Independent Auditors' Report

Plan Administrator and Participants
Northwest Savings Bank Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Northwest Savings Bank Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits and of accumulated plan benefits as of December 31, 2015 and 2014, and the related statements of changes in net assets available for benefits and of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 13, which was certified by Northwest Savings Bank Investment Management and Trust, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2015 and 2014, and for the year ended December 31, 2015, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As discussed in Note 2 to the financial statements, in 2015 the Plan adopted new accounting guidance related to the investments. Prior year disclosures have been revised to reflect the retrospective application of adopting these changes in accounting. Our opinion is not modified with respect to this matter.

Other Matter

The supplemental schedules of (1) Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) and (2) Schedule H, Line 4(j) - Schedule of Reportable Transactions as of or for the year ended December 31, 2015 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(1) General Description of Pension Plan

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the plan document for more complete information regarding the Plan.

The Northwest Savings Bank Pension Plan (the "Plan") is a defined benefit pension plan covering substantially all employees of Northwest Bank, the plan sponsor. Northwest Bank (the "Company" or "Employer") is a subsidiary of Northwest Bancshares, Inc. Northwest Bancshares, Inc. is a Maryland corporation that was incorporated in September 2009. The Northwest Bank Trust Department is the named trustee of the Plan (the "Trustee") and is responsible for oversight of the Plan. The investment committee determines the appropriateness of the Plan's investment offerings and monitors investment performance and reports to the Trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees age twenty-one or older are eligible to participate after one year of service providing they have worked at least 1,000 hours during such Plan year.

On August 15, 2015, LNB Bancorp, Inc. ("LNB") was merged into Northwest Bancshares, Inc., parent of the Company with Northwest Bancshares, Inc. emerging as the surviving entity. Immediately thereafter, Lorain National Bank ("Lorain"), a wholly-owned subsidiary of LNB, was merged into the Company with the Company emerging as the surviving entity. Effective December 15, 2015, the Lorain National Bank Retirement Pension Plan (the "Lorain Plan") was merged into the Plan. As a result, during 2015, Lorain Plan net assets available for benefits of approximately \$3.6 million were transferred into the Plan and accumulated plan benefits of approximately \$2.9 million were assumed by the Plan. LNB employees previously eligible to participate in the Lorain Plan became participants in the Plan effective January 1, 2016.

The Plan evaluated subsequent events for recognition and disclosure through July 27, 2016, the date the Plan's financial statements were available to be issued.

(2) Pension Benefits

Participants are eligible to receive benefits under the normal retirement provisions of the Plan on the first of the next month following their 65th birthday provided they have 5 years of credited service.

Through March 31, 2013, for employees hired prior to January 1, 2008, normal retirement benefits are equal to 1.6% of average monthly compensation plus 0.6% of the average monthly compensation in excess of covered compensation, all multiplied by the participant's number of years of credited service, up to 25 years. For years of service in excess of 25 but less than 35, 0.6% of average monthly compensation shall be provided. Average monthly compensation is the average for the highest five years of the last ten years of service. Covered compensation equals the thirty-five year average, ending in the year the participant attains social security retirement age, of the social security maximum taxable wage bases.

Through March 31, 2013, for employees hired or acquired on or after January 1, 2008, normal retirement benefits are equal to 1.0% of average monthly compensation multiplied by the participant's number of years of credited service, up to 35 years. Average monthly compensation is the average for the highest five years of the last ten years of service.

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

December 31, 2015 and 2014

Effective January 1, 2013, the Plan was amended to lock-in all benefits earned through March 31, 2013 based on the plan formulas as described in the preceding paragraphs. The amendments also provide that, for service commencing January 1, 2013, additional benefits will be earned equal to 1.0% of career average pay for each year that a participant completes at least 1,000 hours of service. Also, effective April 1, 2013, participants who are eligible to receive required minimum distributions due to attaining age 70 ½ will be required to begin receiving payment of those benefits even though they may remain employed by the Company.

Benefits earned are fully vested after five years of credited service.

The Plan permits early retirement providing the participant has reached age 55 and has completed 5 years of credited service, or if the participant has completed 25 years of credited service if earlier.

