Plan Administrator
Multi-Color Corporation 401(k) Savings Plan

We have audited the accompanying financial statements of Multi-Color Corporation 401(k) Savings Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2015 and 2014, and the related statement of changes in net assets available for benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Multi-Color Corporation 401(k) Savings Plan as of December 31, 2015 and 2014, and the changes in net assets available for benefits for the year ended December 31, 2015 in accordance with accounting principles generally accepted in the United States of America.

Supplementary information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2015 is presented for purposes of additional analysis and is not a required part of the financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such supplementary information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures. These additional procedures included comparing and reconciling the information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedule is fairly stated, in all material respects, in relation to the financial statements as a whole.

Multi-Color Corporation 401(k) Savings Plan

NOTES TO FINANCIAL STATEMENTS

December 31, 2015 and 2014

NOTE A – DESCRIPTION OF PLAN

Multi-Color Corporation 401(k) Savings Plan (the Plan) is a defined contribution profit sharing plan. The following summary of the Plan is provided for informational purposes only, and reference should be made to the Plan document for a more complete description. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

1. General - The Plan became effective on April 1, 1994 and covers substantially all U.S. based employees of Multi-Color Corporation (the "Company" or the "Plan administrator"). The Plan allows participating employees to make voluntary contributions on a before tax basis (voluntary contributions) subject to limitations under the Plan and the Internal Revenue Code (IRC), as amended. Participants may also make rollover contributions from other qualified defined benefit or contribution plans. The Plan also provides for a discretionary employer matching contribution (matching contribution) that is currently one-half the voluntary contribution, up to 6% of such voluntary contributions for all participating employees. At the discretion of the Company, certain union employees at the Norwood, Ohio plant will receive an additional year end contribution equal to 3% of their eligible earnings. The Company may also make additional discretionary contributions to the Plan (discretionary contributions), of which there were none in 2015 and 2014.

   Employees are eligible to participate in the Plan after completing one month of service. Upon becoming eligible to participate in the Plan, employees are automatically enrolled at a 3% participation rate. Employees may elect a different percentage or waive participation in the Plan either before the first contributions are withheld or at any time thereafter. The contributions are invested in the Plan's default investment option if the employee does not make a different investment election. The default investment option is the Janus Balanced Class T Fund.

2. Participant Accounts - Each participant's account is credited with the participant's voluntary contribution, the Company's matching and discretionary contributions (if any), allocations of participants' forfeitures (if any), and Plan earnings. Also, each participant's account is charged with withdrawals, as applicable, and Plan losses and administrative expenses. Plan earnings are allocated based on account balances; matching contributions are based on voluntary contributions; and discretionary contributions (if any) are allocated based on compensation. The benefit to which a participant is entitled is the benefit that can be provided from that participant's vested account.

3. Vesting - Participants are fully vested in their voluntary contributions and the earnings thereon. Vesting in the remainder of the account is based on a graduated scale that allows for full vesting after four years of service in accordance with the following schedule:

Years of Service	Vesting Percentage
Less than 1	0%
1	25%
2	50%
3	75%
4 or more	100%

4. Notes Receivable from Participants - Participants may borrow funds from the vested portion of their account, and a maximum of one outstanding loan is currently allowed per participant at any one time. The maximum note amount available to an eligible participant is the lesser of 50% of the vested account balance or $50,000; however, the total amount borrowed at any time from the participant's account is subject to stipulated limitations. Participant notes bear interest at the market rate as determined by the Plan administrator. The term of participant loans cannot exceed five years, other than for loans taken for purchase of a primary residence.

5. Payment of Benefits - Participants become eligible for benefit payments upon retirement, termination, disability or death. Upon separation of service from the Company, a participant's benefits become payable immediately for participants with account balances of $1,000 or less. Benefits to participants with account balances greater than $1,000 are payable upon participant election.

6. Forfeitures – Forfeitures first are used to restore participants' forfeitures, second are used to offset plan expenses, third are used to reduce the employer's matching contribution and fourth are allocated to all participants eligible to share in the allocations in the same proportion that each participant's elective deferrals for the year bear to the elective deferrals of all participants for such year. Forfeitures can be allocated as of any valuation date during the Plan year in which the former participant receives full payment of his or her vested benefit. For the year ended December 31, 2015, total forfeitures used to satisfy plan administration expenses were approximately $43,000. No forfeitures were used to reduce the employer's matching contribution during the year ended December 31, 2015. Forfeitures to be allocated at December 31, 2015 and 2014 were approximately $28,000 and $4,700, respectively.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

2. Use of Estimates

In preparing financial statements in conformity with U.S. GAAP, management makes estimates and assumptions that affect the reported amounts of assets, liabilities and changes in net assets available for benefits, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

3. Investment Valuations and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note G for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net (depreciation) appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

4. Payment of Benefits

Benefits are recorded when paid.

5. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. Interest is charged at the market rate as determined by the Plan administrator and is 4.25% on participant loans outstanding as of December 31, 2015. No allowance for credit losses has been recorded as of December 31, 2015 or 2014.

6. Fully Benefit-Responsive Investment Contracts Held in Common Trust

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by the PNC Stable Value Fund, represents contributions made under the contracts, plus earnings,

less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan invests in investment contracts through the PNC Stable Value Fund. Contract value for this common trust is based on the net asset value of the fund as reported by the investment advisor. The Statements of Net Assets Available for Benefits presents the fair value of the investment in the common trust. As of December 31, 2015 and 2014, contract value approximated fair value and no adjustment was necessary. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract-value basis for the common trust fund.

