CONCORD HEALTH CARE, INC. 401(K) PROFIT SHARING PLAN

December 31, 2015 and 2014

A. DESCRIPTION OF THE PLAN

The following description of the Concord Health Care, Inc. 401(k) Profit Sharing Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

On June 1, 1999, Concord Health Care, Inc. (Company) established the Concord Health Care, Inc. 401(k) Profit Sharing Plan. The Plan is a defined contribution plan covering all employees of the Company, and affiliated employers, who have one year of service consisting of 1,000 hours or more and are age twenty-one or over. The Plan is subject to the provisions of ERISA.

Contributions

Participants may contribute up to 15% of their annual compensation up to an annual limit. The Company will match the participant's contribution in a proportion as determined annually by the Company. The Company can also make a profit sharing contribution in an amount determined at the sole discretion of the Company.

Participant Accounts

Each participant's account is credited with the employee's contribution, the Company's matching contribution and an allocation of (a) the Company's profit sharing contribution and (b) Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Forfeitures

At December 31, 2015 and 2014, forfeited non-vested accounts totaled \$0 and \$17,001 respectively. These accounts can be used to reduce current and future employer contributions. There were no employer contributions in 2015 or 2014.

Vesting

Participants are immediately vested in their voluntary contribution plus earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of credited service.

Payment of Benefits

Benefits equal to the value of the participant's account will be paid at the time the participant terminates employment or at the time the participant attains age 65, as selected by the participant. The normal form of benefit is a joint and survivor annuity. Under certain conditions a participant may elect a lump-sum distribution or certain periodic payments.

Participant Loans

Notes receivable from participants are measured at their unpaid principle balance plus any accrued, but unpaid, interest. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan Fund. Loan terms range from 1-5 years or up to 30 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at the prevailing rate as determined by the Plan administrator. Current interest rate is 7.00%. Principal and interest are paid ratably through payroll deductions. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document. All participant loans were paid off as of December 31, 2015.

Investment options

Upon enrollment in the plan, a participant may direct employee contributions in 1% increments in any of the investment options offered by the Plan. Participants may change their investment allocations daily.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Method of Accounting

In 2015, the accounting records of the plan are maintained on the liquidation basis of accounting. See Note E for further information on this matter.

In 2014, the accounting records of the Plan are maintained on the modified cash basis of accounting. The modified cash basis for presentation differs principally from accounting principles generally accepted in the United States of America in that there are no provisions for employee or employer contributions receivable and no provision for any liabilities of the Plan. Contributions and earnings are recorded when received by the Plan and distributions and expenses are recorded when paid by the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note L for discussion of fair value investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires the Plan management to make estimates and assumptions that affect certain reported amounts of assets and changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded for financial statement purposes when paid. During 2015 benefits paid to participants totaled \$846,715. As of December 31, 2015, vested amounts allocated to terminated participants who have not yet elected to withdraw from the plan totaled \$0. There have been no participants that have elected to withdraw from the plan that have not been paid.

Uncertain Tax Positions

The Plan adopted Topic 740 (Fin 48) on January 1, 2009. The Plan files tax returns in the U.S. Federal jurisdiction. Generally, this jurisdiction has statutes of limitations that run three years, which means tax years that remain subject to examination would be tax years ended December 31, 2012 and beyond. Presently, the Plan is under no examination from any jurisdiction. The Plan Administrator evaluated tax positions, statutes of limitations tax law and changes and new authoritative rulings and concludes a low possibility of material unrecognized tax benefits that would need to be recorded and disclosed.

C. INVESTMENTS

The Plan invests in mutual funds sponsored by Gabelli Enterprise, Goldman Sachs, American and Principal Investors group of funds. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the trustee has certified the following information as complete and accurate. The Plan administrator has instructed the independent public accountants not to perform any auditing procedures with respect to the certified information below. The following is a summary of the Plan's investments and change in value at December 31, 2015 and 2014:

D. INCOME TAX STATUS

The Plan is part of a regional prototype plan which obtained approval from the Internal Revenue Service in a letter on March 31, 2014. The Internal Revenue Service stated the regional prototype plan, as then designed, is acceptable under sections 401 of the Internal Revenue Code and that any employer adopting the prototype plan is considered to have a plan qualified under Code Section 401(a) provided all terms of the plan are followed. Although the Plan has been amended since receiving the determination letter, the Plan's administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

CONCORD HEALTH CARE, INC. 401(K) PROFIT SHARING PLAN

December 31, 2015 and 2014

E. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts. Management elected to terminate the plan as of August 12, 2015, and initiated procedures to distribute funds to participants. As of December 31, 2015, not all participants had indicated their distribution choices. Subsequent to year-end all participant funds were distributed and the plan balance reduced to zero.

F. CONTRIBUTIONS

There is no matching employer contribution for 2015 and the employer elected not to make a profit sharing contribution.

G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risks associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

H. PARTICIPANT DIRECTED INVESTMENTS

All assets and all significant components of the change in net assets are participant directed. Therefore, there is no separate reporting of non-participant directed activity.

N. PARTY-IN-INTEREST TRANSACTIONS

The Plan does not consider Company contributions to the Plan to be party-in-interest transactions. The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

J. DERIVATIVES

The Plan has no investment that, in whole or in part, is accounted for as a derivative instrument under FASB ASC 815, *Accounting for Derivative Instruments and Hedging Activities* during the current Plan year.

K. EXCESS CONTRIBUTIONS REFUNDABLE

Plan ADP/ACP testing determined that there would be a refund of excess contributions to highly-compensated employees subsequent to year-end. Of the three highly-compensated individuals two were able to utilize catch-up provisions for their excess contribution. One employee received a distribution subsequent to year-end in the amount of \$3,734 plus earnings.

L. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Interest bearing cash account: Valued at cost which approximates fair value

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.
