenue-sharing payments from shares of registered investment companies in which Plan assets are invested. Such revenue-sharing payments are credited to the Plan's revenue holding account. Daily Access will use any revenue-sharing payment it receives to pay Plan administrative expenses. For the year ended September 30, 2015, the Plan received revenue sharing payments amounting to $14,368, $12,561 of which was used to pay Plan administrative expenses. As of September 30, 2015 and 2014, the balance in the revenue holding account amounted to $4,976 and $3,169, respectively.

Note 2. Significant Accounting Policies

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Fiduciary Investment Committee determines the Plan's valuation policies utilizing information provided by investment trustees. See Note 4 for discussion of fair value measurements.

Note 2. Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of the remaining provisions of ASU 2012-04 did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Significant Accounting Policies (Continued)

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part II of this update for the 2015 plan year, and amendments in Part II were retrospectively applied to 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. Part I and Part III do not apply to the Plan. The impact of adopting this update is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 13, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Reliance Trust Company and GreatBanc Trust Company, Trustees

The following is a summary of the Plan's asset and income information as of September 30, 2015 and 2014, and for the year ended September 30, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Reliance Trust Company and GreatBanc Trust Company, the trustees, that information provided to the Plan Administrator by the trustees related to the following assets and income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

The following information was certified by Reliance Trust Company:

	2015	2014
Shares of registered investment companies	$ 9,454,028	$ 7,785,103
Net (depreciation) appreciation in fair value of investments:		
Shares of registered investment companies	(737,164)	
Interest and dividends	408,560	

The following information was certified by GreatBanc Trust Company:

	2015	2014
Common stock	$ 8,527,421	$ 7,060,453
Net appreciation in fair value of investments:		
Common stock	1,814,424	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2015 and 2014.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Kennicott Bros. Company common stock: Valued at fair value, as determined by the ESOP Trustee, after taking into consideration a valuation from an independent appraiser. This appraisal was based upon a combination of valuation techniques, including a discounted cash flow method and a capitalized cash flow method, with equal weight being given to each method. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2015 and 2014.

	2015			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 9,454,028	$ -	$ -	$ 9,454,028
Common stock - Kennicott Bros. Company	-	-	8,527,421	8,527,421
	$ 9,454,028	$ -	$ 8,527,421	$ 17,981,449

	2014			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 7,785,103	$ -	$ -	$ 7,785,103
Common stock - Kennicott Bros. Company	-	-	7,060,453	7,060,453
	$ 7,785,103	$ -	$ 7,060,453	$ 14,845,556

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended September 30, 2015, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2015.

	Common stock
Balance, beginning of the year	$ 7,060,453
Realized gains	182,186
Unrealized gains relating to instruments still held at the reporting date	1,632,238
Distributions of shares	(347,456)
Balance, end of the year	$ 8,527,421

Note 4. Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs. As discussed in Note 2, the table excludes the quantitative information regarding such inputs.

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2015	2014		
Common stock - Kennicott Bros. Company	$ 8,527,421	$ 7,060,453	Discounted cash flow	Weighted average cost of capital Sales growth EBITDA growth EBITDA margin Discount for lack of marketability
			Capitalized cash flow	Weighted average cost of capital Historical EBITDA Investment in working capital Capital expenditures Discount for lack of marketability

In estimating a fair value of the investments in Level 3, the ESOP Trustee uses an independent appraiser. In substantiating the reasonableness of the pricing data provided by third parties, the ESOP Trustee evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 5. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and invested by Reliance Trust Company and GreatBanc Trust Company, the trustees. Nonparticipant directed investments are common stock of the Company. Daily Access, Investacorp Advisory Services (Investacorp), InterServ, LLC and LPL Financial are the Plan’s recordkeeper and investment advisors; therefore, these transactions qualify as party-in-interest transactions. Fees paid to Daily Access, Investacorp and InterServ, LLC during the year ended September 30, 2015, amounted to $37,217, $31,542 and $8,294, respectively.

Certain employees of the Company provide services to the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Investments and Transactions with Sponsor

The fair value of Kennicott Bros. Company common stock was $22.70 and $17.87 per share based upon the September 30, 2015 and 2014, valuations, respectively. Information about the Plan's investment in the Company's common stock at September 30, 2015 and 2014 is as follows:

	2015		2014	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	308,596.6566	67,060.6523	318,133.5236	76,967.3690
Cost	$ 2,623,071	$ 570,016	$ 2,704,135	$ 654,223
Fair value	$ 7,005,144	$ 1,522,277	$ 5,685,046	$ 1,375,407

Note 8. Loans Payable

Loans payable consist of the following at September 30, 2015 and 2014:

