PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2015 AND 2014

NOTE A: DESCRIPTION OF THE PLAN

The following description of the Fisher Associates, P.E., L.S., L.A., D.P.C. 401(k) Profit Sharing Plan (the "Plan") provides only general information. In 2015, the name of the Plan was amended to Fisher Associates, P.E., L.S., L.A., D.P.C. 401(k) Profit Sharing Plan. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Fisher Associates, P.E., L.S., L.A., D.P.C. 401(k) Profit Sharing Plan (the "Company") who meet the eligibility requirements defined below. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Participant Requirements

All eligible employees of the Company will become eligible to make his or her own contributions (elective deferrals) to the Plan on their date of hire.

All eligible employees of the Company are eligible to receive employer profit sharing contributions. An eligible employee shall be entitled to share in employer profit sharing contributions, if any, on January 1st or July 1st of the year following when the employee completes one year of service and attains eighteen years of age. Union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of a good faith bargaining, are excluded from both the employer profit sharing contributions and elective deferrals. In May 2015, the Plan was amended to exclude nonresident aliens, leased employees and any employee who is a resident of Puerto Rico from both the employer profit sharing contributions and elective deferrals.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, not to exceed maximum limits established by the IRS. The Company may, at its discretion, contribute and allocate to eligible Participants' accounts a discretionary amount as determined by the Company. The profit sharing contributions totaled $199,866 and $154,987 for Fisher Associates, P.E., L.S., L.A., D.P.C. 401(k) Profit Sharing Plan, respectively.

Vesting

Participants are immediately vested in their contributions and actual earnings thereon. Employer contributions vest 20% per year beginning with the completion of two years of service. Participants are 100% vested after six years of service.

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution and (b) Plan earnings or losses. Participants direct all investment contributions into various investment options offered by the plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

NOTE A: DESCRIPTION OF THE PLAN, Cont'd

Participant notes receivable

Participant notes receivable are measured and valued at their unpaid principal balance plus any accrued but unpaid interest.

Participants are permitted to borrow up to 50% of the vested balance in their plan accounts to a maximum of $50,000 and minimum amount of $1,000. Loan terms may not exceed five years unless the loan is for the purchase of a principal residence, in which case the Administrator can permit a longer repayment term. The Administrator will also determine a reasonable rate of interest for all loans from the Plan by reviewing similar loans by other lenders. Principal and interest payments are generally made through payroll withholdings.

Payment of benefits

Upon retirement, death or disability, a participant's entire vested account balance will be distributed in the form of a lump-sum or substantially equal payments. In addition, lump-sum distributions may be made, with participant consent, upon separation from service or participant's attainment of age 59 ½. On separation of service, a participant may request early payment of benefits or defer receipt of a distribution in accordance with Plan provisions. Partial withdrawals or installments are only permitted for required minimum distributions. If the participant's account is $5,000 or less, the Plan will distribute the entire balance as soon as practicable after termination of employment. In May 2015, the Plan was amended to only allow distributions in the form of lump-sums.

Forfeitures

Forfeited amounts are first used to pay administrative expenses of the Plan or used to reduce future Company contributions. Forfeited amounts consist of employer matching contributions for excess contributions refundable. There were unallocated forfeiture balances of $52,201 and $17,844 at December 31, 2015 and 2014, respectively.

Administrative expenses

The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Forfeitures may be used to pay expenses, at the discretion of the Plan trustees. During the year ended December 31, 2015 forfeitures were used to pay $9,300 of administrative expenses. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net (depreciation) appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment valuation and income recognition
The Plan's money market, mutual fund and indexed fund contract investments are stated at fair value. Quoted market prices are generally used to value investments. If quoted market prices are not available, fair value is determined based on other relevant factors, including dealer price quotations, price activity for equivalent instruments and valuation pricing models. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are included in the net appreciation of investments. Historical cost is used to determine the net (depreciation) appreciation of investments, as reported by the Plan's custodian.

Payment of benefits
Benefits paid to participants are recorded when paid.

Use of estimates in the preparation of financial statements
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

NOTE B: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Cont'd

New Accounting Pronouncement

In July 2015, the FASB issued Accounting Standards Update 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.* Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to early adopt Parts I and II early. Accordingly, these provisions were applied retrospectively.

Subsequent events

The Plan has conducted an evaluation of potential subsequent events occurring after the statement of net assets available for benefits date through July 5, 2016, which is the date the financial statements are available to be issued. No subsequent events requiring disclosure were noted.

