Park National Corporation
Defined Benefit Pension Plan
Notes to Financial Statements
September 30, 2015 and 2014

1. Description of the Plan

The following brief description of Park National Corporation Defined Benefit Pension Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Summary Plan description for more complete information.

General

The Plan is a defined benefit, non-contributory pension plan covering substantially all employees of Park National Corporation and its subsidiary bank (collectively, “Park”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Pension Benefits

All employees who have completed one year of service with Park and who have attained the age of 21 are entitled to a monthly annuity at normal retirement age (the earlier of 65 with 5 years of service or age 70½) which will generally be equal to 29% of average monthly compensation, plus 16% of average monthly compensation in excess of one-twelfth of covered compensation. The standard method of payment of benefits shall be a joint and survivor annuity if the employee has a spouse on the date benefits begin or, if the employee has no spouse, a life only annuity based upon the life expectancy of the employee. Optional forms of payment may be elected in advance of retirement.

Employees with at least 10 years of service can elect early retirement beginning at age 55. If not elected, the employee will receive normal retirement benefits at the normal retirement age. However, if early retirement is elected, the benefit will be reduced to reflect that the early retirement date precedes the normal retirement date.

Employees may elect to receive a late retirement benefit if they work beyond age 65. If elected, the participant is entitled to receive a normal retirement benefit, increased to recognize that the annuity commences subsequent to a normal retirement date.

Termination Benefit

Upon termination of employment, the participant is entitled to receive an accrued benefit. However, employees are only vested after five years of service.

Disability and Death Benefit

If a participant should become disabled, he or she would be entitled to 100% of the accrued benefit without regard to the aforementioned vesting schedule.

If a participant should die with a vested accrued benefit, the death benefit shall be a Qualified Pre-Retirement Survivor Annuity.

Funding Policy

Park makes periodic contributions to the Plan sufficient to provide the Plan with assets with which to pay all employees' benefits by the time they retire. The contribution is based on an actuarial computation and is the sum of the Plan's normal cost and the amount required to fund the amortization of the unfunded accrued liability plus interest thereon over a period of 30 years. Park's policy is to contribute annually an amount at least equal to the minimum funding requirement under Internal Revenue Code ("IRC") Section 412. For the years ended September 30, 2015 and 2014, the Plan has met the minimum funding requirements of ERISA.

Plan Termination

Although it has not expressed any intention to do so, Park has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. If the Plan should terminate at some future time, its assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC") at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC's benefit guaranty, while other benefits may not be provided for at all. However, if Park terminates the Plan, all participants become fully vested.

Investment Policy

The investment policy, determined by the Plan trustee, conforms to the trust agreement. The Park National Bank Trust Department manages the Plan assets and is the trustee of the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting applied consistently with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. It is at least reasonably possible that a significant change may occur in the near future for the estimates of the actuarial present value of accumulated plan benefits.

Benefit Payments

Benefits are recorded when paid.

Valuation of Investments

The Plan's investments are reported at fair value. Refer to Note 10 – Fair Values for additional details. Purchases and sales of securities are recorded on a trade-date basis.

Investment Income

Dividends are recorded as of their ex-dividend date. Interest income is recorded on an accrual basis when earned. Net appreciation includes the Plan's gains (losses) on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service that employees have rendered to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits for active employees are based on their average monthly compensation during the five consecutive calendar years in which the participant had the highest annual compensation during the participant's last ten years of employment. Benefits payable under all circumstances such as retirement, death, and termination of employment are included to the extent they are deemed attributable to employee service rendered prior to the valuation date.

Subsequent Events

Park has evaluated subsequent events for recognition or disclosure in the Plan's financial statements through July 6, 2016, which is the date the financial statements were available to be issued. There are no events that require additional disclosure in these financial statements.

Adoption of New Accounting Pronouncements

Accounting Standards Update ("ASU") 2015-12 – Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965): In July 2015, the Financial Accounting Standards Board (the "FASB") issued *ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965)*. This ASU eliminates certain disclosure requirements in order to reduce the complexity of employee benefit plan accounting. The new guidance is effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively. Early adoption is permitted. The adoption of this guidance impacted disclosures but did not impact the financial statements of the Plan.

