WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description

The following description of the Window Products, Inc. Profit Sharing and 401(k) Plan (Plan) provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of Window Products, Inc. and is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Window Products, Inc. (Company) is the Plan’s sponsor and serves as Plan administrator.

Eligibility – All employees, with the exception of leased employees, nonresident aliens, and employees covered by a collective bargaining agreement are eligible to participate in the Plan once certain eligibility requirements are met. Employees of the Company are eligible for all contributions immediately following the date of hire and having reached the age of 18.

Contributions –

Participant contributions – Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Participants may also elect to make Roth contributions utilizing after-tax contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. There was no discretionary match made during the year ended December 31, 2015. Profit sharing contributions are allocated to participants in the same proportion as a participant’s compensation bears to the total of all participants’ compensation. There were no profit sharing contributions for the year ended December 31, 2015.

Employer safe harbor – The Company also makes safe harbor contributions equals 100% of the amount of the participants elective deferrals that do not exceed 3% of the participants compensation, plus 50% of the amount of the participants deferral that exceeds 3% of compensation but not to exceed 5% of compensation, regardless of the employee’s hours of service or employment on the last day of the Plan year. The safe harbor contribution for the year ended December 31, 2015, was \$541,334.

Contributions are subject to regulatory limitations.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description (continued)

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service. Participants vest in the Company's contributions based on the following schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
1	25%
2	50%
3	75%
4	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 10 years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. As of December 31, 2015, the rate of interest on all outstanding loans was 3.25% with various maturities through November 2020.

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum, partial withdrawal, or installment payment amount equal to the value of the participant's interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. The Plan also allows for in-service distributions if a participant reaches age 59½ and hardship distributions subject to Plan provisions.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Plan Description (continued)

Forfeitures – Forfeitures are the nonvested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan and will be re-allocated to participants as a profit sharing contribution. As of December 31, 2015 and 2014, forfeited nonvested accounts totaled \$545 and \$2,605, respectively. For the year ended December 31, 2015, \$2,605 was re-allocated to participants.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Recent accounting pronouncement – In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*.

The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient (NAV practical expedient). ASU 2015-07 was adopted in the December 31, 2014, Plan year end.

In July 2015, FASB issued ASU 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962). Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures*. The amendments remove the requirement to:

- report fully benefit-responsive guaranteed investment contracts at fair value. See Note 4.
- disclose individual investments held that exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.

ASU 2015-12 has been adopted for the December 31, 2015, Plan year end; however, the retrospective approach requires the above items, applicable to the prior year, be presented in accordance with ASU 2015-12 as well.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Investment valuation – The investments are reported at fair value and contract value. The Plan's custodian, Reliance Trust Company, certifies the contract value of the deposit administration group annuity contract and the fair market value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (exit price) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost that represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the date of the statements of net assets available for benefits but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statements of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statements of net assets available for benefits but arose after the date of the statements of net assets available for benefits and before the financial statements are available to be issued.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

Subsequent events (continued) – The Plan has evaluated subsequent events through June 30, 2016, which is the date the financial statements were available to be issued.

Reclassification – Certain amounts from the prior year statement of net assets available for benefits have been reclassified, in order to conform to the current year presentation.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

- | | |
|----------------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2015 and 2014:

Registered investment funds (Mutual Funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value Measurements (continued)

The Administrative Committee, under the supervision of the Company's Board of Directors and the Plan Trustees, determines the fair value measurement policies and procedures in consultation with the Company's chief financial officer. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value as of December 31:

	2015			
	Level 1	Level 2	Level 3	Total
Registered investment funds	\$ 6,450,403	\$ -	\$ -	\$ 6,450,403

	2014			
	Level 1	Level 2	Level 3	Total
Registered investment funds	\$ 6,118,044	\$ -	\$ -	\$ 6,118,044

Note 4 – Guaranteed Investment Contracts with Standard Insurance Company

Stable Asset A is a fully benefit-responsive investment contract (FBRIC) with Standard Insurance Company. Contributions are maintained in Standard Insurance Company's general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Standard Insurance Company is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1%. The crediting rate is reviewed on a quarterly basis for resetting. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 4 – Guaranteed Investment Contracts with Standard Insurance Company (continued)

The contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Standard Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations that may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and also would limit the ability of the Plan to transact at contract value with the participants.

Note 5 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, management has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

WINDOW PRODUCTS, INC. PROFIT SHARING AND 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 7 – Information Certified by the Custodian

Accordingly, the Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Reliance Trust Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014.
- Net depreciation in fair value of investments, dividends and interest reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Investments reflected on the schedule of assets (held at end of year), excluding participant loans.

Note 8 – Party in Interest Transactions

Plan investments include a deposit group annuity contract with Standard Insurance Company. Standard Insurance Company is the record keeper of the Plan, and therefore, transactions with this entity qualify as exempt party in interest transactions. The Plan also allows for loans to participants that qualify as party in interest transactions.

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
