ARINC, INC. TAX DEFERRED SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2015 AND 2014

1. DESCRIPTION OF THE PLAN

General — The following description of the ARINC, Inc. Tax Deferred Savings Plan (the Plan) is provided for general purposes only. Participants should refer to the Plan document for more complete information. The Plan is a defined contribution plan, established in 1985 and qualified under the Internal Revenue Code (IRC), for the benefit of all eligible employees of ARINC Incorporated and its subsidiaries (collectively, the Company) or (ARINC).

The authority to manage, control and interpret the Plan was entrusted with the Pension Committee appointed by the Board of Directors of the Company. Effective December 23, 2013, the Company was purchased by Rockwell Collins, Inc. (Rockwell). As a result, during 2014, the Pension Committee members were replaced by the Rockwell Employee Benefit Plan Committee's members, and the Pension Committee was dissolved.

The Plan consists of two sub plans, each reflected in a separate plan document: (a) The ARINC Companies, Tax Deferred Savings Plan (Nonunion sub-plan); (b) The ARINC, Inc. Tax Deferred Savings Plan for Union Employees (Union sub-plan). Effective January 1, 2015, participation in The ARINC Managed & Technical Services 401(k) Plan (AMTS sub-plan) ceased and all active employees became participants in the Nonunion sub-plan. This move from the AMTS sub-plan increased the enhanced employer matching contribution to 100% of the first 6% eligible compensation, as defined in the Plan document.

Plan Merger - Prior to December 31, 2015, Rockwell maintained three defined contribution savings plans in the U.S. for the benefit of its employees. These plans were the Rockwell Collins Retirement Savings Plan (legacy Savings Plan), the Rockwell Collins Retirement Savings Plan for Bargaining Unit Employees (legacy Union Plan) and the Plan. On December 31, 2015, the legacy Union Plan and the Plan merged into the legacy Savings Plan, and all assets and liabilities from these plans were transferred. In order to gain year over year comparability, the three plans must be viewed together.

Investment Manager and Plan Trustee — Fidelity Investments Institutional Operations Company, Inc. serves as the transfer agent and record keeper for the Plan. Fidelity Management Trust Company (FMTCT) serves as the Trustee for the Plan.

Eligibility — Most employees of the Company are eligible to participate on the first day of the month following their date of hire.

Contributions — Eligible Nonunion sub-plan participants may make contributions to the Plan as pre-tax 401(k) deferrals or as Roth after-tax contributions. Certain highly compensated employees may be subject to additional limitations. Participants may also contribute amounts representing rollovers from other qualified plans. Participants in the Nonunion sub-plan receive a non-safe harbor matching contribution equal to 100% of the first 6% eligible compensation, as defined in the Plan document, that a participant contributes to the Plan on a per pay period basis.

Eligible Union sub-plan participants may make contributions as pre-tax 401(k) deferrals, Roth after tax contributions or after tax contributions. Certain highly compensated employees may be subject to

additional limitations. Participants may also contribute amounts representing rollovers from other qualified plans. Participants in the Union sub-plan do not receive matching contributions.

All participants may contribute to the Plan subject to limitations imposed by the IRC which were up to \$18,000 (\$24,000 if age 50 or older) and \$17,500 (\$23,500 if age 50 or older) for the years ended December 31, 2015 and 2014, respectively.

Participant Accounts — Individual accounts are maintained for each Plan participant. Each participant's account is increased for participant and Company contributions and an allocation of Plan earnings. Each participant's account is decreased for withdrawals, directly attributable expenses and an allocation of Plan losses. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments — Participants may elect to have participant contributions made to any of the investment funds of the Plan in one percent increments. Participants may change such investment elections on a daily basis. If a participant does not have an investment election on file, contributions will be made to the age appropriate Target Retirement Fund. The Target Retirement Fund was the T. Rowe Price Retirement Fund between January 1 and May 14, and between May 15 and the end of 2015, the fund was changed to the SSgA Target Retirement Fund. In December 2015, State Street changed the name of the fund to the State Street Target Retirement Fund. Investment options available to participants to direct the investment of their account balances and future contributions include various registered investment company funds and the ARINC Stable Value Fund.

Vesting — Participants in the sub-plans are always vested in their contributions and actual earnings thereafter.

Nonunion sub-plan participants who receive either age-based profit sharing contributions or enhanced employer matching contributions will vest according to the following schedule:

Years of Service	Vesting Percentage
Less than one	0%
One but less than two	20%
Two but less than three	40%
Three but less than four	60%
Four but less than five	80%
Five or more	100%

Participants also become 100% vested in enhanced employer matching contributions and age-based contributions prior to completing five years of service if a participant attains age 65 and is an active employee of the Company, incurs a disability while employed by the Company or is deemed to be a "Divested Business Employee", as defined in the Plan document.

