VERSO CORPORATION PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements

For the Nine Months Ended September 30, 2015 and the Year Ended December 31, 2014

Note 1 - Description of Plan

The following description of Verso Corporation Pension Plan for Hourly Employees provides only general information. Readers should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

Verso Corporation Pension Plan for Hourly Employees (the Plan) was a non-contributory defined benefit pension plan covering full time and part time Union employees of Verso Corporation (the Company) who had attained the age of twenty-one (21) and completed one year of service as a union employee at the mills in Bucksport, Maine or Sartell, Minnesota. The Plan was established on August 1, 2006 for the benefit of eligible employees, retired employees, and/or their beneficiaries. Employees who were participants in the International Paper Retirement Plan as of August 1, 2006, became participants in the Plan as of August 1, 2006. Employees hired on or after May 1, 2011 were ineligible to participate in the Plan. The Plan was maintained under collective bargaining agreements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan was administered by the Company's Benefits Committee. The committee had overall responsibility for the operations and administration of the Plan. The committee determined the appropriateness of the Plan's investment offerings, and monitored investment performance.

On October 1, 2014, the Company announced plans to close the paper mill in Bucksport, Maine, and ceased paper making operations in December 2014. Substantially all employees of the paper mill were terminated in December 2014 and all affected participants' account balances became 100% vested.

Effective September 30, 2015, the Plan was merged with and into the Verso Corporation Pension Plan for Hourly Employees (Androscoggin) or the "Androscoggin Pension Plan," with no change to the rate of future benefit accruals or any other plan feature for any existing participant of either plan and transferred coverage and related plan assets from the Plan to the Androscoggin Pension Plan with respect to those participants covered by the Plan immediately prior to the effective date of the Merger.

Pension benefits

For eligible Sartell employees hired prior to September 1, 2007 and eligible Bucksport employees hired prior to June 1, 2008, the monthly benefit is equal to \$50 per year of credited service including \$3 per year of credited service under the International Paper Retirement Plan. For eligible employees of Sartell and Bucksport mills hired subsequent to September 1, 2007 and June 1, 2008, respectively, the monthly benefit is equal to \$45 per year of credited service. The Plan permitted reduced benefits for certain participants that elected early retirement as defined in the Plan Agreement.

Note 1 - Description of Plan (continued)

Pension benefits (continued)

With respect to any participant who became a participant as of August 1, 2006, the plan administrator credited the participant with the credited service earned under the retirement plan of International Paper Company as of July 31, 2006, and offset the benefit computed under the Plan by the amount of the participant's accrued normal retirement benefit under the retirement plan of International Paper Company as of July 31, 2006.

Vesting

All participants under the Plan were 100% vested as of September 30, 2015.

Death and disability benefits

If an active participant died, the participant's surviving spouse was entitled to a death benefit as defined in the Plan Agreement. Active participants who became totally disabled received annual benefits as defined in the Plan Agreement.

Note 2 - Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, disclosures of contingent assets and liabilities and the actuarial present value of accumulated plan benefits at the date of the financial statements. Accordingly, actual results could differ from those estimates.

New accounting pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent five (5) percent or more of net assets available for benefits and the net appreciation or depreciation in fair

New accounting pronouncements (continued)

value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risk. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of this ASU allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment related accounts using the month end closest to its fiscal year end. The guidance is effective for fiscal years beginning after December 15, 2015, and early adoption is permitted. The guidance on fully benefit-responsive investment contracts and plan investment disclosures must be applied retrospectively. The guidance on measurement date practical expedient must be applied prospectively. Plan management has elected to early adopt ASU 2015-12 Part II as of September 30, 2015. The statements of changes in net assets available for benefits of the Plan were not affected by the adoption of the new guidance. Parts I and III are not applicable to this Plan.

Investments

Investments are reported at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan's Benefits Committee determines the Plan's valuation policies, in accordance with accounting principles generally accepted in the United States of America, utilizing information provided by the investment custodian. See note 5 for discussion of fair value measurements.

Purchases and sales of securities were recorded on a trade-date basis. Dividends were recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefit payments

Benefit payments were recorded when paid.

Administrative expenses

The Plan's expenses were paid either by the Plan or the Company, as provided by the Plan document. Expenses that were paid directly by the Company were excluded from these financial statements. Certain expenses incurred in connection with general administration of the Plan that were paid by the Plan were recorded as deductions in the accompanying statements of changes in net assets available for benefits. In addition, certain investment related expenses reduced investment income presented in the accompanying statements of changes in net assets available for benefits.

For the Nine Months Ended September 30, 2015 and the Year Ended December 31, 2014

Note 3 - Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service rendered by employees through the valuation date. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and present employees or their beneficiaries. The accumulated plan benefits are based upon date of retirement and years of credited service, as detailed in the Plan Agreement. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's independent enrolled actuary, and is the amount that results from applying actuarial assumptions to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial present value of accumulated plan benefits is presented on a beginning of year benefit information date.