(3) Death and Disability Benefits

Participants may receive benefits in the form of life annuities; five, ten or fifteen-year certain life annuities; or joint and survivor annuities.

Upon the death of a married participant who qualifies for early retirement, the participant's spouse shall receive a monthly benefit for life based on the benefit payable under a joint and 50% survivor annuity which the participant's spouse would receive assuming the participant retired the day before their death.

The spouse of any married vested participant who was not eligible for early retirement is also eligible for a benefit if the participant should die prior to their normal retirement date. The monthly pension payable at the participant's earliest retirement date will be an amount equal to the survivor annuity that would have been paid had the participant separated service on the date of death, survived to the earliest retirement age, selected a 50% qualified joint and survivor annuity, and died on the day after the day of attaining the earliest retirement age.

Death benefits for retired participants are subject to the form of retirement benefit elected.

The Plan does not provide for disability benefits.

(4) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Valuation of Investments and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the Plan's investment advisors. See note 9 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/ (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

December 31, 2015 and 2014

(c) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during the highest five consecutive years ending on the date as of which the benefit information is presented. Benefits payable under all circumstances -- retirement, death, and termination of employment -- are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary, Northwest Retirement Services, as of December 31, 2015 and 2014, and is that amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means decrements such as death, withdrawals or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 31, 2015 and 2014, were (a) life expectancy of the participants (RP-2014 with MMP-2007 adjustments for 2015 and 2014), (b) retirement age assumptions (retirement will occur at the later of age 65 or 5 years of service), (c) discount rate (7.0% for 2015 and 7.5% for 2014), (d) salary projection assumed to equal 3.0% per year for 2015 and 2014, (e) withdrawal prior to retirement is assumed to occur in accordance with Crocker Sarason Straight Table T-5, (f) all plan participants have been included in the funding and 2015 also includes the Lorain National Bank Retirement Pension Plan participants, (g) as required by Section 415 of the Internal Revenue Code ("IRC"), the determination of a participant's projected retirement benefit has been limited so that the amount does not exceed \$210,000 for the years ended December 31, 2015 and 2014, per year adjusted if necessary to recognize the participants assumed retirement age, cost of living adjustments on the valuation date, and optional forms of payment. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

(d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires the use of management's estimates and assumptions that affect certain reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results may differ from those estimates.

(e) Payment of Benefits

Benefit payments to participants are recorded upon distribution.

(f) Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board issued Accounting Standard Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. Part I of the update is not applicable to the Plan. Part II requires that investments that are measured using fair value (both

Notes to Financial Statements

participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments by nature, characteristics, and risks. Part II also eliminates the disclosure of individual investments that represent 5 percent or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation or depreciation in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share as a practical expedient and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update is not applicable to the Plan. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Part II require retrospective application. Management has elected to early adopt the provisions of Part II of this new standard. Accordingly, these provisions were retrospectively applied.

(5) Method of Contribution

Contributions required to fund the Plan's benefits are determined according to the provisions of the Pension Protection Act. The Target Normal Cost is the present value of benefits earned during the plan year. The Funding Target is the present value of benefits earned as of the beginning of the plan year. The excess of the Funding Target over the actuarial value of assets represents the Funding Shortfall.

(6) Funding Policy

The Plan is non-contributory. The employer contributions are made on an annual basis and are determined from time to time by evaluating the maximum deductible and minimum required contribution for the plan year and the fiscal year of the employer and the Funding Shortfall described in note 5. ERISA minimum funding requirements have been met for 2015 and 2014.

(7) Plan Termination

As provided by the plan document, the employer shall have the right to terminate the Plan by delivering to the trustee and administrator written notice of such termination. However, any termination (other than a partial termination or an involuntary termination pursuant to ERISA Section 4042) must satisfy the requirements and follow the procedures outlined in the Plan and in ERISA Section 4041 for a standard termination or a distress termination. Upon termination (full or partial), all amounts shall be allocated as described below; and the accrued benefit, to the extent funded as of such date, of each affected participant shall become fully vested and shall not thereafter be subject to forfeiture.

- Annuity benefits that former employees or their beneficiaries have been receiving for the at least three years, or that employees eligible to retire for that three year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect as any time during the five years preceding Plan termination.
- Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- All other vested benefits (that is, vested benefits not insured by the PBGC).

