UC Health 401(k) Retirement Savings Plan

Notes to Financial Statements

December 31, 2015

1. Description of the Plan

The following description of the UC Health 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes only. UC Health, LLC is the plan sponsor. Participants should refer to the Plan Document for more complete information.

General

The Plan is a defined contribution plan covering substantially all salaried and hourly employees of UC Health, LLC (the Company) who have attained age 21. The Plan also covers substantially all employees of UC Healthcare System; UC Health Foundation; University of Cincinnati Medical Center, LLC; West Chester Hospital, LLC; Daniel Drake Center for Post-Acute Care, LLC; and University of Cincinnati Physicians Company, LLC. Effective January 1, 2014, the Plan also covers substantially all of the former employees of Lindner Center of Hope (LCOH) in conjunction with an employee leasing agreement between the Company and LCOH. The Lindner Center of HOPE 401(k) Plan was merged into the Plan effective January 1, 2014. The Company controls and manages the operation and administration of the Plan. Principal Financial Group serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute up to 100% of their pretax annual compensation, as defined in the Plan, subject to certain Internal Revenue Code (IRC) limitations. Effective July 6, 2014, the Company contributes 50% of the first 4% of compensation that a participant contributes to the Plan. The Company may also contribute at the discretion of the Company's Board of Directors. The Plan was amended for 2014 to include an annual nonelective discretionary contribution that is expected to equal 3% of the annual compensation for participants who meet eligibility requirements based on service hours. The Company made contributions to the Plan of \$20,153,185 and \$6,562,010 for the years ended December 31, 2015 and 2014, respectively. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

1. Description of the Plan (continued)

Participant Accounts

Individual accounts are maintained for each plan participant. Each participant's account is credited with the participant's contributions, and the Company's discretionary contributions, and allocations of plan earnings and is charged with withdrawals and an allocation of plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investments

Participants direct the investment of their contributions and their allocations of any Company discretionary contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and an insurance investment contract as investment options for participants.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after three years of credited service. No vesting occurs prior to the three years of service.

Notes Receivable From Participants

Participants may borrow from their fund accounts up to a maximum of \$50,000 and a minimum of \$1,000. The maximum loan is reduced by the participant's highest outstanding loan balance or 50% of his or her account balance with a lower limit of \$10,000 reduced by all of the participant's outstanding loan balances, whichever is less. The loans are secured by the balance in the participant's account. The interest rate will be based on the rates available for similar loans from commercial lending institutions, which are reviewed periodically by the plan administrator. Principal and interest are paid ratably through payroll deductions and direct payments with the trustee. Interest rates range from 4.25% to 4.50% as of December 31, 2015, and were 4.25% as of December 31, 2014, and these loans mature at various dates through December 2020.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, retirement, or any other reason, a participant is entitled to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, fixed period installments, or fixed payment installments.

Participants are also eligible to make hardship withdrawals from their deferred contributions in the event of certain financial hardships. Following a hardship withdrawal, participants are not allowed to contribute to the Plan for a period of six months.

Forfeited Accounts

At December 31, 2015 and 2014, there was \$463,844 and \$134,425, respectively, in forfeited non-vested accounts. Any future forfeited non-vested accounts may first be used to pay plan expenses. Any forfeitures left after paying plan expenses are used to offset employer contributions. During the years ended December 31, 2015 and 2014, forfeitures totaling \$226,603 and \$180,192, respectively, were used for employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires plan management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes and supplemental schedule. Actual results could differ from those estimates.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Plan utilizes various investment instruments, including mutual funds and an investment contract. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the value of the participants' account balances and the amounts reported in the financial statements.

Investment Valuation and Income Recognition

The Plan's investments in mutual funds are stated at fair value. Fair value of a financial instrument is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 8 for discussion on fair value measurements.

