We have determined that Delaware Charter Guarantee & Trust Company, d/b/a Principal Trust Company (Principal), the Plan's current trustee, and Transamerica Life Insurance Company (Transamerica), the Plan's former custodian, qualify to issue a certification of the Plan's asset activity under Section 2520.103-5 of the Department of Labor's (DOL) Rules and Regulations. Therefore, as permitted by Regulation 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), we have instructed you not to perform any auditing procedures with respect to asset information certified or provided by Principal and Transamerica, other than comparing that information with the related information included in the financial statements and supplemental schedule. Because of the significance of the information that you did not audit, we understand that you will not express an opinion on the financial statements and supplemental schedule as a whole.

Note 1. Plan Description

The following description of the Kelley Williamson Company (the Company) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined-contribution plan covering substantially all employees of the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Benefit Plan Committee is responsible for oversight of the Plan.

Eligibility: All employees of the Company who are 21 years of age or older and have completed one year of service with over 1,000 hours for the year, as defined, are eligible to participate in the Plan.

Contributions: Each year, participants may contribute pretax and Roth (post tax) contributions up to the maximum amount allowed by the Internal Revenue Code (IRC). Participants who would have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined-benefit or defined-contribution plans. The Plan includes an auto-enrollment provision whereby all eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation, as defined by the Plan, and their contributions are invested in a designated default fund until changed by the participant. The Plan provides for matching and profit sharing contributions by the Company at the discretion of the board of directors. For the year ended December 31, 2015, the Company made a $130,000 matching contribution. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant accounts: Each participant's account is credited with the participant's contributions and the Company's contributions, as well as allocations of (a) forfeitures of terminated participants' nonvested accounts, if any, and (b) plan earnings, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and profit sharing contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Investment options: Upon enrollment in the Plan, a participant directs their account balance into selected funds as made available and determined by the Plan Administrator. Participants are able to change their investment options daily.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the vested account balance. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Notes may not exceed five years unless the purpose of the note is to acquire a primary residence. Principal and interest are paid ratably through payroll deductions. Participants may have up to two notes outstanding at a time.

Payment of benefits: Upon termination of service for any reason, participants may elect to receive their vested account balance as a lump-sum amount or in installments equal to the value of the participant's vested interest in their account. In addition, in-service withdrawals at age 59½ and hardship withdrawals are allowed by the Plan from accounts that are 100% vested.

Note 1. Plan Description (Continued)

Forfeited accounts: Forfeited nonvested accounts totaled approximately $6,200 and $7,800 as of December 31, 2015 and 2014, respectively. These accounts will be allocated to each eligible participant in the Plan. During 2015, approximately $7,800 of the forfeitures were reallocated to participant accounts.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Investments held by a defined-contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefit Plan Committee determines the Plan's valuation policies utilizing information provided by the plan trustee and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/(depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon the terms of the Plan document.

Payment of benefits: Benefit payments to participants are recorded when paid.

Administrative expenses: All administrative expenses incurred by the Plan and audit related fees can be paid by either the Company or the Plan. Fees paid directly by the Company are excluded from these financial statements.

Note 2. Significant Accounting Policies (Continued)

Accounting pronouncements: In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this Update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. The Plan adopted this Update beginning with the 2014 plan year and the impact of adopting this Update is reflected in Note 4.

In July 2015, the FASB issued ASU No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) - (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force).* The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5% or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan,* as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the Plan's fiscal year-end, when the fiscal period does not coincide with month-end.

ASU No. 2015-12 may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented. The amendments in Part III shall be applied prospectively. The Plan adopted the amendments in Part I and Part II of this Update beginning with the 2014 plan year. The impact of adopting these amendments is reflected in the financial statements.

Note 2. Significant Accounting Policies (Continued)

Subsequent events: The Plan has evaluated subsequent events through July 26, 2016, the date on which the financial statements were available to be issued.