	2015	2014
Notes payable to former shareholders, due in monthly installments of $9,940 beginning on the last day of the month in which the Term Note is paid in full, with interest payments at 7 percent due monthly beginning on May 31, 2000, with the final payment due no later than 10 years after the Term Note has been paid in full, collateralized by the unallocated shares of Kennicott Bros. Company common stock.	$ 1,013,632	$ 1,132,882

Maturities for long-term debt are as follows:

Years ending September 30:	
2016	$ 119,280
2017	119,280
2018	119,280
2019	119,280
2020	119,280
Thereafter	417,232
	$ 1,013,632

Note 9. Income Tax Status

The Internal Revenue Service determined and informed the sponsor by a letter dated February 27, 2014, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities, including the Company's common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with investment securities, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of September 30, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 17,845,385	$ 14,150,157

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Kennicott Bros. Company Employee Stock Ownership and 401(k) Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended September 30, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Reliance Trust Company, the trustee for the 401(k) activity, and GreatBanc Trust Company, the trustee for the ESOP activity, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the trustees hold the Plan's assets and execute transactions. The Plan Administrator has obtained certifications from the trustees as of September 30, 2015 and 2014, and for the year ended September 30, 2015, that the information provided to the Plan Administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

RSM US LLP is the U.S. member firm of RSM International, a global network of independent audit, tax, and consulting firms. Visit rsmus.com/aboutus for more information regarding RSM US LLP and RSM International.

Emphasis of Matter
As discussed in Note 2 to the financial statements, the Plan adopted new accounting guidance related to the disclosure of investments. Prior year disclosures have been revised to reflect the retrospective application of adopting these changes in accounting. Our disclaimer of opinion is not modified with respect to this matter.

As discussed in Note 4 to the financial statements, the financial statements include investments representing 48 percent and 50 percent of net assets available for benefits as of September 30, 2015 and 2014, respectively, whose fair values have been estimated by management in the absence of readily ascertainable fair values. Because of the inherent uncertainty of valuation, those estimated values may differ significantly from the values that would have been used had a ready market for the investments existed, and the differences could be material.

Other Matter
The supplemental schedule, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of September 30, 2015, is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the trustees, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description

The following brief description of Kennicott Bros. Company (the Company) Employee Stock Ownership and 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

General: The Plan is an ESOP with a 401(k) feature. The Plan covers non-union employees of the Company who have met the eligibility requirements, as defined by the Plan. Employees who have attained the age of 21 and completed 60 days of continuous service from their most recent date of hire are eligible to participate in the Plan. An employee shall become a participant in the Plan on the first day of each month following the date the employee satisfies the eligibility requirements.

On July 31, 2014, effective August 1, 2014, the Plan was amended such that each individual who becomes an employee of the Company on August 1, 2014 due to acquisition of substantially all of the assets of Nordlie, Inc., and who was employed by Nordlie, Inc. immediately prior to employment with the Company shall be credited with all hours of service with Nordlie, Inc.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan purchased Kennicott Bros. Company stock using the proceeds from a note payable from the sponsoring Company and notes payable from former shareholders guaranteed by the Company (see Note 8), and holds the stock in a trust established under the Plan. The borrowing is to be repaid over a period of 15 years, as determined in the loan agreements, by fully deductible Company contributions to the trust fund. As the Plan makes each payment of principal and interest, as required, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Internal Revenue Code (Code).

The sponsoring Company borrowed from a bank to fund the purchase of its common stock by the Plan. Unallocated shares of stock in the Plan and a first mortgage on the Chicago plant are collateral for the related bank borrowings of the Company. The lenders have no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan for the years 2015 and 2014 present separately the assets and liabilities and the changes therein pertaining to a) the accounts of employees with vested or unvested rights in allocated stock, and b) stock not yet allocated to employees.

Payment of benefits: Distributions from the Plan are made upon retirement, termination, total disability or death. If termination of employment is prior to retirement age, the distribution of benefits, other than Company stock, will be distributed in a single lump-sum upon request or may be retained in the Plan if requested. Participants may also make withdrawals from their vested account balances if a determination that a financial hardship, as defined, has occurred. The Plan also permits in-service withdrawals of all of a participant's accounts other than the ESOP account after attaining age 59½.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. The Company repurchased from participants 19,443.5835 shares and recycled 307.5292 shares at the price determined from the independent appraisal as of September 30, 2014, during the year ended September 30, 2015.

Note 1. Plan Description (Continued)

Voting rights: GreatBanc Trust Company (Trustee) shall vote the shares held in the trust fund with respect to all matters. The ESOP Voting Committee shall be entitled to direct the Trustee as to how to vote such shares, including the shares allocated to the suspense account and, if the participants are allowed to direct the Trustee, pursuant to the Code, all other shares with respect to which the participants may fail to direct the Trustee.