3. Accumulated Plan Benefits

The Plan's actuary, AON Hewitt, determines the actuarial present value of accumulated plan benefits. This amount is computed by applying actuarial assumptions to adjust the accumulated plan benefits earned by participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for events such as death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information as of the beginning of the Plan year is as follows:

Actuarial present value of accumulated plan benefits:

	September 30, <u>2014</u>
Vested benefits	
Participants currently receiving payments	\$ 10,710,642
Other vested benefits	<u>48,222,931</u>
Total vested benefits	58,933,573
 Non-vested benefits	 <u>1,437,639</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 60,371,212</u>

Park National Corporation
Defined Benefit Pension Plan
Notes to Financial Statements (continued)
September 30, 2015 and 2014

Change in present value of accumulated plan benefits:

	Year Ended <u>September 30, 2014</u>
Present value of accumulated plan benefits for the prior year	\$ 55,848,984
Increase attributable to:	
Benefits accumulated (including actuarial losses)	5,540,351
Benefits paid	(6,905,397)
Change in actuarial assumptions	1,952,871
Interest	<u>3,934,403</u>
Net increase in present value	<u>4,522,228</u>
 Total actuarial present value of accumulated plan benefits	 <u>\$ 60,371,212</u>

Significant assumptions underlying the actuarial computations for both 2014 and 2013 are:

Expected return on plan assets	7.25% for 2014; 7.50% for 2013
Mortality	For 2014 and 2013, RP-2014 mortality table for annuitants and non-annuitants with the MP-2014 mortality improvement sale;
Retirement age	Retirement age ranging from age 55 to 70 as of September 30, 2014 and September 30, 2013

The actuarial assumptions are based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The \$1,952,871 change in actuarial assumptions above is due to a change in the long term rate of return interest rate assumption from 7.50% to 7.25%.

4. Investments - Unaudited Information

The Plan's investments are held in trust by Park National Bank, the trustee, which is a wholly owned subsidiary of Park National Corporation. All investment information disclosed in the financial statements including investments held at September 30, 2015 and 2014, and net appreciation/(depreciation) in fair value of investments and dividend and interest income for the years ended September 30, 2015 and 2014, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the trustee. This information was not audited by independent accountants.

Notes to Financial Statements (continued)

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated November 4, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the “Code”) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, Plan management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of September 30, 2015 and 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Administrative Fees

Substantially all administrative fees of the Plan are borne by Park. These charges are principally for insurance premiums to the PBGC, actuarial fees, accounting fees, trustee fees and other administrative expenses of the Plan. Investment management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of the investment return for such investments.

7. Party-in-Interest Transactions

Parties-in-interest are defined under Department of Labor Regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During the Plan years ended September 30, 2015 and 2014, the Plan held an interest-bearing account issued by The Park National Bank, an affiliate of Park National Corporation with fair value of \$2,150,470 and \$1,457,584, respectively. For the years ended September 30, 2015 and 2014, the interest-bearing account earned interest of \$1,427 and \$2,200, respectively. Additionally, the Plan owned shares of Park National Corporation at September 30, 2015 and 2014, with a fair value of \$10,447,476 and \$8,733,636, respectively. For each of the years ended September 30, 2015 and 2014, cash dividends of \$435,408 were paid to the Plan by Park National Corporation.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. September 30, 2015 Actuarial Valuation (Unaudited)

The September 30, 2015 actuarial valuation was completed prior to the release of the financial statements. A summary of the actuarial valuation information provided by the plan's actuary which has not been audited by independent accountants, is provided below for informational purposes.

The actuarial present value of accumulated plan benefits as of September 30, 2015 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:

Participants currently receiving payments	\$ 11,665,805
Other vested benefits	<u>46,677,437</u>
Total vested benefits	58,343,242

Nonvested benefits	<u>1,425,235</u>
--------------------	------------------

Total actuarial present value of accumulated plan benefits	<u><u>\$ 59,768,477</u></u>
--	-----------------------------

Park National Corporation
Defined Benefit Pension Plan
Notes to Financial Statements (continued)
September 30, 2015 and 2014

The change in actuarial present value of accumulated plan benefits for the year ended September 30, 2015 consists of the following:

Present value of accumulated plan benefits for the prior year	\$ 60,371,212
Benefits accumulated (including actuarial losses)	2,416,219
Benefits paid	(7,535,093)
Change in Actuarial Assumptions	(294,749)
Plan Amendments	702,343
Interest	<u>4,108,545</u>
Net decrease in present value	<u>(602,735)</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 59,768,477</u>

The \$702,343 change due to plan amendments was the result of a change in death benefits payable to unmarried participants from one-half of the survivor portion of the 10-Year Certain and Life annuity to 100% of the survivor portion of the 10-Year Certain and Life annuity, a change in death benefit payable to married participants from the joint and one-half survivor benefit to the joint and one hundred percent survivor benefit, and a change to allow for a lump sum window for terminated vested participants.

