1. Description of Plan

The following description of the American Excelsior Company 401(k) Savings Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established to provide retirement, disability, and death benefits for qualified employees of the American Excelsior Company (the "Company"). The Plan covers all employees of the Company as of their employment commencement date or as of the first day of any subsequent month. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Participants should refer to the plan document for a more complete description of the Plan's provisions.

Plan Merger

On November 13, 2014, the American Excelsior Company Employee Stock Ownership Plan ("ESOP") was merged into the Plan. The assets in the trust account maintained in connection with the ESOP were added to the assets of the Plan. The transferred net assets have been recognized in the accounts of the Plan as of November 13, 2014 at their liquidated balances as previously carried in the accounts of the ESOP. The accompanying statement of changes in net assets available for benefits includes assets recovered and remitted to the Plan during the year ended December 31, 2015. A summary of the ESOP related contributions are as follows, see also Note 10 for further discussion of the ESOP merger:

Year ended December 31,	**2015**
Other contributions	**$ 761,603**
Other contributions receivable	**1,984,719**
Total recovered assets	**$ 2,746,322**

Contributions

Participants eligible to participate in the Plan may contribute a percentage of gross pay from 1 to 15 percent of pretax annual compensation as defined by the plan agreement, not exceeding the Internal Revenue Service ("IRS") limit of $18,000. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, not exceeding the IRS limit of $6,000. Contributions from participants are recorded when withheld from the participants' wages. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various pooled separate accounts, registered investment companies, and investment contracts with insurance company as investment options for participants.

Certain Company divisions are required to contribute a discretionary match based on collective bargaining agreements. The Company may make an additional discretionary or qualified non-elective contribution each year to eligible persons, as defined, in amounts determined by

Company management. The Company's discretionary matching contributions based on collective bargaining agreements and matching contributions for other eligible employees for the year ended December 31, 2015 totaled $327,298.

Participant Accounts

Each participant's account is credited with the participant's contributions, rollovers and Company's contributions, as well as allocations of Plan earnings and administrative expenses. Allocations are based on participant earnings, account balances or specific participant transactions, as defined by the Plan. There are no other benefits to which a participant is entitled other than the vested balance in the participant's account.

Vesting

Participants are immediately vested in their pretax contributions, transfers from the ESOP and the Company's qualified non-elective contributions, and related earnings thereon. Participants become fully vested in the Company's matching contributions and discretionary contributions after completing three years of service or in the event of retirement, disability, or death.

Notes Receivable from Participants

Participants may borrow from their accounts an amount not in excess of the lesser of (1) the greater of 50% of the vested account balance or (2) $50,000 reduced by the highest outstanding note balance within the previous 12 months. A participant may have a maximum of two notes outstanding at any time. The loans are secured by the balance in the participant's account. The loan interest rate, which commensurate with local prevailing rates as determined by the plan administrator, is set at 2% above prime rate. The repayment terms of notes may not exceed five years except for notes used to acquire the participant's principle residence, which may not exceed 10 years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

In accordance with the plan document and as allowed under Section 401(k) of the Internal Revenue Code ("IRC"), benefit payments of participants' pretax contributions are available upon retirement, death, disability, or separation from service and in amounts necessary to satisfy a financial hardship as defined by the Plan and in accordance with the IRC.

Forfeited Accounts

At December 31, 2015 and 2014, forfeited non-vested accounts totaled $2,862 and $11,699, respectively. These accounts will be used to reduce future employer contributions or plan expenses. During the year ended December 31, 2015, plan expenses were reduced by $1,002 from forfeited non-vested accounts.

Plan Amendments

Effective January 1, 2014, eligible employees may elect to make deferral contributions to the Plan as of their employment commencement date or as of the first day of any subsequent month. Previously, eligible employees began participation as of the first entry date coinciding with or

next following the completion of three full calendar months of service (or, if earlier, the first entry date following the eligible employee's completion of 1,000 hours of service). Entry dates occurred only on January 1st and July 1st prior to the amendment. Additionally, deferral elections may be modified or cancelled at any time. Previously, participants could only modify or cancel their deferral elections as of the first day of each quarter during the Plan year.

Effective August 3, 2014, the Plan was amended to accommodate the merger of the ESOP into this Plan to provide for matching and discretionary contribution eligibility for certain participants in the ESOP and to permit a limited-time opportunity (any time prior to January 1, 2015) for withdrawal of amounts transferred from the ESOP.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820) - Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU 2015-07 eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Investments that calculate net asset value per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy along with the related required disclosures. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016 and is to be applied retrospectively to all periods presented. Early adoption is permitted.

