PIVOT INTERIORS, INC. SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

December 31, 2015

Note 1 - Description of plan:

The following description of the Pivot Interiors, Inc. (the "Company") Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1988, was merged on April 1, 2000 with the plan of Coordinated Resources, Inc. ("CRI") and was last amended on March 8, 2015. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all employees of Pivot Interiors, Inc. who have attained the age of 21.

The Plan Sponsor is Pivot Interiors, Inc. ("Plan Sponsor").

The Company retains the services of third parties to assist in the administration of the Plan. On January 1, 2015, the Company switched the third party administrator and record keeper and custodian from Mass Mutual Life Insurance Company ("Mass Mutual") and State Street Corporation ("State Street") to Fidelity Management Trust Company ("Fidelity").

As a result of the change of custodians at year end, the assets were liquated and as of December 31, 2014 the cash was in transit. During this time the Company underwent a blackout period from December 29, 2014 through January 14, 2015, during which participants could not view their funds as they were in the process of transferring the funds to Fidelity. Under the new Plan there were no significant changes in the structure of the Plan, just new investment options.

Eligibility - Except for excluded employees, all employees who have reached twenty-one years of age are eligible to participate in the Plan. Employees may enter the Plan on the first day of the month following the date of hire. An employee may elect not to participate in the Plan.

Participant contributions - Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Effective March 8, 2015, participants are eligible to contribute up to 100 percent of pre or post tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their account balances into various investment options offered by the Plan. Participants may change their investment options daily.

Note 1 - Description of plan (continued):

Employer matching contributions - The Company may contribute an amount equal to 50% of elective deferrals, up to a maximum matching contribution of $1,500.

The Company may also contribute an additional amount determined at its sole judgment, which will be allocated to all participants, and is distributed based on the participants' compensation as a ratio of all other eligible participants' compensation. For the years ended December 31, 2015 and 2014, the Company made no discretionary contributions.

Participant accounts - Each participant's account is credited with the participant's contribution, employer's contribution, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the valuation of the participant's vested account at the date immediately preceding the commencement of processing the distribution.

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. During 2014, all Plan investments were units of funds managed by Mass Mutual, therefore, these investments and all investment transactions were party-in-interest transactions. During 2015, some Plan investments were units of funds managed by Fidelity, therefore, these investments and all related investment transactions were party-in-interest transactions. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Vesting - Participants' contributions and rollovers from other qualified plans are 100% vested at all times. The Company's matching contributions are also 100% vested upon the participants' entry date. The Company's discretionary profit sharing contributions vest at a rate of 20% per year starting with the second full year of service. A full year of service is defined as completing 1,000 hours of service at any time during a Plan year.

At December 31, 2015 and 2014, forfeited non-vested accounts totaled approximately $35,000 and $11,000, respectively. These accounts may be used to reduce administrative fees and future employer contributions. In 2014, forfeited non-vested accounts of approximately $34,000 were used to fund employer matching contributions. No forfeited funds were used to reduce administrative fees or employer contributions in 2015.

Benefits paid to participants - On termination of service due to death, disability, retirement or separation from service, participants may receive benefits in a lump sum or installments, in accordance with the Plan.

Note 1 - Description of plan (continued):

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms may not exceed five years, except for loans used for a purchase of a primary residence, which may be repaid over a longer period, as defined by the Plan. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant notes fund. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 5.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair value of investments.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Company.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Significant accounting policies (continued):

Investment valuation and income recognition - The investments in all of the funds, except the stable value fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund as of December 31, 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The stable value fund is fully benefit-responsive and is reported at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net appreciation (depreciation) in fair value of investments - The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Note 2 - Significant accounting policies (continued):

Recent accounting pronouncements - In May 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-07).* ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under ASC 820. ASU 2015-07 is effective for the Plan year ending December 31, 2016 with early adoption permitted and is applied retrospectively. Management has elected to adopt the pronouncement early.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. In Section I, the amendment designates contract value as the only required measure for fully benefit-responsive investment contracts. In Section II, the amendment eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The net appreciation or depreciation in investments for the period should be presented in the aggregate, but is no longer required to be disaggregated and disclosed by general type. The amendment also requires that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Finally, in Section III, the amendment provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The ASU is effective for fiscal years beginning after December 15, 2015, should be applied retrospectively for all financial statements presented, and early application is permitted. Plan management has evaluated the impact that will result from the pronouncement, noting no material impact to the financial statements. Management has elected to adopt the pronouncement early.

Note 3 - Fair value measurements:

The Plan performs fair value measurements in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments were measured on a recurring basis by the Plan administrator, and consisted of mutual funds with a balance of $19,847,474, deemed as level 1 as of December 31, 2015. The cash-in-transit balance of $23,096,761 was deemed as Level 1, at December 31, 2014.

The Plan's valuation methodology used to measure the fair values of the mutual funds were derived from quoted market prices of the underlying assets in the mutual funds as substantially all of these instruments have active markets.

