Carestream Health, Inc. Retirement Savings Plan

Notes to Financial Statements

Note 1: Description of the Plan

The following description of the Carestream Health, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General
The Plan is a defined contribution plan covering all employees of Carestream Health, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions
Each year, participants may contribute up to 75% of pretax annual compensation, as defined in the Plan agreement. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of all contributions into various investment options offered by the Plan. Participants can access additional investments through self-directed brokerage accounts.

New employees are automatically enrolled in accordance with the Plan document.

The Company matches 100% of elective deferrals for the first 1% of base compensation, then 50% of elective deferrals for the next 4% of base compensation that a participant contributes to the Plan.

The Company also makes an additional 4% of base compensation contribution to all eligible employees whether or not they are contributors to the Plan.

Participant Accounts
Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contributions, (b) Plan earnings (losses), and (c) charged with withdrawals and an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting
Participants are vested immediately in their contributions and the Company's matching contribution, plus actual earnings thereon. Vesting in the Company's additional contribution is based on years of continuous service. A participant is 100% vested after three years of credited service.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans bear interest at rates that are based on the local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through bi-weekly payroll deductions. Repayment terms may not exceed five years on participant loans, with the exception of loans for a principal residence which allow for a maximum repayment term of 10 years.

Payment of Benefits
Participants (or their beneficiaries) are eligible to receive vested benefits upon retirement, death, permanent disability or termination of employment with the Company. Participants can take in-service withdrawals upon attaining age 59 ½ or due to financial hardship.

Forfeited Accounts
The Plan allows for forfeited amounts to be used to reduce future employer contributions. At December 31, 2015 and 2014, forfeited nonvested accounts totaled approximately $21,400 and $138,500, respectively. In 2015, employer contributions were reduced by approximately $304,800 from forfeited nonvested accounts.

Administrative Budget Account

The Plan has an administrative budget account which is a suspense account funded with excess revenue generated by the Plan. These funds may be used to pay Plan expenses or be distributed to each participant. The excess revenue earned by the Plan in 2015 amounted to $375,679 and is included in other income on the statement of changes in net assets available for benefits. During 2015, $34,700 of Plan expenses were paid and $257,000 was allocated to active participants from the administrative budget account. The unused balance of this account amounted to $239,455 and $155,445 as of December 31, 2015 and 2014, respectively.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

New Accounting Standards

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans, Defined Contribution Pension Plans, Health and Welfare Benefits Plans (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient – Consensuses of the Emerging Issues Task Force.* This ASU is effective for all plans with fiscal years beginning after December 15, 2015. Early adoption is permitted and the Plan has elected to adopt Part II of the ASU on a retrospective basis as of December 31, 2015. The amendments in Part II of the ASU remove the requirement to disclose investments that represent 5% or more of total net assets, eliminate certain fair value related disclosures, and remove the requirement to disclose the net appreciation or depreciation in the investments of the plan by the type of investment. Additionally, information reported as of December 31, 2014 has been modified to reflect these changes.

Subsequent Events

In preparing the financial statements, management has evaluated events and transactions for potential recognition or disclosure through June 14, 2016, the date that the financial statements were available to be issued.

Use of Estimates

The preparation of the Plan's financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Administrative expenses can be paid by the Plan or the Company.

Reclassification

In connection with the issuance of ASU 2015-12, additional clarification was provided related to the treatment of indirectly held investment contracts. Prior to this clarification, there was diversity in practice as to the presentation of stable value funds and common/collective trust funds that held fully benefit responsive investment contracts. The new guidance clarifies that these funds should be presented at net asset value. Accordingly, the 2014 financial information has been adjusted to reflect this change in presentation and to eliminate the fair value to contract value adjustment. This classification did not have an impact on net assets.

Note 3: Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The Plan follows the fair value measurement guidance required by accounting principles generally accepted in the United States of America for financial and non financial assets and liabilities. This guidance defines fair value and provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Common/Collective and Commingled Trust Funds: Valued at Net Asset Value ("NAV") based on the underlying assets of the trust. The NAV is obtained from information provided by the investment advisor using the audited financial statements of the common/collective and commingled trust funds at year end.

Mutual Funds: These investments are valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted market price in an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Assets at Fair Value as of December 31, 2015		
	Level 1	Level 2	Total
Common/Collective Trust Fund	$ -	$ 79,711,092	$ 79,711,092
Commingled Trust Funds	-	50,326,156	50,326,156
Mutual Funds	245,958,965	-	245,958,965
Total Investments at Fair Value	$ 245,958,965	$ 130,037,248	$ 375,996,213

	Level 1	Level 2	Total
Common/Collective Trust Fund	$ -	$ 76,347,760	$ 76,347,760
Commingled Trust Funds		49,281,548	49,281,548
Mutual Funds	236,939,760	-	236,939,760
Total Investments at Fair Value	$ 236,939,760	$ 125,629,308	$ 362,569,068

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net depreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Note 4: Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their account balances.

Note 5: Certified Information

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, T. Rowe Price Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of the following information:

- Investments and notes receivable from participants on the Statements of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Net depreciation in fair value of investments, dividends, and interest on notes receivable from participants on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015.
- Common/collective trust fund, commingled trust funds, mutual funds, brokerage account and participant loans on the Schedule of Assets (Held at End of Year) as of December 31, 2015.

Note 6: Related Party Transactions

Certain Plan investments are shares of mutual funds and a common/collective trust fund managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee as defined by the Plan and, therefore, transactions involving these investments qualify as party-in-interest transactions. Participant loans also qualify as party-in-interest transactions.

Note 7: Tax Status

The Plan adopted a non-standardized form of a prototype plan sponsored by AccuDraft, Inc. The prototype plan received an opinion letter from the Internal Revenue Service dated March 31, 2014, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

Note 8: Risks and Uncertainties

The Plan invests in investment securities which are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with these securities, it is at least reasonably possible that changes in their values will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of and for the year ended December 31:
