Note 1 – Description of Plan

The following description of Lieberman Research 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering eligible employees of Lieberman Research Worldwide, Inc. (the "Company") and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The Company is the Plan's sponsor and serves as Plan Administrator. Minnesota Life Insurance Company ("Minnesota Life") serves as the custodian of the Plan.

Eligibility – Employees of the Company are eligible to participate in the Plan upon reaching age 21 and after completing 6 months and a minimum of 500 hours of service, as defined. An eligible employee shall enter the Plan as an active participant on the earliest quarterly entry date.

Contributions – Participants may elect to contribute up to 100% of eligible compensation to the Plan each year. Participants may also contribute rollover amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company may contribute a matching contribution of up to 6% of eligible compensation to all active participants.

Contributions are subject to regulatory limitations.

Participant accounts – Each participant's account is credited with (a) the participant's contributions, (b) the employer's matching contribution and (c) participant account earnings. Participants may direct the investment of their account balances into various investment options offered by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately fully vested in their salary deferral and rollover contributions plus actual earnings thereon. Participants become fully vested in the Company's matching contributions after three years of continued service.

Loans to participants – Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by the Plan Administrator. Generally, the term of a loan may not exceed five years. However, if the loan is for the purchase of a principal residence, the Plan Administrator may permit a longer repayment term. Principal and interest are paid ratably through payroll deductions. As of December 31, 2015, the rates of interest on outstanding loans ranged from 4.25% through 5.19 %, with various maturities through September 2044.

Note 1 – Description of Plan (continued)

Payment of benefits – Upon retirement, a participant may elect to receive benefits in a lump sum amount equal to the vested account balance, installments over a period of not more than one's life expectancy or a partial withdrawal. Additionally, a participant may elect to withdraw any portion of their vested account balance in the event of a documented hardship or after attaining 59 1/2 years of age.

Upon termination of service prior to attaining retirement age, participants may maintain their account within the Plan if their vested balance exceeds $5,000 or may request a lump sum distribution or rollover to another qualified plan. If the vested account balance does not exceed $5,000, the vested account balance will automatically be distributed to the participant.

Benefits are recorded when paid.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that may affect certain reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment valuation – Investments are stated at fair value as certified by the Plan's custodian.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Expenses – Administrative expenses of the Plan may be paid by the Plan as provided in the Plan document. However, the Company may also pay the Plan expenses directly. Transaction charges for loan and benefit payment transactions, if any, are paid by the Plan participant by reducing the balances of those participants initiating the transaction.

New accounting pronouncement – In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted.

Note 2 – Summary of Significant Accounting Policies (continued)

The ASU removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient (NAV practical expedient). ASU 2015-07 has been adopted for the December 31, 2015 plan year end, however, the retrospective approach requires that an investment for which fair value is measured using a NAV practical expedient is removed from the fair value hierarchy in all periods presented in the financial statements. Accordingly, the investment disclosures in Note 3 have been modified as of December 31, 2014 as well.

ASU 2015-12- In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, Plan Accounting: Defined Contribution Pension Plans (Topic 962) I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures. The amendments remove the requirement to:

- report fully benefit-responsive guaranteed investment contracts at fair value.
- disclose individual investments held which exceed 5% of net assets available for benefits.
- disclose net appreciation in fair value of investments by type of investment held.
- disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.
- disclose investment strategy for investments for which fair value is measured using the NAV practical expedient, if they are Form 5500 Direct Filing Entities.

ASU 2015-12 has been adopted for the December 31, 2015 plan year end, however, the retrospective approach requires that the above items, applicable to the prior year, be presented in accordance with ASU 2015-12 as well.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are issued. The Plan has evaluated subsequent events through July 22, 2016, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

a) *Pooled separate accounts*: Units held in pooled separate accounts are valued using the net asset value (practical expedient) of the fund as reported by the fund managers. The net asset value (practical expedient) is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The Pooled separate account can be redeemed on a daily basis and there are no unfunded commitments.

b) *Self-directed accounts*: Consist of common stock and interest bearing cash. Common stock is valued at the closing price reported on the active market on which the individual securities are traded. Interest bearing cash is valued at cost plus accrued interest, which approximates fair value. These investments are considered level 1 investments within the fair value hierarchy.

Note 3 – Fair Value Measurements (continued)

The following table discloses by level, the fair value hierarchy, of the Plan's assets at fair value as of December 31, 2015 and 2014:

	Investment Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Self directed accounts	$ 294,158	$ -	$ -	$ 294,158
Total assets in the fair value hierarchy	$ 294,158	$ -	$ -	$ 294,158
Investments measured at NAV (practical expedient)				$ 20,571,942
Investments at fair value	$ 294,158	$ -	$ -	$ 20,866,100

	Investment Assets at Fair Value as of December 31, 2014			
	Level 1	Level 2	Level 3	Total
Self directed accounts	$ 534,143	$ -	$ -	$ 534,143
Total assets in the fair value hierarchy	$ 534,143	$ -	$ -	$ 534,143
Investments measured at NAV (practical expedient)				$ 19,935,076
Investments at fair value	$ 534,143	$ -	$ -	$ 20,469,219

Note 4 – Tax Status

The Plan document is a prototype non-standardized defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2008, which stated that the prototype plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 6 – Information Certified by the Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, the custodian of the Plan, has certified to the completeness and accuracy of:

- Pooled separate accounts reflected on the accompanying statements of net assets available for benefits as of December 31, 2015 and 2014;
- Net depreciation in fair value of investments reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2015; and
- Pooled separate accounts as presented in the supplemental schedule of assets (held at end of year) as of December 31, 2015.

Note 7 – Party-In-Interest Transactions

Plan investments include shares of pooled separate accounts managed by Minnesota Life Insurance Company. Minnesota Life Insurance Company is the custodian of the Plan and, therefore, transactions with this entity qualify as exempt party-in-interest transactions.

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time subject to Plan provisions. In the event the Plan is terminated, participants will become fully vested in their employer contributions.

Note 9 – Reconciliation to Form 5500

The following is a reconciliation of the net assets available for benefits between the financial statements and the Form 5500 as of December 31, 2015 and 2014:

	2015	2014
Net assets as available for benefits per the financial statements	$ 21,181,113	$ 20,846,467
Participant contributions receivable	(104,221)	(84,328)