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

December 31, 2015 and 2014

- All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all benefits under Plan, and the amounts of guaranteed benefits are subject to plan limitations and statutory ceilings on individual monthly benefits.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company and the level of benefits guaranteed by the PBGC.

(8) Investment Concentrations

The following table presents the fair value of investments which represent ten percent or more of net assets available for benefits:

	December 31, 2015	December 31, 2014
Assets at fair value determined by quoted market price:		
Investments:		
Money market fund:		
Federated Prime Cash Obligation Fund #851	\$ 16,780,423	*
Mutual funds:		
Schwab Fundamental U.S. Large Company Index Fund	25,741,789	28,053,597
Powershares S&P 500 Downside Hedged Portfolio	16,616,600	14,284,638

* - Less than ten percent at December 31, 2014.

(9) Fair Value Measurements

Financial assets and liabilities recognized or disclosed at fair value on a recurring basis and certain financial assets and liabilities recognized or disclosed at fair value on a non-recurring basis are measured using a three-level hierarchy of valuation technique based on whether the inputs to those valuation techniques are observable or unobservable. This hierarchy gives the highest priority to quoted prices with readily available independent data in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable market inputs (Level 3). When various inputs for measurement fall within different levels of the fair value hierarchy, the lowest level input that has a significant impact on fair value measurement is used.

Financial assets and liabilities are categorized based upon the following characteristics or inputs to the valuation techniques:

- Level 1 – Financial assets and liabilities for which inputs are observable and are obtained from reliable quoted prices for identical assets or liabilities in actively traded markets. This is the most reliable fair value measurement and includes, for example, active exchange-traded equity securities.

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

December 31, 2015 and 2014

- Level 2 – Financial assets and liabilities for which values are based on quoted prices in markets that are not active or for which values are based on similar assets or liabilities that are actively traded. Level 2 also includes pricing models in which the inputs are corroborated by market data, for example, matrix pricing.
- Level 3 – Financial assets and liabilities for which values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. Level 3 inputs include the following:
 - Quotes from brokers or other external sources that are not considered binding;
 - Quotes from brokers or other external sources where it cannot be determined that market participants would in fact transact for the asset or liability at the quoted price;
 - Quotes and other information from brokers or other external sources where the inputs are not deemed observable.

The Plan is responsible for the valuation process and as part of this process may use data from outside sources in establishing fair value. The Plan performs due diligence to understand the inputs used or how the data was calculated or derived. The Plan corroborates the reasonableness of external inputs in the valuation process.

The following table represents the Plan's investments measured at fair value on a recurring basis as of December 31, 2015:

	Level 1	Level 2	Level 3	Total fair value
Money market fund	\$ 16,780,423	-	-	16,780,423
Mutual funds	126,834,777	-	-	126,834,777
Total investments	<u>\$ 143,615,200</u>	<u>-</u>	<u>-</u>	<u>143,615,200</u>

The following table represents the Plan's investments measured at fair value on a recurring basis as of December 31, 2014:

	Level 1	Level 2	Level 3	Total fair value
Money market fund	\$ 13,817,655	-	-	13,817,655
Mutual funds	126,643,786	-	-	126,643,786
Total investments	<u>\$ 140,461,441</u>	<u>-</u>	<u>-</u>	<u>140,461,441</u>

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methods used at December 31, 2015 and 2014. There have been no transfers of investments between Level 1 and Level 2 during the years ended December 31, 2015 and 2014.

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

December 31, 2015 and 2014

Mutual funds: Shares of mutual funds are valued at the quoted net asset value ("NAV") of shares held by the Plan at year end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Money market fund: Money market fund is valued at the quoted NAV of shares held by the Plan at year end.

(10) Tax Status of Plan

The Plan obtained its latest determination letter on January 31, 2011 in which the Internal Revenue Service ("IRS") stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the Plan's administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(11) Risk and Uncertainties

The Plan invests in various investments securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and, that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to the change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(12) Other Costs of Plan Administration

The plan sponsor absorbs significant costs of the Plan's operation including, but not limited to, actuarial, plan document maintenance, legal, administration, and auditing costs. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying Statement of Changes in Net Assets Available for Benefits. In addition, certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying Statement of Changes in Net Assets Available for Benefits.

