Notes to the Financial Statements
December 31, 2015 and 2014

1. Description of Plan

The following brief description of the Headwaters Incorporated (the “Company”) 401(k) Savings & Investment Plan (the “Plan”) is provided for general information only. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have completed two months of service and are 18 years of age. An eligible employee becomes a participant on the first day of March, June, September or December following the date the employee satisfies the eligibility requirements. The Plan is subject to the provisions of ERISA. Plan Management is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to Plan Management.

Contributions. Each year, participants may contribute between 1 and 97 percent of their annual compensation, as defined in the Plan. Contributions can be made on a pre-tax or after-tax (Roth) basis, through payroll deductions. Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions to various investment options offered by the Plan. Contributions are subject to certain IRS limitations.

The Company makes a Safe Harbor contribution of 100 percent of the first three percent of employees’ deferrals and 50 percent of the next two percent of deferrals. The Safe Harbor contributions are credited to the participant’s account. Employer contributions are accrued in the same method as participant’s contributions. Each participant’s account also receives a pro rata allocation, based on the account balance, of the applicable pooled investment account’s earnings or losses. Participants are eligible for the Safe Harbor contributions after completing two months of service.

Participant Accounts. Each participant’s account is credited with the participant’s contribution and Company Safe Harbor contributions, as well as Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Vesting. Participants are immediately fully vested in their contributions plus actual earnings thereon, as well as in their Safe Harbor contributions and related earnings.

1. Description of Plan (continued)

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits. Distributions and withdrawals generally are payable upon termination, financial hardship, total disability, death or the attainment of the normal retirement age of 60. The participant or designated beneficiary can receive a lump sum distribution of the value of the account including vested portions of employer contributions. An alternative payment schedule may be requested by the participant as specified in the Plan.

As of December 31, 2015 and 2014, the Plan had \$10,658,042 and \$11,354,775, respectively, of plan assets that were allocated to participants that had withdrawn from the Plan, but for which disbursement of those funds from the Plan had not yet been made.

Forfeitures Accounts. During 2015, \$12,243 of forfeitures was allocated to eligible participants. During 2015, no forfeitures were used to offset Plan fees.

2. Summary of significant accounting policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

2. Summary of significant accounting policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events

The Plan has evaluated subsequent events through July 21, 2016 the date the financial statements were available to be issued.

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by (\$5,444,789) as follows:

Mutual funds	\$ 171,395
Common/collective trusts	(5,616,184)
	<u>\$ (5,444,789)</u>

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Headwaters Incorporated
401(k) Savings & Investment Plan

Notes to the Financial Statements

4. Fair Value Measurements (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	<div>Inputs to the valuation methodology include:<ul style="list-style-type: none">• quoted prices for similar assets or liabilities in active markets;• quoted prices for identical or similar assets or liabilities in inactive markets;• inputs other than quoted prices that are observable for the asset or liability;• inputs that are derived principally from or corroborated by observable market data by correlation or other means.</div> <div>If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</div>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds: Valued at fair value based on quoted redemption values on the last business day of the Plan year.

Common/collective trusts: Valued at fair value based on contract value on the last business day of the Plan year.

4. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

Total assets at fair value	\$ 82,498,459	\$ —	\$ —	\$ 82,498,459

5. Investment Contract

Contributions to the Plan's funds can be invested in a Met Managed GIC, where the assets are invested in a MetLife separate account. MetLife will guarantee principal and accrued interest, based on credited interest rates, for participant-initiated withdrawals as long as the contract remains active. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio. Rates are reset each quarter with a minimum credited rate of 0%.

MetLife will reset the rate by amortizing the difference between the market value of the portfolio and the guaranteed value over the weighted average duration of the Fund's investments. Participants will receive the principal and accrued earnings credited to their accounts on withdrawals for allowed events. These events include transfer to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

Notes to the Financial Statements

5. Investment Contract (continued)

Average yields	2015	2014
Based on annualized earnings (1)	.52%	4.61%
Based on interest rate credited to participants (2)	2.33%	2.22%

(1) Computed by dividing the annualized one-day earnings of the contract on the last day of the plan year by the fair value of the investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the plan year by the fair value of the investments on the same date.

6. Related-Party Transactions

Certain plan investments are shares of funds managed by Wilmington Trust Retirement and Institutional Services Company, the Plan trustee, and therefore, these transactions qualify as parties-in-interest. Any purchases and sales of these funds are open market transactions at fair market value. Consequently, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of part-in-interest transactions under ERISA.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

8. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the Department of Labor ("DOL"). The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2012.

Notes to the Financial Statements

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefit.

10. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as reported on Form 5500 with that reported in the accompanying financial statements:

	<u>2015</u>	<u>2014</u>
Net assets available for benefits per financial statements at fair value	\$ 85,911,145	\$ 84,879,102