Note 4 - Investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by State Street and Fidelity, the custodians of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodians as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Notes receivable from participants as shown in the Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Investment income (loss) and interest on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015 and 2014.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

Note 5 - Stable value fund:

During the year ended December 31, 2015, the Plan held an investment in the New York Life Anchor Account, a stable value fund ("SVF") that is a pooled account with New York Life Insurance Company, made available to participating plans through a group annuity contract. Contributions to the SVF are directed to a New York Life pooled separate account that invests primarily in a diversified portfolio of high quality, fixed income securities, which are owned by New York Life Insurance Company. The SVF is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer, New York Life, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

Note 5 - Stable value fund (continued):

The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6 - Income tax status:

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code 401(a). Subsequent to receiving this determination letter, the prototype plan was amended. The Plan administrator believes that the amended prototype plan, as adopted by the Company, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Party-in-interest transactions:

Fidelity Management Trust Company, the Plan's trustee, serves as Plan fiduciary, investment manager, and custodian to the Plan. At December 31, 2015, the Plan held for investment approximately $2,803,000 in Fidelity Management Trust Company mutual funds. There were no balances at December 31, 2014 with a party-in-interest.

Note 8 - Plan termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will automatically become fully vested in their accounts.

Note 9 - Risks and uncertainties:

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits and participant account balances.

Note 10 - Reconciliation of financial statements to Schedule H of Form 5500:

The following is a reconciliation of net assets per the financial statements to Schedule H of the Form 5500 at December 31, 2015 and 2014:

	2015	2014
Net assets per financial statements	$ 23,608,213	$ 23,730,824

Less: Contributions receivable from participants	-	(33,922)
Total assets per Form 5500	$ 23,608,213	$ 23,694,358

The following is a reconciliation of total contributions per the financial statements for the year ended December 31, 2015 to Schedule H of the Form 5500:

Total contributions per financial statements	$ 1,626,209
Plus: Contributions receivable from employer at December 31, 2014	2,544

PIVOT INTERIORS, INC. SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

December 31, 2015

Note 1 - Description of plan:

The following description of the Pivot Interiors, Inc. (the "Company") Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established on January 1, 1988, was merged on April 1, 2000 with the plan of Coordinated Resources, Inc. ("CRI") and was last amended on March 8, 2015. This Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan provides benefits for all employees of Pivot Interiors, Inc. who have attained the age of 21.

The Plan Sponsor is Pivot Interiors, Inc. ("Plan Sponsor").

The Company retains the services of third parties to assist in the administration of the Plan. On January 1, 2015, the Company switched the third party administrator and record keeper and custodian from Mass Mutual Life Insurance Company ("Mass Mutual") and State Street Corporation ("State Street") to Fidelity Management Trust Company ("Fidelity").

As a result of the change of custodians at year end, the assets were liquated and as of December 31, 2014 the cash was in transit. During this time the Company underwent a blackout period from December 29, 2014 through January 14, 2015, during which participants could not view their funds as they were in the process of transferring the funds to Fidelity. Under the new Plan there were no significant changes in the structure of the Plan, just new investment options.

Eligibility - Except for excluded employees, all employees who have reached twenty-one years of age are eligible to participate in the Plan. Employees may enter the Plan on the first day of the month following the date of hire. An employee may elect not to participate in the Plan.

Participant contributions - Each year participants may contribute up to 100 percent of pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Effective March 8, 2015, participants are eligible to contribute up to 100 percent of pre or post tax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their account balances into various investment options offered by the Plan. Participants may change their investment options daily.

Note 1 - Description of plan (continued):

Employer matching contributions - The Company may contribute an amount equal to 50% of elective deferrals, up to a maximum matching contribution of $1,500.

The Company may also contribute an additional amount determined at its sole judgment, which will be allocated to all participants, and is distributed based on the participants' compensation as a ratio of all other eligible participants' compensation. For the years ended December 31, 2015 and 2014, the Company made no discretionary contributions.

Participant accounts - Each participant's account is credited with the participant's contribution, employer's contribution, and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled to is the valuation of the participant's vested account at the date immediately preceding the commencement of processing the distribution.

Investment options - The Plan provides for investments to be directed by participants into a number of investment options held by the custodian. During 2014, all Plan investments were units of funds managed by Mass Mutual, therefore, these investments and all investment transactions were party-in-interest transactions. During 2015, some Plan investments were units of funds managed by Fidelity, therefore, these investments and all related investment transactions were party-in-interest transactions. Earnings of each investment fund are allocated to participant's accounts in proportion to each participant's share of that fund.

Vesting - Participants' contributions and rollovers from other qualified plans are 100% vested at all times. The Company's matching contributions are also 100% vested upon the participants' entry date. The Company's discretionary profit sharing contributions vest at a rate of 20% per year starting with the second full year of service. A full year of service is defined as completing 1,000 hours of service at any time during a Plan year.

