1. DESCRIPTION OF PLAN

ITO Inc. DBA Kikka 401(K) Plan (the Plan) was formed on August 19, 1998. The following description of the Plan is for general information purposes only. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all full-time employees of ITO Inc. DBA Kikka (the "Sponsor") who have completed one year of service and attained age 21 or older. The plan administrator controls and manages the operation and administration of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee and Employer Contributions - Each year, participants may contribute from 1% to 15% of their pre-tax annual compensation in 1 percent increments. The maximum dollar amount is $17,500 for 2014 - 2015 and the catch up contribution limit for age 50 or older is $5,500 for 2014 - 2015. The Companies may make matching and discretionary contributions on behalf of each eligible participant. During 2014 - 2015, the Companies matching contribution was at 50% of each participant contribution up to the first 10% of annual gross compensation.

Participant Accounts - Each participant account is credited with the participant's contributions and allocations of the Companies' contribution and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Rollover Contributions - Rollover contributions from other qualified plans are allowed. There were rollover contributions in the amount of $20,549 in 2015 and none in 2014.

Vesting – All participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the employer's contribution portion of the participants' accounts plus actual earnings in the Plan is based on the following schedule:

Years of service completed	Vesting Percentage
Less than 2	0%
2 but less than 3	20%
3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

Participants become fully vested in the Sponsor's contributions, including investment income, after 6 years of service.

1. DESCRIPTION OF PLAN - continued

Withdrawals - Participants may receive a distribution from the Plan prior to their termination of employment and they can withdraw from the Plan in the event of financial hardship if they satisfy certain conditions. Generally, participants may request a pre-retirement withdrawal or a hardship distribution from their fully vested accounts in the Plan. Participants may be entitled to receive a pre-retirement distribution if he or she has reached age 59½. There were no hardship distributions during the year.

Loans to Participants - The Plan have adopted a loan program to provide loans to plan participants and participants are permitted to have two loans outstanding at any time. Loans bear reasonable rates of interest (the prime rates plus 2%) and are adequately secured. The maximum amount of which a loan may be made is the lesser of $50,000 or one-half of participants' vested account balances in the plan, whichever is less. The maximum amount of $50,000 will be reduced by a participant's highest outstanding loan balance in the previous twelve months or one-half of participants' vested account balance in the plan reduced by the current outstanding loan balance. The minimum amount of any loan is $1,000. All loans are required to be repaid according to the loan agreement or upon terminating employment.

Benefit Payments – Benefit payments for vested amounts are paid to participants or their beneficiaries in a manner requested by the participant or beneficiary as soon as practicable after the participant's termination of employment, disability, retirement or death, as governed by the Plan agreement. Under certain conditions, as defined in the Plan Agreement, the Plan also permits in service and qualifying hardship withdrawals from a participant's account while the participant is actively employed by the Sponsor. For the year ended October 31, 2015, benefits paid to participants were $242,355.

Mandatory Cash-out – If the value of a participant's vested account balance, determined as of a date following the participant's date of termination of employment, is $5,000 or less, the participant will receive an immediate cash-out of the vested account balance as soon as administratively feasible and no further benefits will be payable from the Plan or the plan administrator will roll it over to an IRA that is established for participants.

Tax Status - The Internal Revenue Service has determined and informed the Companies by a letter that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the Plan has taken an uncertain tax positions that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; Tax years 2013, 2014, and 2015 are open to examination, however, there are no audits for any tax periods in progress.

1. DESCRIPTION OF PLAN - continued

Plan Termination - Although the Companies have not expressed any intention to do so, the employer has the right to discontinue its contributions at any time and to amend the plan, to change or eliminate various provisions, or to terminate the Plan subject to the provisions set forth in ERISA. In the event of any termination of the Plan, or upon complete or partial discontinuance of contributions, the accounts of each participant shall become fully vested and non-forfeitable.

Forfeited Accounts – Forfeited non-vested amounts may be used to reduce administrative expenses of the Plan, then any remaining forfeitures shall be applied to reduce employer contributions. As of October 31, 2015 and 2014 the ending balances were $7,926 and $6,330, respectively. For the year ended October 31, 2015, $2,600 was used to reduce administrative expenses of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of Investments - The investments in all the funds are presented at fair value, based on the quoted market prices of the underlying securities within each fund at October 31, 2015 and 2014. Fair value is the price that would be received to sell an asset or paid to transfer a liability in orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Valuation of Note Receivable from Participants – Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest.

Payment of Benefits – Benefits are recorded when paid.

Administrative Expenses – All expenses of maintaining the Plan are paid by the Plan. Certain expenses incurred in the administration of the Plan are paid directly by the Sponsor. During the year, total administrative expenses paid by the Plan were $4,250.

Annual investment advisory fees and compliance fees are paid by the Company. During the year, total annual fees paid by the Companies were $1,140.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

At October 31, 2015 and 2014, the Plan's investments were held by the Custodian. The following is a summary of the Plan's financial information that is included in the financial statements based on information certified by the Custodian as complete and accurate in accordance with Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

5. FAIR VALUE MEASUREMENTS

The Plan applies Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC 820), Fair Value Measurements and Disclosures, which provides the framework for measuring fair value and specifies required disclosure about fair value measurements of assets and liabilities.

ASC 820 defines fair value as, "the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date." Its objective is to provide a consistent definition of fair value which focuses on exit price and emphasizes the use of market-based inputs over entity-specific inputs. A fair value hierarchy based on inputs was developed to categorize assets in to three levels:

Level 1	Assets that have observable inputs that reflect quoted prices for identical assets or liabilities in active markets. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent of the reporting entity.
Level 2	Assets that have inputs other than quoted prices included within Level 1 that are either directly or indirectly observable for the asset. Inputs are observable but do not solely rely on quoted market prices to establish fair value.
Level 3	Assets with unobservable inputs. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of October 31, 2015 and 2014.

5. FAIR VALUE MEASUREMENTS - continued

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of October 31, 2015 and 2014:

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

7. REFUNDS OF EXCESS CONTRIBUTIONS

At October 31, 2015 and 2014, $4,727 and $14,704 are recorded for amounts refundable by the Plan to participants for contributions made in excess of amounts allowed by the Internal Revenue Service.

8. SUBSEQUENT EVENTS

The Companies evaluated the subsequent events after the statement of net assets date of October 31, 2015 through May 19, 2016, which was the date the financial statements were available to be issued, and concluded that no additional disclosures are required.
