NOTE 1 - DESCRIPTION OF PLAN

The following description of the Carlton Forge Works (A Corporation) 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

Plan Merger

On September 30, 2011, the board of directors of the Plan's sponsor, Carlton Forge Works (A Corporation) (the "Company" or "Plan Sponsor") approved to merge the Plan with and into the Precision Castparts Corp. 401(k) Retirement Savings Plan (the "PCC Plan"). The Plan merger became effective as of September 30, 2011. Plan investments of $10,547,409 and promissory notes from participants of $582,174 were transferred to the PCC Plan and the participants of the Plan became immediately eligible to participate in the PCC Plan. As the plan merger did not qualify as a plan termination (as defined), discretionary employer contributions did not immediately vest on the plan merger date.

General

The Plan was a defined contribution plan available to all eligible employees of the Company. The Plan was adopted June 1, 1994 and was subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Administration

The Company was the Plan's sponsor and the Plan's administrator and was responsible for filing all reports required of the Plan. The Company's President and Chief Operating Officer was the Plan's trustee. Metropolitan Life Insurance Company (the "Custodian") was the Plan's custodian.

Eligibility

Enrollment was open semi-annually to all employees who had reached age 21. Entry dates for enrollment in the Plan were: (1) the first day of the Plan year, or (2) the first day of the seventh month of the Plan year.

NOTE 1 - DESCRIPTION OF PLAN, continued

Participant Contributions

Participants could make pretax contributions and voluntary after-tax contributions to the Plan up to 13% of their annual compensation. Contributions could not exceed $16,500 for the participants' taxable year 2011. In addition, highly compensated employees (as defined by the Plan) were subject to further limitations. Participants that are 50 years of age or older who had met the annual Internal Revenue Code ("IRC") deferral limit or the specified Plan limits of deferral, were eligible to contribute a catch-up deferral of up to $5,500 for 2011. Participants were also able to rollover amounts representing distributions from other qualified plans. All contributions to each participant's account were self-directed by the participant in one or more of the investment options offered under the Plan.

Employer Contributions

The Plan provided for employer discretionary matching contributions, which were determined each Plan year by the Company's Board of Directors. There was no service requirement for eligibility of participation in employer discretionary matching contributions. For the Plan year ended September 30, 2011, the Company matched participant contributions to the Plan at the rate of $0.10 per $1.00 of contribution, which resulted in total employer contributions of $98,791. The Plan also allowed for supplemental employer profit-sharing contributions. An employee must work at least 1,000 hours during each Plan year and be employed on the last day of the year in order to share in employer profit-sharing contributions. There were no employer profit-sharing contributions for the plan year ended September 30, 2011.

Participants' Accounts and Investment Options

Individual accounts were maintained for each of the Plan's participants to reflect the participant's contributions and related employer contributions, as well as the participant's share of the Plan's income and any related administrative expenses. Allocations of the Plan income and expenses were based on the proportion that each participant's account balance had to the total of all participant account balances. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Contributions made on behalf of the participants were invested in various funds according to participant elections. Participants' contributions were allocated among the available funds in whole percentages. Participants changed investment elections at any time via telephone or via internet access with the Custodian.

NOTE 1 - DESCRIPTION OF PLAN, continued

Forfeited Accounts

At September 30, 2011, forfeited non-vested accounts were transferred as part of the plan merger. These accounts were reallocated to eligible participants as additional contributions subsequent to the plan merger.

Vesting

Participants were 100% vested at all times in their voluntary contributions, plus actual earnings or losses thereon. Participants vested in employer discretionary matching contributions and Company profit-sharing contributions as follows:

Years of Service	Vested Percentage
Less than 2	0%
3	20%
4	40%
5	80%
6	100%

Payment of Benefits

On termination of service due to death, disability or retirement, a participant elected to receive a lump-sum payment amount equal to the participant's vested interest in his or her account, installments on a periodic basis, or elected to postpone payment to a later date. Any nonvested Company contributions and any interest earned thereon was maintained in a separate pool within the Plan for a period of five years, at which time it was forfeited by the terminated employee and allocated among the Plan participants.

Withdrawals

Any withdrawals of pretax voluntary contributions made by participants prior to attaining age 59½ for any reasons other than death, disability, termination of the Plan, or proven financial hardship, were subject to ordinary income taxes and federal and state excise taxes.

