Note 1 - Description of the Plan

The following description of the Highline Medical Center Tax Sheltered Annuity Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

General - The Plan is a 403(b) tax sheltered annuity salary deferral plan covering substantially all employees of Highline Medical Center (the Medical Center), and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Highline Medical Center (the Plan Sponsor) is the Plan's sponsor and serves as Plan administrator.

Eligibility - Employees of the Medical Center are eligible to participate in the Plan upon reaching age 18 and after completing two years of service in which at least 1,000 hours are worked in the first 24 consecutive months. Plan entry dates are restricted to the beginning of each quarter. Participants must complete at least two years of service to be eligible to receive any employer-paid matching contributions.

Contributions

Participant contributions - Each year, participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and discretionary contributions - The Medical Center matches 100% of employee contributions, up to 2% of eligible compensation deferred to the Plan. The Plan Sponsor further contributes a discretionary contribution equal to 5% of compensation for each employee who is eligible for the discretionary contributions.

Contributions are subject to regulatory limitations.

Participant accounts - Each participant's account is credited with the participant's contributions and the Medical Center's matching and discretionary contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting - Participants are immediately vested in their contributions and all employer contributions, plus actual earnings thereon.

Note 1 - Description of the Plan (continued)

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of 5 years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 15 years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the local prevailing rate. Principal and interest are paid ratably through monthly payroll deductions. As of December 31, 2015, the rates of interest on outstanding loans ranged from 4.25% to 9.25% with various maturities through June 2030.

Payment of benefits - Upon termination of service due to termination, death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, installment payments where the minimum payment is greater than $50, annuity payments through an insurance company, or roll the funds into another qualified account.

Note 2 - Summary of Accounting Policies

Basis of accounting - The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation - The investments are stated at fair value. The Plan's custodians, Fidelity Management Trust Company (Fidelity), Lincoln National Life Insurance Company (Lincoln), and American United Life Insurance Company (OneAmerica), certify the contract value of the guaranteed interest accounts and the fair market value of all other investments. If available, quoted market prices are used to value investments. Investments held by American Century Investments (American Century) are also reported at fair value, but were not certified as of December 31, 2015 and 2014.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date (Note 3).

Note 2 - Summary of Accounting Policies (continued)

Income recognition - Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants - Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions upon the occurrence of a distributable event, based on the terms of the Plan agreement.

Payment of benefits - Benefits are recorded when paid.

Expenses - Several of the investment fund options are subject to investment and administrative fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance; thus, they are not separately disclosed in the accompanying financial statements. Participants are assessed separate fees for the administration of loans and repayments thereof, as well as investment advisory services, and such fees are separately disclosed in the financial statements. All other administrative expenses related to the Plan are paid by the Plan Sponsor.

Recent accounting pronouncements

ASU 2015-12 - In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962): I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. The amendments remove the requirement to:

- report fully benefit-responsive guaranteed investment contracts at fair value (Note 3).
- disclose individual investments held that exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.

ASU 2015-12 has been adopted for the December 31, 2015, Plan year-end; however, the retrospective approach requires that the above items, applicable to the prior year, be presented in accordance with ASU 2015-12 as well.

Note 2 - Summary of Accounting Policies (continued)

Subsequent events - Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued.

The Plan has evaluated subsequent events through May 11, 2016, which is the date the financial statements are available to be issued.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 3 - Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies (mutual funds) - Shares of registered investment company funds (or mutual funds) are valued at the quoted market price in active markets, which represents the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded. Registered investment companies are classified in Level 1 of the fair value hierarchy.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31:

	Investment Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 63,360,900	$ -	$ -	$ 63,360,900

Investments at fair value	$ 64,600,660	$ -	$ -	$ 64,600,660

Note 4 - Guaranteed Interest Accounts

The Plan maintains a fully benefit-responsive investment contract (FBRIC) with VALIC. VALIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Funds are credited with guaranteed interest rates set by VALIC and vary based on the date the participant established his or her account. The crediting rate is reviewed on a quarterly basis for resetting. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the FBRIC criteria and, therefore, is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Note 4 - Guaranteed Interest Accounts (continued)

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Note 5 - Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (IRC). The terms of the Plan have been prepared to conform to the sample language provided by the IRS. The Plan is required to operate in conformity with the IRC to maintain the tax-exempt status for participants under Section 403(b).

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 - Information Certified by the Custodians

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity, Lincoln, and OneAmerica, the custodians of the Plan, have certified to the completeness and accuracy of:

Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014.

Net depreciation in fair value of investments, net appreciation in guaranteed interest accounts, dividends, and interest and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015.

Investments reflected on the supplemental schedule of assets (held at end of year).

Assets held by American Century were not certified as of December 31, 2015 and 2014, and for the year ended December 31, 2015.

The following table details the amount certified by each custodian for the 2015 and 2014 Plan years:

	Investments and Notes Receivable From Participants at Fair Value as of December 31			
	Fidelity (Certified)	Lincoln (Certified)	OneAmerica (Certified)	Total
2015	$ 94,522,369	$ 801,057	$ 463,113	$ 95,786,539
2014	95,906,275	917,946	472,603	97,296,824

The following table shows investment and other income (loss) earned, including investment transactions and interest on notes receivable from participants, for the 2015 Plan year:

	Fidelity (Certified)	Lincoln (Certified)	OneAmerica (Certified)	Total
2015	$ 574,107	$ (6,248)	$ (1,021)	$ 566,838

Note 8 - Party-in-Interest Transactions

The Plan holds investments managed by Fidelity, Lincoln, OneAmerica, and American Century. These companies are the custodians of the Plan and, therefore, transactions with these entities qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services to Fidelity, Lincoln, OneAmerica, and American Century were $62,121, $375, $0, and $0, respectively, for the year ended December 31, 2015.

Note 9 - Plan Termination

Although it has not expressed any intention to do so, the Plan Sponsor has the right to terminate the Plan and discontinue its contributions at any time.

Note 10 - Delinquent Contributions

As disclosed in the accompanying supplemental schedule, certain employee deferrals were not remitted to the Plan within the timeframe required by the Department of Labor. The Medical Center has determined the amount of related lost earnings and has remitted these amounts to participants' accounts during 2015.

Note 11 - Subsequent Event

Effective as of January 1, 2016, only employees subject to the terms of a collective bargaining agreement are eligible to participate in the Plan. All other employees of the Plan Sponsor are excluded from participating in the Plan on and after January 1, 2016, other than for purposes of maintaining accounts that accrued prior to January 1, 2016.
