Notes to the Financial Statements

1. Description of Plan

The following description of the Riverside Radiology and Interventional Associates, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees. Non-leased employees may enter the Plan at any time after attaining 21 years of age. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may elect to contribute up to 85% of their eligible earnings and 100% of any bonuses paid as defined by the Plan, not to exceed the limits imposed by the Internal Revenue Service (IRS). Participant deferral contributions can be tax deferred contributions, Roth contributions, or a combination of both. The Plan also allows for in-plan Roth rollover contributions. These contributions are fully vested and nonforfeitable.

The Company's Board of Directors adopted a Section 401(k) safe harbor design for the Plan which means that the Plan automatically complies with the nondiscrimination requirements of Section 401 of the Internal Revenue Code. As such, the Company provided for a fully vested qualified, nonelective contribution of 3% of compensation for all eligible participants totaling \$800,073 and \$788,203 during 2015 and 2014, respectively.

The Company may make two separate discretionary contributions; a discretionary matching contribution equal to a uniform percentage of participant deferrals and a discretionary profit sharing contribution equal to a uniform percentage of participant compensation. Participants share in the discretionary contributions regardless of the amount of service completed by participants during the Plan year. During both 2015 and 2014 the Company did not make discretionary matching contributions. The Company made discretionary profit sharing contributions of \$2,179,600 and \$2,044,969 during 2015 and 2014, respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

The Plan appointed Matrix Trust Company (formerly known as Wilmington Trust), to act as a non-discretionary successor trustee of the trust with the goal of holding all assets of the Plan. Matrix Trust Company offers a platform of investment funds to participants and manages self-directed brokerage accounts.

Financial Hardship Withdrawals

Financial hardship withdrawals of a participant's deferral contributions are permitted in certain circumstances of immediate and heavy financial need.

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

Payment of Benefits

Benefits are recorded when paid. The participant's account becomes payable upon death, disability, or normal retirement. Normal retirement age is 62. Participants will receive account balances in a lump sum payment. However, former participants of the money-purchase pension plan have the option of either equal monthly installments in the form of an annuity or a lump sum payment. In-service withdrawals are permitted for participants who have reached age 62 or those electing to make an in-Plan Roth rollover. For termination of service due to other reasons, a participant will receive the value of the vested interest of his or her account as a lump sum payment. However, participants of the money-purchase pension plan also have the option of equal monthly installments in the form of an annuity.

Forfeitures

Forfeitures arising from balances of terminated participants with less than fully vested interests in the Plan are applied to reduce employer contributions. As of December 31, 2015 and 2014, forfeited amounts available to reduce employer contributions totaled \$10,431 and \$19,741, respectively. For the Plan years ended December 31, 2015 and 2014, \$10,431 and \$19,741, respectively, of the forfeited nonvested accounts was applied to reduce employer contributions through the employer - discretionary contribution receivable.

Vesting

Participants are immediately vested in their deferral contributions, rollover contributions and safe harbor contributions plus actual earnings thereon. Vesting in the plan sponsor's discretionary matching and profit sharing contributions plus actual earnings thereon is based on years of service. A participant is 100% vested in the discretionary contributions after three years of credited service, as defined in the plan document and 0% vested with less than three years of credited service.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Recent Accounting Pronouncement

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the Net Asset Value ("NAV") per share practical expedient. Instead, the amounts measured using the NAV per share (or its equivalent) must be provided to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of net assets available for benefits. Additionally, ASU 2015-07 removes the requirement to make certain disclosures (FASB Accounting Standards Codification ("ASC") 820-10-50-6A) for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. For employee benefit plans, ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

retrospective application to all periods presented. Early adoption is permitted. The Plan has not early adopted this ASU, and is currently evaluating the impact to its financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

The Plan reports variable annuity contracts at fair market value. The variable annuity contract the Plan holds includes provisions that could cause an impairment of the asset value upon liquidation or other occurrence. The provisions include a surrender charge value of \$34,701 and \$25,493 as of December 31, 2015 and 2014, respectively. Upon liquidation or other occurrence the aforementioned provisions would decrease the amount received as they would offset the contract value.