NOTE 1 - DESCRIPTION OF PLAN, continued

Promissory Notes From Participants

Participants were permitted to borrow the lesser of $50,000 or 50% of the value of their total vested account balance, upon approval of the Plan administrator. The loans were secured by the participant's account and were required to be repaid at interest rates commensurate with local prevailing rates. Interest rates on participant loans at September 30, 2010 ranged from 4.25% to 9.25%. Loans were required to be repaid within five years, unless the loan was for the purchase of a principal residence. In that case, the repayment period was permitted to be extended. As of September 30, 2010, the outstanding balances on promissory notes from participants totaled $570,691.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could materially differ from those estimates.

Investment Valuation and Income Recognition

Investments were stated at fair value, except for the investments in the Fixed Interest Account (see below).

Net appreciation or depreciation for the period is reflected in the accompanying statement of changes in net assets available for benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, continued

The Plan's investment contract ("Fixed Interest Account") was accounted for in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962, *Plan Accounting - Defined Contribution Pension Plans.* The Fixed Interest Account was considered to be fully benefit-responsive (see Note 6); therefore, the Plan's investments in the Fixed Interest Account were reported at fair value with an adjustment in the statement of net assets available for benefits to separately present any difference between fair value and contract value so that the investments in the Fixed Interest Account were ultimately reflected at contract value. As of September 30, 2010, the contract value of the Fixed Interest Account was $3,783,590, which approximated fair value.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date.

Management fees and operating expenses charged to the Plan for investments in the mutual funds were deducted from income earned on a daily basis and were not separately reflected. Consequently, management fees and operating expenses are included in the net appreciation in fair value of investments.

Payment of Benefits

Benefit payments were recorded when paid.

Administrative Expenses

Certain Plan administrative expenses were paid by the Company.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial assets and liabilities are reported in accordance with FASB ASC 820, *Fair Value Measurements and Disclosures* ("ASC 820"). ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal, or in the absence of a principal market, the most advantageous market for the asset or liability, in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs in priority that may be used to measure fair value:

NOTE 3 - FAIR VALUE MEASUREMENTS, continued

Level l - Quoted prices in active markets for identical assets or liabilities.

Level 2 - Observable inputs other than quoted prices included within Level 1, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; inputs other than quoted prices that are observable for the asset or liability (such as interest rates and yield curves, credit risks, and default rates) or other inputs that are principally derived from or corroborated by observable market data by correlation or other means.

Level 3 - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The following is a description of the valuation methodologies used for the investments measured at fair value, including the general classification of such investments pursuant to the valuation hierarchy.

Mutual Funds

The fair value of mutual funds was based upon quoted prices in active markets. The quoted prices of the mutual fund shares represent their closing net asset value. These investments were been classified within Level l of the valuation hierarchy.

Separate Accounts

The Plan's separate accounts were valued at estimated fair values determined by the Custodian, which represent the net asset value of units held by the Plan at the end of the year. The net asset value of a pooled separate account is based on the fair value of its underlying investments and is not a publicly-quoted price in an active market. As of September 30, 2010, there were no unfunded commitments related to the pooled separate accounts. The pooled separate accounts were permitted to be redeemed on a daily basis with no redemption restrictions. These investments were classified within Level 2 of the valuation hierarchy.

Fixed Interest Account

The fair value of the Fixed Interest Account was based upon the amount Plan participants or Plan sponsors would receive if these investments were liquidated as of the balance sheet date, and included reductions for any termination fees. Amounts were calculated by the annuity provider based on the annuity contract. These investments were classified within Level 2 of the valuation hierarchy.

NOTE 3 - FAIR VALUE MEASUREMENTS, continued

As of September 30, 2010, the Plan's investments measured at fair value on a recurring basis are as follows:

	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

NOTE 4 - INCOME TAX STATUS

The Internal Revenue Service (“IRS”) issued an opinion letter dated July 28, 2003 to the Custodian stating that the prototype plan as designed was in compliance with the applicable requirements of the IRC. Accordingly, no provision for income taxes was reflected in the accompanying financial statements. Continued qualification was dependent on the Plan’s future operations. Although the Plan has been amended since receiving the determination letter, the Plan Sponsor believed the Plan was designed and being operated, in compliance with the applicable requirements of the IRC. As a result, no provision for income taxes was included in the Plan’s financial statements.