NOTE C: INVESTMENTS

During 2015, the Plan's investments, including investments bought, sold and held during the year depreciated in value by $98,026. Also included in this number is interest and dividends which is immaterial to the financial statements as a whole.

NOTE D: FAIR VALUE MEASUREMENTS

Accounting principles generally accepted in the United States of America ("GAAP") establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quote prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of fair value under GAAP are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE D: FAIR VALUE MEASUREMENTS, Cont'd

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Money market accounts: Valued on the basis of quoted market prices for shares held by the Plan at year end.

Mutual Funds: Valued at quoted prices in active markets on which the individual securities are traded.

Indexed Fixed Contract Fund: Valued at book value less any contingent deferred sales charge. This contract does not have a contingent deferred sales charge at December 31, 2015 and 2014.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D: FAIR VALUE MEASUREMENTS, Cont'd

The following disclosures are required by generally accepted accounting principles in the United States of America:

Indexed Fixed Contract

The Short Term Indexed Fixed Contract is a guaranteed return contract with a quarterly interest rate guarantee that is based upon the three-month Treasury Note yield. The interest earned on this contract can change quarterly if the yield on the three-month Treasury Note index changes. This contract is fully benefit responsive and is reported at contract value. The Fixed Rate was 0.00% for the period January 1, 2014 through December 31, 2015. The Short Term Indexed Fixed Contract is valued using Level 3 inputs.

Morley Stable Value Fund

The Morley Stable Value Fund is an investment contract. At December 31, 2015, the Morley Stable Value Fund invested its assets in a variety of high quality stable value investment contracts as well as cash and cash equivalents. The Morley Stable Value Fund invests in investment contracts and security-backed contracts. An investment contract is a contract issued by a financial institution to provide a stated rate of return to the buyer of the contract for a specified period of time. A security-backed contract has similar characteristics as a traditional investment contract and is comprised of two parts: the first part is a fixed-income security or portfolio of fixed-income securities; the second part is a contract value guarantee (wrapper) provided by a third party. Wrappers provide contract value payments for certain participant-initiated withdrawals and transfers, a floor crediting rate, and return of fully accrued contract value at maturity. The Plan's interest in the Morley Stable Value Fund is valued using Level 3 inputs. There were no unfunded commitments as of December 31, 2015 and 2014 and there is no waiting period or other significant restrictions on redemptions from the Morley Stable Value Fund. The total return of the fund based on the value of a single unit of participation outstanding throughout the year was 1.51% and 1.29% for the years ended December 31, 2015 and 2014, respectively. The blended net crediting rate based on weighted average crediting rate of all investment contracts and short term income at year end was 1.64% and 1.41% for the years ended December 31, 2015 and 2014, respectively.

NOTE D: FAIR VALUE MEASUREMENTS, Cont'd

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

NOTE E: FINANCIAL INFORMATION CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements and supplemental schedule, that was prepared by the custodian and furnished to the Plan Administrator. The plan administrator has obtained certifications from the custodian that such information is complete and accurate:

	December 31,	
	2015	2014
Investments, at fair value	$ 10,496,842	$ 9,953,583
Fully benefit-responsive investment contracts at contract value	35,057	35,686
Net depreciation in fair value of investments - Mutual funds	(97,953)	
Net depreciation in fair value of investments - Index fixed contract	(26)	
Net appreciation in contract value of investments - Investment contracts	99	

All information included in the attached supplemental Schedule of Assets Held for Investment Purposes at End of Year - December 31, 2015, except participant notes receivable.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

NOTE F: PLAN TERMINATION

The Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are 100% vested in their accounts and their accounts will be paid to them as provided by the plan document.

NOTE G: TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's legal counsel believe that the plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the plan is qualified and the related trust exempt from taxation as of the financial statement date.

NOTE H: PARTY-IN-INTEREST TRANSACTIONS

The Plan's investments funds managed by Nationwide Financial Services, Inc., the custodian of the Plan. Transactions in such investments qualify as party-in-interest transactions which are exempt from the prohibited transactions rules.

As described in Note A, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

NOTE I: RISKS AND UNCERTAINTIES

The Plan invests in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE J: RECONCILIATION OF THE FINANCIAL STATEMENTS TO FORM 5500

The classification of the changes in net assets available for benefits for the year ended December 31, 2015 differs from the financial statements and Form 5500. However, the total changes in net assets for the year then ended agrees between the financial statements and Form 5500.