NORTHWEST SAVINGS BANK PENSION PLAN

Notes to Financial Statements

(13) Information Certified by Custodian

The plan administrator has elected the method of compliance by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2015 and 2014. Accordingly, Northwest Bank Investment Management and Trust, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014 and the supplemental schedule of assets (held at end of year) as of December 31, 2015 and the related investment activity reported in the statement of change in net assets available for benefits and the supplemental schedule of reportable transactions for the year ended December 31, 2015.

(14) Related Party and Party in Interest Transactions

The Plan's custodian is Northwest Bank Investment Management and Trust. Northwest Bank performs investment management functions and serves as the plan sponsor and trustee for the Plan. Northwest Retirement Services, a subsidiary of Northwest Bank, provides actuarial valuation services to the Plan. All fees paid to the Plan's trustee, custodian and actuary are paid by the plan sponsor and are therefore not included in the accompanying financial statements. Certain administrative functions of the Plan are performed by the Company for which no fees are charged.

SCHEDULE SB, PART V
STATEMENT OF ACTUARIAL ASSUMPTIONS/METHODS

Method of Contribution

Contributions required to fund the plan benefits are determined according to the provisions of MAP-21, as revised by the Highway and Transportation Funding Act of 2014 (HATFA). The Target Normal Cost is the present value of benefits earned during the plan year. The Funding Target is the present value of benefits earned as of the beginning of the plan year. The excess of the Funding Target over the actuarial value of assets represents the Funding Shortfall.

Method for Accrued Benefits

The actuarial present value of accumulated plan benefits is a measure of plan benefits which have been earned to date. This is not only a valuation of retirement benefits, but also of deferred vested, death, and disability benefits. Earnings and service for benefit purposes expected to be earned after the valuation date are excluded from this value.

The actuarial assumptions used to determine these values are identical to those used for the funding purposes with the exception of an interest rate of 7.5%, and the RP-2014 mortality table with MMP-2007 adjustments.

Method of Asset Valuation

The asset valuation method is the “smoothed market value” method, using a smoothing period as described in Section 430(g)(3)(B) of the Internal Revenue Code. Under this method, the actuarial value of assets is equal to the average of the fair market value of assets on the valuation date and the adjusted fair market value of assets determined from the two immediately preceding valuation dates. The adjusted fair market value of assets is the fair market value of assets at the applicable valuation date adjusted with contributions, distributions and expected earnings to the current valuation date as specified by the Secretary of Treasury. Expected earnings will be determined using the expected long term rate of return assumption limited by the applicable third segment rate.

In general, the actuarial value of assets must fall between 90% and 110% of the market value of assets.

Data

The valuation results are based upon participant census and financial data provided by the plan sponsor. The data was tested for reasonableness and consistency with the prior valuation.

Actuarial Assumptions

The following actuarial assumptions were employed in the determination of the liabilities and annual contributions of the plan as developed in accordance with the funding methods described in this report.

1. The rates of mortality will be in accordance with the Static Mortality Table for males and females.
2. The HATFA adjusted interest rates used for determining the minimum funding requirements and the plan's AFTAP are developed as follows:

Segment	25-year average As of 9/30/14	90% - 110% Corridor	January 2015 Unadjusted Rate	HATFA Adjusted Rate
1	5.24%	4.72%	1.22%	4.72%
2	6.79%	6.11%	4.11%	6.11%
3	7.57%	6.81%	5.20%	6.81%

The Effective Interest Rate is 6.41%.

3. The interest rates used for determining the maximum tax deductible contribution and the PBGC premium are the 24-month average corporate bond segment rates for January 2015 as published by the IRS. The interest rate for this purpose is 4.65%.
4. Salary projection assumed to equal 3.0% per year.
5. Withdrawal prior to retirement is assumed to occur in accordance with Crocker Sarason Straight Table T-5.
6. Retirement will occur at the later of age 65 or 5 years of service.
7. All plan participants have been included in the funding.
8. As required by Section 415 of the Internal Revenue Code, the determination of a participant's projected retirement benefit has been limited so that the amount does not exceed \$210,000 per year adjusted if necessary to recognize the participant's assumed retirement age, cost of living adjustments on the valuation date and optional forms of payment.

