Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Fair Value footnote for discussion of fair value measurements.

Net appreciation in fair value of investments is reflected in the statements of changes in net assets available for benefits and includes realized gains and losses on investments bought and sold and the change in appreciation from one period to the next. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The Stable Value Fund is a fund that invests in a diversified portfolio of fully benefit-responsive investment contracts issued by insurance companies, banks and other financial institutions. The Stable Value Fund utilizes collateralized GIC contracts, which are high-quality fixed income securities wrapped by an insurance company, bank or financial institution. The wrap contract provides benefit-responsive withdrawals and book value accounting, while the underlying collateral provides quality to the fund and reduced exposure to any single industry. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the fund, plus earnings, less expenses, less participant withdrawals.

Recent Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-12, “*Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.*” ASU 2015-12 was issued to simplify financial reporting by employee benefit plans. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Contract value must be measured for each type of investment contract, either on the face of the financial statements or in the footnotes. Also, the disclosures must include 1) a description of the nature of each type of investment contract, including how they operate, 2) a description of events and the probability of them occurring that will limit the ability of the plan to transact at contract value, and 3) a description of events that would allow the issuer to terminate the contracts and settle at an amount different from the contract value. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. The Plan has elected to adopt Parts I and II early and this is reflected as such in these financial statements.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the participant, as provided by the Plan agreement.

Subsequent Events

The Plan evaluated subsequent events through the date the financial statements were issued which was June 16, 2016.

Fair Value Measurements

ASC 820 establishes a framework for measuring fair value which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Fair Value Measurements (continued)

Common Collective Trust: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than reported NAV. Participant transactions (purchased and sales) may occur daily. Were the plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets as fair value as of December 31, 2015 and 2014:

Investments at fair value as of December 31, 2015

Investment in Common/Collective Trust

The Plan invests in the Stable Value Fund (the Fund), a Collective Investment Trust that invests primarily in fully benefit-responsive investment contracts issued by insurance companies, banks and other financial institutions, and other authorized instruments, which are benefit responsive. The objective of the Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile, and liquidity for benefit responsive payments.

The Plan's interest in the Fund is calculated by applying the Plan's ownership percentage in the Fund to the total fair value of the fund. The underlying assets owned by the Fund consist primarily of readily marketable fixed income securities with quoted market prices.

The crediting interest rate is determined quarterly and is calculated based upon many factors, including current economic and market conditions, the general interest rate environment, and purchases and redemptions by unit-holders.

The average market yield and crediting interest rate to the participants of the Fund for the year ended December 31, 2015 was 1.64%.

The average market yield and crediting interest rate to the participants of the Fund for the year ended December 31, 2014 was 1.41%.

Information Prepared and Certified by the Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the Trustee.

The Trustee certified to the completeness and accuracy of the investment balance and participant notes receivable balance of \$25,836,894 and \$25,931,413 as of December 31, 2015 and 2014, respectively. The Trustee also certified to the completeness and accuracy of the following related to the aforementioned investments for the years ending December 31, 2015 and 2014, respectively; unrealized depreciation/appreciation of (\$556,256) and \$1,670,240 and dividends and interest of \$24,370 and \$10,539.

Related Party Transactions

Certain plan investments are shares of common/collective trusts managed by Nationwide Trust Company. Nationwide Trust Company is the trustee as defined by the Plan and qualifies as a party-in-interest.

Notes to Financial Statements

December 31, 2015 and 2014

Tax Status

The Plan received a determination letter from the Internal Revenue Service dated June 18, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (Code). Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator has analyzed the tax position taken by the Plan, and has concluded that as of December, 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the accompanying statement of net assets available for benefits.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and short-term liquidity associated with certain investments held by the Plan, which could impact the value of investments after the date of these financial statements.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions and terminate the Plan. In the event of termination or partial termination of the Plan, all amounts credited to a participants' account, including Company contributions, become fully vested.
