OLSON & Co., INC. 401(k) RETIREMENT SAVINGS PLAN

Notes to the Financial Statements

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Olson & Co., Inc. 401(k) Retirement Plan (the "Plan") provides a general description of the Plan. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan was a defined-contribution plan established January 1, 2000 by Olson & Co., Inc. (the "Company"). The Plan has been amended and restated throughout the years to comply with tax legislation, and most recently restated effective January 1, 2009 and amended effective November 24, 2010. The Plan covered all employees of the Company except temporary employees and interns. Employees who attained age 21 and completed one month of service were eligible to participate in the deferral source of the Plan. Employees who had attained age 21 and completed one year of service (1,000 hours) were eligible to participate in the Company match and profit sharing contributions of the Plan. The Plan entry dates were the first day of the month following the attainment of the eligibility requirements. The Plan was subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

During 2015, the Company elected to merge the Plan into the ICF Retirement Savings Plan ("RSP Plan"). On December 31, 2015, the Plan transferred \$20,327,729 to the RSP Plan. The Plan was merged into the RSP Plan effective January 1, 2016.

Contributions - The Plan included a salary deferral arrangement allowed under Section 401(k) of the Internal Revenue Code ("IRC"). Eligible participants were permitted to elect to have a percentage, limited by plan provisions, of their compensation contributed as pre-tax or Roth 401(k) contributions to the Plan subject to a maximum of \$18,000 for the year 2015. Participants age 50 or older were allowed to make catch-up contributions of up to \$6,000 for the year 2015. Eligible participants were automatically enrolled with a deferral of 6 percent unless the participant made an election to the contrary. The Company elects to contribute a matching contribution on employee deferrals on a discretionary basis as determined by the Company after one year of service. The Company contributed matching contributions equal to 3 percent of the elective deferrals up to 6 percent per pay period of eligible compensation for the year ended December 31, 2015. In addition, the Company elects to contribute a profit sharing contribution on a discretionary basis as determined by the Company. In order to receive the profit sharing contribution, a participant must be employed by the Company on the last day of the plan year. There was no Company profit sharing contribution for the year ended December 31, 2015. The Plan also allowed participants to make rollover contributions from other qualified plans.

Participant Accounts - The Plan maintained an account for each participant. Each participant's account was credited with the participant's salary deferral, the Company's contributions, plan earnings or losses, and charged with an allocation of administrative expenses. Allocations were based on participant compensation or account balances, as defined. Income was allocated daily based on the shares in the participant's account.

Vesting - Participants were immediately 100 percent vested in their own contributions and rollovers, plus actual earnings thereon. Vesting in the Company's matching and discretionary profit sharing contributions, plus actual earnings thereon, was subject to a five-year graded vesting schedule where participants become vested in 20 percent increments. A participant was fully vested upon reaching normal retirement age, death, or disability.

Forfeited Accounts - Forfeited nonvested accounts were used to reduce future Company matching or discretionary profit sharing contributions. Forfeitures used to reduce Company matching contributions for the year ended December 31, 2015 totaled \$167,614. No forfeited nonvested accounts were remaining as of December 31, 2015.

Notes Receivable from Participants - Participants were allowed to borrow from their accounts a minimum of \$1 up to a maximum amount equal to the lesser of \$50,000 or 50 percent of their account balances. Notes receivable from participants were secured by the balances in the participant's account and bore interest at the rates equal to the prime rate as published by *The Wall Street Journal* for the last business day of the calendar month. Principal and interest were paid through payroll deductions.

Notes to the Financial Statements

As of December 31, 2015 and 2014 and for the Year Ended December 31, 2015

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Payment of Benefits - The benefit to which a participant was entitled was the benefit that can be provided by the participant's account. Upon termination of service, death, disability, or retirement (age 65), the participant received the value of the vested interest in his or her account in the form of a lump-sum or installment payment. The Plan allowed hardship distributions subject to plan provisions. If a participant terminated employment and the participant's account balance did not exceed \$1,000, the plan administrator authorized the benefit payment without the participant's consent.

Administrative Expenses - The Company paid certain administrative expenses on behalf of the Plan.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Refer to Note 3 for additional disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Net depreciation of investments included in the accompanying statement of changes in net assets available for benefits includes realized gains or losses from the sale of investments and unrealized appreciation or depreciation in the fair value of investments. Net appreciation or depreciation in the fair value of investments represents the net change in the fair value of the investments held during the period. The net realized gains or losses on the sale of investments represent the difference between the sale proceeds and the fair value of the investments as of the beginning of the period or the cost of the investments if purchased during the year. Fees netted against net depreciation in fair value of investments represent fees charged by Fidelity Management Trust Company (the "Trustee") and sponsoring mutual fund companies for services provided in connection with recordkeeping and investment management.

Risk and Uncertainties - Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amount of assets, liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from the estimates.

Subsequent Events - The Plan has evaluated subsequent events through July 20, 2016, which is the date that the accompanying financial statements were approved and available to be issued, for events requiring recording or disclosure in the Plan's financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan follows U.S. GAAP for measuring, reporting, and disclosing fair value. These standards apply to all assets and liabilities that are measured, reported, and/or disclosed on a fair value basis.

As defined in the accounting standards, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values. Assets and liabilities measured, reported, and/or disclosed at fair value will be classified and disclosed in one of the following three categories:

Level 1 - Inputs to the valuation methodology are unadjusted quoted market prices for identical assets in active markets that the Plan has the ability to access.

Level 2 - Observable market based inputs or inputs that are corroborated by market data. Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs that are unobservable and not corroborated by market data.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual Funds/Money Market Fund - The fair values of the Plan's investments in mutual funds and the money market fund are based on quoted market prices of shares held by the Plan at year end. Cash is valued at cost which approximates fair value. Accordingly, these fair value measurements are classified as having used Level 1 inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Transactions resulting in the plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The Trustee is a party-in-interest as a result of its investing plan assets in its mutual funds. However, such transactions are exempt under Section 408(b)(8) and are not prohibited by ERISA.

NOTE 6 - PLAN TAX STATUS

The Plan is based on a prototype plan that has received a determination letter from the Internal Revenue Service dated March 31, 2008, stating that the prototype plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since the date of the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the accompanying financial statements.
