Plan Administrator
Retirement Plan for Employees of Bristol Babcock Inc.,
United Steelworkers of America Local 895L

Report on the financial statements

We were engaged to audit the accompanying financial statements of the Retirement Plan for Employees of Bristol Babcock Inc., United Steelworkers of America Local 895L (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2015 and 2014, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in note I, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained a certification from this entity as of and for the years ended

September 30, 2015 and 2014, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

NOTE A - DESCRIPTION OF THE PLAN

The following description of the Retirement Plan for Employees of Bristol Babcock Inc., United Steelworkers of America Local 895L (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit plan sponsored by Emerson Electric Co. (the Company) covering all employees hired prior to May 1, 2004, who are covered by the basic labor agreement between the Company and Bristol Babcock Inc., United Steelworkers of America Local 895L. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan's investments are held by The Northern Trust Company (the Trustee).

Pension Benefits

Under terms of the Plan, participants are eligible for monthly benefit payments upon reaching the normal retirement age, being the later of age 65 or five years of pension-credited service. The Plan provides for participant vesting with five years of pension-credited service. Annual benefit payments are determined by multiplying the following benefit multiplier and the years of pension-credited service as of the participant's date of termination:

<u>Credited service period</u>	<u>Benefit multiplier</u>
February 2, 1986 through May 1, 1998	\$324
May 2, 1998 through May 1, 2001	360
May 2, 2001 through May 1, 2004	396
May 2, 2004 through March 31, 2007	480
April 1, 2007 through March 31, 2009	486
April 1, 2009 through March 31, 2011	492
April 1, 2011 and thereafter	498

Participants who terminate or request early retirement may receive their benefits prior to their normal retirement date; however, the benefits will be reduced by factors listed in the Plan document. Benefits are further reduced by amounts distributed to participants from any public pension other than a benefit under Title II of the Social Security Act or from any other defined benefit plan or defined contribution plan to the extent benefits are not attributable to the participant's own contributions.

Vesting

The Plan provides for participant vesting with five years of pension-credited service.

Death and Disability Benefits

If an employee dies after becoming vested, the participant's surviving spouse shall be paid a survivor annuity for the life of the surviving spouse, equal to the annuity that would be payable to the surviving spouse under an automatic survivor benefit commencing at the date the employee would have become eligible for an early retirement benefit had the employee lived.

Contributions and Funding

Contributions from the Company are subject to Internal Revenue Service (IRS) limitations and are based on actuarial calculations of normal cost. The Company satisfied the minimum funding requirements of ERISA.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, the actuarial present value of accumulated Plan benefits at the date of the financial statements, and the reported amounts of additions to and deductions from net assets during the reporting period. Actual results could differ from those estimates.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in Accounting Standards Codification 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. The Plan's administrator is currently evaluating the impact the updated guidance will have on the Plan's financial statement disclosures.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted. The Plan's administrator is currently evaluating the impact the updated guidance will have on the Plan's financial statement disclosures.

Investment Valuation

The Plan's investments in the Emerson Electric Co. Master Trust (Master Trust) are stated at fair value as determined based on the fair value of the underlying investments of the Master Trust. See note D for discussion on fair value measurement.

The Plan's interest in the Master Trust is based on an allocation of the Plan's assets compared to total assets in the Master Trust. Purchases and sales of investments are recorded on a trade-date basis. Investment income is recorded as earned. Dividends are recorded on the ex-dividend date.

Investors may use various financial instruments, particularly forward foreign currency contracts, options and futures, commonly referred to as derivatives, to manage risk. No investments are engaged in market making or other speculative activities. Established practices require that derivative financial instruments relate to specific asset, liability or equity transactions, or to currency exposure.

Expenses

Investment management and certain administrative expenses are paid by the Plan. Expenses include Pension Benefit Guaranty Corporation (PBGC) premiums and professional fees.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE C - INTEREST IN MASTER TRUST

The Plan's investments are in the Master Trust that was established for the investment of assets of the Plan and several other Company-sponsored retirement plans. Each plan in the Master Trust has an undivided interest in the Master Trust. At September 30, 2015 and 2014, the Plan's interest in the net assets of the Master Trust was approximately 0.35% and 0.34%, respectively. Investment income and investment expenses relating to the Master Trust are allocated to the individual plans based on average monthly balances invested by each plan. The net assets of the Master Trust at September 30, 2015 and 2014, are summarized as follows (in thousands):

NOTE D - FAIR VALUE MEASUREMENTS

The FASB has issued guidance regarding the disclosure of fair value measurements. The guidance establishes a formal hierarchy and framework for measuring fair value and provides guidance on the disclosure of fair value measurements and the reliability of valuation inputs. Under the guidance, measurement assumes the transaction to sell an asset or transfer a liability occurs in the principal or at least the most advantageous market for that asset or liability. Within the hierarchy, Level 1 instruments use observable market prices for the identical item in active markets and have the most reliable valuations. Level 2 instruments are valued through broker/dealer quotations or through market-observable inputs for similar items in active markets, including forward and spot prices, interest rates and volatilities. Level 3 instruments are valued using inputs that are not observable in an active market, such as company-developed future cash flow estimates, and are considered the least reliable. The primary objective for the investment of Plan assets is to secure participant retirement benefits while earning a reasonable rate of return. Plan assets are invested consistent with the provisions of the prudence and diversification rules of ERISA and with a long-term investment horizon. The Company continuously monitors the value of assets by class and routinely rebalances to remain within target allocations. The strategy for equity assets is to minimize concentrations of risk by investing primarily in companies in a diversified mix of industries worldwide, while targeting neutrality in exposure to market capitalization levels, growth versus value profile, global versus regional markets, fund types and fund managers. The approach for bonds emphasizes investment-grade corporate and government debt with maturities matching a portion of the longer-duration pension liabilities. The bonds strategy also includes a high-yield element, which is generally shorter in duration. A small portion of the U.S. Plan assets is allocated to private equity partnerships and real assets fund investments for diversification, providing opportunities for above-market returns. Leveraging techniques are not used and the use of derivatives in any fund is limited to exchange-traded futures contracts and is inconsequential.