In July 2015, the FASB released ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) Defined Contribution Pension Plans (Topic 962) Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient.*

Part I of this amendment provides that fully benefit-responsive investment contracts should be measured, presented, and disclosed only at contract value, thereby eliminating the requirement to report fully benefit-responsive investment contracts at fair value with an adjustment to contract value in the Statement of Net Assets Available for Benefits. *Part I* also clarifies indirect investments in fully-benefit responsive investment contracts should continue to be reported at fair value.

Part II of this amendment simplifies the investment disclosures required for employee benefit plans, including eliminating the requirements to disclose (i) individual investments that represent 5% or more of net assets available for benefits, (ii) net appreciation (depreciation) by individual investment type, and (iii) investment information disaggregated based on the nature, characteristics and risks. The requirement to disaggregate participant-directed investments within a self-directed brokerage account has also been eliminated. Self-directed brokerage accounts should be reported as a single type of investment.

Part III of this amendment allows plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, Parts I and II to be applied retrospectively and Part III to be applied prospectively. Early adoption is permitted.

The Plan elected to early adopt ASU 2015-07 and the applicable parts of and ASU 2015-12. Adoption of this guidance did not have a significant impact on the Plan's financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company determines the Plan's valuation policies utilizing information provided by the investment advisors and custodian. See Note 4 for discussion of fair value measurements.

Guaranteed interest accounts are valued at fair value and not considered fully benefit-responsive investment contracts as defined by the FASB ASC topic Fair Value Measurements and Disclosures.

Shares of registered investment companies (mutual funds) are valued at quoted market prices which represent the net asset value ("NAV") of shares held by the Plan at each year end. Interest-bearing cash deposits are valued at carrying value, which approximates fair value. The fair value of investments in pooled separate accounts is measured by using NAV as the practical expedient to estimate fair value and is determined by the investment manager of the fund based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The Plan presents, in the statement of changes in net assets available for benefits, the net depreciation in fair value of its investments which consists of realized gains and losses and unrealized appreciation and depreciation on these investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are charged directly to the borrowing participant's account and are included in administrative expenses when incurred. As of December 31, 2015 and 2014, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2015 excess contributions to the applicable participants prior to March 15, 2016.

Payment of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses paid to investment advisors, transfer agents, and others described in each fund prospectus or other published documents are deducted by the investment funds or accounts prior to the allocation of the Plans' investment earnings activity and are therefore included in net appreciation of fair value of investments.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

3. Information Certified By the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments as reflected in the statements of net assets available for benefits as of December 31, 2015 and 2014;

- Net investment loss, as reflected in the statement of net assets available for benefits for the year ended December 31, 2015 is as follows:

Year ended December 31,	**2015**
Interest income	**$ 36,641**
Dividends	**6,334**
Net depreciation in fair value of investments	**(90,438)**
Interest income on notes receivable from participants	**27,655**

- Investment values disclosed in Note 4;

- Investment information disclosed in Note 5; and

- Investments, as reflected in the Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2015.

The plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to this certified information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. Fair Value Measurements

FASB ASC topic 820, *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC topic 820, are described as follows:

Basis of Fair Value Measurement

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;

Level 2: Quoted prices in markets that are not considered to be active or financial instruments for which all significant inputs are observable, either directly or indirectly;
Level 3: Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Registered Investment Companies

Investments in registered investment companies are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Guaranteed Interest Accounts

Investments in guaranteed interest contracts are valued at fair value by the insurance company at the amount Plan participants would receive if they were to withdraw or transfer funds with the Plan prior to their maturity (discontinuation value).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

	Investment Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Investments measured at fair value				
Registered investment companies	**580,658**	**$ -**	**$ -**	**$ 580,658**
Guaranteed interest contracts	**-**	**-**	**127,359**	**127,359**
Total investments measured at fair value	**$ 580,658**	**$ -**	**$ 127,359**	**$ 708,017**
Investments measured at net asset value				
Pooled separate accounts				**14,257,502**
Total investments measured at net asset value *				**$ 14,257,502**

	Investment Assets at Fair Value as of December 31, 2014			0
	Level 1	Level 2	Level 3	Total
Investments measured at fair value				
Registered investment companies	$ 731,987	$ -	$ -	$ 731,987
Guaranteed interest contracts	-	-	130,276	130,276
Total investments measured at fair value	$ 731,987	$ -	$ 731,987	$ 862,263
Investments measured at net asset value				
Pooled separate accounts				13,585,091
Total investments measured at net asset value *				$ 13,585,091
Total investments at fair value				$ 14,447,354

* Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits.

Fair Value of Measurements in Entities that use Net Asset Value

The fair value of the pooled separate accounts based on NAV per share as of December 31, 2015 and 2014 are $14,257,502 and $13,585,091, respectively. The pooled separate accounts held by the Plan provide for daily redemptions by the Plan at reported NAV with no advance notice requirement. The Plan is permitted to redeem investment units at NAV on the measurement date. There are no unfunded commitments.

