Note 1 - Plan description

The following is a brief description of the Hello Doggie Inc, 401(k) Plan (the "Plan") and is provided for general purposes only. Participants should refer to the Plan Document and amendments for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2007, and most recently restated on January 1, 2009. The Plan is a defined contribution plan established for the benefit of the employees of Hello Doggie, Inc. (the "Plan Sponsor"). Employees are eligible upon completion of three months of service and at a minimum age of 21. Union employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining are not eligible to participate in the Plan. The Plan qualifies under Section 401(k) of the Internal Revenue Code ("IRC") and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Plan's assets are held in the custody of Great-West Life & Annuity Insurance Company of New York (the "Custodian").

Participant contributions

Participants may contribute a percentage up to 100% of their eligible compensation, as defined in the Plan, on a pre-tax basis subject to statutory limitations of the IRC. In addition, participants 50 years of age or older may elect to make a catch-up deferral contribution of up to $6,000 for the year ended December 31, 2015. Distributions from other qualified retirement plans can also be contributed to the Plan as a rollover contribution. Participants direct the investments of their contributions into various investment options offered by the Plan.

Employer contributions

The Employer may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals each payroll period. For the years ended December 31, 2015 and 2014, there were no Employer discretionary contributions.

The Employer may make a qualified nonelective contribution to certain participants who were active during the Plan year. For the years ended December 31, 2015 and 2014, the Employer has not made any qualified nonelective contributions.

Participant accounts

Individual accounts are maintained for each participant and include each participant's salary deferral and rollover contributions, plus an allocation of Employer contributions, plan earnings, and realized and unrealized gains and losses on investments. Participants are afforded several investment options covering a wide range of investment objectives and risks. Participants may allocate their contributions across these options in any proportion they wish, and can change this allocation at any time. Transfers of account balances between elected investment options may also be made at any time.

Vesting
Participants are vested immediately in their contributions plus actual earnings theron. Vesting of the Employer contributions, including earning thereon, is based on the number of years of service (as defined by the Plan) as follows:

Years of vesting service	Vesting percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Notes receivable from participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance, reduced by any outstanding loan balance. At December 31, 2015, participants were permitted to have only one loan outstanding during a period of 12 consecutive months. Loans must be repaid within five years unless the note was for the purchase of a primary residence. The loans are secured by the balance of the participant's account and bear interest at 1% over the Prime Rate published in the Wall Street Journal on the first business day of the month the loan originated. As of December 31, 2015 and 2014, there were no outstanding loans. Principal and interest are repaid through payroll deductions.

Payment of benefits
On termination of service, a participant (or designated beneficiary) may elect to receive an amount equal to the value of the vested interest in their account. The Plan allows for distributions upon termination of service, death, disability, attainment of age 59 and 1/2 or in certain hardship situations. A participant may elect to receive a lump sum payment, an annuity, or may roll over the value of their account into another qualified plan.

Forfeited accounts
Forfeited balances of terminated participants' non-vested accounts are used to reduce future Employer contributions to the Plan. During the years ended December 31, 2015 and 2014, there were no forfeited Employer contributions.

Note 2 - Summary of significant accounting policies

Basis of accounting
The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Adoption of accounting standard
In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III is not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuations and income recognition
Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Earnings from investments are recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought, sold and held during the year.

Notes receivable from participants
Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Relates fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2015 and 2014. Delinquent participant notes are reclassified as distributions based upon terms of the Plan Document.

Excess contributions payable
Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants during the year ended December 31, 2015.

Payment of benefits
Benefit are record when paid.

Expenses
The Plan Sponsor pays substantially all administrative expenses of the Plan. Certain investment management fees and other charges paid to the Custodian are offset against fund performance in net realized and unrealized appreciation in fair value of investments and are not, therefore, separately reflected as administrative expenses.

Subsequent events
The Plan has evaluated subsequent events through July 27, 2016, the date the financial statements were available to be issued.

Reclassifications
Certain items from the prior year financial statements have been reclassified to conform to the current year presentation.

Note 3 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access;

Level 2 - Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability; and

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability;

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Pooled separate accounts: Valued at unit value reported by Great-West based on the accumulated values of underlying investments and divided by the number of units outstanding.

There are currently no unfunded commitments, restrictions on redemptions or redemption notice period.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015 and 2014. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	2015			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,919,394	$ -	$ 2,919,394
Total investments at fair value	$ -	$ 2,919,394	$ -	$ 2,919,394

	2014			
	Level 1	Level 2	Level 3	Total
Pooled separate accounts	$ -	$ 2,787,393	$ -	$ 2,787,393
Total investments at fair value	$ -	$ 2,787,393	$ -	$ 2,787,393

For the years ended December 31, 2015 and 2014, there were no significant transfers between Level 1 and 2 and no transfers in or out of Level 3.

Note 4 - Fully benefit-responsive investment contract

The Plan maintains an investment contract with Great-West Life & Annuity Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and, therefore, is reported at contract value. There is no difference between fair value and contract value for this investment; therefore all investments are reported at fair value on the net assets available for benefits. Great-West maintains the contributions invested in the Guaranteed Portfolio Fund in a general fund account. The account is credited with earnings on the underlying investments are charged for participant withdrawals and administrative expenses. The contract is a traditional guaranteed investment contract and therefore does not have specifically underlying assets specifically assigned to the contract.

The guaranteed investment contract issuer is contractually obligated to repay the principal and a specific interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 0%. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third part issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

The Plan's failure to quality under Section 401(a) of the Internal Revenue Code (the "IRC") or the failure of the trust to be tax-exempt under Section 501(A) of the IRC

Premature termination of the contracts

Plan termination or merger

Changes to the Plan's prohibition on competing investment options

Bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that would limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

An uncured violation of the Plan's investment guideline

A breach of material obligation under the contract

A material misrepresentation

A material amendment to the agreements without the consent of the issuer

Note 5 - Related party and party-in-interest transactions

Certain plan investments are shared of separate accounts managed by Great-West Life & Annuity Insurance Company of New York, the Custodian of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the Custodian and Plan record keeper are deducted from participants' accounts for contract administrative expenses and amounted to $952 for the year ended December 31, 2015.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the Plan Sponsor has the right to discontinue and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participating employees will become 100% vested in their accounts.

Note 7 - Tax status

The IRS has determined and informed the Company by a letter dated March 31, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the "IRC"). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being

operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2012.

Note 8 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9 - Certified investments

The Plan Administrator has elected the method of compliance permitted by 29 Code of Federal Regulations ("CFR") 2520.103-8 of the U.S. Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Investments held at December 31, 2015 and 2014, and investment income for the year ended December 31, 2015, that is disclosed in the accompanying financial statements and supplemental schedule, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the Custodian of the Plan.

Note 10 - Reconciliation of financial statements to Form 5500:
