The Plan is a defined contribution retirement and savings plan organized under the Internal Revenue Code ("IRC") Section 401(k). The Plan covers employees of NCH Corporation (the "Company," "Plan sponsor," "Plan Administrator" or "Employer"). The Company established the Plan for the purpose of encouraging savings for retirement and to provide a tax-qualified facility for accumulation of funds to be used to provide benefits payable to an employee upon retirement, death, disability, termination of employment, or on certain other occasions.

Plan Administration

NCH Corporation is the Plan sponsor/administrator. Effective April 1, 2014, Schwab Retirement Plan Services, Inc. ("Schwab"), a wholly owned subsidiary of The Charles Schwab Corporation, became the service provider for the Plan and provides asset management, recordkeeping, and administrative services for the Plan and Charles Schwab Bank became the trustee ("Trustee"). ING Institutional Plan Services, LLC ("ING") was the investment administrator and trustee for the Plan through March 31, 2014.

Eligibility

All qualified employees who have attained the age of 18 and have completed 30 days of service are eligible to participate in the Plan. However, to receive the Employer matching and Employer year-end discretionary contributions, the employee must have been employed for a minimum of one year. Temporary or project employees hired to work for a specified period of no more than one year are not eligible to participate in the Plan. However, if a temporary or project employee completes a full year of service then he or she is eligible to participate in the Plan as of the first (January 1 or July 1) coincident with or next following completion of a year of service.

Contributions

Each eligible employee may elect to make a pretax contribution commencing on any entry date in any whole percentage from 1% to 50% of the employee's eligible compensation, not to exceed certain limits as set forth by the IRC and the Plan document. The maximum contribution allowable by the IRC was $18,000 and $17,500 during 2015 and 2014, respectively. The Employer matching contribution is 100% of the participant contributions, up to 3.4% of eligible compensation. In addition, upon authorization by the Employer's Board of Directors, the Employer shall also make an additional contribution up to 100% of the first $750 of a participant's pre-tax deferral, provided the participant is still employed on the last day of the Plan year. Participants may also deposit distributions received from other qualified benefit plans, called a rollover contribution, into the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. All contributions to the Plan are deposited into investment funds managed and held by Schwab and the Trustee, respectively, as directed by the participants.

NOTE A - DESCRIPTION OF PLAN - Continued

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payments of Benefits

Upon retirement, death, disability, or termination of employment, a participant (or the participant's beneficiary, if applicable) may elect to either (i) receive installment payments on an annual basis, (ii) receive a lump-sum amount, (iii) rollover a balance into an IRA, or (iv) if the account balance is greater than $5,000, defer payment up to age 70½.

Withdrawals are permitted upon the attainment of age 59½ or for alleviating financial hardships in accordance with Plan provisions. There were no benefit payments requested but unpaid as of December 31, 2015 and 2014.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. A participant who terminates service due to death, permanent disability, achievement of normal retirement age, or completes three years of service is fully vested in his or her Employer contributions. However, if a participant terminates his or her employment prior to three years of service for any reason other than retirement, death or full and permanent disability, the participant's vested percentage will be zero. All participants are fully vested upon reaching the age of 65.

Forfeited Accounts

Forfeited amounts can be used to reduce the Employer's contributions or pay administrative expenses. Forfeiture of nonvested Employer contributions totaled $142,505 in 2015. There was $1,291 in earnings and $149,670 was used to reduce employer matching contributions. The total balance of the forfeiture account was $64 and $5,938 as of December 31, 2015 and 2014, respectively.

Notes Receivable from Participants

Participants may borrow from their accounts subject to a minimum of $500. The maximum amount of any loan (when added to the outstanding balance of all prior loans) may not exceed the lesser of: (1) 50% of the participant's vested account balance or (2) $50,000, reduced by the highest balance of all outstanding loans to the participant during the one-year period ending on the first day of the month preceding the date of the loan in question. In addition, participants may have no more than two loans outstanding at any one time. The loans are secured by the remaining balance in the participant's account and bear interest at the Prime Rate plus 1%, as published in the Wall Street Journal on the first day of the previous month. The maximum term for a loan is five years. Principal and interest are repaid in equal installments through payroll deductions and individual repayments made by the participant.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the Plan's investments, as well as the adjustment from fair value to contract value for these fully benefit-responsive investment contracts. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("US GAAP") requires the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, the changes in net assets available for benefits during the reporting period and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note J for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date. Interest income is recorded as earned. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 or 2014. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability. The Plan distributed excess contributions made during 2015 to the applicable participants prior to March 15, 2016.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Company may elect to pay the Plan's expenses. For the year ended December 31, 2015, the Company did not elect to pay Plan expenses. For the year ended December 31, 2015, the participants paid amounts totaling $223,817 in administration fees, including participant loan processing, redemption fees, and record keeping fees.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). This ASU eliminates the requirement to categorize within the fair value hierarchy, as well as the requirement to make certain disclosures for, all investments whose fair values are measured using the net asset value per share practical expedient. The guidance is effective for non-public entities for fiscal years beginning after December 15, 2016 and interim periods within those years. Early adoption is permitted and retrospective application is required. The adoption of this standard is not expected to have a material impact on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans(Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part III of this ASU is not applicable to the Plan. Part I of the ASU requires the Plan to measure fully benefit-responsive investment contracts only at contract value, eliminating the requirement to reconcile contract value to fair value if the two measures differ on the face of the financial statements. Part II of this ASU eliminates the requirements to disclose (i) individual investments that represent five percent or more of net assets available for benefits and (ii) the net appreciation or depreciation in fair value of investments by general type. In addition, the disclosure of information about fair value measurements shall be provided by general type of investment. The new guidance for plan investment disclosures is to be applied retrospectively. The provisions of this ASU are effective for fiscal years beginning after December 15, 2015. Plans can early adopt any of the ASU's three parts without early adopting the other parts. Other than requiring a change to the Plan disclosures, the adoption of Part I and Part II of this amendment are not expected to have a material impact on the Plan's financial statements