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets:

Year Ended December 31,	**2015**
	Guaranteed Interest Contracts
Beginning balance	**$ 130,276**
Unrealized losses	**(173)**
Interest Credited	**1,755**
Purchases	**-**
Sales	**(4,499)**
Ending balance	**$ 127,359**

Because the guaranteed interest contracts are not considered fully benefit-responsive investment contracts as defined by FASB ASC topic Fair Value Measurements and Disclosures, unrealized gains/(loss) from these contracts are included in the statement of changes in net assets available for benefits at fair value.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

December 31,				**2015**
Instrument	**Fair Value**	**Principal Valuation Technique**	**Unobservable Inputs**	**Range of Significant Input Values**
Guaranteed Interest Contracts	**$ 127,359**	**Discontinuation Valuation**	**Credit Rate**	**1.10% - 1.10%**
			Rate on Account	**0.70% - 1.28%**

December 31,				2014
Instrument	Fair Value	Principal Valuation Technique	Unobservable Inputs	Range of Significant Input Values
Guaranteed Interest Contracts	$ 130,276	Discontinuation Valuation	Credit Rate	0.72% - 1.17%
			Rate on Account	0.70% - 1.28%

5. Investment Contract with Insurance Company

The Plan entered into a benefit-responsive investment contract with Principal Life Insurance Company ("Principal"). Principal maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The investment contract is a fully benefit-responsive investment and is reported at contract value in the statements of net assets available for benefits. The statement of changes in net assets available for benefits is also prepared on a contract value basis. Benefit responsiveness is defined as the extent to which a contract's terms and the Plan permit or require participant initiated withdrawals at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2015 and 2014, was $2,532,639 and $2,154,825, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events, such as the premature termination of the contracts by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Principal. The plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with plan participants is not probable.

The investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

7. Related-Party and Party-in-Interest Transactions

Certain Plan investments are managed by Principal Life Insurance Group and Delaware Charter Guarantee & Trust Company d/b/a Principal Trust Company, which is the custodian as defined by the Plan, and, therefore these investments qualify as party-in-interest. Fees incurred by the Plan for the investment management services are included in net depreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. The Company pays directly any other fees related to the Plan's operations.

All of the party-in-interest transactions are exempt from prohibited transactions rules of ERISA.

8. Tax Status

The IRS has determined and informed the Company by a letter dated February 11, 2010, that the Plan and related trust are designed in accordance with applicable section of the IRC. The Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognized a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and the DOL. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes the Plan is no longer subject to examinations for years prior to 2012.

9. Reconciliation of Financial Statements to Form 5500

The following is the reconciliation of net assets available for benefits per the financial statements to Schedule H of Form 5500 at December 31:

December 31,		**2015**
Net assets available for benefits per the financial statements	**$**	**20,008,155**
Other contributions receivable		**(1,984,719**)
Net assets available for benefits per Schedule H of Form 5500	**$**	**18,023,436**

The following is the reconciliation of the change in net assets available for plan benefits per the financial statements to Schedule H of Form 5500 for the year ended December 31, 2015:

Year ended December 31,		**2015**
Net increase in net assets per the financial statements	**$**	**2,823,959**
Other contributions receivable		**(1,984,719)**
Net income per Schedule H of Form 5500	**$**	**839,240**

10. ESOP Litigation

The Administrative Committee of American Excelsior Company Employee Stock Ownership Trust has filed suit against Defendants GreatBanc Trust Company, Pennant Management, Inc. and Salem Trust Company for the delay in distribution and reduction in value of the ESOP and thus its participant accounts. The ESOP received 80 percent or $10,947,092 of the $13,607,708 original sale price which was recorded as a transfer of plan assets for the plan year ended December 31, 2014.

The Administrative Committee released the suit pending before the United States District Court for the Northern District of Texas, Fort Worth Division, against Defendants GreatBanc Trust Company, Pennant Management, Inc. and Salem Trust Company (collectively "Defendants") in exchange for consideration agreed to in a mediation settlement agreement in October 2015.

There have been subsequent recoveries and settlement agreement payments totaling $761,603 during the year ended December 31, 2015 and $1,855,000 in the first quarter of 2016. The remaining amount owed to the participants of the plan of $129,719 is to be paid by January 15, 2018. The $1,984,719 remaining amount at December 31, 2015 is recorded as a receivable in the statement of net assets available for benefits at December 31, 2015.

11. Subsequent Events

The date to which events occurring after December 31, 2015, the date of the most recent financial statements and supplemental schedule, have been evaluated for possible adjustment to the financial statements and supplemental schedule or disclosure is July 21, 2016, which is the due date that the financial statements and supplemental schedule were available to be issued.
