We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. 1. Plan Description

The following description of the Wayne Densch, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

a) *General* – The Plan is a defined contribution plan covering all eligible employees of Wayne Densch, Inc. (the "Company"). Employees of the Company are eligible to become participants in the Plan upon completion of one year of service, defined as having worked a minimum of 1,000 hours during the Plan year, and upon attaining the age of 21 years. Participation in the Plan is voluntary. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

b) *Contributions* – Under the Plan, eligible participants may elect to contribute up to 100% of their compensation for the year, not to exceed the Internal Revenue Service ("IRS") limitation of $18,000 in 2015 and $17,500 in 2014, respectively. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to $6,000 and $5,500 for the Plan years ended December 31, 2015 and 2014, respectively. The Plan may also receive, on behalf of any participant, a distribution received by the participant from another qualified plan or individual retirement account. The Company provides a discretionary matching contribution equal to one dollar for each dollar of compensation contributed by each eligible participant, not to exceed $1,000 for each of the 2015 and 2014 Plan years.

c) *Participants' Accounts* – Each participant's account is credited with his or her contributions, an allocation of Plan earnings and his or her share of the Company's contributions and charged with benefit payments and an allocation of administrative expenses. Allocations are based on participant earnings or account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Employees elect the investment vehicle(s) in which their contributions and Company contributions are invested. Participants may change their investment options on any business day.

d) *Vesting* – Participant contributions are immediately vested upon contribution. Vested rights to Company matching contributions accrue at a rate of 20% per year beginning with the second year of vesting service, with full vesting accruing after six years. Participants must work a minimum of 1,000 hours during each Plan year to earn a year of vesting service. Upon Plan termination, participant death or disability, or participant reaching the age of 65, Company matching contributions vest immediately.

e) *Payment of Benefits* – On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or partial payments over time. Hardship withdrawals may be requested on pre-tax elective deferrals and are paid out in either one lump-sum or partial payments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or in partial payments.

f) *Notes Receivable from Participants* – Under the terms of the Plan, participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to 50% of their vested account balance or $50,000, whichever is less, reduced by the highest outstanding loan balance in the past 12 months. The loans are secured by the balance in the participants' accounts and bear interest at the prime rate as specified in The Wall Street Journal. Loan repayments are made ratably through payroll deductions over a period not to exceed five years, unless the loans were used to purchase a primary residence, in which case the loan terms will be determined at the time the loan is made. Participants may have one loan outstanding at any given time.

g) *Forfeitures* – Any nonvested amounts remaining after the distribution of a terminated participant's vested account balance are forfeited. Forfeitures are applied to future employer contributions and serve to reduce the amount the employer will contribute. During the years ended December 31, 2015 and 2014, forfeitures of $6,917 and $7,087, respectively, were used for this purpose. As of December 31, 2015 and 2014, $22,569 and $29,558, respectively, remained in the forfeiture account.

h) *Expenses* – The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan document. Certain transaction fees for loan issuances and distributions are charged directly to the accounts of the participants who incur those fees. For the years ended December 31, 2015 and 2014, Plan expenses of $1,485 and $5,210, respectively, were paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on an accrual basis of accounting, except for benefit payments, which are reported on a cash basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan utilizes various investment instruments, which are exposed to various risks, such as interest rates, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The investments of the Plan are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any unpaid accrued interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances. Delinquent notes receivable from participants are recorded as distributions based on terms of the Plan document.

Excess Contributions Payable

Excess contributions payable represent refunds of participants' contributions to be made subsequent to year end due to contributions in excess of Plan guidelines or government regulations.

Payment of Benefits

Benefits are recorded when paid.

3. Investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the auditor not to perform any auditing procedures with respect to the information certified by the trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan administrator has obtained a certification from the trustee that the information provided to the Plan administrator by the trustee as of December 31, 2015 and 2014, and for the years then ended is complete and accurate. Such information includes all investments, notes receivable from participants, investment income and loss, interest income on notes receivable from participants and the information in the supplemental schedule of assets held at end of year.

The following table presents investments that represent 5% or more of the Plan's net assets available for benefits:

December 31,	**2015**	2014
American Century Growth A	**$ 434,962**	$ 410,480

Year ended December 31,	**2015**	2014
Mutual funds	**$ (134,065)**	$ 204,167

4. Fair Value Measurements

The Plan measures and reports its financial assets and liabilities using a three-tier hierarchy, which prioritizes the inputs used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2 - *Quoted* prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;

Level3 - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize to use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

i. Money market accounts: Valued at the net asset value of shares held by the Plan at year end.

ii. Mutual funds: Valued as determined by quoted market price, which represents the net asset value of shares held by the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

December 31, 2015	*Quoted Prices in Active Markets for Identical Assets (Level 1)*	*Significant Other Observable Inputs (Level 2)*	*Significant Unobservable Inputs (Level 3)*	*Total Fair Value*

5. Plan Termination

Although it has not expressed any intent to do so, the Company has a right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the account of each participant will become fully vested.

6. Income Tax Status

The prototype Plan sponsor has obtained an opinion letter dated March 31, 2008, in which the IRS stated that prototype plan document was in compliance with applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's accompanying financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Exempt Party-in-Interest Transactions

As of December 31, 2015 and 2014, certain investments of the Plan totaling $288,833 and $345,232 were managed by Merrill Lynch, an investment advisor and party-in-interest of the Plan. Ascensus is the trustee and third-party administrator of the Plan and was paid $1,485 and $5,210 in fees from the Plan during 2015 and 2014, respectively.

8. Reconciliation of Financial Statements to Form 5500
