1. DESCRIPTION OF PLAN:

The following description of the LJB Inc. Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of LJB Inc. (referred to as the Company or employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employees of the Company to begin salary deferrals at the beginning of the quarter following their date of hire up to a certain percentage of annual compensation as determined by the Company. Contributions may be subject to certain limitations under the Internal Revenue Code. Eligible employees may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Plan document allows for non-elective discretionary profit sharing contributions for eligible employees who are actively employed on the last day of the Plan year.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs both separately, and distinctly, into which investment the participant contribution and Company contribution is to be invested.

Vesting

Participants are immediately 100% vested in both their own contributions and Company contributions upon participation in the Plan.

Notes receivable from participants

Participants may borrow, from their vested account balance, a minimum of \$1,000 up to 50% of their vested account balance, not to exceed \$50,000. Loans bear interest at an agreed-upon percentage based on prevailing market rates. Loan terms are for a period not exceeding five years unless such loan is used to acquire a dwelling unit which within a reasonable time frame (determined at the time the loan is made), which will be used as the participant's principal residence. Each loan is collateralized by the remaining balance in the participant's account. Principal and interest is paid ratably through payroll deductions.

Distributions

Upon termination of service by reason of retirement, death, permanent disability, or otherwise, participants or designated beneficiaries may elect to receive their vested balance either in a lump-sum amount or payments over a period of time in cash installments or in a form agreeable to the Plan. If the participant's account balance is \$1,000 or less, the Plan may elect to automatically distribute the balance to the participant in a single-sum payment. For participant account balances between \$1,000 and \$5,000, the Plan may elect to automatically rollover the account. Upon reaching normal retirement age, participants are also permitted to make in-service withdrawals.

Investment options

Upon enrollment in the Plan, a participant may currently direct contributions in any investment options with PNC Bank, National Association in increments of one percent that are approved by the Plan. In addition, a participant may direct contributions to individual brokerage accounts at Charles Schwab & Co., Inc. Contributions may also be used to purchase LJB Inc. stock. Participants may change their investment options at any time.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The accompanying financial statements are prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect certain amounts and disclosures reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation and recognition

The Plan's investments are held in mutual funds, a common/collective trust fund, a custodial account through Charles Schwab & Co. Inc., or LJB Inc. stock. Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions are included in dividend and interest income.

The Plan follows guidance which requires investment contracts held by a defined-contribution plan to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the Plan's investment contract, held within the Plan's common collective trust, as well as the adjustment of the investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Contributions

Participant contributions are recognized when withheld. Employer contributions, if any, are recognized on an annual basis. No employer non-elective profit sharing contributions were made for the year ended December 31, 2015. Qualified non-elective contributions and corrective employer contributions made during the year ended December 31, 2015 totaled \$30,051.

Payment of benefits

Benefits payments to participants are recorded when paid.

Administrative fees

The Plan Sponsor has elected to pay certain costs associated with plan administration from its operating assets. In addition, the Company provides certain accounting and administrative services to the Plan at no charge.

Accounting change

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, “Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient.” ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning December 15, 2015, with earlier adoption permitted. The Plan has elected to early adopt Part II of ASU 2015-12, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassifications

Certain amounts in the 2014 financial statements have been reclassified to conform to the 2015 presentation

Subsequent events

Subsequent events have been evaluated through June 30, 2016, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, PNC Bank, National Association, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits and the supplemental schedule of assets (held at end of year) as of December 31, 2015, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year then ended.

The following information included in the accompanying financial statements as of December 31, 2014 was obtained from data that has been prepared and certified to as complete and accurate by the trustee as of and for the year ended December 31:

	<u>2014</u>
Registered investment companies	\$ 8,274,026
Common collective trust	2,925,026
Brokerage securities	1,263,111

The value of employer stock presented in the Plan’s financial statements as of December 31, 2014 contains a certified balance of \$5,572,012, as well as additional appreciation of \$787,078, which relates to the fair market valuation of employer stock that was not available at the time of issuance of the certified statement. The employer stock shown on the statement of assets held reflects this adjustment to fair value.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Money market funds: Valued at the net asset value ("NAV") of the underlying assets, as reported to the Plan by the trustee. A fund's NAV reflects an exit price, is the same for all holders of the fund, and provides the basis for current transactions.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the net asset value of units of a bank collective trust. The net asset value, as provided by the trustee, is used as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Individual brokerage accounts: Accounts primarily consist of mutual funds, money market funds and common stocks that are valued on the basis of readily determinable market prices.

Employer stock: Valued at fair value in accordance with a formula contained in an agreement between the Company and the stockholders of the Company dated December 11, 2015 (December 31, 2014 valuation based on agreement dated April 30, 1993).

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables summarize assets measured at fair value on a recurring basis as of December 31, 2015 and 2014, segregated by the level of the valuation inputs within the fair value hierarchy utilized to measure fair value.

<u>As of December 31, 2015</u>

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS:

Certain plan assets are invested with PNC Bank, National Association. Thus, PNC Bank, National Association, as a trustee defined by the Plan, qualifies as a party-in-interest. Trustee fees paid to PNC Bank, National Association totaled \$3,766 for the year ended December 31, 2015. Certain plan assets are invested in individual brokerage accounts with Charles Schwab & Co., Inc. Thus, Charles Schwab & Co., Inc., as a custodian defined by the Plan, qualifies as a party-in-interest. In addition, the Plan holds stock of the Plan Sponsor, LJB Inc.; therefore, LJB Inc. is a related party to the Plan.

6. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the net assets will be distributed to the participants and beneficiaries in proportion to their account balances.

7. TAX STATUS:

The Plan adopted a standardized form of a prototype plan sponsored by PNC Bank, National Association. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this plan. The plan administrator believes the Plan is designed and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks.