NOTE C - TAX STATUS

The IRS advised the Plan Administrator on March 22, 2012 that the Plan constitutes a qualified retirement trust under Sec. 401(a) of the IRC, and is therefore exempt from federal income tax. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

NOTE D - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). In the event of Plan termination, all participants will become 100% vested in their employer contributions and Plan assets will be distributed in accordance with the Plan document.

NOTE E - INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2015 and 2014.
- Net investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2015.
- Schedule H, Part IV, line 4i – Schedule of Assets (held at end of year) as of December 31, 2015.

NOTE F - INVESTMENTS

The following table presents investments that represent 5% or more of the Plan's net assets at year-end. All investments are presented at fair value.

	2015	2014
Wells Fargo Stable Value Fund N*	$ 51,291,986	$ 51,509,149
Vanguard Institutional Index Fund Institutional Shares	29,191,823	32,820,626

* Represents estimated fair value. Contract value of this investment was $51,036,802 and $50,797,977 as of December 31, 2015 and 2014, respectively.

During 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by $8,595,172 as follows:

Mutual funds	$(9,340,953)
Investment contract	744,464
Money market	1,317

NOTE G - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities that are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

NOTE H - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2015 and 2014, and for the year ended December 31, 2015:

	2015	2014
Net assets available for benefits per the financial statements	$243,220,995	$250,192,910
Adjustment from contract value to fair value for interest in Collective Trust related to fully benefit-responsive investment contracts	255,184	711,172
Net assets available for benefits per the Form 5500	$243,476,179	$250,904,082
Total change in net assets per the financial statements	$ (6,971,915)	$ 10,875,090
Adjustment from contract value to fair value for interest in fully benefit-responsive investment contracts	(455,988)	260,063
Total change in net assets per the Form 5500	$ (7,427,903)	$ 11,135,153

As discussed in Note I, the Plan invests in a fully benefit-responsive investment contract. For financial reporting purposes, the net assets of the Plan include the investment contract recorded at contract value, while the Form 5500 is presented at fair value.

NOTE I - INVESTMENT CONTRACT

The Wells Fargo Stable Value Fund N is the Plan's fully benefit-responsive investment contract with Wells Fargo for the years ended 2015 and 2014, respectively. Wells Fargo maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As more fully described below, the contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Wells Fargo.

In accordance with Accounting Standards Codification ASC 962, *Plan Accounting - Contribution Pension Plans* ("ASC 962"), investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to a fully benefit-responsive investment contract because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. ASC 962 requires the statements of net assets available for benefits to present the fair value of the Plan's investments, as well as the adjustment from fair value to contract value for these fully benefit-responsive investment contracts.

NOTE I - INVESTMENT CONTRACT - Continued

Wells Fargo is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Interest is credited on contract balances using a single "portfolio rate" approach. Under this methodology, a single interest crediting rate is applied to all contributions made to the product regardless of the timing of those contributions. Crediting interest rates are reviewed on a quarterly basis for resetting. The minimum crediting rate under the contract is 1.50%.

	2015	2014
Average yields:		
Based on actual earnings[1]	1.83%	1.40%
Based on interest rate credited to participants[2]	1.79%	1.64%

(1) This represents the annualized earnings of all investments in the Fund, including the earnings recorded at the underlying collective trust funds, divided by the fair value of all investments in the fund at December 31, 2015.

(2) This represents the annualized earnings credited to participants in the Fund, divided by the fair value of all investments in the fund at December 31, 2015.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than zero percent.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

NOTE J - FAIR VALUE MEASUREMENTS

Accounting Standards Codification ("ASC") 820, *Fair Value Measurements,* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets the Plan has the ability to access.

NOTE J - FAIR VALUE MEASUREMENTS - Continued

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 or 2014.

Mutual Funds

Valued at the closing price reported on the active market on which the individual securities are traded.

Investment Contract

Valued at the net asset value ("NAV") of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the investment contract, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidation swill be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE J - FAIR VALUE MEASUREMENTS - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

NOTE J - FAIR VALUE MEASUREMENTS - Continued

Unrealized gains/losses from the investment contract are not included in the statement of changes in net assets available for benefits as the contract is recorded at contract value for purposes of the net assets available for benefits.

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2015 and 2014, respectively.

NOTE K - RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

The Plan has notes receivable from participants, which qualify as parties-in-interest to the Plan and are exempt from prohibited transaction rules. As described in Note B, the Plan made direct payments to the third party administrator of $223,817. The Plan sponsor pays directly other fees related to the plan's operations.

NOTE L - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through July 26, 2016, the date the financial statements were available to be issued, and determined there were no events that occurred that would have significantly affected the financial statements.