Purchases and sales of investment securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Fees

The Plan paid administrative expenses of \$198,608 and \$221,505 to Matrix Trust Company (formerly Wilmington Trust) and other third-party administrators for the years ended December 31, 2015 and 2014, respectively. All other professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Risks and Uncertainties

The Plan provides for various investment options. The underlying investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits and participants' individual account balances.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated events and transactions that occurred between January 1, 2016 and July 22, 2016 which is the date that the financial statements were available to be issued for possible recognition or disclosure in the financial statements.

3. Summary of Financial Data Certified by the Custodian

In accordance with 29 CFR 2520.103-5(c) of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, Matrix Trust Company has certified as complete and accurate the following information at December 31, 2015 and 2014 including the comparable information in the accompanying supplemental schedule:

	2015	2014
Cash	\$ 51,659	\$ 187,565
Investments, at fair value	44,653,345	42,990,042
Interest and dividends	1,080,940	1,053,110
Net (depreciation) appreciation in fair value of investments	(1,774,388)	217,699

As directed by the plan administrator, no auditing procedures have been performed on the above certified information except to compare such information to the information included in the accompanying financial statements and supplemental schedule.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified contractual term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015 and 2014.

Mutual funds and money market funds: Valued at the net asset value (NAV) of shares or units held by the Plan at year-end.

Self-directed brokerage accounts – other: Accounts consist primarily of mutual funds, common stocks, exchange traded funds, and money market funds that are valued on the basis of readily determinable market prices.

Variable annuity: Valued at the contract value, which approximates fair value.

Real estate investment trust: The Hines Real Estate Investment Trust (REIT) is valued at NAV. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying instruments held by the REIT, primarily institutional-quality office properties located throughout the United States, less its liabilities. There currently is no public market for common shares of the REIT. Therefore, it may be difficult to sell shares of the REIT and if sold they could be at a discount. This practical expedient is not used when it is determined to be probable that the REIT will sell the investment for an amount other than the reported NAV.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Assets at Fair Value as of December 31, 2015

5. Income Tax Status

The prototype adopted by the Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code.

The prototype has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the prototype is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not received a determination letter specific to the Plan itself; however, the Plan administrator and the Plan's tax counsel believe that the Plan was designed and was being

Riverside Radiology and Interventional Associates, Inc.
401(k) Profit Sharing Plan

Notes to the Financial Statements

operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the tax authorities. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. Plan Termination

Although the plan administrator has not expressed any intent to do so, the plan administrator has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be 100% vested in their accounts.

7. Parties-in-Interest

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer and certain others. Professional fees for the administration and audit of the Plan are paid by the Company on behalf of the Plan.

Plan investments are managed by various investment brokers, including Matrix Trust Company, who are the trustees and as defined by the Plan qualify as parties-in-interest.

8. Transfer of Assets

During 2014, certain employees of the Company were included in a newly formed affiliated service group, Medical Billing Experts, LLC (MBX). Elective transfers to the MBX Plan amounted to \$341,750 during the year ended December 31, 2015. In conjunction with the formation of MBX, certain amounts were incorrectly distributed to transferred employees and appropriate corrective action has been taken.

9. Department of Labor Audit

On February 18, 2014, the U.S. Department of Labor (the "DOL") notified the Company that the Plan had been selected for audit. The DOL audit included on-site examination of selected Plan records for the period January 1, 2011 through December 31, 2013, an interview with the Plan administrators, and a review of the Company activities as they affect the Plan. The Company has fully cooperated with all requests from the DOL. As of September 8, 2014 the audit officially concluded. As part of the audit finding the Plan sponsor was required to make a contribution to the Plan in the amount of \$90 for lost opportunity costs associated with untimely remittance of participant contributions. Because the Plan Sponsor took corrective action, the DOL will take no further action with respect to this matter.