U.S. equities reflect companies domiciled in the United States, including multi-national companies. International equities are composed of companies domiciled in developed nations outside the United States. Emerging market equities are composed of companies domiciled in portions of Asia, Africa, Eastern Europe and Latin America.

Government bonds include investment-grade instruments issued by federal, state and local governments, primarily in the United States. Corporate bonds represent investment-grade debt of issuers primarily from the United States. High-yield bonds include non-investment-grade debt from a diverse group of developed market issuers.

Other assets include cash, interests in mixed asset funds investing in commodities, natural resources, agriculture and exchange-traded real estate funds, life insurance contracts (United States), and shares in certain general

investment funds of financial institutions or insure arrangements (non-United States) that typically ensure no market losses or provide for small minimum return guarantee.

Valuations of Level 1 assets for all classes shown above are based on quoted closing market prices from the principal exchanges where the individual securities are traded. Cash is valued at cost, which approximates fair value.

Equity securities categorized as Level 2 assets are primarily non-exchange-traded commingled or collective funds in which the underlying securities have observable prices available from active markets. Valuation is based on the NAV of fund units held as derived from the fair value of the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used a practical expedient to estimate fair value.

Debt securities categorized as Level 2 assets are generally valued based on independent broker/dealer bids or by comparison to other debt securities having similar durations, yields and credit ratings. Other Level 2 assets are valued based on an NAV of fund units held, which is derived from either broker/dealer quotations or market-observed pricing for the underlying assets. Funds based on NAV are valued daily and have no redemption restrictions. The NAV is used a practical expedient to estimate fair value.

Limited partnerships are valued at NAV based on units/shares held at year-end, which are obtained from a third-party pricing source obtained by fund manager. Insurance contracts are valued by the applicable insurance company. These are Level 3 investments. The NAV is used a practical expedient to estimate fair value.

A reconciliation of the change in value for Level 3 assets, primarily limited partnerships, is as follows as of September 30 (in thousands):

	2015	2014
Beginning balance	\$188,124	\$124,756

Ending balance	<u>\$260,961</u>	<u>\$188,124</u>

NOTE E - PLAN TERMINATION AND PBGC MATTERS

The Company has not expressed any intention to terminate the Plan. However, in the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

**Retirement Plan for Employees of Bristol Babcock Inc.,
United Steelworkers of America Local 895L
NOTES TO FINANCIAL STATEMENTS - CONTINUED
September 30, 2015 and 2014**

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

NOTE F - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated Plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated Plan benefits include benefits expected to be paid to (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees of their beneficiaries.

The actuarial present value of accumulated Plan benefits is determined by the Plan's actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the valuations as of September 30, 2014 and 2013, are as follows:

Discount rate	4.25% in 2014; 4.75% in 2013
Mortality	RP-2014 Mortality Table, projected back to 2007, using Scale MP-2014
Retirement age	Varies by age between 55 and 69 with 100% retired by age 70

The foregoing assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present value of accumulated Plan benefits as of September 30, 2014, is as follows:

Actuarial present value of accumulated Plan benefits

Total actuarial present value of accumulated Plan benefits	<u>\$14,887,114</u>

The changes in the actuarial present value of accumulated Plan benefits for the year ended September 30, 2014, consist of the following:

NOTE G - INCOME TAX STATUS

The IRS has determined and informed the Company by a letter dated August 1, 2011, that the Plan and related Master Trust were designed in accordance with the applicable regulations of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and related Master Trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authorities. The Plan administrator has analyzed the tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2012.

United Steelworkers of America Local 895L
NOTES TO FINANCIAL STATEMENTS - CONTINUED
September 30, 2015 and 2014**

NOTE H - RISKS AND UNCERTAINTIES

The Plan's investment in the Master Trust is exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and may impact the funded position of the Plan. As a result, the Plan may require additional funding in subsequent years.

Plan contributions are made and the actuarial present value of accumulated Plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE I - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements is complete and accurate:

- Plan interest in Emerson Electric Co. Master Trust, as shown in the statements of net assets available for benefits as of September 30, 2015 and 2014.
- Plan interest in Emerson Electric Co. Master Trust net investment (loss) income, as shown in the statements of changes in net assets available for benefits for the years ended September 30, 2015 and 2014.
- Master Trust net assets and net investment (loss) income as of and for the years ended September 30, 2015 and 2014, as shown in note C.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

NOTE J - PARTIES-IN-INTEREST

The Plan's investments are held in the Master Trust at the Trustee. The Trustee charges fees for the management of the account. Fees charged to the Master Trust are ordinary and customary. These fees qualify as permitted party-in-interest transactions under ERISA.

Certain of the Plan's assets are invested in funds managed by the Trustee of the Plan. These transaction qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Timing of benefit payments Annuity payments are payable mid-year.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable.</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued.