Forfeitures — Forfeitures of Company contributions are used to reduce future Company contributions, fund the restoration of forfeitures and pay administrative expenses of the Plan at the discretion of the Plan Administrator, as provided for in the Plan document. Forfeitures used to reduce Company contributions during the years ended December 31, 2015 and 2014, totaled \$965,139 and \$332,956, respectively. Forfeitures used to pay administrative expenses of the Plan totaled \$0 and \$110,598, respectively, during the years ended December 31, 2015 and 2014. Forfeitures available at December 31, 2015 and 2014, totaled \$0 and \$542,575, respectively.

Benefit Payments — Participants or their beneficiaries are eligible for distributions upon termination, retirement, death or disability. Participants (or designated beneficiaries) may elect to receive the vested portion of their distribution in the form of a lump sum or installments payments in the form of annual or monthly payments. Members or beneficiaries with account balances less than or equal to \$1,000 are required to be paid as a single lump sum payment. Participants may also receive hardship withdrawals for reasons of financial hardship, as defined in the Plan document or under the IRC.

Notes Receivable from Participants — Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested participant account. Loans used to purchase a primary residence may be repaid over ten years. Loans for all other purposes must be repaid in five years. The loans are secured by the balance in the participant's account and bear interest at prime plus 1%. Principal and interest are paid ratably through payroll deductions. At December 31, 2015 and 2014, loans outstanding bear interest rates ranging from 4.25% to 10.50%.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting — The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates — The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Risks and Uncertainties — The Plan provides for investments in funds that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities may occur and could materially affect participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition — The Plan's investments are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 6 for discussion on fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit responsive investment contracts from fair value to contract value. The statements of changes in net assets available for benefits are prepared on a contract value basis.

Registered investment company funds are valued based on quoted market information.

The ARINC Stable Value Fund (renamed as the Rockwell Collins Stable Value fund in May 2015 to align investment elections to the Rockwell Collins Salaried Savings Plan), is valued at net asset value (NAV), which is based on the fair value of the underlying investments held by the fund less its liabilities. The underlying investments include:

- Collective trusts that hold constant duration synthetic guaranteed investment contracts (GICs), which are valued at fair or market value based on the NAV of shares held by the Plan at year-end. The NAV as provided by the Trustee, is used as a practical expedient to estimate fair value. There are no known commitments or restrictions on the collective trusts except for certain withdrawal restrictions as it relates to liquidation by the Plan Sponsor. The Plan Sponsor has no plans to liquidate these funds.
- Fixed maturity synthetic GICs, which are valued at fair value using quotes from independent pricing vendors. Fixed maturity synthetic GIC providers allow fixed maturity synthetic GICs held within the “wrap” investment contracts to be accounted for at book value, or cost plus accrued interest, where the interest rate is set for a specified period of time. The wrap investment contracts are not marketable securities, so their fair value is based on rebid or replacement cost of the contract, which fluctuates with the fair value of the fixed maturity synthetic GICs and the underwriting risk characteristics of the retirement plan.
- Traditional GICs, which are valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. In determining the reasonableness of the methodology, the Rockwell Collins Employee Benefit Plan Committee evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan’s gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits — Benefits are primarily recorded as deductions when paid. There were no benefit claims payable as of December 31, 2015 and 2014.

Administrative Expenses — Administrative expenses of the Plan are paid from the forfeiture account, which includes credits received from the recordkeeper for Plan investments. The Company has the authority to require the Plan to pay administrative expenses of the Plan.

Notes Receivable from Participants — Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on the terms of the Plan document.

3. INVESTMENTS REPRESENTING 5% OR MORE OF NET ASSETS

4. NET APPRECIATION (DEPRECIATION) IN FAIR VALUE OF INVESTMENTS

For the years ended December 31, 2015 and 2014, the Plan's investments (including gains and losses on investments bought and sold) generated net appreciation (depreciation) in the fair value of investments as follows:

	<u>2015</u>	<u>2014</u>

5. FINANCIAL INFORMATION CERTIFIED BY THE TRUSTEE

The Company has elected a limited scope audit as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the following is a summary of the unaudited information regarding the Plan as of and for the years ended December 31, 2015 and 2014, included in the Plan's financial statements, that were prepared by or derived from information prepared by the Trustee for the Plan and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that such information is complete and accurate.

	2015	2014
Statements of Net Assets Available for Benefits:		
Registered investment companies	\$ -	\$ 299,535,981
ARINC Stable Value Fund	-	43,482,041

The fair value of the ARINC Stable Value Fund as of December 31, 2014 was \$44,372,615, and has been excluded from the table as the Trustee, FMTC, did not certify the fair value of the fund. The contract value of the stable value fund was certified as complete and accurate by the Trustee.