Contributions: Eligible participants are automatically enrolled in the Plan upon meeting the eligibility requirements. A participant will have 3 percent of compensation deducted and contributed to the Plan until the participant elects a higher or lower deferral rate. Additionally, participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary ESOP contributions, profit-sharing contributions, matching contributions, and various other contributions to the Plan. Contributions are determined annually by the Company's Board of Directors. The Company contributions during the year ended September 30, 2015, were ESOP matching contributions, which were allocated based on the proportion that each participant's elective deferral bears to the total elective deferrals of all eligible participants for that year, with deferrals limited to 3 percent of compensation, and additional ESOP contributions, which were allocated based on the proportion that each participant's compensation bears to all participants' compensation. Generally, participants must complete 1,000 hours of service and be employed on the last day of the Plan year to receive Company contributions. For the year ended September 30, 2015, ESOP matching contributions were in the form of company stock for a total of 22,652.9361 shares with a fair value of $514,222. These shares were delivered to the Plan subsequent to September 30, 2015 and are recorded as a Company contribution receivable in the statement of net assets available for benefits, and non-cash Company contributions in the statement of changes in net assets available for benefits.

Contributions are subject to limitations as provided in the Code and as described in the Plan.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the remainder of their accounts plus actual earnings is based on years of credited service. Participants are 20 percent vested after two years of service, and vesting increases 20 percent each additional year of service to a maximum of 100 percent after six years. Participants are also 100 percent vested in all accounts in the event of death, permanent disability, or upon reaching retirement age.

Put option: Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The Company can pay for the purchases with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the numbers of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify shall be entitled to direct the investment to or among one or more investment funds offered by the Plan.

Note 1. Plan Description (Continued)

Participant accounts: Each participant's account is credited with the participant's contribution and the Company's contributions, if any; forfeitures, if any; and Plan earnings. Allocations are based on participant account balances or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures: At September 30, 2015 and 2014, there were no forfeited non-vested accounts. Forfeitures are kept in a suspense account and allocated to eligible participants as matching contributions. Any remaining forfeitures shall be applied first to reduce any administrative expenses in the operations and administration of the Plan. If any forfeitures remain, these shall be applied to reduce the next employer contribution and allocated as part of that employer contribution. For the year ended September 30, 2015, there were no forfeitures used to pay administrative expenses, and the Company allocated 2,280.8537 of forfeited non-vested shares.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants can change their investment options on a daily basis.

The Company stock portion of the Plan representing Company contributions is invested in Company stock in accordance with the plan document.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (a) $50,000 or (b) one-half of the participants' vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant notes receivable fund. Loan terms range from 1 to 5 years or longer for the purchase of a primary residence. The loans are collateralized by the balance in the participant's account and bear interest at the prime rate, as published in the Wall Street Journal, plus 1 percent. The interest rates on loans outstanding ranged from 4.25 to 10.00 percent at September 30, 2015 and 2014. Principal and interest are paid through payroll deductions.

Other income: Daily Access Corporation (Daily Access), the plan recordkeeper, may receive revenue-sharing payments from shares of registered investment companies in which Plan assets are invested. Such revenue-sharing payments are credited to the Plan's revenue holding account. Daily Access will use any revenue-sharing payment it receives to pay Plan administrative expenses. For the year ended September 30, 2015, the Plan received revenue sharing payments amounting to $14,368, $12,561 of which was used to pay Plan administrative expenses. As of September 30, 2015 and 2014, the balance in the revenue holding account amounted to $4,976 and $3,169, respectively.

Note 2. Significant Accounting Policies

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Fiduciary Investment Committee determines the Plan's valuation policies utilizing information provided by investment trustees. See Note 4 for discussion of fair value measurements.

Note 2. Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of benefits: Benefits are recorded when paid.

Recent accounting pronouncements: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this update are effective for fiscal periods beginning after December 15, 2013, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of the remaining provisions of ASU 2012-04 did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

Note 2. Significant Accounting Policies (Continued)

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part II of this update for the 2015 plan year, and amendments in Part II were retrospectively applied to 2014. Prior year disclosures in Note 4 have been revised to reflect the retrospective application. Part I and Part III do not apply to the Plan. The impact of adopting this update is reflected in the financial statements.

Subsequent events: The Plan Administrator has evaluated subsequent events for potential recognition and/or disclosure through July 13, 2016, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Reliance Trust Company and GreatBanc Trust Company, Trustees

The following is a summary of the Plan's asset and income information as of September 30, 2015 and 2014, and for the year ended September 30, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Reliance Trust Company and GreatBanc Trust Company, the trustees, that information provided to the Plan Administrator by the trustees related to the following assets and income is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

The following information was certified by Reliance Trust Company:

	2015	2014
Shares of registered investment companies	$ 9,454,028	$ 7,785,103
Net (depreciation) appreciation in fair value of investments:		
Shares of registered investment companies	(737,164)	
Interest and dividends	408,560	

The following information was certified by GreatBanc Trust Company:

	2015	2014
Common stock	$ 8,527,421	$ 7,060,453
Net appreciation in fair value of investments:		
Common stock	1,814,424	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at September 30, 2015 and 2014.

