Note 1 – Description of plan

The following description of the Hampton Products International Corporation 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established as of January 1, 1997 and was restated January 1, 2008. The Plan Sponsor is Hampton Products International Corporation. Great-West Life & Annuity Insurance Company (Great-West) has been contracted to serve as the Trustee and the Custodian of the Plan. The Plan was established by the Plan Sponsor to provide retirement income for its employees and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Investment options

Participants may self-direct employee and employer contributions to any of the investment options available under the Plan. The investment options include funds held in mutual funds and in insurance company general accounts.

Eligibility and participation

All employees who are employed three months and have attained the age of 18 are eligible to participate in the Plan. The Plan covers all employees except non-resident aliens who receive no U.S. earned income and employees who are included in a unit of collective bargaining.

Employees are able to enter the Plan on the earlier of the first day of the Plan year or the first day of the fourth month of the Plan year following the date on which the aforementioned eligibility requirements are satisfied.

Participant contributions

The Plan is a contributory plan whereby participants may contribute either pre-tax elective deferrals or Roth elective deferrals on their annual compensation from 1% to 80% of their salary, not to exceed $18,000 and $17,500 for 2015 and 2014, respectively. Participants age 50 or older may elect to defer up to an additional $6,000 and $5,500 of "catch up" contributions to the Plan for 2015 and 2014, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

Safe harbor matching contributions

The Plan Sponsor elected to make safe harbor matching contributions at a rate of 100% up to a maximum of 4% of the participant's compensation for 2015. The Plan Sponsor contributed $434,307 in matching contributions to the Plan for the year ended December 31, 2015. The Plan Sponsor may also make discretionary profit sharing contributions to the Plan in an amount determined by the Plan Sponsor, as defined in the Plan agreement. There were no such contributions for the year ended December 31, 2015.

Vesting

Participants are immediately vested in their salary deferrals including Roth 401(k) deferrals and catch-up contributions, rollover contributions, safe harbor contributions, and actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. Participants are 100% vested after five years of credited service.

Note 1 – Description of plan (continued)

Participant accounts

Each participant's account is credited with participant contributions, the Plan Sponsor's contributions, Plan investment earnings, and is reduced by Plan fees. Participants may choose to have their account balance deposited in various investment programs. Allocation of Plan investment earnings is based on the participant's account balance, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Notes receivable from participants

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Each participant is allowed to have two active loans at a time. Effective January 1, 2016, participants are allowed only one loan at a time. Loan terms range from one year to a maximum of five years. The loans are secured by the balance in the participant's account and bear a reasonable fixed rate of interest to be determined by the Plan Administrator. Interest rates on participant loans were 4.25% for the year ended December 31, 2015 and ranged from 4.25% to 6.0% as of December 31, 2014. Principal and interest is paid ratably through either payroll deductions or participant payments.

Payments of benefits

Participants are eligible to receive a distribution of their account balance, to the extent vested, upon termination of employment, retirement, death, or disability. Benefits are payable as a lump sum amount equal to the participant's entire interest in the Plan. Terminated employees with account balances greater than $1,000 may elect to keep their vested account balances in the Plan after termination.

Forfeitures

Forfeitures of unvested account balances may be used to reduce Plan Sponsor contributions. There were no forfeited unvested accounts as of December 31, 2015 and 2014.

Note 2 – Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Sponsor to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The Plan Sponsor believes that the estimates utilized in preparing these financial statements are reasonable and prudent. Actual results could differ from these estimates.

Note 2 – Summary of significant accounting policies (continued)

Investment valuation and income recognition

The Plan's investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments consists of both realized and unrealized gains and losses. Realized gains and losses are measured as the difference between the historical cost of investments sold or redeemed during the year and the proceeds received from their sale or redemption. Unrealized gains and losses are measured as the difference between cost and fair value at the beginning of the period and at the end of the period. Investment transactions are accounted for on a trade date basis.

Notes receivable from participants

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant notes receivable is recorded when earned. Delinquent notes receivable from participants are recorded as a distribution based on upon the terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when incurred.

Change in accounting policy

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *Fair Value Measurement*, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for non-public entities for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has elected to adopt Parts I and II early. Accordingly, the amendments were retrospectively applied resulting in no prior-period adjustment. Part III is not applicable to this Plan.

Payments of benefits

Benefits are recorded when paid.