The Plan's investment contract is fully benefit-responsive and therefore is required to be reported at contract value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits that is attributable to fully benefit-responsive investment contracts. Contract value is the amount plan participants would receive if they were to initiate permitted transactions under the terms of the Plan. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are recorded as distributions based on terms of the Plan Document.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

Administrative expenses of the Plan are paid by the Plan or the plan sponsor as provided in the Plan Document. Management fees and operating expenses charged to the Plan for investments in the mutual funds and investment contract are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. There were no participants who have elected to withdraw from the Plan but have not yet been paid at December 31, 2015 or 2014.

Subsequent Events

Subsequent events were evaluated through July 29, 2016, the date the financial statements were available to be issued.

The Company communicated a board-approved decision to freeze the American Federation of State, County, and Municipal Employees (AFSCME) employee participation in the UC Health Retirement Plan, a defined benefit plan sponsored by the Company, as of December 31, 2015. In its place, AFSCME employees began participating in the Plan effective January 1, 2016.

2. Summary of Significant Accounting Policies (continued)

New Accounting Pronouncement

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update No. (ASU) 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of this ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of this ASU eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, or risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of this ASU is not applicable to the Plan. This ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Management has elected to adopt Parts I and II early.

3. Related-Party and Party in Interest Transactions

Certain plan investments are shares of mutual funds and an investment contract managed by Principal Financial Group. Principal Financial Group is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA. Fees paid by the Plan for investment management services were included as a reduction of the return earned on each mutual fund and investment contract.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

UC Health 401(k) Retirement Savings Plan

Notes to Financial Statements (continued)

5. Tax Status

The Plan was amended and restated as of September 1, 2006, as an individually designed plan and was subsequently amended and restated as of January 1, 2015, to address various law changes and to incorporate amendments to the Plan since the 2006 restatement. The Plan submitted an application to the Internal Revenue Service (IRS), and an updated determination letter dated February 14, 2012, with respect to the amended and restated Plan Document, was received, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. The Plan's management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income tax has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain tax positions as of December 31, 2015 or 2014. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2012.

6. Information Certified by the Trustee

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedules, including investments held and notes receivable from participants at December 31, 2015 and 2014, and net (depreciation) appreciation in fair value of investments, interest income from investments at contract value, interest and dividend income, and interest income on notes receivable from participants for the years ended December 31, 2015 and 2014, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Financial Group, the trustee of the Plan.

UC Health 401(k) Retirement Savings Plan

Notes to Financial Statements (continued)

7. Investment Contract With Insurance Company

The Plan invests in the Principal Fixed Income Option fund, a fully benefit-responsive group annuity contract issued by Principal Life Insurance Company (a traditional investment contract). The issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The issuer maintains the contributions in a general account. The account is credited with participant contributions plus earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The interest crediting rate is a composite crediting rate, which is currently reset on a semiannual basis.

The interest rate history for the contract is as follows:

Time Period	Rate
January 1, 2014–June 30, 2014	2.05%
July 1, 2014–December 31, 2014	2.00
January 1, 2015–June 30, 2015	2.00
July 1, 2015–December 31, 2015	1.80

The group annuity contract has a restriction that affects the ability of the Plan to collect the full contract value such as if the Plan terminates its interest in the contract without 12 months' advance notice. Plan management believes this event, that would cause the Plan to transact at less than contract value, is not probable. The trustee may not terminate the contract at any amount less than the contract value.

Notes to Financial Statements (continued)

8. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

UC Health 401(k) Retirement Savings Plan

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for each general type of assets measured at fair value by the Plan.

Mutual Funds

Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

The following tables set forth by level within the fair value hierarchy a summary of the Plan's investments measured at fair value on a recurring basis at December 31:

	Total	Level 1	Level 2	Level 3
2015				
Mutual funds:

Total mutual funds	<u>\$ 168,408,939</u>	<u>\$ 168,408,939</u>	<u>\$ —</u>	<u>\$ —</u>

Transfers Between Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

The Plan evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2015 and 2014, there were no transfers between levels.
