LIVING CARE CENTERS RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Living Care Centers Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan Document, as amended, for a more complete description of Plan provisions.

General – The Plan is a defined contribution plan originally effective January 1, 1997. The Plan has been amended and restated throughout the years to comply with tax legislation and most recently restated January 1, 2009 and amended September 16, 2011. The Plan includes all employees of West Valley Nursing Homes, Inc. doing business as Living Care (the Organization) except for leased employees, non-resident aliens, and employees covered by a collective bargaining agreement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Organization is the Plan's sponsor and serves as plan administrator.

Eligibility – To be eligible to participate in the salary deferral portion of the Plan, an employee must attain age 21 and perform 1,000 hours of service in the Plan year. In order to receive the Organization's discretionary matching contributions and an allocation of the discretionary profit sharing contribution, the participant must meet the previously stated eligibility requirements and also be employed on the last day of the Plan year. A participant may enter the Plan on the entry date following completion of the eligibility requirements. Entry dates in the Plan for salary deferrals, discretionary matching, and discretionary profit sharing contributions are January 1 and July 1.

Contributions – Each year participants may contribute between 1-100% of pretax annual compensation, as defined in the Plan. The Organization, at its discretion, may make matching contributions and profit sharing contributions to the participant's individual accounts. For the years ended December 31, 2015 and 2014, the Organization matched participant salary deferral dollar for dollar up to 3% of compensation. There were no discretionary profit sharing contributions for the years ended December 31, 2015 and 2014.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans or conduit IRA's. Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's individual account is credited with salary deferral contributions, Organization's discretionary matching and discretionary profit sharing contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances as defined. Income is allocated daily based on the shares in the participant's account. The benefit to which a participant is entitled is the benefit that can be provided by the participant's vested account. Participants direct the investment of their contributions into various investment options offered by the Plan.

LIVING CARE CENTERS RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (continued)

Vesting – Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Organization's discretionary matching and discretionary profit sharing contribution portion of their accounts, plus actual earnings thereon, is based on years of credited service. A participant is 100% vested after three years of credited service. A participant is fully vested upon reaching normal retirement age, death, or permanent disability.

Notes receivable from participants – Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Principal and interest is paid ratably through payroll deductions. Note terms are up to five years, except for notes to fund the purchase of a principal residence, for which the note may be repaid over a reasonable period that may exceed five years. The notes are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan administrator. At December 31, 2015, the interest rate was 5.25% with various maturities through November 2020.

Payment of benefits – Upon termination of service, death, disability, or retirement (age 65), the participant will receive the value of the vested interest in his or her account in the form of a lump sum distribution. If a participant terminates employment and the participant's account balance does not exceed \$5,000, the Plan administrator will authorize the benefit payment without the participant's consent.

Forfeitures – Forfeitures are the non-vested portion of a participant's account that is lost upon termination of employment. Forfeitures are retained in the Plan, must be used before year-end, and will be used to reduce future Organization contributions. As of December 31, 2015 and 2014, forfeited non-vested accounts totaled \$1,013 and \$1,695, respectively.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that may affect the reported amounts of assets and changes therein, and disclosure of contingent assets. Actual results could differ from those estimates.

Change in accounting principle – ASU 2015-12 - In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) II. Plan Investment Disclosures*. The amendments remove the requirement to:

- disclose individual investments held which exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.

LIVING CARE CENTERS RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS

Note 2 – Summary of Significant Accounting Policies (continued)

ASU 2015-12 has been adopted for the December 31, 2015 Plan year-end; however, the retrospective approach requires that the above items applicable to the prior year be presented in accordance with ASU 2015-12 as well.

Investment valuation – Investments are reported at fair value. The Plan's trustee, Capital Bank & Trust, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e. the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation or depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on terms of the Plan Agreement.

Payment of benefits – Benefits are recorded when paid.

Expenses – General plan administrative expenses are paid by the Organization. Investment management, distribution, and loan transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued.

The Plan has evaluated subsequent events through May 24, 2016, which is the date the financial statements were issued.

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2** Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3** Inputs to valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market accounts: Money market accounts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer.

Note 4 – Tax Status

The Plan document is a prototype standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the opinion letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

NOTES TO FINANCIAL STATEMENTS

Note 6 – Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Capital Bank & Trust, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014.
- Net appreciation/depreciation in fair value of investments, dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the years ended December 31, 2015 and 2014.
- Investments reflected on the schedule of assets (held at end of year).

Note 7 – Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by American Funds. Capital Bank & Trust is the trustee of the Plan and an affiliate of American Funds and, therefore, transactions with these entities qualify as exempt party-in-interest transactions.

Note 8 – Plan Termination

Although it has not expressed intent to do so, the Organization has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.

Note 9 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
