(1) Description of Plan (continued)

(d) Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

(e) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

(f) Forfeited Accounts

At September 30, 2015 and 2014, there were $9,629 and $26,305, respectively, of forfeited nonvested funds available for allocation. These amounts will be allocated to the participants as if the forfeiture were an additional employer non-elective contribution. Forfeitures allocated to participants in 2015 and 2014 amounted to $26,305 and $19,386, respectively.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

(b) Investments

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

(2) Summary of Significant Accounting Policies (continued)

(b) Investments (continued)

See Note 6 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(c) Payment of Benefits

Benefits are recorded when paid.

(d) Administrative Expenses

The plan document allows for the expenses of maintaining the Plan to be satisfied directly out of the Plan's assets. A portion of the expenses of maintaining the Plan is paid by the Company. Also, certain transaction charges are paid by the participants involved.

(e) Income Taxes

The Plan recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

(f) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(3) Recent Accounting Pronouncements

The Plan early adopted Financial Accounting Standards Board Accounting Standards Update No. 2015-12 (FASB ASU No. 2015-12), which is effective for fiscal years beginning after December 15, 2015 with early adoption permitted. This standard was applied retrospectively and simplifies financial statement disclosures for employee benefit plans by eliminating fair value presentations and disclosures for fully benefit-responsive contracts, by eliminating disclosures related to plan investments that represent 5% or more of net assets available for benefits, by eliminating disclosures of net appreciation (depreciation) by investment type, and by revising fair value hierarchy disclosures to those by investment type with no further disaggregation required. The adoption of this standard had no impact on the Plan's net assets available for benefits.

While adopting FASB ASU No. 2015-12, we noted that the adjustment to present the fully benefit-responsive contract at contract value at September 30, 2014 was improperly recorded. The financial statements for 2014 have been corrected for this difference which resulted in an increase in the Plan's net assets available for benefits of $97,956 as of September 30, 2014, and an increase in net appreciation in fair value of investments for 2014 of the same amount.

(4) Information Certified by the Trustees and Custodian

The financial information included in the Plan financial statements for fiscal year 2015 and from November 1, 2013 through September 30, 2014, except for self-directed brokerage accounts, contributions receivable, contributions, benefits paid to participants, corrective distributions, and administrative expenses, have been derived from information certified as complete and accurate by Verisight Trust Company, the trustee of the Plan, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Information for the period October 1, 2013 through October 31, 2013 has been certified as complete and accurate by EMJAY Corporation as custodian for Extraco Banks, N.A., the trustee of the Plan, in accordance with Section 2520.103-5 of the Department of Labor Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

(5) Common Collective Trust - Stable Value Fund

During 2014, the Plan entered into an investment that is a fully-responsive contract in a bank collective trust fund, which Reliance Trust Company serves as trustee and investment manager. The Fund invests entirely in the MetLife Group Annuity Contract

(5) Common Collective Trust - Stable Value Fund (continued)

25053, which consists of a series of ten share classes, which differ principally in applicable administrative fees and separately managed and directed by Reliance Trust Company ("Trust").

The statement of net assets presents the investment contract at contract value. The contract provides that the Trust execute transactions at contract value, which represent contributions, plus interest, less participant initiated withdrawals or transfers.

Participant-directed withdrawals (withdrawals that are made by a participant in a participating plan without the advice, suggestion, guidance or direction to do so by the Plan sponsor, administrator, fiduciary record keeper or other plan service provider) are paid at the contract value. However, if a withdrawal is made as a result of an employer or sponsor-initiated event or if a withdrawal is requested due to a complete or partial termination of a participating plan in the Trust before the contract ends, and the contract's fair value equals or exceeds the guaranteed value, payment is made in an amount equal to the amount of the guaranteed value, which is attributable to the participating plan. If the contract's fair value is less than its guaranteed value, the amount paid is equal to the guaranteed value reduced by the fair value deficit allocable to the participating plan.

Either the plan sponsor, as a holder of the contract, or the issuer, as issuer of the investment contract, may discontinue the investment contract under the terms established under the contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

(6) Fair Value Measurements

Generally accepted accounting principles establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

(6) Fair Value Measurements (continued)

The level in the fair value hierarchy within which a financial instrument in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

Mutual funds: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

Self-directed brokerage accounts: The common stocks are valued at the closing price reported on the active market on which the individual securities are traded multiplied by the number of shares held at year-end. The mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at September 30, 2015 and 2014:

		Fair Value Measurements at Reporting Date Using		
	Fair Value September 30, 2015	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Mutual funds	16,977,775	16,977,775	-	-
Self-directed brokerage accounts	1,776,894	1,776,894	-

(7) Tax Status

The Plan is using a prototype non-standardized profit-sharing plan document. In a letter dated March 31, 2008, the Internal Revenue Service (IRS) indicated the form of the Plan is acceptable under Section 401 of the Internal Revenue Code (the Code). The opinion of the IRS regarding the acceptability of the form of the Plan is not a ruling or determination as to whether the Plan qualifies under Code Section 401(a). Although the Plan has been amended since receiving the acceptability letter, the Plan Administrator believes the Plan is currently designed and operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

(8) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

(9) Party-In-Interest Transactions

Fees paid by the Plan for recordkeeping services to Verisight, Inc. amounted to $73,496 and $64,362 in 2015 and 2014, respectively.

The Plan has not considered Company contributions to the Plan or benefits paid by the Plan to participants as party-in-interest transactions.

(10) Risks and Uncertainties

The Plan allows participants to invest in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

(11) Reconciliation of Form 5500 to Financial Statements

All amounts presented in the financial statements agreed to the Form 5500 at September 30, 2015. The following is a reconciliation of contributions per the financial statements at September 30, 2014 to Form 5500:

		Contributions
As reported on Form 5500	$	2,715,159
Employee contributions receivable in the prior year		(258,385)
Employee contributions receivable in the prior year		(722,347)
As reported on financial statements	$	1,734,427

(12) Subsequent Events

The Plan has evaluated subsequent events from the balance sheet date through June 30, 2016, the date at which the financial statements were available to be issued, and determined there are no items to disclose.