6. FAIR VALUE MEASUREMENT

Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical instruments in active markets.

Level 2 — Inputs to the valuation methodology include quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in inactive markets and model-derived valuations where significant inputs are observable.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The instruments fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The table below presents by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis as of December 31, 2014:

	December 31, 2014			
	Total	Level 1	Level 2	Level 3
Assets:				
Registered investment companies				
Domestic Equities — Small Cap	\$ 7,768,006	\$ 7,768,006	\$ -	\$ -
Domestic Equities — Mid Cap	42,249,213	42,249,213	-	-

International Equities	18,854,813	18,854,813	-	-
Target Date Funds	140,305,716	140,305,716	-	-
Bond Funds	24,549,386	24,549,386	-	-

Fixed income securities	7,485,041	-	7,485,041	-
Insurance company general account contract	1,001,224	-	1,001,224	-
Common and collective trusts	32,207,872	-	32,207,872	-
Synthetic investment contract wrapper	14,587	-	-	14,587
Total	<u>\$ 343,908,596</u>	<u>\$ 299,535,981</u>	<u>\$ 44,358,028</u>	<u>\$ 14,587</u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no changes to the characteristics of investments that required a change in levels during the year ended December 31, 2014.

7. ARINC STABLE VALUE FUND

The Plan provides participants a self-managed stable value investment option (ARINC Stable Value Fund) that simulates the performance of a GIC, whereby participants execute Plan transactions at contract value. Contract value represents contributions made to the fund, plus earnings, less participant withdrawals and administrative expenses. The self-managed stable value fund is composed of a portfolio of collective trust funds, fixed maturity synthetic GICs, and traditional GIC's owned by the Plan and an investment contract issued by an insurance company or other financial institution, designed to provide a contract value "wrapper" around the fixed income. The wrapper contract is designed to guarantee a specific interest rate which is reset quarterly and that cannot be less than zero. The wrapper contract provides that realized and unrealized gains and losses on the underlying fixed income portfolio are not reflected immediately in the net assets of the fund, but rather are amortized over the duration of the underlying assets through adjustments to the future interest crediting rate. Primary variables impacting future crediting rates of the fund include the current yield, duration and existing difference between market and contract value of the underlying assets within the wrap contract.

Limitations on the Ability of the Synthetic or Traditional GIC to Transact at Contract Value — Certain events, such as Plan termination or a plan merger initiated by the Plan Sponsor, may limit the ability of the Plan to transact at contract value or may allow for the termination of the wrapper contract at less than contract value. Plan management believes that the occurrence of events that may limit the ability of the Plan to transact at less than contract value is not probable. The following are the average yields of the GICs for the years ended December 31:

	<u>2015</u>	<u>2014</u>
Average yields:		
Based on actual earnings (1)	1.63 %	2.04 %
Based on interest rate credited to participants (2)	2.12	2.10

(1) Computed by dividing the annualized one-day actual earnings of the contract on the last day of the Plan year by the fair value of the investments on the same date.

(2) Computed by dividing the annualized one-day earnings credited to participants on the last day of the Plan year by the fair value of the investments on the same date.

The following table presents the fair value, adjustments to contract value and major credit ratings for each of the collective trusts, fixed maturity synthetic GICs and wrapper contracts, and the traditional GIC's held by the Plan as of December 31, 2014:

	Major Credit Ratings	Investments at Fair Value	Wrapper Contracts at Fair Value	Adjustment to Contract Value
American General (1640179)	AA/Aa2	\$ 7,766,611	\$ (8,188)	\$ 149,249

Total		<u>\$40,694,137</u>	<u>\$ 14,587</u>	<u>\$ 890,574</u>

8. FEDERAL INCOME TAX STATUS

The Plan obtained its latest determination letter on November 21, 2011, in which the Internal Revenue Service (IRS) determined that the Plan and related trust were designed in accordance with the applicable requirements of the Internal Revenue Code (IRC). Effective December 31, 2015, the Plan was merged into the legacy Savings Plan. On February 1, 2016, a new determination letter request was submitted to the IRS for the Savings Plan and is currently under review. On May 27, 2016, an application (the Application) for a compliance statement for the new Rockwell Collins Retirement Savings Plan was filed with the IRS under the Voluntary Correction Program (VCP) with respect to certain operational errors, including errors related to the Plan prior to the merger. The Application is currently under review by the IRS. The Company and Plan management believe the Savings Plan is currently designed and being operated in compliance with the applicable requirements of the IRC, and the Savings Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

9. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by the Trustee and these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for investment management services are included as a reduction of the return earned on each investment fund.

10. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.