The actuarial present value of accumulated plan benefits as of January 1, 2015 and 2014 is as follows:

	<u>2015</u>	<u>2014</u>
Vested benefits		
Participants and beneficiaries currently receiving payments	\$ 19,459,934	\$ 17,915,482
Other participants	<u>23,123,295</u>	<u>18,417,845</u>
	42,583,229	36,333,327
Non-vested benefits	<u>35,288</u>	<u>128,086</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 42,618,517</u>	<u>\$ 36,461,413</u>

The changes in the actuarial present value of accumulated plan benefits are as follows:

	<u>2015</u>	<u>2014</u>
Actuarial present value of accumulated plan benefits as of beginning of prior year	\$ 36,461,413	\$ 34,184,104
Interest accumulated	2,320,344	2,174,515
Benefits accrued and actuarial experience	3,916,284	1,520,179
Change in actuarial assumptions	1,472,543	66,013
Benefits paid during the year	<u>(1,552,067)</u>	<u>(1,483,398)</u>
Actuarial present value of accumulated plan benefits as of beginning of current year	<u>\$ 42,618,517</u>	<u>\$ 36,461,413</u>

VERSO CORPORATION PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements (Continued)
For the Nine Months Ended September 30, 2015 and the Year Ended December 31, 2014

Note 3 - Actuarial present value of accumulated plan benefits (continued)

The more significant methods and assumptions used by the actuaries in their valuation are as follows:

- Actuarial cost method - Traditional Unit Credit Actuarial Cost Method
- Asset valuation - Market value of assets on valuation date
- Interest rate - 6.30% effective rate for 2015; 6.53% effective rate for 2014
- Normal retirement age - 65
- Early retirement age - 55 with 10 years of credited service, benefit formula
- Expected Investment Return: 6.50% for 2015 and 2014
- Basis of accumulated plan benefits - credited years of service, benefit formula
- Mortality rates - Static mortality table in accordance with IRS Regulation 1.430(h)(3)-1 for the respective valuation year

The foregoing actuarial assumptions were based upon the presumption that the Plan will continue. If the Plan were terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 4 - Information prepared and certified by the custodian

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, State Street Bank and Trust Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and the supplemental schedules is complete and accurate.

- Net appreciation (depreciation) in fair value of investments
- Dividends
- Schedule of reportable transactions

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and the supplemental schedule.

Note 5 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820, *Fair Value Measurements*, are described below.

VERSO CORPORATION PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements (Continued)
For the Nine Months Ended September 30, 2015 and the Year Ended December 31, 2014

Note 5 - Fair value measurements (continued)

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the individual fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014.

	Investments at Fair Value as of December 31, 2014			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 36,058,964	\$ -	\$ -	\$ 36,058,964

Note 6 - Funding policy

The Company's funding policy was to make contributions to the Plan in the amounts that were estimated to fully provide all accrued benefits by the time each participant retired and to meet the minimum funding requirements of ERISA. The Company's contributions were to be made in cash no later than the earlier of the date permitted by law for meeting the minimum funding standards or the date for making tax deductible contributions. Based upon the January 1, 2015 actuarial valuation, the minimum contribution required by the Company was \$1,125,311 for 2015. Based upon the January 1, 2014 actuarial valuation, the minimum contribution required by the Company was \$2,241,435 for 2014.

VERSO CORPORATION PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements (Continued)

For the Nine Months Ended September 30, 2015 and the Year Ended December 31, 2014

Note 6 - Funding policy (continued)

Actual contributions by the Company totaled \$1,160,310 for 2015, of which \$75,973 is recorded as a receivable in the Androscoggin Pension Plan as of December 31, 2015. Actual contributions by the Company totaled \$2,357,599 for 2014.

Note 7 - Related party transactions and party-in-interest transactions

Plan investments consisted of mutual funds offered through State Street Bank and Trust Company. State Street Bank and Trust Company was the custodian for the Plan and these investments and related investment transactions qualified as party-in-interest transactions. Transamerica Retirement Solutions Corporation was the third party administrator and also served as the Plan actuary.

Fees paid to related parties totaled \$43,708 in 2015 and \$109,492 in 2014.

The Company provided the Plan with certain management and administrative services for which no fees were charged.

Note 8 - Plan termination

Effective September 30, 2015, the Plan merged with the Androscoggin Pension Plan and all assets and pension benefits have been transferred. Although it has not expressed the intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would be payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below.
- d. Vested benefits not insured by the PBGC.
- e. All nonvested benefits.

VERSO CORPORATION PENSION PLAN FOR HOURLY EMPLOYEES

Notes to Financial Statements (Continued)

For the Nine Months Ended September 30, 2015 and the Year Ended December 31, 2014

Note 8 - Plan termination (continued)

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2016, that ceiling is \$5,011 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

Note 9 - Tax status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated November 6, 2008, stating that the Plan qualifies under the applicable sections of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. The Plan, which has been amended since receiving the determination letter, is required to operate in conformity with the IRC to maintain its qualification. Management is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

Note 10 - Risks and uncertainties

Plan contributions were made and the actuarial present value of accumulated plan benefits were reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which were subject to change. Due to uncertainties inherent in the estimations and assumptions process, it was at least reasonably possible that changes in these estimates and assumptions in the near term would have been material to the financial statements.

A ACTUARIAL COST METHOD

The actuarial cost method used to determine the target normal cost, target liability and required contribution amounts for the plan is the Traditional Unit Credit Actuarial Cost Method. Under this method, both the target normal cost and target liability are based on the annual accrual of benefits as accruals occur each year.

The target liability for each active plan participant is equal to the actuarial present value of the participant's accrued benefit as of the valuation date. The total target liability of the plan is equal to the sum of such liabilities as determined for each active participant plus the actuarial present value of benefits being paid, or due to be paid, to retirees, beneficiaries and former participants with deferred vested benefits.

The target normal cost for each active participant is equal to the actuarial present value of the benefit expected to be earned during the year starting on the valuation date. The total target normal cost of the plan is the sum of the target normal costs for each active plan participant.

All employees who are plan participants on a valuation date are included in the actuarial valuation.

B ASSET VALUATION METHOD

The actuarial value of assets is equal to the market value of assets on the valuation date.
