1. Description of Plan

The following description of the Logistic Services International, Inc. 401(k) Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Logistic Services International, Inc. (the Company) who have completed one month of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Amendments

On June 2, 2015, the Plan was amended to reflect a change in the required age of entry into the Plan from twenty-one years old to eighteen years old. The Plan amendments also allow participants to make Roth rollover contributions into the Plan. The Company may make matching contributions equal to a discretionary percentage of the participant's compensation or a specified dollar amount.

Contributions

The Plan allows participants to contribute up to 90% of pre-tax annual eligible compensation, as defined in the Plan document, subject to limits imposed by the Internal Revenue Code (IRC). Additionally, the Plan has an automatic enrollment feature in which newly eligible employees are enrolled with a 6% pre-tax compensation deferral which increases by 1% per year up to a maximum of 10%, unless a participant elects otherwise. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing rollover distributions from other qualified defined benefit or defined contribution plans. The Company may make matching contributions equal to a discretionary percentage of the participant's compensation or a specified dollar amount. Participants direct the investment of their elective and Company contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company's matching contributions and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contributions and related earnings is based upon years of continuous service. Participants vest 20% per year, and are 100% vested after five years of credited service.

1. Description of Plan (Continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's vested account and bear interest at 4.25%, which is commensurate with local prevailing rates as determined quarterly by the plan administrator. Loan terms have a minimum of one year and may not exceed five years, unless the loan is used for the purchase of a primary residence. No more than two loans may be outstanding at a time for a participant and loans may not be consolidated or refinanced. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service, a participant (or beneficiary) may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Other than termination, participants may not withdraw their contributions until they attain age 59½, or prove a financial hardship under specific circumstances. In the event of a financial hardship withdrawal, a participant is precluded from making contributions to the Plan for six months following the distribution.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled zero and $974, respectively. These accounts may be used to pay administrative fees or reduce Company contributions. During the year ended December 31, 2015, Company contributions and administrative fees were reduced by $71,975 and $41,548, respectively, from forfeited non-vested accounts.

2. Summary of Significant Accounting Policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the financial statements. The financial statements and accompanying notes are representations of the Plan's management. These accounting policies conform to accounting principles generally accepted in the United States of America and have been consistently applied in the presentation of the financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

New Accounting Standard

In July 2015, the Financial Accounting Standard Board (FASB) issued Accounting Standard Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution*

Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset if they meet certain requirements. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early. As a result of applying the new guidance, affected disclosures have been modified or eliminated, but there were no adjustments to net assets.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year, net of investment management fees.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements.

2. Summary of Significant Accounting Policies (Continued)

Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in the net depreciation of fair value of investments.

Subsequent Events

The Plan has evaluated events through the date of the report of independent certified public accountants, the date the financial statements were available to be issued.

3. Information Certified by the Plan's Trustee

The investments and notes receivable from participants included in the statements of net assets available for benefits at December 31, 2015 and 2014, and the related investment income and interest income on notes receivable from participants included in the statement of changes in net assets available for benefits for the year ended December 31, 2015, as well as the information provided in Note 4 and the supplemental schedule have been derived from information certified as complete and accurate by Fidelity Management Trust Company (Fidelity), the trustee of the Plan, in accordance with Section 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (Continued)

There has been no change in the methodologies used at December 31, 2015 and 2014. Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in different fair value measurements at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 25,427,968	$ -	$ -	$ 25,427,968
Common stock	70,920	-	-	70,920
Total assets at fair value	$ 25,498,888	$ -	$ -	$ 25,498,888

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at December 31, 2014:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 27,156,128	$ -	$ -	$ 27,156,128
Common stock	137,553	-	-	137,553
Total assets at fair value	$ 27,293,681	$ -	$ -	$ 27,293,681

There were no transfers between Level 1, Level 2 or Level 3 investments during the year ended December 31, 2015.

5. Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fidelity. These investments and transactions in these investments qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

Fidelity has revenue sharing arrangements with various entities, which are used to offset certain amounts owed to Fidelity for its administrative services to the Plan. If the revenue received by Fidelity exceeds the amount owed under its agreement with the plan, Fidelity debits the amount into a Service Credit Account maintained by Fidelity. Such amounts may be applied to pay administrative expenses. During 2015, there were no excess amounts.

6. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their Company contributions and actual earnings thereon.

7. Tax Status

The Plan has adopted the Fidelity Basic Plan Document No. 17. The Internal Revenue Service has informed Fidelity by letter dated March 31, 2014, that the volume submitter plan adopted by the Plan, as then designed, was in accordance with applicable sections of the IRC. Although the Plan has been amended since adoption, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Plan management evaluates tax positions taken by the Plan and recognizes a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