SCHEDULE SB, PART V
SUMMARY OF PLAN PROVISIONS

Effective Date

February 1, 1958; restated as of January 1, 2012 and amended effective April 1, 2013.

Eligibility

All employees are eligible to participate on the first day of January or July after completing one (1) year of service and attaining age 21.

Normal Retirement Date and Benefits

A participant may retire under the Normal Retirement Provisions of the Plan on the first of the month coinciding with or next following their 65th birthday.

Effective April 1, 2013, the benefit accrual will be based on 1% of base earnings for each future year of Credited Service from 2013 and forward. This will be added to the benefit accrued and frozen as of March 31, 2013 which was calculated as follows:

For employees hired before January 1, 2008, the monthly amount of the Normal Retirement Benefit shall equal 1.60% of the Participants Average Monthly Compensation plus .60% of the Participants Average Monthly Compensation in excess of covered compensation multiplied by the Participant's first 25 Years of Credited Service earned as of March 31, 2013. For Years of Credited Service in excess of 25 but less than 35 an additional .60% of Average Monthly Compensation shall be provided.

For employees hired on or after January 1, 2008, the monthly amount of the Normal Retirement Benefit shall equal 1% of the Participant's Average Monthly Compensation multiplied by the Participant's Years of Credited Service earned as of March 31, 2013 up to a maximum of 35 years.

Average Monthly Compensation equals the highest five consecutive years of basic earnings out of the last ten completed years divided by sixty.

Covered Compensation equals the thirty-five (35) year average, ending in the year the participant attains Social Security Retirement Age, of the Social Security Maximum Taxable Wage Bases.

Credited Service equals the number of Plan Years during which a Participant completes at least 1,000 Hours of Service.

Early Retirement Benefits

A participant may retire under the Early Retirement Provisions of the Plan the first of any month providing they have attained age 55 and have completed 5 years of Service or have completed 25 years of Service if earlier.

The monthly amount of the Early Retirement Benefit shall equal the Normal Retirement Benefit reduced by 1/180th for each of the first 60 months Early Retirement Benefit Commencement Date precedes Normal Retirement Date and by 1/360th for each of the next 60 months.

Late Retirement Benefits

A Participant may continue employment beyond Normal Retirement. The amount of monthly pension benefit as of the Participant's Late Retirement Date shall be the Accrued Benefit calculated at Late Retirement using Average Monthly Compensation and Credited Service on such date.

Disability Benefits

In the event a participant became totally and permanently disabled prior to January 1, 2008 such disabled participant shall continue to earn credited service under the Plan until retirement.

Effective for individuals who become totally and permanently disabled on or after January 1, 2008, service shall be earned to date of disability.

Vested Termination

A member is fully vested after five (5) years of Service.

Pre-Retirement Death Benefits

If death occurs prior to retirement a death benefit will be payable.

Upon the death of a married Member who qualifies for early retirement, the Member's spouse shall receive a monthly benefit for life based on the benefit payable under a Joint and 50% Survivor Annuity which the Member's spouse would receive assuming the Member retired on the day before his death.

The spouse of any married vested participant who was not eligible for early retirement is also eligible for a benefit if the participant should die prior to his normal retirement date. The monthly pension payable at the participant's earliest retirement date will be an amount equal to the survivor annuity that would have been paid had the Participant separated service on the date of death, survived to his earliest retirement age, selected a 50% Qualified Joint and Survivor Annuity, and died on the day after the day of attaining the earliest retirement age.

Employee Contributions

None required.

Payment Forms

Normal: Life Annuity, automatically payable as a 50% Joint and Survivor Annuity to married participants.

Optional: Optional forms of payment available to plan participants which are the actuarial equivalent of the Normal Form are as follows:

Life Annuity.

Life Annuity with 60 months guaranteed.

Life Annuity with 120 months guaranteed.

Life Annuity with 180 months guaranteed.

Joint and 50% to Survivor.

Joint and 66-2/3% to Survivor.

Joint and 75% to Survivor.

Joint and 100% to Survivor.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