Note 3. Information Certified and Provided by Delaware Charter Guarantee & Trust Company, d/b/a Principal Trust Company, the Current Plan Trustee, and Transamerica Life Insurance Company, the Former Plan Custodian

The following is a summary of the Plan's asset information as of December 31, 2015 and 2014, and for the year ended December 31, 2015, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Transamerica Life Insurance Company (Transamerica), the former custodian of the Plan, as of December 31, 2014, and by Delaware Charter Guarantee & Trust Company, d/b/a Principal Trust Company, (Principal), the current trustee of the Plan, as of December 31, 2015, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from Transamerica and Principal that information provided to the Plan Administrator by Transamerica and Principal related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31,	
	2015*	2014**
Shares of registered investment companies, at fair value	$ 4,526,403	$ 5,693,030
Pooled separate accounts, at fair value	$ 410,729	$ 486,700
Insurance company general account, at contract value	535,519	-
Collective investment trusts, at fair value	491,815	-
Notes receivable from participants	478,428	-

*Assets certified by Principal

**Assets certified by Transamerica

Transamerica and Principal certified to the completeness and accuracy of $61,172 of net investment income and $9,021 of interest income on notes receivable from participants related to the aforementioned Plan assets for the year ended December 31, 2015.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of fair value hierarchy under FASB ASC Topic 820 are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: • Quoted prices for similar assets or liabilities in active markets; • Quoted prices for identical or similar assets or liabilities in inactive markets; • Inputs other than quoted prices that are observable for the asset or liability; • Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs that are unobservable inputs for the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used should maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Collective investment trusts and pooled separate accounts: These investments are reported at the net asset value (NAV) per share as determined by the trustee or insurance company, which represents the fair value of the underlying investments held. The NAV is used as a practical expedient to estimating fair value. This practical expedient is not used when it is determined to be probable that the funds will sell the investments for amounts different than the reported NAV.

Shares of registered investment companies: These investments are valued at the daily closing price as reported by the fund. Funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Note 4. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014.

	Assets at Fair Value as of December 31, 2015			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 4,526,403	$ 4,526,403	$ -	$ -
Total assets in the fair value hierarchy	4,526,403	$ 4,526,403	$ -	$ -
Investments measured at net asset value (a)	902,544			
Investments at fair value	$ 5,428,947			

	Assets at Fair Value as of December 31, 2014			
	Total	Level 1	Level 2	Level 3
Shares of registered investment companies	$ 5,693,030	$ 5,693,030	$ -	$ -
Total assets in the fair value hierarchy	5,693,030	$ 5,693,030	$ -	$ -
Investments measured at net asset value (a)	486,700			
Investments at fair value	$ 6,179,730			

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2015 and 2014. There are no redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

December 31, 2015	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective investment trusts	$ 491,815	N/A	Daily	365 days
Pooled separate accounts	410,729	N/A	Daily	365 days
	$ 902,544			

December 31, 2014	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	$ 486,700	N/A	Daily	365 days

To assess the appropriate classifications of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. Plan management evaluates the significance of transfers between levels based on the nature of the investment and size of the transfer relative to the total net assets available for benefits. For the year ended December 31, 2015, there were no transfers into or out of Level 3.

Note 5. Fully Benefit-Responsive Investment Contracts

As of December 31, 2015, the Plan held a group annuity contract with Principal Life Insurance Company. This contract met the fully benefit-responsive contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. With this type of contract, the Plan owns only the contract itself and the contract is designed to accrue interest based on crediting rates established by the contract issuer. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that was guaranteed to the Plan. The crediting rate for 2015 is based on a formula established by the contract issuer and ranged from 1.2% to 1.35%. The crediting rate is reviewed on a semiannual basis for resetting. The contract value was $535,519 and none at December 31, 2015 and 2014, respectively.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Note 5. Fully Benefit-Responsive Investment Contracts (Continued)

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code
2. Premature termination of the contracts
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events occurred that limited the ability of the Plan to transact at contract value with the contract issuer or that limited the ability of the Plan to transact at contract value with the participants.

Note 6. Related Party Transactions

During the year ended December 31, 2015, certain plan investments were managed by Principal, the current Plan trustee, and Transamerica, the former custodian of the Plan. As defined by the Plan, these transactions qualify as party-in-interest. Fees paid to Principal and Transamerica for investment management and administrative expenses were approximately $33,300 for the year ended December 31, 2015.

Certain administrative functions are performed by officers or employees of the Company for which no compensation is received from the Plan.

Note 7. Plan Termination

Note 8. Income Tax Status

The Plan has adopted a nonstandardized form of a prototype plan sponsored by Principal Life Insurance Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has been amended since the prototype plan received the opinion letter, however, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code and therefore, believes that the Plan is qualified and that the related trust is tax-exempt.

Note 8. Income Tax Status (Continued)

Management has evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements.