There are no reserves against contract value for credit risk of the contract issuers or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are typically reviewed and reset on a monthly or quarterly basis according to each contract.

Certain events limit the ability of the Plan to transact at contract value with the PNC Stable Value Fund. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) election by the employer to withdraw from a common trust fund in order to switch to a different investment provider, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yield earned by the PNC Stable Value Fund during the year ended December 31, 2015 was as follows:

Based on actual earnings	1.81%
Based on interest rate credited to participants	1.53%

7. Expenses of the Plan

The Company provides certain administrative services at no cost to the Plan. If not paid by the Company, other administrative and investment expenses are paid by the Plan.

8. Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, "Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." This update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value (NAV) per share as a practical expedient. This update is effective retrospectively for fiscal years beginning after December 15, 2016, which for the Plan is the year beginning January 1, 2017. Plan management is currently evaluating the impact on this update on its financial statements.

In July 2015, the FASB issued ASU 2015-12, "Part I: Fully Benefit-Responsive Investment Contracts," which requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value, and "Part II: Plan Investment Disclosures," which eliminates the requirements to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value by requiring that investments are grouped only by general type, eliminating the requirement to disaggregate investments by nature, characteristics and risk. This update is effective retrospectively for fiscal years beginning after December 15, 2015, which for the Plan is the year beginning January 1, 2016. Plan management is currently evaluating the impact on this update on its financial statements.

9. Subsequent Events

The Plan evaluated subsequent events through the date the financial statements were available to be issued and identified that no material subsequent events had occurred through this date requiring revision or disclosure in the financial statements.

NOTE C – INVESTMENTS

Participants direct their account balances to be invested into one or more different investment options. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

The following investments are in excess of five percent of net assets available for benefits as of December 31:

	2015	2014
American Century Heritage Fund (211,491 and 225,038 units, respectively)	$4,489,952	$5,292,893
BlackRock S&P 500 Stock Fund (25,421 units)	-	6,287,876
Janus Balanced Class T Fund (322,582 and 268,143 units, respectively)	9,335,531	8,199,808
Multi-Color Corporation Common Stock (170,823 and 179,530 units, respectively)	10,216,951	9,949,538
PNC Stable Value Fund (1,157,077 units)	4,084,596	***
T. Rowe Price 2030 Retirement Fund (190,110 and 179,136 units, respectively)	4,115,887	4,095,038
Vanguard 500 Index Fund (45,983 units)	8,666,947	-
Wells Fargo Large Cap Growth Fund, previously named the Wells Fargo Advantage Large Cap Growth Fund (130,385 and 129,978 units, respectively)	5,996,405	6,049,167

***Investment represents less than 5% of net assets at the respective date.

The Plan's investments (including investments bought, sold and held during the year) (depreciated)/appreciated, net in value as follows:

	2015
Mutual Funds	$(2,954,962)
Common Stock	940,235
Total	$(2,014,727)

NOTE D – PLAN TERMINATION

Although the Company has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

NOTE E – TAX STATUS

Effective January 1, 1999, the Company amended the Plan by adopting the PNC Bank Prototype Plan. The Prototype Plan obtained an opinion letter dated March 31, 2008 in which the Internal Revenue Service (IRS) stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the opinion letter, however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015 and 2014, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE F – RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments held during the years ended December 31, 2015 and 2014 include shares of the Company's common stock, a money market fund, a common trust fund and shares of mutual funds managed by the trustee, or an affiliate there of, and therefore, these transactions qualify as party-in-interest transactions. The Plan paid the trustee $50,700 in administrative expenses, including trustee fees, during the year ended December 31, 2015. The Plan did not pay any fees in 2015 for investment management services.

NOTE G – FAIR VALUE MEASUREMENTS

The Plan defines fair value as the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. To increase consistency and comparability in fair value measurements, the Plan uses a fair value estimating three-level hierarchy that prioritizes the use of observable inputs. The three levels are:

- Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities.

- Level 2 - Observable inputs other than quoted market prices included within Level 1 in active markets for identical assets and liabilities, either directly or indirectly. These include quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially, either over time or among market makers, or in which little information is released publicly and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

- Level 3 - Unobservable inputs, developed using the company's estimates and assumptions.

The determination of where an asset or liability falls in the hierarchy requires significant judgment. Assets measured at fair value for the Plan are as follows:

Common stock/mutual fund/money market fund – Valued at the closing price reported on the active market on which the security is traded.

Common trust fund – Valued at net asset value (NAV) based on the fair value of the fund's underlying investments using information reported by the investment advisor.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Investments measured at fair value at December 31, 2015 are categorized as follows:

As a practical expedient, the Plan measures the fair value of certain investments based on the investee's NAV or its equivalent. As a result of applying the practical expedient, the fair value of the common trust fund (the PNC Stable Value Fund) was determined based on NAV as of December 31, 2015 and 2014. The PNC Stable Value Fund allows for daily redemption and investments in the PNC Stable Value Fund do not have a holding period. There are no unfunded commitments for investments in the PNC Stable Value Fund. The PNC Stable Value Fund seeks to preserve principal investment while earning interest income.