NOTE 4 - INCOME TAX STATUS, continued

In accordance with U.S. GAAP, the Plan administrator was required to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan had taken an uncertain income tax position that was more-likely-than not to be sustained upon audit by the IRS. An uncertain income tax position will not be recognized if it has less than a 50% likelihood of being sustained. The Plan administrator had analyzed the tax positions taken by the Plan and had concluded that as of September 30, 2010 and 2011, there were no uncertain positions taken or expected to be taken that required the recognition of a liability (or asset) or disclosure in the financial statements. The Plan administrator does not foresee material changes to the gross uncertain income tax position liability (or asset) of the Plan within the next twelve months.

The Plan is subject to routine audits by the IRS, however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2008.

NOTE 5 - INVESTMENTS (Unaudited)

The summary of the Plan's investments at September 30, 2011 and 2010 which exceeded 5% of net assets available for benefits was derived from information prepared by the Custodian of the Plan and furnished to the Plan administrator. The Plan administrator has obtained a certification from the Custodian that such information is complete and accurate (see Note 7).

Description of Investment	Fair Value at September 30, 2011	Fair Value at September 30, 2010
BlackRock Aggressive Growth Portfolio	$ *	$ 779,308
Mist – BlackRock Large Cap Core Portfolio A	*	702,434
MetLife Stock Index Fund	*	832,087
Fixed Interest Account	*	3,783,590

* Investment option was not available to participants as of September 30, 2011.

For the year ended September 30, 2011, net appreciation (depreciation) in fair value of investments (including realized and unrealized gains and losses) is as follow:

Mutual funds	$ (28,006)
Separate accounts	17,251
	$ (10,755)

NOTE 6 - INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan's investment in the Fixed Interest Account was maintained in a general account of Metropolitan Life Insurance Company. The Fixed Interest Account was increased by contributions and earnings at guaranteed rates and was reduced by participant withdrawals and administrative expenses. The investment in the Fixed Interest Account was fully benefit-responsive, and as such, the participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments in the fund at contract value. However, certain withdrawals influenced by Company-initiated events, such as termination of the investment contract, may result in distributions at other than contract value. There were no reserves against contract values for credit risk of contract issues or otherwise. As a result of the Plan merger, the Plan withdrew from the Fixed Interest Account at contract value.

The average yield was approximately 3.05% in 2011 and 3.08% in 2010. The crediting interest rate for this investment contract is reset quarterly but cannot be less than 3.00%.

NOTE 7 - INFORMATION CERTIFIED BY THE CUSTODIAN (Unaudited)

The Plan administrator has elected the method of annual reporting permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown on the Statements of Net Assets Available for Benefits as of September 30, 2011 and 2010;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended September 30, 2011;
- The fair value of investments included in Note 3;
- Investments that represent 5% or more of the Plan's net assets available for benefits as of September 30, 2011 and 2010 as reflected in Note 5; and
- Schedule I - Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of September 30, 2011.

NOTE 8 - RELATED-PARTY TRANSACTIONS

Certain plan investments were in investment funds managed by the Custodian and in loans to participants. The Custodian and the participants are considered parties-in-interest under ERISA. All of these transactions are considered exempt party-in-interest transactions under ERISA.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan provided for various investment options in any combination of equity, fixed-income and other investment funds. Such investments were exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment funds and the level of uncertainty related to changes in the value of investment securities, it was at least reasonably possible that changes in risks in the near term could have materially affected participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The Plan reports its Form 5500 on the modified cash method of accounting, whereas the financial statements are presented on the accrual method of accounting. Therefore, there are certain differences between the amounts reported on the financial statements and the amounts reported on the Form 5500.

The following is a reconciliation of net assets available for benefits per the financial statements at September 30, 2010 to the amounts per the Form 5500:

Net assets available for benefits per the financial statements	$ 11,581,909
Less: participant and employer contributions receivable	(28,675)
Net assets available for benefits per the Form 5500	$ 11,553,234

The following is a reconciliation of the net decrease in net assets available for benefits per the financial statements for the year ended September 30, 2011 to the Form 5500:

Net decrease in net assets available for benefits per the financial statements	$ (452,326)
Add: participant and employer contributions receivable per the 2011 financial statements	28,675
Net decrease in net assets available for benefits per the Form 5500	$ (423,651)

NOTE 11 - SUBSEQUENT EVENTS

Management of the Plan has evaluated subsequent events after the statement of net assets available for benefits date of September 30, 2011 through June 29, 2016, the date the financial statements were issued. There were no events requiring financial statement disclosure that took place between these dates that have not been disclosed in the notes to these financial statements.
