During the year ended December 31, 2015, the Company elected to make a matching contribution of 10% of participant contributions, as defined. The Company did not make a discretionary profit sharing contribution during the year ended December 31, 2015.

Participants direct the investment of their contributions into various investment options offered by the Plan.

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and an allocation of the Company's contribution and Plan earnings and may be charged with an allocation of Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. One hundred percent vesting in the employer matching contributions plus actual earnings thereon occurs after five years of eligible service or upon death, disability or attainment of age 65. A year of service is defined as 1,000 hours.

Payment of Benefits

Vested benefits are paid to participants upon death, disability, retirement or termination of employment by either arranging for a rollover to another plan or lump sum payment. Hardship withdrawals are available and will result in a six month suspension during which no contributions may be made to the participant's account. For terminated participants' account balances that are less than $5,000, the plan administrator may distribute the entire amount in a lump sum without the participant's consent. If the participant's vested portion is greater than $5,000, the participant may elect to maintain the vested portion in the Plan.

Forfeitures

Forfeitures by participants of unvested Company contributions are used to reduce Plan administrative expenses and to reduce future employer contributions. At December 31, 2015 and 2014, forfeited unvested account balances totaled $15,200 and $534, respectively. For the year ended December 31, 2015, forfeitures in the amount of $8,812 were used to pay for certain administrative expenses and $0 was used to reduce employer contributions.

Administrative Expenses

All reasonable expenses related to Plan administration will be paid by the Company.

1. Description of the Plan (continued)

Notes Receivable From Participants

Participants are permitted to borrow the lesser of $50,000 or 50% of their vested account balance. The minimum that can be borrowed is $1,000 and only one loan can be outstanding at a time. Notes receivable from participants are secured by the balance in the participant's account and bear interest at a reasonable interest rate as determined by the Company. Loan applicants are charged a one-time loan fee payable when the loan is originated. Loan repayments are automatically deducted through after-tax payroll deductions over a period generally not to exceed five years.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts and distributions will be made as soon as administratively practicable after the Plan terminates.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are reported on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. Benefits are recorded when paid to participants.

Risks and Uncertainties

Financial instruments which potentially subject the Plan to concentrations of credit risk consist primarily of securities in which the Plan invests. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the near-term could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

2. Summary of Significant Accounting Policies (continued)

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect certain amounts reported in the financial statements and the accompanying notes and schedule. Accordingly, actual results could differ from these estimates.

Valuation of Investments and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Recently Issued Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has elected to adopt Part II early.

2. Summary of Significant Accounting Policies (continued)

Subsequent Events

The Plan has evaluated subsequent events through July 20, 2016 the date the financial statements were available to be issued.

3. Investments

All investment information disclosed in the accompanying financial statements, notes and schedules, including investments and notes receivable from participants held at December 31, 2015 and 2014, and net depreciation in fair value of investments, interest and dividend income and interest income from notes receivable from participants for the year ended December 31, 2015, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1—Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2—Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liabilities;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

4. Fair Value Measurements (continued)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability

Level 3—Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table represents the Plan's fair value hierarchy for its financial assets measured at fair value on a recurring basis as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	**$ 31,350,641**	**$ –**	**$ –**	**$ 31,350,641**
Total assets at fair value	**$ 31,350,641**	**$ –**	**$ –**	**$ 31,350,641**

4. Fair Value Measurements (continued)

	Assets at Fair Value as of December 31, 2014			
	Level 1	**Level 2**	**Level 3**	**Total**
Mutual funds	$ 26,437,914	$ –	$ –	$ 26,437,914
Total assets at fair value	$ 26,437,914	$ –	$ –	$ 26,437,914

5. Party-in-Interest Transactions

Plan investments in mutual funds are managed by the Trustee. Transactions such as these qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

6. Income Tax Status

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, stating that the form of the plan is qualified under Section 401(a) of the IRC, and therefore, the related trust is tax exempt. The plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Subsequent to receiving the IRS opinion letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements.