The \$294,749 change in actuarial assumptions above is due to a change in the mortality assumption from the RP-2014 mortality table for annuitants and non-annuitants with the MP-2014 mortality improvement scale to the RP-2014 mortality table for annuitants and non-annuitants projected generationally from 2006 with MP-2015 improvement scale.

10. Fair Values

GAAP defines fair value as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. GAAP establishes a fair value hierarchy which requires the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Park National Corporation
Defined Benefit Pension Plan
Notes to Financial Statements (continued)
September 30, 2015 and 2014

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The fair values of equity securities, consisting of mutual fund investments and common stock held by the Plan, are determined by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs). Additionally, due to their short-term nature, the fair value of interest-bearing demand deposits is determined by reference to their face value (Level 1 inputs). Interest bearing time deposits, United States Government agency obligations, obligations of states and political subdivisions and corporate bonds are valued by the trustee based on yields available on comparable securities of issuers with similar credit ratings as of the end of the Plan year (Level 2 inputs).

The table below provides a listing of investments by type at September 30, 2015:

Schedule SB, Part V—Summary of Plan Provisions

General Information

Original Effective Date: October 1, 1960

Effective Date of Last Amendment: October 1, 2013

Plan Year: October 1 to September 30

Employer Fiscal Year: January 1 to December 31

Employer ID Number: 31-1179518

Plan Administrator's ID Number: 31-1179518

Plan Number: 001

Plan Administrator: The Committee as defined in the plan document.

Eligibility

All employees of the Employer are eligible to participate in the Plan on the October 1 or April 1 coinciding with or next following the later of the date of attainment of age 21 or the completion of one year of service. Employees of affiliated banks are eligible to participate on the bank merger date, if eligibility requirements are met prior to that date.

Service

Service shall equal total years of service with the Employer. A year of service is credited for each plan year in which an employee works 1,000 hours. Partial years of service are credited for completed months during years of hire and termination.

A break in service occurs at the start of any plan year in which the employee works 500 hours or less for the Employer in such year, if his employment has terminated. Service will not be interrupted by:

- (1) Involuntary layoff determined by the Employer, not exceeding one year,
- (2) A leave of absence granted by the Employer,
- (3) A period of service in the Armed Forces of the United States under which employment rights are granted.

Schedule SB Attachment (Form 5500)—2014 Plan Year
Park National Corporation Defined Benefit Pension Plan
EIN: 31-1179518 PN: 001

An employee will be given credit for his pre-break service if either of the following occurs:

- (1) The employee had a vested interest in his Accrued Benefit at the time of his break in service, or
- (2) The employee's period of absence was less than the greater of his pre-break service or five years.

Normal Retirement Date

Normal Retirement Date is the earlier of the first day of the month coincident with or next following attainment of age 65 and the completion of five years of service, or age 70 ½.

Normal Retirement Benefit

The amount of annual benefit to be paid in monthly installments for life with 120 months of payments guaranteed, based on service to Normal Retirement Date, is the greater of the following:

- (1) 29% of Average Monthly Compensation reduced for expected years of service at normal retirement less than 25, or
- (2) 29% of Average Monthly Compensation plus 16% of Average Monthly Compensation in excess of one-twelfth of covered compensation reduced for expected years of service at normal retirement less than 35.

Furthermore, this benefit cannot be less than certain minimum benefits due to various plan mergers. These minimums are outlined in the plan document.

Delayed Retirement

A Participant may continue in the employment of the Employer after his Normal Retirement Date. In such event he will receive at actual retirement the benefit he would have received on his Normal Retirement Date, actuarially increased to reflect delayed payment. However, the benefit will not be less than the benefit accrued at Delayed Retirement reflecting Service and compensation to such date.

Average Monthly Compensation

The average of the highest five consecutive calendar years of compensation as reported on Form W-2 during the ten calendar years preceding the date of determination.