Note 2 – Summary of significant accounting policies (continued)

Administrative expenses

Plan administrative expenses are paid by either the Plan Sponsor or the Plan, as provided in the Plan agreement. Certain expenses of maintaining the Plan that are paid directly by the Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's accounts and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments. Fees paid by the Plan for certain administrative fees amounted to $10,985 for the year ended December 31, 2015. Fees paid by the Plan Sponsor for administrative fees amounted to $13,180 for the year ended December 31, 2015.

Subsequent events

The Plan was amended and restated effective January 1, 2016 to meet the requirements of the Pension Protective Act of 2006, Section 415 Requirements, Heroes' Earnings Assistance and Relief Tax Act of 2008, and Worker, Retiree and Employer Recovery Act of 2008. The Plan evaluated the impact of subsequent events through July 22, 2016, the date these financial statements were issued. Except as noted above, no material subsequent events have occurred since December 31, 2015 that required recognition or additional disclosure in the current period financial statements.

Note 3 – Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2: Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at December 31, 2015 and 2014. The valuation methodologies used for the assets measured at fair value are as follows:

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1 inputs).

Note 3 – Fair value measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014:

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies:	$ 10,807,469	$ -	$ -	$ 10,807,469
Total investments	$ 10,807,469	$ -	$ -	$ 10,807,469

	Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Registered investment companies:	$ 11,158,037	$ -	$ -	$ 11,158,037
Total investments	$ 11,158,037	$ -	$ -	$ 11,158,037

Note 4 – Group annuity contract

The Plan has a fully benefit responsive group annuity contract with an insurance company, which is called the Key Guaranteed Portfolio Fund. The insurance company maintains the contributions in a general account, which is credited with earnings and charged for participant withdrawals and administrative expenses. The insurance company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of assets available for benefits at contract value. Contract value, as reported to the Plan by Great-West, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The contract value of the investment contract at December 31, 2015 and 2014 was $2,875,200 and $2,403,337, respectively. The crediting interest rate is based on a formula agreed upon with the insurance company. Such interest rates are reviewed on a quarterly basis for resetting. The crediting rate of the product will be established based on the earnings of the underlying assets in the entire medium-long term portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The average yield earned by the Plan for the group annuity contract is derived by averaging the quarterly gross interest rates for the fund over the year. The average for 2015 and 2014 was 1.20% and 1.25%, respectively. The actual average yield earned by the Plan for the group annuity contract is derived by averaging the Plan's quarterly interest rates. The average for 2015 and 2014 was 1.20% and 1.25%, respectively.

Certain events limit the Plan's ability to transact at contract value with the insurance company. Such events include the following: (1) premature termination of the contracts by the Plan, (2) plant closings, (3) layoffs, (4) Plan termination, (5) bankruptcy, (6) and early retirement incentives. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. The insurance company may not terminate the contract at any amount less than the contract value.

Note 5 – Information certified by the trustee/custodian

The Plan Sponsor elected the method of compliance permitted by 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employment Retirement Income Security Act of 1974 (the Act). Under this provision of the Act, certain information certified need not be subject to independent audit.

The Plan Sponsor has obtained certification from Great-West that the following information included in the Plan's financial statements is complete and accurate, as of and for the years ended December 31, 2015 and 2014:

Note 6 - Party-in-interest transactions

Certain Plan investments are shares of mutual funds and a group annuity contract managed by Great-West, the Plan's Custodian and third party administrator. These transactions qualify as party-in-interest transactions. The Plan also holds notes receivable representing participant loans. Therefore, these transactions qualify as party-in-interest transactions. All of these transactions are exempt from prohibited transaction rules under ERISA.

Note 7 - Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right under the Plan to discontinue its contributions and to terminate the Plan at any time by resolution of its Trustees, subject to the provisions of ERISA. In the event of Plan termination, the respective accounts of the participants under the Plan shall become fully vested and non-forfeitable.

Note 8 - Tax status

The IRS has determined and informed the plan sponsor by a letter dated March 31, 2008, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified as tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The financial statement effects are recognized when the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2015, there are no uncertain tax positions taken or expected to be taken.

The Plan is subject to potential audits on open years by any jurisdiction in which it operates. The statute of limitations for federal purposes is generally three years.

Note 9 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant accounts' balances and the amounts reported in the statements of net assets available for benefits.