Shares of registered investment companies: Valued at the daily closing price as reported by the fund. Shares of registered investment companies held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Kennicott Bros. Company common stock: Valued at fair value, as determined by the ESOP Trustee, after taking into consideration a valuation from an independent appraiser. This appraisal was based upon a combination of valuation techniques, including a discounted cash flow method and a capitalized cash flow method, with equal weight being given to each method. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2015 and 2014.

	2015			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 9,454,028	$ -	$ -	$ 9,454,028
Common stock - Kennicott Bros. Company	-	-	8,527,421	8,527,421
	$ 9,454,028	$ -	$ 8,527,421	$ 17,981,449

	2014			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 7,785,103	$ -	$ -	$ 7,785,103
Common stock - Kennicott Bros. Company	-	-	7,060,453	7,060,453
	$ 7,785,103	$ -	$ 7,060,453	$ 14,845,556

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended September 30, 2015, there were no transfers in or out of Level 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended September 30, 2015.

	Common stock
Balance, beginning of the year	$ 7,060,453
Realized gains	182,186
Unrealized gains relating to instruments still held at the reporting date	1,632,238
Distributions of shares	(347,456)
Balance, end of the year	$ 8,527,421

Note 4. Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs. As discussed in Note 2, the table excludes the quantitative information regarding such inputs.

Instrument	Fair Value		Principal Valuation Technique	Unobservable Inputs
	2015	2014		
Common stock - Kennicott Bros. Company	$ 8,527,421	$ 7,060,453	Discounted cash flow	Weighted average cost of capital Sales growth EBITDA growth EBITDA margin Discount for lack of marketability
			Capitalized cash flow	Weighted average cost of capital Historical EBITDA Investment in working capital Capital expenditures Discount for lack of marketability

In estimating a fair value of the investments in Level 3, the ESOP Trustee uses an independent appraiser. In substantiating the reasonableness of the pricing data provided by third parties, the ESOP Trustee evaluates a variety of factors, including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

Note 5. Related-Party and Party-in-Interest Transactions

The Plan's investments are held and invested by Reliance Trust Company and GreatBanc Trust Company, the trustees. Nonparticipant directed investments are common stock of the Company. Daily Access, Investacorp Advisory Services (Investacorp), InterServ, LLC and LPL Financial are the Plan’s recordkeeper and investment advisors; therefore, these transactions qualify as party-in-interest transactions. Fees paid to Daily Access, Investacorp and InterServ, LLC during the year ended September 30, 2015, amounted to $37,217, $31,542 and $8,294, respectively.

Certain employees of the Company provide services to the Plan and are not reimbursed for their services from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 7. Investments and Transactions with Sponsor

The fair value of Kennicott Bros. Company common stock was $22.70 and $17.87 per share based upon the September 30, 2015 and 2014, valuations, respectively. Information about the Plan's investment in the Company's common stock at September 30, 2015 and 2014 is as follows:

	2015		2014	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	308,596.6566	67,060.6523	318,133.5236	76,967.3690
Cost	$ 2,623,071	$ 570,016	$ 2,704,135	$ 654,223
Fair value	$ 7,005,144	$ 1,522,277	$ 5,685,046	$ 1,375,407

Note 8. Loans Payable

Loans payable consist of the following at September 30, 2015 and 2014:

	2015	2014
Notes payable to former shareholders, due in monthly installments of $9,940 beginning on the last day of the month in which the Term Note is paid in full, with interest payments at 7 percent due monthly beginning on May 31, 2000, with the final payment due no later than 10 years after the Term Note has been paid in full, collateralized by the unallocated shares of Kennicott Bros. Company common stock.	$ 1,013,632	$ 1,132,882

Maturities for long-term debt are as follows:

Years ending September 30:	
2016	$ 119,280
2017	119,280
2018	119,280
2019	119,280
2020	119,280
Thereafter	417,232
	$ 1,013,632

Note 9. Income Tax Status

The Internal Revenue Service determined and informed the sponsor by a letter dated February 27, 2014, that the Plan is qualified and the trust established under the Plan is tax exempt under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. The Plan Administrator believes that the Plan is designed and is currently operating in compliance with applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the local, state and federal taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.

Note 10. Risks and Uncertainties

The Plan invests in various investment securities, including the Company's common stock. Investment securities are exposed to various risks such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with investment securities, and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 11. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 as of September 30, 2015 and 2014:

	2015	2014
Net assets available for benefits per the financial statements	$ 17,845,385	$ 14,150,157