Schedule SB Attachment (Form 5500)—2014 Plan Year
Park National Corporation Defined Benefit Pension Plan
EIN: 31-1179518 PN: 001

Accrued Benefit

The Accrued Benefit at any time prior to a Participant's Normal Retirement Date shall be the benefit described as the Normal Retirement Benefit, using Average Monthly Compensation as of the date of determination, and shall be multiplied by a fraction. The numerator is the Participant's total years of service as of the date of determination, and the denominator is the Participant's expected years of service at normal retirement.

Early Retirement Benefit

Upon the completion of ten years of service and the attainment of age 55, a Participant may elect to retire. He may receive a monthly benefit for life with 120 months of payments guaranteed beginning at his Normal Retirement Date equal to the Accrued Benefit at early retirement date. Payments may begin immediately, with the benefit being reduced one fifteenth ($1/15$) for the first five years and one thirtieth ($1/30$) for the next five years.

Disability Retirement Benefit

A Participant who becomes totally and permanently disabled before his Normal Retirement Date may retire after being determined to be disabled by the Committee for at least six months. The disability retirement benefit is equal to the participant's accrued benefit at disability reduced actuarially for payment preceding normal retirement.

Death Benefit

In the event of a married Participant's death after the completion of five years of service, but prior to meeting the requirements for early retirement, it will be assumed the Participant had terminated employment the day prior to death, survived to his early retirement date, elected a joint and one-half survivor benefit, and died the following day.

If an unmarried Participant dies before Early Retirement Age, the survivor annuity shall be 50% of the 10-Year Certain and Life annuity payable to such Participant if such Participant had terminated employment one day prior to his death.

In the event of a married Participant's death after meeting the requirements for early retirement, his surviving spouse will receive one-half of the joint and one-half survivor benefit calculated on the day before his death.

If an unmarried Participant or unmarried Inactive Participant dies on or after Early Retirement Age, the survivor annuity shall be computed as if he started receiving a 10-Year Certain and Life annuity on the day before his death.

For a vested terminated Participant, death benefits are calculated as for active Participants, but based on the Participant's Accrued Benefit at his termination date.

Schedule SB Attachment (Form 5500)—2014 Plan Year
Park National Corporation Defined Benefit Pension Plan
EIN: 31-1179518 PN: 001

Severance Benefit

Upon the termination of employment after five or more years of service, a Participant shall have a vested interest in his Accrued Benefit which will be payable at Normal Retirement Date. The percentage vested shall be:

Years of Service	Vested Percent
Less than 5	0%
5 or more	100%

A Participant who terminates with ten or more years of service may elect to receive his vested interest as early as age 55. Such benefit will be reduced as described under Early Retirement Benefits.

Optional Methods of Settlement

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity. If a married Participant does not elect the normal form of annuity or does not elect one of the Optional Methods of Settlement described below, then the Participant's retirement benefit shall automatically be paid under option (1) below. The options are:

- (1) A benefit to be paid during the Participant's lifetime with one-half the benefit to be continued to his spouse for her lifetime after his death.
- (2) A benefit to be paid during the Participant's lifetime with three-fourths of the benefit to be continued to his spouse for her lifetime after his death.
- (3) A benefit to be paid during the Participant's lifetime with the same benefit to be continued to his spouse for her lifetime after his death.
- (4) A benefit payable in equal installments during the Participant's lifetime.
- (5) A benefit to be paid for 60, 120, 180 or 240 months certain and thereafter for life.
- (6) An unlimited lump sum settlement for retirees and a lump sum settlement under \$5,000 for vested Participants who have not yet attained retirement age.

All Optional Methods of Settlement are actuarially equivalent to the normal form of annuity based on the 1971 Male Group Annuity Mortality Table, with an age setback of three years for the Participant and for the beneficiary. Options (1), (2), (3) and (4) are calculated using an interest rate of 5.0% for post-retirement. Option (5) is based on the applicable mortality table and the applicable interest rate as prescribed by the Secretary of Treasury as provided in Code Section 417(e) as of the August 1st preceding the beginning of the Plan Year containing the date of distribution.

Mergers with prior plans may have additional Optional Methods of Settlement available on the prior plan's Accrued Benefit.

Amendment or Termination of Plan

The Employer reserves the right to amend or terminate the Plan at any time. Generally, the Pension Benefit Guaranty Corporation reserves the right to terminate the Plan if the Employer fails to meet the minimum funding standards, or is unable to pay benefits when due.

If the Plan is terminated, the plan assets will be distributed among the plan Participants based upon a priority allocation procedure and the Employer shall be liable for any unfunded vested benefits to the extent required by law.