At December 31, 2015 and 2014, forfeited non-vested accounts totaled approximately $35,000 and $11,000, respectively. These accounts may be used to reduce administrative fees and future employer contributions. In 2014, forfeited non-vested accounts of approximately $34,000 were used to fund employer matching contributions. No forfeited funds were used to reduce administrative fees or employer contributions in 2015.

Benefits paid to participants - On termination of service due to death, disability, retirement or separation from service, participants may receive benefits in a lump sum or installments, in accordance with the Plan.

Note 1 - Description of plan (continued):

Notes receivable from participants - Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Loan terms may not exceed five years, except for loans used for a purchase of a primary residence, which may be repaid over a longer period, as defined by the Plan. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant notes fund. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 5.25%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest are paid ratably through payroll deductions.

Investment management fees and operating expenses - Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation (depreciation) in fair value of investments.

Administrative expenses - Substantially all administrative expenses of the Plan are paid by the Company.

Note 2 - Significant accounting policies:

Basis of accounting - The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP"). Contributions from participants are recorded when withheld from the participant. Benefit payments to participants are recorded when paid.

Use of estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 - Significant accounting policies (continued):

Investment valuation and income recognition - The investments in all of the funds, except the stable value fund, are presented at fair value, based on the quoted market prices of the underlying securities within each fund as of December 31, 2015. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The stable value fund is fully benefit-responsive and is reported at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Net appreciation (depreciation) in fair value of investments - The earnings, expenses, realized gains or losses, and unrealized appreciation (depreciation) in registered investment companies are recorded in the accompanying financial statements as net appreciation (depreciation) in fair value of investments.

Fair value measurements - The Plan performs fair value measurements in accordance with Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*. Refer to Note 3 for the fair value measurement disclosures associated with the Plan's investments.

Subsequent events - The Plan has evaluated subsequent events through the date that the financial statements were available to be issued which is the date of the independent auditors' report.

Note 2 - Significant accounting policies (continued):

Recent accounting pronouncements - In May 2015, the FASB issued Accounting Standards Update ("ASU") No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2015-07).* ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under ASC 820. ASU 2015-07 is effective for the Plan year ending December 31, 2016 with early adoption permitted and is applied retrospectively. Management has elected to adopt the pronouncement early.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Contribution Pension Plans (Topic 962) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. In Section I, the amendment designates contract value as the only required measure for fully benefit-responsive investment contracts. In Section II, the amendment eliminates the requirement to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The net appreciation or depreciation in investments for the period should be presented in the aggregate, but is no longer required to be disaggregated and disclosed by general type. The amendment also requires that investments (both participant-directed and nonparticipant-directed investments) of employee benefit plans be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Finally, in Section III, the amendment provides a practical expedient to permit plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The ASU is effective for fiscal years beginning after December 15, 2015, should be applied retrospectively for all financial statements presented, and early application is permitted. Plan management has evaluated the impact that will result from the pronouncement, noting no material impact to the financial statements. Management has elected to adopt the pronouncement early.

Note 3 - Fair value measurements:

The Plan performs fair value measurements in accordance with ASC 820. ASC 820 defines fair value as the price that would be received from selling an asset in an orderly transaction between market participants at the measurement date. The accounting guidance for fair value measurement requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The fair value hierarchy is as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities;

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Investments were measured on a recurring basis by the Plan administrator, and consisted of mutual funds with a balance of $19,847,474, deemed as level 1 as of December 31, 2015. The cash-in-transit balance of $23,096,761 was deemed as Level 1, at December 31, 2014.

The Plan's valuation methodology used to measure the fair values of the mutual funds were derived from quoted market prices of the underlying assets in the mutual funds as substantially all of these instruments have active markets.

Note 4 - Investments:

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan's independent accountants did not perform any auditing procedures with respect to this information certified by State Street and Fidelity, the custodians of the Plan, except for comparing such information to the related information included in the financial statements and supplemental schedule.

The following information included in the financial statements and supplemental schedule was provided by and certified by the Plan's custodians as complete and accurate:

- Investments as shown in the Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Notes receivable from participants as shown in the Statement of Net Assets Available for Benefits as of December 31, 2015 and 2014.
- Investment income (loss) and interest on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2015 and 2014.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year).

Note 5 - Stable value fund:

During the year ended December 31, 2015, the Plan held an investment in the New York Life Anchor Account, a stable value fund ("SVF") that is a pooled account with New York Life Insurance Company, made available to participating plans through a group annuity contract. Contributions to the SVF are directed to a New York Life pooled separate account that invests primarily in a diversified portfolio of high quality, fixed income securities, which are owned by New York Life Insurance Company. The SVF is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer, New York Life, is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

Note 5 - Stable value fund (continued):

The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 6 - Income tax status:

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue Code 401(a). Subsequent to receiving this determination letter, the prototype plan was amended. The Plan administrator believes that the amended prototype plan, as adopted by the Company, is operating in compliance with the requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Note 7 - Party-in-interest transactions:
