1. Description of the Plan:

The following description of the Applewood Plumbing & Heating Company (the Company or Plan administrator) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering all employees of the Company who have completed three months of service and attained the age of 18. The Plan administrator oversees the governance of the Plan and determines the appropriateness of the Plan's investment offerings and monitors investment performance. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Plan entrance dates are the first day of each month.

Contributions:

Each year participants may contribute up to the maximum dollar amount allowed by the Internal Revenue Code of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers mutual funds as investment options.

The Plan contains an automatic enrollment feature. Unless a participant elects otherwise, a contribution of 4% of his/her pretax annual compensation is contributed to the Plan and the contribution is increased by 1% each January 1st until 6% of pretax annual compensation is contributed to the Plan. Company contributions are discretionary. For the years ended December 31, 2015 and 2014, the Company made contributions of $180,874 and $183,911, respectively. Company contributions are invested as directed by the participants. Contributions are subject to certain statutory limitations.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings and charged with an allocation of administrative expenses and Plan losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts, plus actual earnings thereon, is based on years of continuous service. For vesting purposes, a year of service is defined as a Plan year including at least 1,000 hours of service. Participants become 20 percent vested after two years of service. Vesting increases at the rate of 20 percent per year. A participant becomes 100 percent vested after six years of credited service.

1. Description of the Plan (continued):

Payment of benefits:

On termination of service due to death, disability, retirement or termination, a participant may elect to receive a lump-sum payment equal to the value of the participant's vested interest in his or her account, a joint and survivor annuity, a lifetime annuity or installments over a period of time, not to exceed the participant's life expectancy. If a participant dies, his/her designated beneficiary will receive the benefit.

Benefits are recorded when paid. As of December 31, 2015 and 2014, there were no benefit payments that had been approved for payment but not yet paid to participants who had withdrawn from participation in the Plan.

Amounts allocated to accounts of participants who were eligible to receive a distribution were $838,113 and $398,546 at December 31, 2015 and 2014, respectively.

Forfeitures:

Forfeitures occur upon termination of employment by a participant who is not fully vested in the Plan. Forfeiture amounts are to be used to reduce the earliest Company contributions after the forfeitures are determined or to pay expenses under the Plan.

Forfeitures are as follows:

	2015	2014
Beginning of year	$ 17,371	$ 5,085
Current year forfeitures	12,629	29,550
Applied to Company contributions	(30,000)	(17,264)
End of year	$ --	$ 17,371

Termination of the Plan:

Although the Company has not expressed any intent to do so, it has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions under ERISA. In the event of Plan termination, participants would become 100 percent vested in all contributions.

Administrative expenses:

Plan administrative expenses are generally paid by the Plan or through forfeitures, as provided in the Plan document.

Participant loans receivable:

The Plan document, as currently designed, does not provide for participant loans.

2. Summary of significant accounting policies:

Basis of accounting:

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates:

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for plan benefits.

Investment valuation and income recognition:

The Plan's investments in mutual funds offered by Reliance Trust Company (Reliance) are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan administrator determines the Plan's valuation policies.

Purchases and sales of investments are recorded on a trade-date basis. Interest and dividends are recorded when earned. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Unit values:

Participants do not have beneficial ownership in specific underlying securities or other assets in the various accounts, but have an interest therein represented by units valued as of the last business day of the period. The various accounts earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawal payments from each account are converted to units by dividing the amount of such transactions by the unit value as last determined, and the participants' accounts are credited or charged with the number of units properly attributable to each participant.

Subsequent events:

Subsequent events have been evaluated through July 20, 2016, which is the date the financial statements were available to be issued.

3. Fair value measurements:

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1). Level 3 inputs are unobservable and have the lowest priority.

The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 2 inputs are used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no Plan assets requiring the use of Level 3 inputs for the years presented.

Level 1 Fair Value Measurements

The fair value of mutual funds is based on quoted net asset values of the shares as reported by the fund. The mutual funds held by the Plan are open-end mutual funds registered with the U.S. Securities and Exchange Commission. The funds must publish their daily net asset value and transact at that price. The mutual funds held by the Plan are considered to be actively traded.

	Fair value	Fair value measurements at the end of the reporting period using: Quoted prices in active markets for identified assets (Level 1)
December 31, 2015:		
Mutual funds	$ 4,355,011	$ 4,355,011
December 31, 2014:		
Mutual funds	$ 4,264,726	$ 4,264,726

Gains and losses included in changes in net assets available for benefits for the year ended December 31, 2015 and 2014 are reported in net appreciation (depreciation) in fair value of investments.

4. Information prepared and certified by the trustee:

The following information included in the accompanying financial statements and supplemental schedule for the years ended December 31, 2015 and 2014 was obtained from data that have been prepared and certified as complete and accurate by Reliance.
