1. DESCRIPTION OF PLAN:

The following description of the Rough Brothers Manufacturing, Inc. (the "Company" or "Employer") 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

Effective January 1, 1994, Rough Brothers Manufacturing, Inc. adopted a defined contribution plan which provides benefits to eligible employees upon retirement. The Plan included Rough Brothers Manufacturing, Inc. and its wholly owned subsidiary, Rough Brothers, Inc. as well as related employers RBI Solar, Inc., PADDOCKRD LLC and Delta T Solutions Inc. The Plan also included ProtekPark, Inc. as a participating employer. On January 1, 2015, RENU SOL AMERICA INC. was added to the Plan as a related employer and PADDOCKRD LLC and ProtekPark, Inc. were removed from the Plan.

In 2015, the Company approved the merger of the Plan into the Gibraltar 401(k) Plan. As a result, the net assets available for benefits were transferred from the Plan to the Gibraltar 401(k) Plan on December 31, 2015.

The Plan provided for participation, after age 18, upon completion of 6 months of service for all employees, other than non-resident aliens, employees covered by a collective bargaining agreement, leased employees and project status employees. The Plan was subject to the provisions of ERISA.

Contributions

Prior to the transfer on December 31, 2015, participants could contribute up to 90 percent of pretax annual compensation, as defined in the Plan. Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute pretax amounts representing distributions from other qualified defined contribution plans (rollover). Participants directed the investment of their contributions into various investment options offered by the Plan. The Company contributed the lesser of \$1,500 or the amount that a participant contributed to the Plan during the year. Participant deferral contributions were also subject to Internal Revenue Code ("IRC") limitations.

Participant accounts

Each participant's account was credited with the participant's contributions and Company matching contributions, as well as allocations of the Company's profit sharing contribution and Plan earnings and losses. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts was based on years of continuous service. A participant was 100 percent vested after four years of credited service.

Notes receivable from participants

Participants may have borrowed from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The notes receivable were secured by the balance in the participant's account. The loan interest rate, determined quarterly, was set at 0.75 percent above the prime rate, as defined. Principal and interest were paid ratably through bi-weekly payroll deductions. If a participant ceased to make loan repayments and the plan administrator deemed the participant loan to be in default, the participant loan balance was reduced and a benefit payment was recorded.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant would have received a lump sum amount equal to the value of the participant's vested interest in his or her account. For termination of service for other reasons, a participant may have received the value of the vested interest in his or her account as a lump sum distribution.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited nonvested accounts totaled \$0 and \$2,461 respectively. This account was used to reduce annual recordkeeping and trustee fees.

2. SUMMARY OF ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Plan invested in investment contracts through a common collective trust. The statement of net assets available for benefits presents the fair value of the investments in the common collective trust as well as the adjustment of the investments in the common collective trust from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment valuation and income recognition

Investments were reported at fair value. Fair value is the price that would have been received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determined the Plan's valuation policies utilizing information provided by the trustee. See Note 5 for discussion of fair value measurements. All Plan assets were transferred to the Gibraltar 401(k) Plan before the close of business on December 31, 2015.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses had been recorded as of December 31, 2015 or 2014.

Payment of benefits

Benefits were recorded when paid.

Expenses

Certain expenses of maintaining the Plan were paid directly by the Company and were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and were included in administrative expenses. Investment related expenses were included in net depreciation of fair value of investments.

3. INVESTMENTS:

The following presents investments that represent 5% or more of the Plan's net assets at December 31:

	<u>2014</u>
Fidelity Blue Chip Growth Fund	\$ 629,548
Fidelity Growth Company Fund	504,189
Fidelity Balanced Fund	419,582
Fidelity Real Estate Investment Portfolio	336,695
Fidelity Mid-Cap Stock Fund	331,762
Spartan 500 Index Fund	318,136
Fidelity Equity Dividend Income Fund	306,801
Fidelity Diversified International Fund	268,523

During 2015, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by \$242,780.

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, investments and related interest, dividend income, and net depreciation in fair value of investments presented in the financial statements were based on information certified as complete and accurate by the trustee of the Plan as of December 31, 2015 and 2014, and for the year ended December 31, 2015, and were not subjected to any auditing procedures performed by the independent auditors.

5. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust fund: Valued at the NAV of units of a trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014:

6. RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS:

Certain Plan investments were shares of mutual funds managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee to the Plan. Therefore, these transactions qualified as party in interest transactions. Fees incurred by the Plan for the investment management services were included in net depreciation in fair value of investments.

7. TAX STATUS:

On March 31, 2008, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Internal Revenue Code (IRC) Section 401(a). The Plan had not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed, and was being operated, in compliance with the applicable requirements of the IRC, and, therefore believe that the Plan was qualified and the related trust was tax-exempt.

8. DELINQUENT PARTICIPANT CONTRIBUTIONS:

Deposits of participant deferrals totaling \$26,544 were not made on a timely basis in 2015. The Company will correct these errors by contributing \$7.49 of lost earnings on the late participant contributions.

9. RECONCILIATION OF THE FINANCIAL STATEMENTS TO FORM 5500:
